"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

A Card to Invalids.
A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

☞ Besides the intellectual feast offered at the Lyceum this season, and which it is expected will be of the highest order—the musical portion of the entertainments alone, will be well worth even the increased price of tickets. A series of ten splendid Concerts by the full Cornet Band, are certainly cheap at a couple of dollars; and the Band appreciate the public spirit and enterprise of the Committee in employing them for the entire course, in addition to the other heavy expenses; and being, sad to say, our only public musical organization, of course they will spare no effort to retain and add to the very high reputation which they have long enjoyed at home and abroad—and which they richly merit, and have won only by the most determined effort in keeping up their organization under many discouragements, and through the most persistent practice under direction of their talented leader, Mr. Chas. H. Tompson. To be sure, their fame has been won mostly as out-door, street Band—and in this they are hard to beat; but they have also shown some very fine playing in the concert room, and as their instruments are of the best, and they have procured a quantity of new pieces for these occasions, we have no hesitation in assuring any who are not acquainted with them, that their part of the programme also, will be in every respect satisfactory.

HUMORS OF THE DRAFT.—The most serious affairs often present themselves in a ludicrous light. Such has been the case with the enlistment of men at the Provost Office in this city—and amid the most earnest attention to duty, not a little fun has been enjoyed. Like the ladies, and also like sale horses—all men who present themselves as substitutes, whether stripling or grandfathers in appearance, have the happy faculty of bringing themselves within the requisite ages of 18 and 45; though unfortunately, the drafted principals themselves cannot usually see their own cases in that light, but grow old much sooner. One day an old fellow who will never see threescore again, was up for questioning, to pass for sub. He had kept his hat on, and out of deference for his years, Dr. H. forbore to request him to uncover; but on his replying to Capt. Hall's inquiry for his age, "41," —"Take off your hat, sir! take off your hat! I thought you was older than I am!" says Surgeon Hall, who though no longer to be classed among the young men himself, yet enjoys a joke as much as ever, and has proved himself a hard one to play it on, whether in fun or earnest.

On another occasion, a woman boarding-house keeper from Boston, brought in two fellows as recruits; one was a good specimen, and was "ordered up" for enlistment; the other was unseaworthy, and so was "passed"—or rather, he *didn't* pass. "Well, then," says the lady, who was evidently bound to make the strong man carry thro' the weak, "Well then, if you won't take them both, you sha'n't have either; and ordering them to file out, she followed them off, amid the laughter of the Board, who even amid their hurry, were satisfied to do a little extra work, for the sake of witnessing so good a specimen of the Amazon.

☞ Sloop Orin, Capt. Preble, of and from Portland, with timber consigned to Trickey & Jewett, miss-stayed off Whale's Back lighthouse, on Monday, and anchored. In getting up the anchor, the windlass gave out, and the vessel drifted upon Whale's Back and bilged, her stern being badly stove. The Captain came up to the Navy Yard, and the steamer Portfire went down to the assistance of the sloop, but the heavy sea prevented her reaching the vessel. On Tuesday other means were taken to save the cargo.

☞ Our readers will bear us witness that we have kept them posted in regard to the Lyceum. Well, the Secretary informs us that about one-half of the tickets are already sold; and we fear that many who will really desire them most, will at the last moment find themselves disappointed—just as the tardy crowd did on those famous Lake Excursions a year or two ago, when Conductor Langley was obliged to drop the distance-flag in their face, and issue a bulletin of "tickets all sold." So you had better secure them while ye may.

☞ One would suppose that with the urgent need of houses which has existed here for a year or two, some attempt would be made by somebody, to supply it. If nobody has courage and enterprise enough to build tenement-houses, why not avail ourselves (for every citizen is concerned in this matter) of suburban facilities? We have already mentioned the plan of a train to Great Falls, but for some season it don't seem to start. Now, in Rye there are large numbers of spacious houses, which in summer are full of pleasure-boarders; but are now clear of them, and would doubtless furnish good quarters for all our surplusage of humanity, could they but get there. Could not a train be run between Kittery, Greenland and No. Hampton, morning and night—and would it be impracticable to extend a horse-rail at least, round to or near the Yard? Something certainly ought to be done, and that speedily.

☞ Capt. Charles W. Pickering, U. S. N., has been detached from the command of the Monadnock, and ordered to the command of the Agamenticus, at the Portsmouth Navy Yard.

Second Assistant Engineer George H. Riley, having been detached from the Colorado, has been ordered to duty as an assistant to Chief Engineer Bartleman, at this Station.

Com'r George M. Colvocoressis has been ordered to the command of the Dacotah, his orders to the command of the Tuscarora having been revoked.

Acting First Assistant Engineers Charles P. Roebuck and James W. Farrell, Acting Second Assistant Engineer Thomas Winship, and Acting Third Assistant Engineer William Crosscomb Wood have been ordered to the Agamenticus.

Acting Volunteer Lieutenant T. A. Harris has been detached from the Newbern, and ordered to command the Lilian.

Acting Ensign William G. Shackford was ordered to the Maumee, previous to that vessel's sailing from the Brooklyn Navy Yard.

☞ Mr. Amos Clark, a young man of about 30, formerly a resident of this city, son of Mr. Thos. Clark of Eliot, Me., fell and broke his neck a few days since, while in the performance of some duty at the Norfolk Navy Yard, where he has been employed for a few months past. He leaves a wife and two children.

☞ A barrel of Kerosene Oil caught fire from a lamp, yesterday, in the basement of Mr. N. F. Mathes' Store; but was extinguished by Mr. Sam'l J. Gerrish, who smothered it with old coats and a carpet.

☞ Mr. Wendell's postponed sale of furniture, crockery, etc., is announced for this morning—at his store.

— The Haverhill Gazette says the shoe business in that town is at a stand-still. Orders are being countermanded, and manufacturers are doing nothing.

— Some one inquires whether a transport of joy ever gets a ticket-of-leave.

— Tom Thumb and his wife go to Europe in style. They have two servants, several staterooms and a cabin to themselves. Tom is an illustrious little Crœsus.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

A household without the J. Monroe Taylor Gold Medal SOAP always on hand, is like a garden without flowers or a family without children. We pity such and all alike, but have no sympathy with the family which does not enjoy the luxury of nice, clean, white clothes—provided this celebrated and more than excellent Soap can be obtained; for these luxuries can only be enjoyed by its use. So do not cease trying till you obtain it. 7

SMALL-POX HAS ALREADY SACRIFICED some of our best and bravest troops. Soldiers, listen to the voice of reason, supply yourselves with HOLLOWAY'S PILLS AND OINTMENT. The Pills purify the blood and strengthen the stomach, while the Ointment removes all pain, and prevents pit-marks.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 231

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 35 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

NEW HAMPSHIRE LAWS.

Resolved, by the Senate and House of Representatives in General Court convened: That the Treasurer of State be authorized to borrow on the credit of the State the sum of fifty thousand dollars, at a rate of interest not exceeding six per cent. per annum, for the purpose of paying the coupons due on bonds of the State in July next. App June 29, 1864.

Resolved, etc., That the action of His Excellency the Governor in paying the installment of three hundred and fifteen dollars towards completing the Soldier's National Cemetery, at Gettysburg, Pennsylvania, and erecting gravestones and monuments therein, is hereby ratified and confirmed, and that a sum not exceeding fifteen hundred dollars be hereby appropriated to meet any further calls that may be made upon the State for that purpose, and that the Governor be empowered to draw his warrant for the same upon the Treasury.

Approved July 13, 1864.

Resolved, etc., That the sum of five hundred dollars be and the same is hereby appropriated for the contingent expenses of the State, and His Excellency the Governor is hereby authorized to draw that sum from time to time from the Treasury for such expenditures as to him may appear necessary.

Approved July 13, 1864.

Resolved, etc., That the sum of fifteen hundred dollars be and the same is hereby appropriated for the education of indigent deaf and dumb persons of this State, at the Asylum at Hartford, and the sum of one thousand dollars for the purpose of educating the indigent blind and partially blind persons of this State, at the institute for the blind at Boston, and that said sums be respectively expended and applied for the benefit of such and so many of those persons as His Excellency the Governor shall elect and approve, and that the Governor is hereby authorized to draw said sums from the Treasury by warrant. App. July 1, 1864.

Resolved, etc., That the grateful thanks of the State of New Hampshire are hereby presented to Brigadier General Gilman Marston for the patriotic devotion and conspicuous gallantry by which he has won for himself imperishable fame, and reflected honor upon the State of his nativity.

Resolved, That the Secretary of State be directed to forward a copy of these resolutions to Brigadier General Marston, and a like copy to the commanding officer of each regiment of New Hampshire Volunteers in the field, to be read at the head of their respective commands.

Approved June 22, 1864.

Resolved, etc., That when it shall become necessary for the Governor of this State to call out the volunteer militia of the State of New Hampshire, or any part of it, for the purpose of occupying any of the forts of the United States, and during military duty therein, each private and non-commissioned officer shall be paid from the State Treasury fifteen dollars per month in addition to the pay allowed by the United States Government; and the Governor is hereby authorized to draw his warrant for such sums of money as may be necessary to carry this resolution into effect.

Approved July 16, 1864.

Resolved, etc., That the sum of fifty thousand dollars be appropriated to the families and dependents of volunteers or drafted men in the service of the country, in the army and navy, which may be allowed to them by the Governor and Council, agreeably to chapter 2757 of the pamphlet laws, passed June session A D. 1863, and the Governor is hereby authorized, from time to time, as occasion may require, to draw his warrant upon the Treasury for the purpose of said appropriation.

Approved July 16, 1864.

Resolved, etc., That the sum of three hundred dollars be and the same is hereby appropriated to the New Hampshire Historical Society, to aid in procuring and preserving the manuscripts records and papers relating to the colonial history of New Hampshire, and in publishing such parts of the same as said Society shall judge expedient, and for like purposes; said sum to be paid out of any money in the Treasury not otherwise appropriated. Approved July 12, 1864.

Whereas, the rivers and lakes of this State were wont formerly to furnish an inexhaustible supply of salmon, shad, and other migratory fish, which have now entirely disappeared from our waters; and, whereas, there is nothing to prevent the return of such fish but the want of suitable fish-ways over the dams across the Connecticut, Merrimack, Saco, and other rivers, and in such numbers as to contribute very largely to the supply of wholesome and agreeable food for the inhabitants of this State; therefore,

Be it resolved, etc., That the attention of the States of Massachusetts, Connecticut, and Maine, be invited to the subject; and that they be earnestly requested to take early measures to cause such fish-ways to be constructed, either by requiring it to be done by the proprietors of the dams which cause such obstructions, or by the right of eminent domain, as due alike to the relation of comity between those States and our own, to the obligations of international law, and to the interests of those States themselves.

Resolved, That His Excellency the Governor be and is hereby requested to transmit copies of these resolutions to the Governors of the States above named, and also to the Governor of the State of Vermont, with a request that the same be laid before their respective Legislatures. App July 16, 1864.

Resolved, etc., That the price per volume of the reports of the Supreme Judicial Court, in the present style prescribed by the Justices of said Court, in accordance with chapter 2597, laws of 1862, shall not exceed three dollars and fifty cents per volume; that it shall be the duty of the State Reporter, to cause said reports to be printed as soon as practicable, after the decisions are furnished; that the Secretary of State shall subscribe for and take as many copies of each volume as he may require for distribution in accordance with existing laws, not exceeding three hundred copies; and that the Governor is hereby authorized to draw his warrant on the Treasury for the sums necessary to carry out the provisions of this resolution, — the same to be paid out of any money not otherwise appropriated.

Approved July 12, 1864.

Resolved, etc., That the doorkeepers be authorized to procure and tastefully display in the rotunda beneath the Representatives' Hall the State regimental ensigns tattered in battle, each to bear the number of its respective regiment, and to be there preserved forever as relics of war.

Resolved, etc., That the sum of fifteen hundred dollars be and the same is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the purpose of completing the wall of the Prison, now in process of erection, and for the building of a vault, — said appropriation to be expended under the direction of the Governor and Council, and His Excellency the Governor be authorized to draw his warrant on the Treasurer therefor. Approved July 16, 1864.

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Complaints.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the fruit of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wine in existence, excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and medicinal properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

GOLDEN SHEAF

WHISKEY.

C. A. RICHARDS,

99 WASHINGTON STREET,

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely-known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in cases of one dozen each. The large and increasing sales of which convinces the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Whiskey.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Whiskey, it is a source of unbounded pleasure for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles are of the first age, and no expense or cost can affect them.

JOHN AND ROBERT DUNSTER'S

CELEBRATED

LONDON DOCK SPIRITS AND WINES,

Imported solely by C. A. R. in wood, from the London Docks, and bottled by him in America. The distinguished and world-wide reputation of these articles has induced the subscriber to seek and obtain the Sole Agency in this country.—They are sold only in Boston, *entirely pure, and without adulteration,* and comprise the four kinds, as follows:

LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK SHERRY,
LONDON DOCK PORT.

All in cases of one dozen each, in strong shipping order for immediate transportation, and are sold lower than any other liquors and wines in the market, of equal quality.

Pure California Wines.

The large demand for the pure wines of California has made it a fixed fact that no well selected stock of Wines is complete without them. C. A. R. has made arrangements for the entire production of

The Largest Vineyard in California!

and is now bottling, and offers for sale, the finest CALIFORNIA WINES ever seen IN THIS MARKET, of four qualities, in splendid style of labels, bottles and cases—such as

ANGELICA—Sweet.
PORT—Rich.
ROCK—Dry.
STILL CHAMPAGNE—Delicious.

Parties attracted by this advertisement, or who have already become acquainted with the qualities of these articles, can have a price list sent by mail, or samples by express, when desired, by addressing the subscriber

C. A. RICHARDS,

99 Washington street. - - - Boston.

NOTE.—C. A. Richards would also beg leave to state that the above are only a part of the list of articles now imported by him. He has, in addition, one of the largest stocks in America of **Fine Bottled Wines and Spirits,** of every variety and kind, together with a fine assortment of Liquors and Wines in original packages, for sale by the cask or gallon. Also, **Fine Cigars,** which he offers at Retail, at a very lower kind of table luxury usually found in a first class wine store in this country or in Europe.

Orders now received for Spring trade.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all disorders caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Hollow Cheeks, Disease on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single case, the curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, we will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 63 Liberty street, New York.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

Cures in from one

to three days.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor, thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are *healing, soothing and alterative;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION, the urine is made healthy, at the same time all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

CHEROKEE PILLS!

FEMALE REGULATOR — SUGAR-COATED — FEMALE REGULATOR

Health Preserver!!

CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation:

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularities, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They are safe at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would infallibly procure abortion.

All letters seeking information or advice will be promptly, freely and cheerfully answered.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

DR. WRIGHT'S

REJUVENATING ELIXIR.

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the pale, debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man or business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. Wrought oven plates are covered with plates, which make it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meat is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large set of boilers, which, in the Magee family article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, George Billis, George L. Treadwell, John H. Piper, Asel Quimby, Robert King, John W. White, James Shaw, James Pender, G. C. Dodge, Albert F. Merrill, William R. "MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel; and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. The objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which lightens them as they pass off from the coal, thus saving at least 75 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can take off the amount of heat which is liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Aaron H. Hill, Henry F. Wendell, Albert H. Hatch, Esq., Charles H. Mendum, John Sise, and others.

The Chronicle.

"THE BOOT ON THE OTHER LEG."—This homely proverb was practically and actually illustrated by a funny incident which recently occured on one of the Western railroads.

A number of gentlemen who had been roused from their beds at the hotel, at the unseasonable hour of three in the morning, to take the train that was to convey them East, had disposed themselves in as comfortable positions as possible, and universal quiet reigned as is usual on such occasions, when it was broken by a well dressed Hibernian, who marched into the centre of the car and exclaimed in a loud voice: "Gintlemen!"

Every head was raised in expectation of some announcement respecting the route, when the speaker, having thus attracted attention, continued: "Is there ere a gintleman here *as has on a boot as doesn't belong to him?*" This question was received with laughter by some and anathemas by others, whose slumbers had been rudely disturbed.

"I was slapein in the slapein car," explained Pat, "and took off me new boots, and some gintlemen has woke first and worn away one of me new boots and left another that's too small for me," and he limped away to make the same inquiry in the next car, and the next throughout the train, but with like effect, as he soon returned limping as before.

"Let me see your boots said one passenger more curious than the rest.

Pat readily complied, and sitting down, elevated his pedal extremities.

"Why, your boots are all right," said the interrogator, "except that you have the left boot on the right foot."

And so it was. Pat, evidently not being accustomed to "rights and lefts," had made the mistake, which in his new boots was somewhat of a painful one. A change was speedily effected, and he walked off in comparative comfort amid the laughter of the spectators.—*Com. Bulletin.*

— A report says that Wheeler sent fifteen wagons to Corinth for provisions, and that Forrest sent them back empty; and that Wheeler's men were suffering for want of food. When intelligence of the state of affairs at Mobile reached Forrest, he ordered all cattle under a year old to be sent there for beef. Montgomery is thought to be in imminent danger.

— It is said that Gen. Sully's expedition, besides doing a good deal of hard marching and severely punishing the Indians, has demonstrated the practicability of steamboat navigation on the Yellowstone, surveyed an unexplored country, and found immense resources of heavy beds of coal lying exposed in every direction.

— Why are greenbacks more valuable than gold, even at its present prices? Because when you put a greenback in your pocket you double it,—and when you take it out again you find it in creases.

— By spontaneous combustion $50,000 worth of coal stored in the great coal depot belonging to the Pacific Mail Steamship Company, at San Francisco, has been destroyed.

— As the Portland steamer was getting into dock at Boston on Sunday morning, a man named Cornelius Dacy got his foot caught in a line, which, as the steamer moved, took off the member, causing intense suffering.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 cts. per Bottle,** at retail everywhere.
But its cost to the purchaser is really nothing, as it makes the soles wear much longer than pay for it, leaving a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof, and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords; Bubo, Ulcerated Sore Throat, Sore Nose, Tender Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures.—Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete treatise on Marriage, 25 cents, hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the care of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstruction in females.
Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 4 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that the MOST SUCCESSFUL ART THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGE, the subscriber, in view of this, is could that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of modifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full assortment of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessary expenses of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

THURSDAY, OCTOBER 13TH, 1864.

SECESSION.

The Transcript says the "secessionists might have remained in the Union." Will the statesman of the Transcript inform us if it considers the seceded States out of the Union? If so, it admits the power of secession. If not, what does it mean when it says "the secessionists might have remained in the Union"? — *Boston Post.*

Without stopping to argue the question whether "Secessionists" are "seceded States," the Transcript calls the attention of the Post to the following passage in Gen. McClellan's letter of acceptance:

Let me add, what I doubt not was, although unexpressed, the sentiment of the Convention as it is of the people they represent—that when any one State is willing to return to the Union, it should be received at once, with a full guarantee of all its constitutional rights.

To this the Transcript adds these words:

Will the politicians of the Post inform us how a State can return to the Union, unless it has first gone out of it? As Gen. McClellan asserts that such States, on their "return," should be "received at once," does not he "admit the power of secession?" according to the Post. "If not," will that paper explain his meaning, by the rules it has proclaimed in the paragraph above quoted.

There is no more doubt of the *power* of secession, than there is of the *power* of murder! Both crimes are committed, and so the power becomes a *fact*. But the question of right, in both cases, is quite another thing. When crimes are committed, there is, or ought to be, some *power* to punish,—and it is right that all crimes should be punished. There is not and cannot be in any government the *legal* or *constitutional power* to secede, for that destroys all ideas of government, and reduces the concern to a partnership. The aim of the rebels was to destroy the Union and build an *empire* on the slavery of working men of all colors where the rebels should be the grandees! The aim of loyal men is to preserve what Union we have, and restore what is broken, on the basis of liberty, labor, and bread for all.

☞ The N. Y. Tribune learns that the noble frigate Wabash, 48, Capt. John De Camp, while on her passage from Port Royal, went ashore on the Frying Pan Shoals, off the coast of North Carolina, and remained in that perilous position eight hours. All her shot and shell were thrown overboard to lighten her; but she was unable alone to extricate herself from her troubles. They were about to throw overboard her battery when one of the Wilmington blockaders came to her assistance, and she was got off, but not without damage to her hull. There was a heavy sea running at the time, and she pounded her bottom badly on the shoals, causing her to leak in a serious manner. None of her officers or crew were injured. The Wabash is now lying at Hampton Roads.

☞ The Navy Department have authorized the proper authorities in San Francisco to arm and equip a vessel in that port for the use of Engineer Bulkley and the party who are soon to proceed on an expedition north to commence operations for the completion of the great overland Telegraph line from Columbia river in Washington Territory to the Amoor river. The expedition will probably commence active operations in northern latitudes the 1st of March.

☞ The Christian Sun, a rebel paper published at Weldon, N. C., says: "We think there is little or no doubt that a fleet is now forming between Norfolk and Old Point to attack Wilmington. Among the number of vessels seen by our informant, there are two very formidable monitors. That an attack at an early day upon Wilmington is contemplated, we feel almost certain, and hope the authorities may be fully prepared for it."

— The Peace Conference of Vienna is said to have agreed upon the settlement of the frontier, the demand of the German Powers having been acceded to by Denmark. The English Government has urged that of Austria, to bring the peace negotiations to a speedy issue, and to inaugurate the Prince of Augustenburg as Duke of Schleswig Holstein.

— The Herald is glad to hear of a new business enterprise to be started in the centre of New uryport. The old jewelry factory has been purchased with the intention of manufacturing some patent machinery applied to the steam engine—a very valuable improvement, that is very easily applied, and is in use in all the factories in town.

— The laying of the new Masonic Temple in Boston, will take place on Friday with the most imposing ceremonies. Encampments, chapters and lodges will be out from all parts of the State; and from five to ten thousand of the fraternity will appear in the procession.

— Skedaddlers into New Brunswick are multiplying. In St. Stephen they are greeted jeeringly, "How are you, coward?"

STATE ELECTIONS were held on Tuesday in Ohio, Indiana, and Pennsylvania. They were generally regarded as decisive of the Presidential election next month, and the returns therefore have much interest. The State regarded as most doubtful was Indiana, which was confidently claimed by the Democrats and half conceded by the Republicans. Returns from all the States come in slowly. We give the results, so far as ascertained, below.

In Ohio in 1860 Lincoln had 44,378 majority over Douglas, and 20,779 over all. Returns this year indicate the success of the Union ticket. Pendleton and Long, the Democratic candidates for re-election to Congress in the 1st and 2d districts, are defeated. In the 3d District, Gen. Schenck, the Union candidate, has about 2000 majority. Cox, in the 7th District, democratic is probably defeated. The Union majority in the State on the home vote is estimated at 40,000. The soldiers will increase it.

Reports from Indiana show large Union gains over 1860, when Lincoln had 23,524 majority over Douglas, and 5,923 over all. The Union majority this year is estimated at from 15,000 to 20,000. Returns, from the 4th, 7th and 10th Congressional districts, now represented by Holman, Voorhees, and Edgerton, Democrats, render the election of the Union candidates probable. The soldiers do not vote in Indiana.

In Pennsylvania the soldiers are allowed to vote. The returns from this State in many counties show Democratic gains, and the vote may be so close as to render the soldiers' votes necessary to decide the result. The Boston Journal thinks that if the Unionists have carried the State it will be by a small majority on the home vote, to which the soldiers' vote will add from 6000 to 10,000

The latest dispatches claim from 3000 to 5000 Union majority in Pennsylvania, on the home vote, and 16 Union Congressmen, a gain of four. The Legislature is largely Union. Four-fifths of the soldiers vote the Union ticket, and will increase the majority.

Ohio elects 16 Union Congressmen, and perhaps 17. The soldiers are almost unanimously Union.

The Union party gains 6 Congressmen in Indiana.

☞ McClellan and all his staff with all their horses, went through all his campaigns without receiving so much as a scratch, and came out as fat and sleek and looking as fresh and new as when they first appeared on dress parade. There is good reason for it, for McClellan was never yet really under fire. His battles in West Virginia, which gave him his popularity, were all won by his inferiors, while he was at safe distance. Hooker and Burnside won the battle of Antietam, and at Malvern Hill Gen. McClellan was snugly stowed away in a gun-boat beyond the reach of the enemy's guns. Such a white-feather candidate is a fit candidate for a party which proposes to hoist, the white flag just as we are on the eve of final triumph.

— The War news is of little importance.

— In riots which took place in Turin in consequence of the removal of the Italian capital to Florence, twenty persons were killed and many wounded.

— Advices from Japan via France report that two English vessels had been fired into by the batteries belonging to Prince Choisin.

— The U. S. steamer Kearsarge was spoken Sept. 10th, lat. 24 47 N., lon. 35 43 W., under canvas, in search of the pirate Florida.

— Gen. Banks will visit Boston this week. It is said he will identify himself in citizenship with the Southwest, and establish his residence at New Orleans.

— An old meeting house in Dunstable, Mass., was set on fire Saturday afternoon and entirely destroyed. It was erected in 1798.

— A pair of socks knit by a lady, from hair combed from the back of a living poodle, was exhibited at a fair in San Francisco last month.

— A rejected lover determined to win the affections of his mistress, is like a passenger from New York on a French steamship, because he is bound to Havre.

— There are apprehensions of another mutiny in India. Vberabogavasantarayan is expected to head the revolt, and a real double header he seems to be.

— An errand boy in Cincinnati realized over ten thousand dollars by means of a false key to the post office box of a large business house.

—Mr. Bessemer, the inventor of the process of converting iron quickly into steel, says he can produce a solid block of steel weighing twenty tons, from flint cast iron, in twenty minutes.

— A certain judge having been called on at a public meeting for a song, regretted it was not in his power to gratify the company. A wag who was present observed, "He was much surprised at the refusal, as it was notorious that numbers had been transported by his voice."

NEW HAMPSHIRE ITEMS.

—— Hon. J. W. Patterson, Member of Congress for the 3d District, is making some most telling speeches in behalf of Lincoln, Johnson, and the right. He was in Maine before the State election, and did good service for the Republicans. He has also spoken a few times in this State, and in Pennsylvania, where he stayed until after election. The Concord Monitor, speaking of his speech in that city, says:—

An abstract will do no justice to it, and therefore we will not give one. It was a speech long to be remembered by those fortunate enough to hear it, and the only regret is, that it was not made in a hall large enough to accommodate the hundreds of ladies and others who would gladly have listened to it. We hope Mr. Patterson will address as many meetings as possible before the election.

—— James Hazzard, the soldier who killed George E. Sheldon of Hancock by shooting into a crowd at the depot, Concord, a month or two since, has been sentenced to jail for one year and to pay $500 fine. He offered no defence.

—— The dwelling-house of Messrs. Joseph and J. Porter Bachelder, of Loudon, was entered on Thursday night last, and the sum of $50.00 stolen. The burglars piled up several other articles, such as shirts, a silk shawl, and a set of silver spoons, &c., but probably becoming frightened, they skedaddled, leaving these articles strewn about the floor.

☞ A little anecdote of Mr. Dumas, now circulating in Paris, states that the veteran novelist has recently been indulging in a barter quite as singular as any colonial "swap." The story goes that the inhabitants of Cavaillon, a town in the Vaucluse, celebrated for its melons, having resolved to found a public library, begged of M. Alexandre Dumas to aid them by a gift of some of his works. A polite answer was at once returned, saying that directions had been given to the booksellers to send at once to Vaucluse the 200 or 300 volumes of his works which have recently been reprinted; also, that as they had a taste for books, so he (the author) had a great fondness for melons, and that in exchange the town officials might pass a decree that every year he should receive — carriage not paid — a life-rent of one dozen melons.

— The Portland Courier tells a sad story of misplaced confidence. A woman appeared at the Provost Marshal's office (!) in that city on Saturday last, and asked for aid. She was engaged to be married the next day, but the gay Lothario had exchanged rings, obtaining a valuable one, and palming off a worthless article, stole the trunk containing all her wedding outfit, and left for parts unknown. Finding the authorities powerless, she went away weeping and sorrowful. And yet she had already had four husbands.

— The retirement of George Peabody, the London banker, from city life took place Oct. 1st, in conformity to a long expressed intention. The London Times' city article remarks—"It is certain that no one has completed a business career which has commanded more universal respect from the commercial world. The business of the house, the prosperity of which has been uninterrupted, will henceforth be carried on by the remaining partners, J. S. Morgan and C. Goach."

— George Francis Train is out with his ticket for the Presidency, viz: President—Gen. John A Dix; Vice President—Admiral Farragut. "The one as commander-in-Chief to drive France out of Mexico; the other as Admiral-in-Chief to sweep 'neutral' England off the seas."

A SINGULAR EXTRACTION.—We have been shown a piece of an umbrella, made of iron, about 14 inches long, and forked at one end, which was taken from the side of a cow owned by Mr. Jas. Donley of this town. It is supposed the cow had an intense hankering after cotton and seeing the old umbrella immediately confiscated it with the piece of iron attached, which proving less digestible than the fibrous material, worked its way out through the cow's stomach as above.—*Aroostook (Me.) Times.*

— At a fair in San Francisco recently some tableaux by ladies excited attention and when the "Greek Slave" was announced the masculines were on tip-toe. It proved to be an Irishman with a shillaleh in his hand.

These words are Horace Walpole's:—

"When youth made me sanguine, I hoped mankind might be set right. Now that I am very old, I sit down with this lazy maxim, that unless one could cure men of being fools, it is to no purpose to cure them of any one folly, as it is only making room for some other."

— The St. Albans (Vermont) Messenger of Friday says that the sales of butter at that place on the previous Tuesday were not so large as usual, and ranged from 30c to 40c per pound, and but a few tubs sold at the latter price.

— At a Fair in San Francisco an exhibitor accidentally placed "a bust of the traitor John B. Weller near one of T. Starr King, of glorious memory." He was at once told that he must remove the offensive cast, or it would be "hurled unceremoniously into the street." He took it away.

— The three latest fancy drinks in California are called "ladies' tear punch," "anti-divorce cocktail." and "soul-stirring solace."

— The Empress of Austria is an accomplished and elegant English scholar.

— Gen. Grant left Washington for the front on Saturday.

— The crop of cotton in Brazil is much less than was expected.

— Counterfeit $10 bills on the Essex bank of Haverhill are in circulation.

— The Federal steamer Onward is cruising on the Brazilian coast in search of rebel vessels.

— Gen. Godfrey Weitzel has been temporarily assigned to the command of the 18th corps, vice Gen. Ord, wounded.

— The total amount of currency issued to National Banks up to October 8th is $53,515,530.

— The Richmond Enquirer, 8th inst., says: "All the Yankee naval officers and seamen, prisoners in our hands, will be forwarded North by a flag of truce to-day."

— Late files of Southern papers from various directions show a general depression, but the editors are endeavoring to infuse new spirit into the people, insisting that every available man be sent to the front, and by this means gaining ultimate success.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

☞ We learn that a small screw propelling steamer has been recently purchased by the Government as a cost of $7000, to be placed on the river, to run between Portsmouth and the Navy Yard, instead of the present row boats by which residents of the Yard and the mails are now conveyed. The steamer is daily expected, and as soon as the landings on each side of the river are reconstructed to accommodate such a vessel, she will commence her trips. Mr. E. N. Anderson, the present Porter of the Yard, will take charge of her, we presume and, none but those residing on or connected with the Yard will be allowed to pass in her, as a rule.

☞ The body of an unknown sailor floated ashore in the back cove near the Navy Yard on Tuesday. A sum of money, roughly estimated at $2000, was found upon him. The body was buried in the cemetery on the Yard on the same day. He is supposed to have been one of the bounty jumpers who escaped from the Colorado previous to her sailing.

☞ The U. S. Circuit Court at Exeter on Wednesday was occupied in the trial of the indictment United States vs. John Grimshaw, charged with enticing a marine to desert from the service.

A patent case was tried on Tuesday.

☞ Edwin B. Pratt, of Boston, has been appointed an Ensign in the Navy, and is ordered to the steam sloop San Jacinto at the Portsmouth Navy Yard.

THEATRE.—A great bill is offered at the Temple to-night by Bidwell & Pike's Company,—Black-Eyed Susan, a Grand Fancy Dance by all the ladies of the Company, and a trick Pantomime. A WESTERN SOLDIER'S VIEWS OF POLITICS.—The following extract from a letter just received from a soldier now at home in Iowa on furlough, shows what our brave boys think of traitors at home:

This date finds my health improving nicely, although I have no use of my right foot yet.

You asked me what I thought of the Presidential election. I am strong in the belief that Abraham Lincoln will be our next President. All the wise people of Iowa are going to vote for Mr. Lincoln, and I hope and trust that he will be elected; for I don't think any other man can fill his place and do as well as he has, and I think will do when elected.

And as for "Little Mac," as the copperheads call him, I think he is just as near nothing as ever copperheads or traitors get to be. I am sorry to have to say there are some men in this part of the country so ignorant as to be copperheads. I can't see the philosophy nor why it is that men here in the North preach up copperheadism and the South, which can be no advantage to them in any shape or form. It seems to me the minds of such men must surely be rather weak. I think the rebel soldiers that are in the field fighting are gentlemen by the side of such men at home: Tory is a better name than they deserve. Men that argue copperheadism are just the men that have not the principle to fight for what they contend is right. If the copperheads think the South is right, they ought to go and help their Southern brethren through their hardships; and if they have not principle enough to do that, they ought to do as all other idiots should do—keep still.

I remain your friend as ever, A. Y. L.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

The venerable Mrs. Partington once asked us if we believed that everything was foreordained before hand in advance. We were compelled to answer that sometimes we did and sometimes we didn't. She remarked that her son Isaac says he knows one thing was foreordained *sure*, and that is, that the J. Monroe Taylor Gold Medal Soap will supersede and run out every other kind of soap made. The old lady further remarked, that she believed so to, and was sure that there was no other so good, for she had tried it. 8

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda—It is much better. Try it. Grocers and Druggists sell it.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

L. M. EMERY, ARTIST,
State Street, near Stone Church.
Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens recently purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We told him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

"Bridget," said a lady to her servant, Bridget Conoly, "who was that man you were talking with so long at the gate last night?" "Sure no one but me own brother, ma'am," replied Bridget with a flushed cheek. "Your brother! I didn't know you had a brother. What is his name?" "Barney Octoolan, ma'am." "Indeed! how comes it that his name is not the same as yours?" "Troth, ma'am, he has been married once."

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for upwards of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the most remote, yet prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, which have genuine and disagreeable, are, by a new and scientific process of extracting (in vacuo) rendered MORE NEGATIVE BY FAR THAN WATER, entirely divested of the griping and distressing pain which attends the action of all other purgatives medicine. They are made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are two elements in purgative medicine.

The hard and compact manner in which pills are prepared renders them indigestible— and when taken are *forced* through the stomach and bowels, and dissolved, causing an INTERNAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

The pill dissolved, remains in the bowels, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no parts active upon the bowels, but it operates *diffusively* and throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and greatly stimulating dormant and morbid secretions through the whole system.

A single dose will evacuate a deranged and exhausted STOMACH, which will be found to be the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period WILL DRIVE the chronic and inveterate humors to the surface of the skin, and relieve or clear SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It excites the various organs with sufficient to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the ELIXIR.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is one of the medicines that you can regret—has a decided, salutary action upon the Liver, and there has been no medicine prepared for common family use which so well answers.

Its qualities, both by use and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, or manner, or diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. RICHARDSON,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has stood for over half a century. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1820.

Also, he fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one bottle of the Blood Root Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 21 Market Square; and by Dealers in Medicines generally; and at Dr. Richardson's Office, No. 51 Hanover street, Boston.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,

99 WASHINGTON STREET,

Boston.

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Of a mellow style, such that the in a paper box, in cases of one dozen each, the large and increasing sales of which convince the proprietor that no further advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other ardent, combined with the Bourbon, is a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can injure them.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain Through the Loins, Dyspepsia, Constipation, and the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance.

Cures have been performed which have gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and manhood after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, full information in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 63 Liberty street, New York.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

Cures in from one

to three days.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is extremely recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is gentle and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and diuretic*, removing all inflammation, heat, chordee and pain. Instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections,

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstruse method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, before buying, as he far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With this extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article may be placed, and the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the trouble of taking up the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT" VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about removing or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the ash-pit, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe out due on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part or your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

INTERESTING DISCOVERIES.—The English Parliament has purchased for the British Museum, for £1000, one of the caves discovered a few years ago in the department of Dordogne, in the Province of Perigord, France, and have placed the same in charge of Professor John Owen of London. The locality of these caves is chiefly on the banks of the tributaries of the river Dordogne, which reaches the sea a little north of Bordeaux. Interesting discoveries of human and other remains have been made in these caves, and specimens from them have been sent to the principal museums in Europe. By far the largest number of bones found are those of the reindeer, an animal not known within the historic-period south of the northern shores of the Baltic. Other tokens consist of compact masses of earth, charcoal, flint weapons and tools, needles, etc., hardened into a solid agglomerate, or *breccia*, as it is technically termed. Their origin must have been in an age the antiquity of which is very remote; Sir Charles Lyell believes at least ten or fifteen thousand years ago. The conclusion deduced from the exploration of these caves is that a human race inhabited them at the same time as the reindeer, the auroch, and other animals now found only in extreme latitudes; that these people were clothed in skins, and lived upon the produce of the chase or by fishing; and that they possessed no knowledge of metals, their arms and tools being either of broken and unpolished flints, or of bones or horns of animals. No traces of domesticated animals exist.

At some period subsequent to the human occupancy of these caves a flood had rushed through them, leaving behind a number of boulder-stones, which by slow droppings from the chalk strata overhead have been fixed to the artificial floor of breccia. The practice of these ancient inhabitants, in throwing down the bones and other remnants of their feasts upon the floor of the cave in which they dwelt, receives illustration from the description of the Equimaux given by Hans Edge, a Danish missionary of the last century. Their huts he describes as veritable charnel-houses, heaped with fat and raw flesh of mammals and fish, which, with the remains of other feasts, created an odor a European could not endure, but of no inconvenience to a native.

THE REAL ATTITUDE OF THE SUPPORTERS OF McCLELLAN. — The New York Express (McClellan print) cautioned the public against "exciting rumors and details of battles fought and victories never won," as elections were to take place on Tuesday. Here (says the Boston Transcript) is the distinct confession that the report of Federal victories is damaging to the McClellan party. Why do such accounts thus operate? Simply because the "opposition" have falsely declared in national convention that the war is a failure, and are pledged to a "cessation of hostilities." So they are committed against the government, while it is endeavoring to crush the rebels against the life of the nation. The Massachusetts Democracy, true to the teachings of the Chicago convention, deliberately pronounced the war fatal to the Union and the constitution. The principal supporters are the Seymours, Woods, etc. Is it any wonder then, that national successes affect, disastrously, democratic prospects in the present political campaign?

Another proof of the unpatriotic position of the McClellan organization is found in the fact that its managers in Pennsylvania have been so industriously circulating stories of Federal defeats that the President is obliged to authoritatively contradict them. The members of the democratic party, who remember that, in former times, it always was for war, must with Gen. Dix, "mourn over the deep reproach which has been brought upon it by its leaders," who, in the words of the General, have "degraded it from the eminence on which it has stood in every other national conflict." It hardly seems possible that any truly loyal State should assist in elevating to power a class of politicians that have thus disgraced the name of Democracy.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving at a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at the old established Hospital, No 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Bles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health by improper practices of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets not before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none but the MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The business practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relating to patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, OCTOBER 14TH, 1864.

THE ELECTIONS.—Returns from 45 counties in Indiana give a Union majority of over 20,000; the balance to be heard from will probably increase the majority 5000. There is a Union majority in both branches of the Legislature. The Congressmen are all Union except those in the 1st, 2d and 7th districts. The last two are doubtful, and claimed by both parties.

In Baltimore, on Wednesday, Chapman, Union, was re-elected Mayor by over 8000 majority. There was over 7500 majority for the new Constitution in the city, and it is thought that the vote in Western Maryland and the soldiers' vote will secure its adoption.

The Pennsylvania Union State Committee estimate the majority in that State for the Union ticket on the home vote, at 5000. The Legislature is largely Union.

NEW HAMPSHIRE ITEMS.

—— New Hampshire has now 9327 troops in the service.

—— The 11th Company of Heavy Artillery is filled up, and will soon be ready to leave the State.

—— Last Saturday B. F. Hunking purchased of S. H. Legro, of Lancaster, a two-year-old heifer, which measured six feet and four inches girth, and weighed 1395 lbs.

—— Our State now lacks less than a hundred men under the last call, of which number over 40 are due from the 5th (copperhead) ward of Manchester.

—— The Savings Bank for the County of Strafford has just declared an extra dividend of $28,000 from the surplus earnings of the Bank, making an average of about 7 per cent. for the last five years.

—— D. A. Wendell of Dover, has been appointed Assistant Surgeon in the U. S. Army, and has left for Fortress Monroe. Dr. Wendell has already had much experience in the service, having entered it three years ago with the 4th Regt.

—— The Concord correspondent of the Boston Journal states that changes have been made which leave the 18th regiment for the present without any field officers.—Efforts are to be made to fill the regiment up. Five companies have already gone to the front, and the sixth is nearly filled.

—— Daniel Berkley, a man about 60 years old, after attending a Democratic meeting in Dover on Thursday evening, Oct. 5, was drowned on returning to his home on the Landing, having probably walked into the river by mistake. His body was recovered the next day.

—— The Manchester Mirror says: "We know of a farmer in Dunbarton who has potatoes that take only twelve bills for a bushel. A man in Goffstown, a large farmer, says he has a third larger crop of potatoes, than he ever had. From various parts of the State, we hear splendid accounts of the potato crop; and also in Vermont, Maine and the Provinces."

NEW YORK CUSTOM HOUSE.—Says the Boston Journal, speaking of this institution: The whole organization has been an imposition and an outrage upon the mercantile community and upon the government. The attention of Sec. Chase was called to these facts at an early period in the present administration, and he appointed J. F. Bailey, Esq., a special agent of the Treasury Department, with instructions to make a thorough inquiry into the affairs of the Custom House and the workings of the revenue system. Mr. Bailey instituted a rigid and unsparing scrutiny, and the results thus far obtained were communicated to the department.

To Secretary Fessenden belongs the credit of having given effect to one of the most striking and thorough reforms ever made in a public office. Only those who are familiar with the workings of political influences, can fully appreciate the courage and fidelity to the principles of good administration requisite to the performance of such a work as that carried through by his direction. More than thirty clerks who had used their official positions to exact fees or gratuities from merchants have been removed. Upward of one hundred and fifty offices have been abolished, and the idlers who blocked the course of business and hung like leeches upon the public treasury have been swept out of the way. Not only the merchants who are relieved from corrupt exactions and from vexatious delays in their business will appreciate this fearless and patriotic action of Mr. Fessenden, but the people whose means have gone to support these drones will applaud the man who shows himself superior to the vulgar inducements that have only too much weight with most of our public men.

The administrative reforms are only an earnest of what may be expected from Mr. Fessenden. He is determined that the great branch of the public service presided over by him shall be visited in all its parts with a like vigorous curtailment and retrenchment.

— The evidence against Muller, the alleged English railway murderer, is weak and confused, and it is supposed he will get clear. He says he bought the murdered man's watch, which was found on him, and the government seems to have no evidence that he did not.

THE REBELLION.

Gen. Sheridan is proving himself a most dashy writer as well as leader. His reports of victories are unique, of the cavalry engagement on Sunday he speaks as follows, in another official dispatch:

"I have seen no sign of the enemy since the brilliant engagement of the 9th. It was a square cavalry fight in which the enemy were routed beyond my power to describe. He lost everything carried on wheels except one piece of artillery, and when last seen it was passing over Rudes' Hill, near Newmarket, on a keen run, 26 miles from the battle field, to which point pursuit was kept up. The batteries, the men, horses, &c., were captured. The horses were in good condition, but were all exchanged by our cavalrymen for their broken down animals. The casualties on the 9th will not exceed 60 men.

An attack on Forrest, at East Point, Tenn., by 1200 infantry and a battery of four guns, on the 10th, was repulsed, with the loss of 20 killed and 26 wounded and missing. The guns were lost. Forrest is supposed to have crossed the river.

A correspondent of the Boston Traveller states that the steam-sloop Powhattan, bearing the broad pennant of Rear Admiral Lardner, from the West Indies, the Susquehanna, Wabash, Huron, Yantic, Maumee, Tuscarora, Circassian, the monitor Mahopac, and the New Ironsides, had all arrived in Hampton Roads, Oct. 9. Perhaps this large fleet means—Wilmington. The Yantic had been sent to Beaufort, and was hourly expected back with Adm. Lee.

CALIFORNIA GROWS RAPIDLY.—A Mechanics' Industrial fair was held at San Francisco in September; and the American Flag of that city thus discourses of the lessons it has taught:

Within less than ten years almost every article we needed in our food, clothing, and workshops, was imported from abroad. To day, as any one may observe by taking a stroll through the Pavilion in which our local manufacturers exhibit specimens of their productions, may be seen home-made cloths, flannels and blankets, which for texture, quality and color are not excelled by the manufactories of England, France or Germany; home-made glass in a thousand shapes and forms, adapted for as many different purposes; home-grown and manufactured tobacco, in flavor and appearance but little inferior to the famous products of Kentucky and Virginia; home-made salt, superior in both fineness, color and purity to any imported from Europe or the Eastern States; home-made soap; home-made pickles, sauces and preserves, made for exportation as well as home-consumption — a much more important branch of business than many people imagine, employing many hundreds of hands and yielding handsome returns upon many thousands of dollars invested in it; home-made sugar; and home-made wines and spirits of great purity and strength; home-made perfumery; home-made brooms and brushes adapted for every conceivable purpose; home-made machinery of great power and beauty of workmanship; home-made corn brooms; oak, pine and cedar tubs and buckets; home-made furniture, such as for style and finish cannot be excelled anywhere; home-made cutlery, guns, pistols, locks and such like articles of the very finest finish; home-made articles of wire of every conceivable form and kind, from the wire screen, as soft as muslin, to the thick, heavy wire for suspension bridges. Then we have home-made paper of all kinds and varieties, from the heavy "board" to the thin tissue and printing paper; home-made matches that excel those of the great Pollak himself; home-made files; home-made tin and hardware; trunks, saddlery, boots and shoes, hats and bonnets; home-cured hams and bacon that leave the best imported articles of the same kind far in the distance. In short there is not a branch of manufacturing industry known to the oldest established countries, but what has taken root among us; and the contents of the Pavilion exhibits how vigorously and extensively they are growing.

— Gold 207 5-8.

— Judge Taney died in Washington on Wednesday night, after a few days' illness.

— The 1st Battalion of Sharpshooters has been filled in Maine, and another is being enlisted.

— Several parties in Massachusetts have recently been prosecuted for issuing private checks as money.

— Best quality Jackson white potatoes were sold in Boston on Wednesday at 70c per bushel.

— There is an animated competition among the butchers of Natick, Mass., resulting in the best beefsteak selling at 15 cents per pound.

— The Governor of Maine has issued his proclamation declaring the constitutional amendment, allowing soldiers in the field to vote, adopted.

— All the N. Y. street railroads, except the Eighth Avenue, have raised their fares to six cents. Their charter allows them to charge but five cents, and many persons refuse to pay the additional nickel.

— Sec. Stanton telegraphs that the Hospital vote in Nashville is Union 1800, opposition 200; and that the soldiers' vote stands in about the same proportion wherever heard from.

— Com. Cor. K. Stribling, the late commandant of the Philadelphia Navy Yard, sailed last week with his staff for the East Gulf Squadron, to whose command he has been assigned. Com'r Reed Worden, the executive officer, will act as commandant until the vacancy is filled.

LETTER FROM NEW YORK.

From our Regular Correspondent.

NEW YORK, Oct 10, 1864.

Dear Chronicle:—

Whether the week which to-day ushers in will be marked by a continuance of the improvement in commercial affairs which was inaugurated on Friday, is of course a matter of mere conjecture, but the probabilities seem to be in favor, unless the outside pressure, in the way of a positive victory of our armies, should again be brought to bear upon the market. The continuance of the depression during the earlier portions of last week was marked and positive, and the reaction on Friday came none too soon. The quantities of goods forced through the auction rooms were immense.

On Tuesday was commenced a three days' sale of 1800 lots—about 10,000 pieces. On Wednesday another house offered 500 lots, and on Thursday, still another, 400. On the latter day Clafflin offered at their salesrooms 300 cases prints, at a reduction of ten per cent. below the then market rates. The furore was tremendous, both among the little fish and the big ones. Between two and three hundred men were buying goods, (and chiefly one style of goods) in the same house at the same moment. The next day Stewart, not to be outgeneralled by his not-over-friendly competitor, offered several hundred cases of American, Allen, Sprague and other prints, —the Americans being the chief line, and offered at 28c—the same as Clafflin had closed the day before at 30, and which were held three weeks ago at 47 1-2. Nearly 200 buyers were congregated in one section of the immense floor, where case after case was trucked into line. None could be touched till the line was formed; then it was very much like one of Morgan's raids. It was push and pull, squirm and squeeze—the man who had his hand on a case first having it entire if he wished his selection, leaving to the next best man the second choice. Every five minutes the line gave way, and had to be reformed with fresh cases. It was quite exciting for a while, and of course thoroughly scared all the small outside operators, who immediately commenced to get rid of their speculations at any price. Large operators were the buyers—and here was the strategical part of the game. Americans opened the next day at 29, and in a half hour were jumped to 30c, and then to 31c. Other makes were advanced in proportion, and DeLaines from 34c to 36c, and afterwards sold at 37 1-2.

Thus the market was bolstered up; and the movement was imperative to many who began to find it rather more necessary that they should have money than merchandise.

The market is very much stronger. All New York is in better spirits, and out-of-town men are buying more freely. The only evil of the reaction is, that it enables the speculators who deserve to stand the losses, to dispose of their stocks, while it places them in the hands of country merchants, who will feel the depression that must inevitably succeed, sooner or later.

The variation in prices of leading goods is about as follows: DeLaines, 55c to 34c, advanced 7 1 2c; Merrimacks, 50c to 35c; Second Prints, 45c a 48c to 28c a 30c; Gray Flannels, 70 a 72c to 42 a 50c; Water-proofs, $2.45 a 2.50 to $1.75 a 1.90; Fancy Cassimeres, off 30 per cent.; Plaids, off 25 per cent.; Merinos, off 50c per yard; Sheetings, off 30 per cent. Carpets—Solid Brussels, $3.75 a 4.00 to $3.10 a 3.15; Tap. Brussels, $2.60 a 2.75 to $2.15 a 2.20; Ingrams, $2 30 a 2.37 to $1 80 a 1.87. N.

— The Portland Press states that an interesting revival of religion is in progress at the Central Church, Rev. Henry D. Moore pastor, in that city. There are no extra meetings held, but the good work is going on silently and surely, and converts are multiplying. The inquiry meetings are well attended, and very interesting scenes are witnessed.

— A waiter at the Astor House, New York, has been arrested for robbing the room of one of the guests, last April, of $2400. He was detected by his wife recently passing several hundred dollar bills, in payment for dry goods, said bills being only partially signed.

— The Boston Post learns that the physicians who examined Green, the Malden murderer, at the request of the Governor and Council, have reported that they could discover no indications of insanity about him.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the Hair from falling off and moves all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The Eastern Railroad Company have just placed upon their road two splendid locomotives, named "Gloucester" and "Rockingham," built by the Taunton Locomotive Co. Some time since, two locomotives, built for the road by the Taunton Co., were "gobbled up" by the government, and the Company have just been able to replace them by these new machines, which are engines of about 25 tons. The Gloucester hauls the morning train, and is run by Engineer Hawks of this city.

☞ John S. Harvey, Esq., one of the earliest friends and always a liberal patron of this Chronicle, and for several years a business neighbor — has the good taste to be interested in his garden, and the good luck to raise considerable fine fruit. We rejoice in his success, in this as in every other line—especially, seeing that we are also partakers of his joy, in that he never fails to bestow on us a liberal yearly tribute from his harvest. Our sincere thanks to him, this time for a well-packed basket of most delicious Isabella grapes, about the first specimens of that variety that we ever tasted.

☞ We are pleased to learn that Mr. Frederick L. Dodge of this city has received the appointment of First Lieutenant in the 12th company of Heavy Artillery now being organized in this State. Mr. Dodge was a member of the Massachusetts 44th regiment, and served through its term.

☞ Dr. Tebbets' physiological Hair Regenerator is spoken very highly of by those who have used it, in this and all other cities. Thacher sells it—lots of it—and our best folks use it. An advertisement may be seen in our special notice column.

☞ Dr. Tebbetts of Manchester, in sending Thacher another gross of his Hair Regenerator, enclosed a complimentary bottle for the publisher of this Chronicle. Much obliged to him, but he's sent it to the wrong shop; it ought to have gone down in Daniel street, to the editor of the sheet facetiously called Union—it is *he* who needs "regeneration."

☞ We understand that Mr. Wm. Plaisted proposes to sprinkle all the principal streets of the compact part of the city, next season, should encouragement sufficient be extended—putting on two or three machines for the purpose. This ought to be done, and the money can be raised easily enough, notwithstanding there are some folks so mean that they would rather choke with actual dust than down with *theirs* (metaphorically speaking) of a five spot; but the only way to test it, is to have the subscription paper circulated among people. We will give as much as the States & U (we can't say it) man—and he kicks up a great deal more of a dust than we do, or tries to.

The number of continued cases on the Rockingham docket of the term of the S. J. Court, commencing at Portsmouth on the 18th, is but 240. The number at the corresponding term ten years ago, was 477. Who will deny, with such evidence as this, that the world is growing better every day? —*Cor. Ballot.*

U. S. CIRCUIT COURT, EXETER.— The Oct. term commenced Saturday 8th, Judge Harvey presiding. Judge Clifford came in on Monday. The Ballot reports the only jury trial on the civil list was that of Herrick Aiken v. Jesse S. Perkins. This was a suit for the infringement of the plaintiff's patent for an improvement in the needle used in a machine for knitting stockings The defendant was defaulted, and the only question for the jury was the amount of damages, which they assessed at $195. The case was argued by Mr. Thurston of R. I. for the plaintiff, and by Mr. Hackett for the defendant.

The grand jury came in on Tuesday morning and returned nine indictments—five for passing counterfeit U. S. currency, one for keeping with intent to pass the same, two for enticing soldiers to desert and one for stealing letters, &c. from a post office. The following persons were arraigned and pleaded not guilty: Jane Morrison, George W. Tubbs, George B. Alexander, James W. Tuttle and John Stearns, for passing counterfeit U. S. treasury currency, and John Grimshaw for enticing soldiers to desert.

The trial of Jane Morrison, for passing a counterfeit $50 greenback altered from a $2 note, was commenced Tuesday afternoon. The prisoner, a girl of 21, evidently rather deficient in intellect and still more so in virtue, was proved to have offered the bill to several persons after being informed that it was bad. The jury on Wednesday morning returned a verdict of guilty; Judge Clifford, in consideration of her probable inappreciation of her crime, and it being her first offence, let her off with a sentence of $1 fine and thirty days imprisonment in the Exeter jail. John H. George acted as the counsel for the culprit, as we believe he is to do for all the parties arraigned.

The jury on Thursday returned a verdict of guilty against John Grimshaw, on the charge of enticing a marine to desert.

TEMPERANCE, like many others of the moral reform movements of the day, has seemed to fall back to a chaotic state; while its old defenders and champions have "gone to the war," or given up in despair. There never was a time when the venders of alcoholic drinks were making the enormous profits they now are. Contractors and shoddy manufacturers are not a circumstance to them. And the higher their prices go up, the poorer is the liquor they give you; until it is warranted to kill at forty yards, and around a corner. As a natural, if not a necessary consequence, the result is more fatal than ever before. The result was always fatal; but now, the end can be seen from the beginning.

Our city suffers in reputation much more than inland towns, from the fact that many transient people, while in port, improve the opportunity to have a spree; and a large number of other people make it their business to assist and furnish what accommodations they can to help them along with their sprees, until the victim is fleeced of the last cent: when they suddenly cease to give them any further attention.

Yet in the face of all these difficulties, the friends of temperance do not feel disposed to give up their enterprise and retire from the contest. They have a large field before them; too large and important to be easily relinquished. It is proposed to have a course of Sunday evening lectures, to be delivered by the various clergymen of the city: and, if arrangements can be perfected, to hold a series of week day evening meetings at the Temple; the speaking and other exercises to be mostly by our own citizens.

It is a misfortune in this city as in many other large places, that there is a lack of suitable public entertainments. People, after working or being engaged in business day after day, need, and must have, some kind of recreation for the mind; and when there are proper entertainments provided, numbers steer clear of many vices, or from forming habits, the influence of which, upon themselves and those with whom they associate, can only be productive of evil.

The Lyceum is doing a noble work in this direction, but a large number of people are unable to secure tickets for these excellent courses of lectures.

We hope the Portsmouth Division of the Sons under whose auspicies this matter is now brought forward, will not give up the undertaking, but carry it forward in right good earnest. U. U.

Lieut. John W. Brewster of 4th N. H. Vols. who was wounded by a ball in the leg last summer, has returned home, having been discharged by order of the Secretary of war.—*Cor. Ballot.*

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued —all who wish to attend, will save disappointment by securing tickets in season.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda—it is much better. Try it. Grocers and Druggists sell it.

A TRUE AIM.—It has not been the aim of the proprietor of Hannewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Regular Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

MARRIED THE WRONG LADY.—Vienna has been stirred up, lately, by the comical result of a strange love story. It seems that in the house of one Herr Kahue, a teacher of languages, Dr. Kant, a young lawyer, happened to make the acquaintance of a lady, burdened with some property and thirty years. The lady, being unmarried, evinced particular interest in the young, shy, and rather abashed man of law. She made love to him, in fact, very strongly, and persuaded him to visit her at her house! But, alas! he loved another lady. One evening, while conversing with the doctor, she said: "With your favorable idea of matrimony, may I ask if you ever thought of marrying, yourself?" Dr. Kant sighed, and his eyes resting on the ground, hesitatingly muttered in reply: "I have already thought of marrying, and made my choice, but——" "But?" the lady hastily interposed. "But," he continued, "she lady is rich, very rich, and I am poor. I am afraid I could hardly aspire to her hand, and, rather than allow myself to be taxed with sordid designs, I will bury my passion in my breast, and leave it unavowed forever." At an early hour the following day she, however, broke herself to a solicitor, and, in legal form, declared her wish to present and hand over as his property the sum of 150,000 guilden—(£15,000)—to Dr. Kant. When the document had been signed, countersigned, and duly completed, she sat down in the office, and enclosing it in an elegant envelope, added a note to the following effect: "Dear sir—I have much pleasure in enclosing a paper which I hope will remove the obstacle in the way of your marriage. Believe me, &c., Alice Martini." Dr. Kant, for he and no other was the addressed, was the happiest man in the world on receiving this generous epistle. Repairing at once to the parents of Fraulein Fischel, the lady of his love, he proposed for and received the hand of a girl who had long been flattered by his delicate though unavowed attentions. His reply to Fraulein Martini, besides conveying his sincerest thanks, contained two copies the visite linked together by the significant rose colored ribbon. Miss Martini forthwith sued the happy bridegroom for restitution, but as no promise of marriage had been made, the case was by two successive courts decided against her.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR
Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for
CONSTIVENESS,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, the most inoffensive and disagreeable, are, by a new and scientific process of extracting (in vacuo,) rendered MORE EFFECTIVE IN THEIRMEDICINAL WORK entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are also made to BE HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,
and by their peculiar combination work so perfectly in HARMONY WITH NATURE, that no unpleasant reaction will follow its operation in any possible case.

A Diffusive and Alterative Effect,
which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *forced* through the stomach and bowels, unassisted, causing only PARTIAL ACTION, thereby creating irritation and pain in the parts connected with their passage.

The pill dissolved, *as soon as taken*, will produce more medicinal and physical effect than from a crude state.

The BLOOD ROOT ELIXIR has no purgative action upon the bowels, but is equally diffused throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and GLANDS, eradicating disease and morbid secretions through the whole system.

A single dose will produce a cheerful and exhilerating COMMOTION, which will footer the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will REVIVE the observer and hidden humors to the surface of the skin, and relieve or cure SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the seed of DISEASE.

CAUSE OF CONSUMPTION.

It excites the various organs of the system to act into a healthy action, which prevents and removes the cause of CONSUMPTION, which also induces RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and a train of diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no drug, nor, but stimulates the secretions by its mild diffusive action. It is an effective and painless specific—has a decided, cooling effect upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Internal and Internal Use.—Men will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHARPY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his well tried Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of the Elixir and not be benefited, a good deal more than from, to refund to said person the amount which he paid for the same, by returning the empty bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 21 Market square, and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 21 Hanover street, Boston.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper boiler, and the oven plate is large the warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the pipes is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to make the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in this

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, or the cone, which is also a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

The Chronicle.

WHICH IS WORSE?—I was thinking as I was walking behind a lame boy, how sad it must be to be lame; to limp when others walk, to be left behind when others run, pass through days of pain and nights of weariness, to be pitied or to be scorned.—Ah, it was a sad thing to be lame! Just then, across the street I heard loud talking and laughter. I looked and saw another boy limping too, or staggering, not lame, but drunk. My feeling for the lame boy changed at once. He needed my pity so little, and the drunken boy so much. The body will be dropped off by and by. Death will relieve the lame boy of his poor imperfect body. In heaven he shall be perfect as the angels that stand before our Father, not lame. But the soul lives forever, and a stain upon that is a fearful thing. Christ's blood alone can cleanse it. 'It is better for thee to enter halt into life than having two feet to be cast into hell.'—*Child at Home.*

Remember that, even to-day there is no man so wise that he understands the law which regulates the relation of any fertilizer to any crop; that few have ever observed the mystery of that wonderful influence of the first impregnation of the dam upon the future offspring of whatever sire; that the origin and contagion of the cattle disease, pleuro-pneumonia, remain hitherto without adequate scientific explanation; that the practical farmers and men of science, all combined, understand as little the destructive potato-rot, which concerns the economy of every farmer and every household, as the Aborigines who first describe the May Flower, understood of the poems of Homer or the philosophy of Aristotle.—*Gov. Andrew.*

WHAT DOES "ECONOMY" MEAN?—In our use of the word "economy," it means merely sparing or saving; economy of money means the saving of money, economy of time the sparing of time, and so on. But economy no more means saving money than it means spending money. It means the administration of a house—its stewardship; spending or saving, that is whether money or time, or anything else to the best possible advantage. In the simplest and clearest definition of it, economy means the wise management of labor; and it means this mainly in three senses, namely, first, applying your labor rationally; secondly, preserving its produce carefully; and lastly, distributing its produce seasonably.—*Ruskin.*

☞ The Supreme Court of California has decided against the constitutionality of the military suffrage act. This will make a difference of at least 5000 in the vote of that State.

— Emma Jane Long, the young girl of Patterson, N. J., who stole a child, robbed it of its clothes and threw it into a well, has been convicted of murder in the second degree.

— A staff officer in Gen. Sherman's army, writing to a friend at the North, says McClellan votes in that army will be as "scarce as hen's teeth."

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water-proof and therefore prevents your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Pimples on the Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret vicious habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work on the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains information of secrets, not to be before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty-years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into any matter relating to foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters appertaining the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, not possessed by, and immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that we have MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to Patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are thus saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber in the course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Examiners chief of Patents.

Portsmouth, N. H.

SATURDAY, OCTOBER 15TH, 1864.

COLD COMFORT.—An unhappy paper of the copper persuasion, looking at the late election returns, especially of Indiana, rallies its friends on this fashion:

Upon the whole, our friends have every motive to inspire them to renewed exertions, to effect now, what they must of necessity bring about at no distant date, or suffer ills yet scarcely imagined—namely, the overthrow of the cruel, rapacious and profligate men in power, whom only too many of the people so blindly support.

The loyal people do really seem to be quite "*too many*" for the rebels and their allies. But is not the above item a queer specimen of composition for a scholarly paper? Is the ill scarcely imagined, the overthrow of the cruel?—To overthrow bad things as bad people is no ill at all, as we look at it. But truly the poor editor don't know what to say, and so he said he knew not what.

THE ELECTIONS.— Forty-three Counties in Pennsylvania give a Union majority of 8672 on the home vote. The Congressional delegation will probably stand 16 Union to 8 Democrats. The soldiers have given 4667 votes for the Union ticket, out of 5323. The voting in Maryland closed on Thursday evening, having continued ten days. The vote in the Counties is close, but the large majority for the constitution in Baltimore, 7726, will probably be sufficient to counteract all opposition. The new constitution not only abolishes slavery, but disfranchises all persons who are or have been in league with traitors.

The Union majority in Ohio on the home vote is about 35,000. The soldiers' vote will probably increase to 85,000. 17 Union Congressmen are elected.

A dispatch from Harrisburg states that from information received there on Friday morning it is absolutely impossible to determine how Pennsylvania has gone until the official returns are received. Each party claims a small majority.

— No other State election comes off before the general election in November, except in West Virginia, where there is to be an election on the fourth Tuesday of October, the 25th instant, for Governor and other State officers and for three Representatives to Congress.

THE INDIAN WAR.—Col. McLaren, of the Indian expedition, has returned to St. Paul, and all the Minnesota army are on the way home, except a few companies left in charge of the forts, and 200 or 300 men sent to aid Capt. Fisk. It was supposed that they would be able to reach Fisk in time to save his party. Letters are published giving interesting details of the battles with the Indians, the character of the country, and incidents of the campaign. One letter says that "Paddy's flea was a tame bird compared with those mountain warriors, who can dash on their ponies headlong down a steep which a white man would hesitate to do on foot. They know it, too, and continually derided us and wanted to know why we did not come and take them. After a three years' war with these savages we have not killed as many of them as they did of our people in ten days."

— Gold reached 217 1 4 on Friday, but at 2:40 was quoted at 2.13.

— The Mobile Tribune is agitating the subject of employing slaves as soldiers.

— The pay-roll for September is the largest ever made up at the Charlestown Navy Yard, the number of men employed being 4378, and the amount paid for the same, $239,266.01.

— At a meeting of the Massachusetts Executive Council on Friday afternoon the Committee on Pardons reported against commuting the sentence of Green, the Malden murderer, and recommended that a day be appointed for his execution. The report was accepted, but no day was fixed.

— Thomas Cummings, the waiter at the Astor House, New York, who was arrested for stealing from one of the rooms of the hotel $2450 in bills signed only by the President of the Bank, was discharged on the ground that the bills were worthless until signed by the Cashier as well as the President of the Bank. About $1600 of the imperfect bills were found at Cummings' residence. He was immediately re-arrested by the U. S. Marshal, for having in his possession false U. S. tokens.

— Our Northern neighbors are becoming very enterprising in railway projects. They are building or have projected forty miles of road from Sydney to Louisburg, Cape Breton; thirty-six miles from Truro to Pictou, Nova Scotia; a line from Truro to the New Brunswick boundary; the St. Stephens, New Brunswick branch, eighteen miles, the extension of the line now run from St. Andrews to Woodstock, a link of the Intercolonial Railway, and also the Western Extension to Maine. New England and the provinces of Great Britain are getting nearer to each other.

THE REBELLION.

The rebel papers of Monday have official dispatches that Rome, Ga., with 3000 negroes, had been captured; but Sherman's dispatch of the 9th, a day later, does not mention it.

Gen. Rosecrans, with part of his staff, left St. Louis on Thursday night, for the front.

Adm. Porter took command of the North Atlantic Blockading Squadron on Thursday morning, in place of Adm. Lee, which event was signalized by a salute from the U. S. steamer Brooklyn.

Natchez dates to the 4th inst. are received. The expedition under Col. McCobb, which left Vidalie on the 26th ult., had returned, having captured the rebel Col. Wilkins, 4 Captains, several guerrillas, 400 head of cattle, 150 mules, 50 horses, a considerable quantity of cotton and woolen cloths, a quantity of arms and ammunition, and 37 recruits.

Gen. Burbridge's troops have arrived safely at Mount Sterling, Ky.

Passengers from City Point, Va., report that the rebels attempted to pierce our lines on Tuesday night by attacking the 2d corps, but were repulsed.

The N. Y. World's dispatch reports that Gens. Meade and Warren have been removed from their commands, having protested against an assault ordered by Gen. Grant, on the enemy's works in their front, which they considered too strong. If true, this must have been at the time of the last advance, Sept. 30.

Gen. Sheridan's forces had captured 10,000 head of cattle and driven them out of Luray valley, Oct. 11.

BILLIARDS. — The billiard tournament, which has lasted throughout the past week in Philadelphia, was appropriately brought to a conclusion on Tuesday night by a grand match of one thousand points up between Dudley Kavanagh, the billiard champion of the United States, and Victor Estephe, the champion of Pennsylvania. The contest excited the greatest interest, and the hall was crowded in every part with deeply interested spectators. Estephe took a commanding lead at the start, playing with extraordinary skill, and making runs unusually large, including one of 189, the largest on record at billiards where the push shot is barred. He finally won the match by the large majority of 496 points in the game of 1,000 up. The victor was deservedly applauded on his decisive and unexpected victory. At the termination of the game, a Philadelphia gentleman present offered to match Kavanagh to play a similar game of 1,000 points, and would stake $1,000 to $500 on the latter winning. This challenge elicited no response.

— Ex-Sec. Chase, it is said, will succeed Chief Justice Taney.

— Nebraska has elected a Union delegate to Congress by a large majority.

— The frigate Chattanooga was launched at Philadelphia Thursday.

— Sweet potatoes of excellent quality are sold in Boston at 3 cents per pound, at retail.

— The U. S. steamer Vanderbilt arrived in Boston on Thursday, from a cruise off Nova Scotia.

— Monday, Father Matthew's birth-day, was celebrated by many of the Total Abstinent Benevolent Societies of New York and other cities.

— About three inches of snow fell at Strasburg and vicinity last Saturday, rendering wagoning difficult in the valley of the Shenandoah.

— Theophilus Parsons, Henry W. Longfellow and James Russell Lowell were among the vice presidents at a Union meeting in Cambridge, on Wednesday evening last.

— Mr. Mark Watson, 78 years of age, a carpenter on a ship now building at Biddeford, Me., on Wednesday afternoon fell from the upper deck staging to the ground, killing him almost instantly.

— The adjutant of a New York regiment, stationed at Morganza, La., recently attempted to betray his command to a force of rebels who were posted as to his intentions. He had fallen in love with a planter's daughter, and this was the only condition upon which she would marry him.

— The United States gunboat Shenandoah arrived at Havana on the 29th ult. with, it is said, a request from our Government for the delivery on board of Appleton Oaksmith, charged with being engaged in the slave trade. The Cuban police were at once set to work, but failed to find the alleged criminal.

— We have received the 1st number of the Boston Leader, a well-filled weekly paper, published on Sunday morning. Boston has now four Sunday papers,—the Gazette, the Herald, the Express, and the Leader. The last also announces that Justin Jones, Esq., the well known Harry Hazel, will appear to the reading public, on Monday next, with a new literary paper bearing the name of Harry Hazel's Yankee Blade. They must be plucky fellows to commence papers in these days.

ITEMS—NEW AND OLD.

— Judge John D. Willard died in Troy, New York, on Sunday, at the age of 64 years. He was a native of New Hampshire, graduated at Dartmouth College, and settled at Troy in the practice of the law at the age of twenty-one. Governor Marcy appointed him Judge of the Court of Common Pleas in 1834, and in 1857 he was elected State Senator. For some years he edited the Troy Sentinel.

HOW TO LIVE.—To act with common sense, according to the moment, is the best wisdom I know; and the best philosophy, to do one's duties, take the world as it comes, submit respectfully to one's lot, bless the goodness that has given us so much happiness with it whatever it is, and despise affectation.—*Horace Walpole.*

— The Secretary of the Treasury has authorized the transfer to the Navy Department of the Revenue brig Fauntleroy at San Francisco, which the latter department will arm, equip, and thoroughly fit out for service for Engineer Buckley's Telegraphic expedition on the Northern coasts of America and Russia.

IGNORANCE.—Never be ashamed of confessing your ignorance, for the wisest man upon earth is ignorant of many things, insomuch that what he knows is mere nothing in comparison with what he does not know. There cannot be a greater folly in the world than to suppose we know everything.

— A great fair, projected two years ago in the Province of New Brunswick, took place at the close of last month at Fredericktown. It was a great success. Thirty thousand persons attended it—equal to one-seventh of the population. The inventive skill displayed is said to have compared favorably with that of New England.

To beat the Democracy in Pennsylvania, crush the Copperheads in Indiana, annihilate the Peace party in Ohio, and redeem Maryland from the yoke of Slavery, and add twenty members to our strength in Congress, is pretty good work for the October elections.—*N. Y. Tribune.*

— The U. S. Service Magazine, for October, contains an admirable article on the life and character of the lamented Gen. McPherson; and several other articles of military and general interest. Five dollars per year; 50 cents per number.

A man being asked by a young lady what phonography was, took out his pencil and wrote the following, telling her that was phonography: "U. R. A. B. U. T. L. N.!" (You are a beauty, Ellen.)

— A gang of currency counterfeiters, including several women, has been discovered and arrested in New Jersey. Forty thousand dollars in currency, presses, bank paper, plates, &c., were captured.

There is not a stream of trouble so deep and swift that we may not cross safely over it, if we have courage to steer and strength to pull.

— Deputy Sheriff Edwards, of Liberty, Special Agent of the Provost Marshal of the 5th (Maine) district, was killed at Wesley on Wednesday night, while aiding the notifying officer.

At sixteen a woman prefers the best dancer in the room; at twenty-two the best talker; at thirty the richest man.

— A large quantity of coal, double the amount exported in any one season, has been sent from Pictou, Nova Scotia, to this country this year. 50,000 tons now await shipment there.

To the poor wounded soldiers, who have had too much grape and canister, send grape juice and canisters of preserves.

— Capt. Reed of the Tacony, who made such a raid among the fishermen last year, and stole the Caleb Cushing revenue cutter from Portland harbor, has been exchanged, and is now in Dixie.

Certain persons have, exactly at the melting point, the greatest appearance of hardening, as snow freezes just before a thaw.

— H. H. Hunnewell, Esq., has given the sum of $2000 to the Massachusetts Horticultural Society, as a fund for the encouragement of landscape gardening.

A smile is ever the most bright and beautiful with a tear upon it. What is the dawn without its dew?

— The Charleston Courier says: "All of us perceive the intimate connection existing between the armies of the Confederacy and the peace men in the United States."

Men are only indifferent to the world's good opinion when they have lost all claim to it.

— The Bangor Whig states that counterfeit greenbacks, postal currency, and altered Veazie scrip are growing exceedingly plenty in that vicinity.

— A western orator, in a recent political address, said that "James Buchanan was the poultice which brought the present rebellion to a head."

— It is said that Heenan, the pugilist, is poor, unfortunate and sickly. He earns his living as a turf speculator.

— Between 12 and 1 o'clock on Monday morning, Sept. 26, there was a shock of earthquake in the North of England.

— Mr. Robbins, an old Chicago merchant, died the other day, leaving $3,000,000 to his heirs.

—Gen. Hooker has added an aphorism to literature. In his late orders to subordinates of his Department, he announces that "No one will consider the day as ended until the duties it brings have been discharged." If this order were universally obeyed, the Confederates would not only be beaten, but the world regenerated.

COX, OF OHIO, the most impudent, virulent, and flashy of the Copperheads, and a sort of leader of the opposition in the House of Representatives in virtue of his loud voice, insolent bearing, and habit of confident assertion, has been defeated in his district by more than a thousand majority on the home vote. To this will be added the condemnation expressed in the soldiers' ballots.—*Transcript.*

— Gen. Thomas Francis Meagher has published a letter severely denouncing the Democratic party and his Irish fellow citizens for following them. He says the Irish have suffered themselves to be bamboozled.

— Large supplies of clothing and medicine have been sent to the Union prisoners in Texas by Gen. Canby. Arrangements have been made for the exchange of 3450 of the number.

— The Salem Gazette remarks that the woman who wheeled a wheelbarrow full of household goods up Essex street on Thursday noon, exhibited strength and pluck.

The Committee are also in correspondence with REV. A. L. STONE, C. C. COFFIN, (Carleton of the Boston Journal) PROF. T. EDWARDS CLARK, REV. HENRY WARD BEECHER, and others.

TICKETS
FOR THE COURSE—TEN LECTURES—$2;
To be had at the Book Stores, Apothecary Stores, and of the Committee of Arrangements.

☞ No Single Evening Tickets.

The limited number of 800 Season Tickets only will be sold,—two hundred less than last year,—which will allow all ample accommodations. The Committee are obliged to increase the price of tickets, on account of the advance in the fees of speakers and other expenses.

☞ The managers have also decided to issue the tickets in 10 separate numbered cards, one to be given up at the door on each evening, and good only for the lecture which number it bears. And they urge all to remember and *bring their tickets with them*, as positively no person will be admitted on any occasion without a ticket!

Doors open at half past 6, Concert at 7, Lecture at half past 7.

Per order. JAMES H. HEAD,
Secretary C. L. Association.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded on Scientific Principles with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft and glossy, perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

DRAFT.—The following named persons were drafted on Friday, Oct. 14th, from the respective towns mentioned. These are all the deficiencies in the District.

Meredith—Smith L. Neil, Nathaniel C. Webster.

Gilford—Jeremiah S. Goodwin, John Pepper, Charles Flanders, Dudley Gilman.

Epping—Ezra F. Barber, Alfred, Miles, Mathew J. Harvey, Isaac N. Morse, John J. Noble, James J. Guptil.

☞ We learn from the Independent Democrat that Mr. Frank H. Blaisdell, son of Albert Blaisdell, Esq., of Greenland, was quite seriously injured in Concord, on Friday, Oct. 7. He was superintending the laying of the foundation to the State House, and was at work in drilling out a charge of powder in a rock, when the accident occurred. The powder exploded and burned the hands and arms of Mr. Blaisdell very severely, and left in the flesh a considerable amount of powder. Although Mr. Blaisdell will not be able to attend to his duties for some time, he will not receive permanent injury from the burns. He escaped almost miraculously with his life.

☞ Messrs. Ferguson & Burley lost another nice horse, at their livery stable in this city, a day or two since—a well-known grey called "Jim." He was a "gallant and gay" animal, worth a dozen of many of the brutes who have driven him. He came in sick, from a long and hard drive, one afternoon, and died next morning. Peace to his manes! We could have better spared the fellows who killed him.

☞ It ought to be known, that by the new U. S. law, postage stamps and stamped envelopes are sold in lots of $100 or over, at a small discount: so that booksellers and others can afford to keep them for sale,—a very great convenience.

☞ The official list of casualties in Co. G, 10th N. H. regiment, Capt. George W. Towle, mentions the following: Killed, private Curtis Crooker; wounded, Corp. George M. Kimball.

☞ A fine schooner, of about 300 tons burthen, was launched from the ship-yard of Mr. D. D. Badger, at the South End, on Wednesday morning last. We learn that she is built for parties in Newburyport.

☞ The trains on the C. & P. railroad, now make a full stop, before passing the Creek crossing; a safe measure lately adopted.

☞ Have you got your Lyceum tickets? If not, do so at once—or else don't blame anybody but yourself, if you can't get them at all by and bye.

NEW HAMPSHIRE ITEMS.

—— The trial term of the Supreme Judicial Court commenced its session in Concord, on Tuesday of last week, and closed on Saturday. No business of importance was transacted. A few indictments were found by the Grand Jury, and two or three trials were held wherein the Jury failed to convict the respondents. The Court adjourned till next January.

—— G. W. Jackson's carpet store in Concord, was entered while he was at dinner, one day last week, and a $100 check and $80 in money taken from the drawer. On Saturday, $108 in money was stolen from a trunk in M. Ordway's confectionery shop, in the same city. It was taken while Mr. O. was in an adjoining room for a minute or two.

—— The Governor has appointed Capt. Joseph M. Clough, late of the 4th regiment, Lieut. Colonel of the 18th, vice Carr resigned; and Wm. I. Brown, Adj. 9th N. H. V., to be Major. The Governor has also issued the following proclamation, which we take from the Monitor:

While it is my privilege to announce to the people of New Hampshire that the quota of our State under all calls is now substantially filled, I would urge upon our citizens the necessity of laboring with unremitting diligence till the eighteenth regiment of infantry and twelfth company of heavy artillery are filled to the maximum. To complete these organizations we now require about six hundred men, and we are allowed by the War Department thirty days in which to fill the ranks and complete the organization of these bodies. Prompt, energetic and experienced officers have been designated to the command of the regiment and company, and the Executive will spare no pains to fill them with New Hampshire men. The Honorable Council have voted unanimously to continue the payment of State bounty of $100, $200 and $300 to one, two and three years' men, and instructed me to impress upon the towns the importance of similar action. Will not our local authorities anticipate the wants of the Government and, even though no call is made, no draft is pending, send to the assistance of our noble brethren in the field the few men required to complete those organizations which have been so auspiciously begun? Believing that it is no time now to measure and weigh our obligations to our country, and that the people of New Hampshire have no disposition to do so, I have promised the War Department that the Eighteenth Regiment shall be filled in thirty days.

— The Irishmen have organized a circle of the Fenian brotherhood in Salem, Mass.

☞ The celebrated trotting horse Royal George, owned by Mr. Field, of Buffalo, died suddenly at the stables of Carpenter's Island Park Course on the 9th inst. The horse was apparently well ten minutes before his death. He had taken his morning feed and trotted twice around the course, and never moved with more spirit and vigor. On reaching the stable he suddenly fell down, and died without a single struggle or groan, before the harness could be taken off. Disease of the heart was the probable cause. Royal George was valued at $15,000, and only last week Mr. Field declined a cash tender of $10,000 for him.

VALUABLE HORSES CHANGED HANDS. The celebrated trotting stallion Gen. McClellan, formerly known as the Pease-Drew colt, has been purchased by Mr. O. M. Shaw of Bangor, and the Messrs. Stoddard. The animal cost his present owners $6,000, and it is generally conceded that they made a great bargain.

The fine young trotting stallion George B. McClellan, formerly owned by Horace McKenney of Monroe, has also been purchased by Mr. Shaw and others for $8,000. These horses are destined to take important places in the trotting world, as they have already made 2:26—a feat which both accomplished at the Belfast fair. They will be retained at the Bangor House stables.—*Portland Argus.*

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

No vocabulary can furnish language sufficiently strong in commendation of that excellent and indispensable article known as the J. Monroe Taylor Gold Medal Soap. The lady having aught to do in any household department, from the wash tub to the finest needle work, should not fail to supply herself with a year's stock. It only requires a person to use it once to use it their whole life. Most of the grocers sell it. 9

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Try it with cream tartar instead of sodas. It is much better. Try it. Grocers and Druggists sell it.

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

Why Mrs. C., how nice and clean your clothes always look! What kind of soap do you use? Well, Mrs. D., it gives me great pleasure to say that I use the Gold Medal Soap, manufactured by J. Monroe Taylor, 112 Liberty street, New York, and as long as he keeps the quality as good as now, I shall never use any other. Every one who will try it, will say just what I am telling you. Try it and be convinced. 10

L. M. EMERY, ARTIST,

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$10,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H, Nat. Mech. & Traders' Bank,

and by all National Banks which are depositaries of public money, and

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

NATIONAL SAILORS' FAIR.

Office, Washington Building, 221 Washington St. Boston.

INVITATION TO FARMERS.—In addressing the country at large in behalf of the National Sailors' Fair, we include in this general call every individual who is able to aid in this noble enterprise. But as in some instances we have made SPECIAL appeals, we feel the same course due to you, the Farmers of our country, so large a class in our midst, knowing we shall meet a warm response.

No cause could come nearer to you than this, for have you not fathers, husbands, brothers and sons, who have given up all that is dear to them and will give life itself if need be, to rescue their country from the invaders of its peace.

This is the first call made in behalf of the Sailor disabled in his country's service, and no call can be more imperative.

Will you not then bring to us of the products which a God bath given you, whatever you can; Oxen, Cows, Horses, or Beef, Mutton, Pork, Poultry, Hay, Oats, Milk, Butter, Cheese, Eggs, Grain or Flour, Apples, Pears, Celery, Cranberries, anything you can spare of your abundance.

The Fair will open the 9th of November. As it will be open ten days, contributors can send from time to time, as may best suit their convenience.

It is requested that the name of the donor be attached to each contribution, and that a memorandum of value accompany each article.

A receipt will be given on the delivery of any article at the Receiving Depot, 221 Washington Street. MRS. WARREN COLBURN,
Com. on Refreshments.

From the Portsmouth Journal.

THE PEPPERELL SNUFF-BOX.—We recently mentioned, in connection with the death of Geo A. Ward, Esq., the story of his silver snuff-box. Some particulars we did not give:

When Col. Pepperell visited England, he was presented to the King, who asked him what he could do for him in acknowledgment for the services he had rendered the government. The Col. answered, "nothing, your majesty, but keep the French off from our fishing grounds." The King was so struck by this reply, that after Knighting him he gave him the box, which has on the lid, in relief, Diogenes in his Tub, and Alexander as he stood asking the same question of the philosopher which he, the King, had asked of the Col. and the answer to which had been so similar—"Nothing but get out of my sunshine."

The box is now in possession of James C. Ward, Esq., of Northampton, Mass.

Lady Pepperell had also a silver snuff-box presented by one who stood higher in her estimation than the King. Lady P. remarked one day in the hearing of a lady who told us the story, "My husband means to make me a confirmed snuff-taker, for he has put his own likeness on the inside of the lid."

A MERITED APPOINTMENT.—We are pleased to learn that Mr. Frederick L. Dodge of this city has received the appointment of First Lieutenant in the 12th company of Heavy Artillery, now being organized in this State. Mr. Dodge was a member of the Massachusetts 44th regiment, and served through its term.

He has risen from a private to his present position. He has occupied a prominent clerkship in the Provost Marshal's office for this District since he returned from the field up to the time of his appointment, and has acquitted himself in a manner creditable to himself and entirely satisfactory to not only his superior officers, but to the very many citizens having business at his desk. We shall miss his familiar face, but certainly wish him promotion and success. The appointment was tendered him by the State authorities, through Col. Long commanding, without any effort on his part to secure it.

CARRYING AWAY A DESERTER.—John Grimshaw, proprietor of the Portsmouth House, on Bridge-St. was convicted, at the U. S. Circuit Court, Judge Clifford presiding, holden at Exeter this week, for carrying away a Deserter from the Marine Corps stationed at the Navy Yard. It appeared from the testimony, that the deserter, John Sullivan, had a furlough and was last seen at Grimshaw's house, and that on the morning of the 25th of June last, Gainshaw took a man in a buggy to the Greenland Depot, on the Eastern R. R.—purchased two tickets for Boston, and that he and the man went as far as Somerville and got out. Their conduct was suspicious, so much so, that Mr. Philbrick took particular notice of it. Capt. Hebb of the Marine Corps conferred with U. S. Special Agent Kent in relation to the affair, and he has closely followed it up, aided by Capt. Hebb and U. S. District Attorney Charles W. Rand, until the result has proved a conviction of Mr. Grimshaw for carrying Sullivan away. The defence was handled very ably by Horace Webster, Esq., he making an argument of two hours duration—but it appears the jury did not give sufficient credibility to the testimony of the witnesses for the defence to acquit Grimshaw. A motion for an Arrest of Judgment was made and granted until the May term of the U. S. Circuit Court in Portsmouth, at which time it will be argued whether a *Marine* is a *soldier*, or not: the defence taking exceptions on that point. The general acceptation is, that a Marine is a soldier doing duty on shipboard, and the prosecution adopt that theory. The punishment for the crime of aiding a soldier to desert, is a fine not exceeding $500, or imprisonment not exceeding two years—or both of said punishments.

THE NORTHERN MONTHLY.—This interesting Maine publication for the month of October is received. The following is the table of contents:

Nason; Life Boat Incidents among the Presidential Elections—by William Willis; Adieu—a Poem, by ——; Our National Defences—the Maine Border—by Cyril Pearl; The Economy of Nature—by Walter Wells; the Maine Military Record—by the Editor; The South—a Continued Paper—by Neal Dow; Mr. Bodkins Rises in the World—by Nathaniel Deering; Call Back Our Army? Never!—a Poem—by Mrs. E. M. Trout; Col. Dunty of the First Maine Cavalry—by Isaac H. Bailey; Letter from before Atlanta—by a Staff Officer in Sherman's Army.

Published at Portland: Edward P. Weston, Editor and Proprietor. Terms, $2 50 per year.

BURDOCK.—This beautiful plant of the genus *Arctium*, is not generally cultivated in our gardens, but may be occasionally found at the road side. There has been a bountiful crop the present year in the Academy front yard. As the love of flowers and shrubbery is an early taste with children, these splendid specimens of large and luxurious leaves, and the bountiful crop of beautiful burrs, so lovingly adhesive to all who approach them, must have a reining effect upon the opening taste of the young. An occasional thistle might give variety to the verdant display.

CREEK CROSSING.—In accordance with the action of the City Council in regard to the danger attending this highway crossing of the Concord and Portsmouth railroad in this city, Mayor Dearborn has received assurance from the Superintendant that in future the cars shall be stopped at the crossing in coming into and going from the city. This arrangement is better for the public safety and convenience than the erection of gates near the crossing.

LAWS OF NEW-HAMPSHIRE.

Passed at the June Session, 1864.

AN ACT to encourage enlistments to fill up the First New Hampshire Cavalry.

Be it enacted, &c. SECTION 1. His Excellency the Governor is hereby authorized and empowered to issue his proclamation, offering a bounty of three hundred dollars to every recruit who may enlist and be mustered into the service of the United States, to fill up the ranks of the First Regiment of New Hampshire Cavalry, until said Regiment shall contain the maximum number required for cavalry regiment, said bounty to be paid to such recruit, as soon as he shall have been duly enlisted and mustered into the service of the United States as a member of said regiment, and have been received at any rendezvous, appointed and established by the War Department, by the Treasurer of this State.

SEC. 2. In order to meet the demand that may be made upon the treasury under the provisions of the preceding section, the treasurer is authorized to borrow, on the credit and for the use of the State, at a rate of interest not exceeding six per cent. per annum payable semi-annually, a sum not exceeding two hundred thousand dollars, and the Governor is authorized to draw his warrant upon the Treasury for so much thereof as shall be necessary to pay bounties to recruits enlisted and mustered into the service of the United States to fill up to its maximum the said First Regiment of New Hampshire Cavalry.

SEC. 3. This act shall take effect from and after its passage.

Approved June 16, 1864.

AN ACT *relating to the construction of Railroads.*

Be it enacted, &c. SECTION 1. Any town or city in this State, may at any legal meeting duly notified and holden for that purpose, raise by tax or loan such sums of money as they shall deem expedient, not exceeding five per cent. of the valuation of such town or city, as made by the assessors thereof for the year in which said meeting shall be held, and the same so raised, and the same so paid in the construction of any railroad in this State, in such manner as they shall deem proper, provided that two-thirds of the legal voters present and voting at such meeting shall vote therefor.

SEC. 2. Any town or city may make such contracts with any person or any railroad corporation, now or hereafter existing under the laws of this State, for the purposes mentioned in the preceding section, as they may think necessary, and may raise money by tax or loan to carry the same into effect, not exceeding the amount of said five per cent.

SEC. 3. Any town or city raising money by loan under the provisions of this act, shall raise in each year, commencing the third year after such loan shall be effected, a sum not less than three per cent. upon the amount of such loan, to be applied to the liquidation of the principal of such loan in addition to the interest.

SEC. 4. No town or city shall be liable for the debts of any such person or railroad corporation, beyond the amount appropriated or contracted for by such town or city.

SEC. 5. Whenever any town or city shall hold any stock in any railroad, the selectmen are authorized to act for them at all meetings of the corporation, and may appoint an agent for that purpose by writing under their hands.

SEC. 6. This act shall take effect on its passage.

Approved, July 16, 1864.

Resolved, &c. That the Adjutant General be authorized to furnish all necessary colors to all New Hampshire Regiments in the service of the United States, and that the same be paid for out of any money in the Treasury not otherwise appropriated, and that the Governor be authorized to draw his warrant upon the Treasurer therefor.

Approved, August 13, 1864.

Resolved, &c. That His Excellency the Governor be requested to solicit from the War Department permission to recruit in this State two new Regiments or twenty companies of one year men to be credited to its quota under the late call of the President of the United States for five hundred thousand men.

Approved, August 17, 1864.

Resolved, &c. That His Excellency the Governor be requested to inform the War Department that volunteers are rapidly enlisting to fill the quota of the State under the existing call for 600,000 men, and to request that the draft may be suspended so long as volunteering continues with the probability that the whole quota may be hereby filled.

Approved, September 1, 1864.

Resolved, &c. SEC. 1.—That the temporary loan of one million five hundred thousand dollars, authorized by the joint resolution of the June Session, A. D. 1864, may be procured by the Treasurer in such sums, and for such time, not exceeding one year, as he may consider proper, and upon such terms and conditions as shall be approved by the Governor and Council: *Provided*, That at least one half of the loan obtained by authority of this resolution, shall be in accordance with the best bids obtained by public advertisement, unless such bids shall be at a higher rate of interest than the Governor and Council shall deem it proper to pay, and the Treasurer is hereby directed to reimburse the same by the sale of the bonds of the State, authorized during this session.

SEC. 2. Every bid, proposal, loan, or transaction, in regard to the loan authorized by this resolution, shall be a matter of record, by the State Treasurer and Auditor, and the books in which the records are made shall be always open to public inspection. Approved Aug. 16, 1864.

Resolved, &c. That it is the determination of the Legislature and of the people of this State to sustain her pecuniary credit in every particular, and the faith of the State is hereby pledged for the payment and complete discharge of all pecuniary liabilities incurred by the Treasurer with the approval of His Excellency the Governor, and the Council, and in accordance with existing acts and resolves of the Legislature whether arising within or without the State.

Approved September 1, 1864.

WHEREAS the term of service of the 3d N. H. Reg. Vols. expires on the 24th day of August inst.—the 6th N. H. Reg. Vols. on the 18th day of September next, the 5th N. H. Reg. Vols. on the 20th day of October next, and the 1st N. H. Battery on the 20th day of September next, therefore—

Resolved, &c. That the Governor and Council are hereby authorized to appropriate such sums of money as may be necessary to give a suitable reception to said Regiments and Battery on their return, and that the Governor be authorized to draw his warrant upon the Treasury therefor.

Approved, August 19, 1864.

Resolved, &c. That a sum not exceeding ten dollars per man be hereby appropriated for the purpose of defraying the actual necessary expenses of raising five companies of Heavy Artillery in this State, authorized by the War Department, or any other companies or regiments which may be hereafter specially authorized by the War Department, and the Governor is hereby authorized to draw his warrant therefor.

Approved, August 20, 1864.

Resolved, &c. That His Excellency the Governor be requested to cause the payment of any and all bounties heretofore assigned by members of the First N. H. Cavalry, said assignments having been duly approved by the Auditor of Accounts.

Approved, August 23, 1864.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

In unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency, Exhaustion, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Nervousness, Old Age, Weak Nerves, Paleness, Emaciating, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all premature and early decays, and many other complaints that lead to the grave.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would say, *despair not!* The CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

Cures in from one

to three days.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times a day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water-pipe closet attached in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to expect the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases, for they will pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

REAL HEROISM. — Lieut. Buttrick of the 59th Mass. regiment writes: "In the battle of September 30th there was a young man killed, a member of the 57th regiment, who used to live in Concord. His name was Broad. He was never in battle before, as he has been connected with the ambulance train. He met his death in this way: There was a man struck by a solid shot, it cutting one of his legs nearly off. The poor fellow was bleeding to death, but if brought off would in all probability get well. Broad was the only man who would volunteer to go out and fetch him in. It was almost certain death for any man; but, said Broad, 'I have neither wife nor child to suffer if I am killed;' so out he went, and picked him up, put him on his shoulder and brought him in safely, though the bullets flew like hail around him. He came in so promptly that we all thought he had escaped the bullets. But alas! poor Broad was a wounded man. He laid his burden on the ground, saying, 'I may have saved your life, but I have lost my own.' He was shot through the bowels, and died very soon after. He was as brave a man as ever lived."

THE HERO OF ANTIETAM. — Copperhead papers refer to McClellan by the above title — a matter of ignorance on their part. The real Hero of Antietam was Fighting Joe Hooker, who, if he had been sustained by McClellan, would have won the battle, and driven Lee's army into the Potomac. Little had McClellan to do with the fighting on that memorable day, and that little was disastrous to our arms.

The battle was opened by Hooker on the afternoon of the day before, when that gallant General crossed the Antietam with his and Mansfield's corps, flanked the rebel position and pressed close up to their lines as darkness came on. Gen. Hooker that night sent word to McClellan that the battle would begin at daylight the next morning, and that Sumner's corps, which was to support him, must be on the ground at sunrise. McClellan returned answer that Sumner should be there at the time. Now mark: Sumner was not even *ordered* to march till 7 o'clock next morning, and did not reach the field till 9 o'clock, when the battle had been going on for four hours, and when Hooker, thrice carrying the enemy's position in his front, had been thrice rolled back by reinforcements which the rebels thrice sent against him. Had but Sumner been sent as Hooker prayed and McClellan promised, the left of Lee's army would have been routed ere nine o'clock and the battle won. But McClellan held Sumner back till Hooker's gallant corps, borne down by the weight of numbers, had for the third time been driven back, and Hooker himself lay stretched on the field by a wound.

Whether McClellan did or did not mean that Hooker should win the battle, we care not to say; but this we say, that if he *had* meant to prevent him he could not have acted otherwise than he did. Coupling his inexplicable delay in ordering Sumner forward with the equally inexplicable refusal to attack Lee the following morning, when he was urged to do so by both Sumner and Burnside, we may well suppose that Major Key was informed of McClellan's purposes when he said "it was not the game" to destroy or badly defeat Lee's army. That he might then have annihilated the rebel forces, and that he did not, all the world now knows. Let us have done, then, with the mockery of calling General McClellan the Hero of Antietam. Keep that honorable name for him to whom it belongs — gallant Joe Hooker! — *New York Tribune.*

THE CHICAGO DEMOCRATS denounce the Administration for its "illegal arrests." As the persons arrested were taken up for their connection with armed organizations established to inaugurate civil war in the loyal States, the representation of them as sufferers in the cause of free speech is an attempt to exalt into martyrs of freedom the basest and meanest flunkies of slavery. If open rebels are proper objects for powder and shot, the sneaking assassins whom Jeff. Davis employs to stab our soldiers in the back, should at least taste the bitterness of imprisonment.

"Liberty and Union, now and forever, one and inseparable."—The sacred oath is on the soul of the people of America that the work that is begun shall be accomplished, and the gates of hell cannot prevail against the vow.

"For Freedom's battle once begun,
Tho' baffled oft, is ever won."

Even now, hear the shouts of the soldiers, hear the shouts of the sailors, as their voices go up in joy and triumph. Hear the thunder of the cannon sounding unto God the doom of rebellion's last citadel.—*D. E. Ware.*

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers for Drawing Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to ascertain the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by forwarding one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense experience of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them a early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unusual success is proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

MONDAY, OCTOBER 17TH, 1864.

ARREST OF COUNTERFEITERS.—A very important arrest was made Tuesday night last, at Port Jervis, N. Y., of several counterfeiters, and forty thousand dollars in spurious fractional notes. It has been known for six or eight months that counterfeit fractional currency was circulated along the line of the Erie railroad. At every station and at most of the drinking and other saloons, this worthless paper was found. The officers suspected many persons, but finally traced the counterfeiters to Patterson, N. J., where, it appears they had operated for a time, but afterwards removed to Port Jervis. The headquarters of the counterfeiters were surrounded on Tuesday night, and at twelve o'clock they were taken into custody. The persons arrested are Asa Martin, the principle operator; his sister, Fanny Martin; a man named Alexander, from Kalamazoo, Mich., who had come on to purchase one hundred thousand dollars of the bogus currency; and two others. A man named Robinson, the engraver of the plates, was in the house and was also arrested. This man has twice been convicted of counterfeiting. He was six years in prison at Trenton, but was pardoned out eight months ago, and began cutting the fractional currency plates, now seized, on the day on which he was released.

The property captured consisted of forty thousand dollars in currency, which was to be the first instalment of Alexander's one hundred thousand: the press; two complete sets of fractional currency plates of the twenty-five cent and fifty cent denominations; a large quantity of paper, besides inks, tools and other materials.

Some of the counterfeiters, when the officers appeared, were printing, while others were bronzing, cutting and tying notes and packages. Their operations had become so extensive that they found it necessary to build an oven in which to dry the notes in wet weather. The plates were not so finely cut as those on which the genuine currency is printed; but the notes could not be detected by means of the usual test. Comparison with the genuine will always result in determining its true character.

This is one of the most complete though not the most extensive of the operations of the kind in which Col. Baker has been concerned. Under his direction, eleven sets of plates and eleven presses have been captured in the West; and the counterfeiting of government bills is much restricted. It may soon be comparatively at an end.

Close upon the arrest of the counterfeiters at Port Jervis, came another in the city of New York where two more counterfeiters were caught on Wednesday while engaged in printing spurious currency at No. 200 Sixth street. When arrested the men were at work folding and packing into bundles a large amount of fifty cent currency. All of the articles in the place were seized, including over $30,000 of the counterfeit issue, a part of which was ready for use, while another part was only printed on the backs. Two presses, a number of dies, a quantity of acids, and several plates for printing the face of the notes were also taken. It is supposed that the backs were printed in another building, as no plates for that purpose were found. The prisoners refuse to divulge the names of their accomplices. It is believed that a considerable number of persons were engaged in issuing the notes.

RISE IN GOLD.—Gold opened at 218 on Saturday, and the market showed indications of a strong and active interest at work to force up the price to a still higher rate. The Boston Journal says it is believed that the rise in gold is owing to a strong combination of some influential political operators in New York city, who have been waiting to see the result of the State elections last week, and finding they have generally gone in favor of the Union ticket, have now determined to bring all their political and financial power to the aid of the "bull" speculators in forcing up gold, and consequently all other articles. To assist in this movement they count on a strong mercantile interest, whose immediate advantage is in sustaining a high range of prices for all commodities. The object of the politicians is to create discontent among the people.

☞ On the 12th of July last the troops of the Emperor of China succeeded, after several days hard fighting, in capturing the city of Nankin. Tien Wang, the rebel Emperor, killed himself a few days previously by eating gold leaf, determined by suicide to avoid personal capture. The other leading chiefs were taken, and one of them, Chung Wang, has determined to write his life if allowed to live long enough for the purpose. The rebellion in China has lasted for over fifteen years, and at one time threatened the integrity of the Empire.

— All of our prisoners but six hundred, in Richmond, have been removed further South. There are some remaining at Belle Isle or in Libby.

THE REBELLION.

Moseby is reported to have captured a train at Quincy, Va., and robbed two paymasters of $200,000, and the passengers of their money and valuables. The train was burnt. A small body of his guerrillas crossed into Montgomery county, Md., on the 12th, but were driven back.

The rebels are building a new line of works across the Central road, a mile outside the main line enclosing Richmond. And the Examiner says, though Grant is quiet he is not idle.

The Richmond Dispatch states that Gen. Sherman being at Nashville, Hood has by his flank movement cut him off from his army, which will be news to Gen. Sherman.

By Telegraph—Sunday noon.

It is learned that Sec. Stanton and Gen. Meigs left Washington on Saturday morning, on a visit to Gen. Grant. During their stay the question will be considered in making up War estimates for the next fiscal year, whether the transfer of the seat of war to the Gulf States, as illustrated by Gen. Sherman, would not be a measure of great economy, saving the government in the way of forage and other subsistence many millions of dollars. They will remain with Gen. Grant two or three days.

It was announced some days since that Adm. Farragut was relieved of his command in the Gulf Department, and ordered to assume command of the North Atlantic Blockading Squadron, but the condition of his health was such at the time of receiving the order as to preclude the possibility of his complying with it, and the order was at once withdrawn. Adm. Porter of the Mississippi Squadron and Rear Adm. Lee of the North Atlantic Blockading Squadron have been ordered to exchange commands. Adm. Porter has already reached the James river, and assumed command of those waters; and Adm. Lee has gone to the Mississippi to take command of the squadron there.

The mail steamer from City Point brings no news from the front. Advices at hand show that there is nothing new in Gen. Sheridan's department.

There is no official intelligence corroborating the report of the capture of Rome, Ga., by the rebels.

Gen. Schofield arrived at Chattanooga on the 15th, and assumed general direction there. The enemy are reported to be in force at Dalton. Gen. Sherman is close on Hood's rear, and undoubtedly will make his situation too warm for him.

No official returns of the home vote of Pennsylvania have yet reached the office of the Sec. of State. It is impossible to give any aggregate of the soldiers' vote.

Gold closed on Saturday evening at 2.17 1-2.

A NEW DODGE OF UNION SHARPSHOOTERS.—The Richmond Enquirer of the 7th pays the following tribute to the skill of our Yankee sharpshooters:

Conceive a line of battle beyond a breastwork; each man equatted completely out of sight, firing over his shoulder, while, instead of exposing his head and hands to the advancing confederate, he looks away from the enemy and narrowly examines the stock of his own gun. Two mirrors, scientifically placed at the proper angle, and attached to the stock, enable the soldier to see the sight on his barrel and all that comes within range, without exposing any part of his precious person.

— Green, the Malden murderer, is to be executed on Friday, Jan. 13, 1865.

— It is said that H. H. Dodd, the Indiana traitor and leader of the Sons of Liberty, was re-arrested on the 8th, in a farm house near Indianapolis.

—During the past few weeks locusts have been caught in almost every direction in the West of Cornwall, and particularly in the district of Land's End. They have done much mischief among the cabbages.

— A cat factory has been discovered in Paris. Poor puss was found in all conditions; skins drying for gloves, furs for muffs, and the materials for dinner delicacies.

— A memorial has been voted to Queen Victoria from the Ayr Town Council, complaining that people will persist in saying England when they mean England and Scotland. Dreadful attempt on the part of these Scots to control the right of free speech!

— A woman named Emma Ross, in Youngstown, Ohio, recently sued James Band for having tarred and feathered her. She claimed $2000 damages. The jury gave her $1950. The defence set up was the bad character of the plaintiff; but the jury didn't see that she should be tarred and feathered, even if she was disreputable.

— The hope of carrying New Jersey for the Union cause in November is daily gaining strength. A most thorough canvas is in progress, the dark places are being enlightened, and the resolve that the beloved State of the brave and lamented Kearney shall not be disgraced by casting its electoral vote for one whom he did not hesitate to denounce as a coward or a traitor, is nerving the people to unusual activity.

ITEMS—NEW AND OLD.

—Read the first and fourth pages.

— Marzetti, the Ravel pantomimist, died in New York a few days since.

— 24 Pennsylvania regiments give 3300 Union to 560 Copperhead votes.

— The financial pressure in England is pronounced to be over.

— The 19th Pennsylvania district elects Bigler, dem., to Congress by 400 majority.

— Adm. Farragut is sick and it is said is coming North.

— The new Maryland constitution is rejected by 300 majority on the home vote. The soldiers' vote may reverse the result.

— Gen. Scott has arrived at his home in Elizabeth, N. J., where he will probably remain during the winter.

— Ohio sends but two Copperhead Representatives to Congress.—17 Union—a gain of 12.

— Hard wood is eight dollars a cord in Amesbury, Mass., having fallen $2 in two weeks.

— A German tragedian with the sweet and simple name of Bogumil Dawison, is coming to this country from Dresden.

— A baker in Halifax has been sentenced to pay ten cents for every ounce short in his bread loaves.

— The average cost of sinking an oil well shaft of 600 feet, in the petroleum regions, is about $10,000.

— England, although it is a Protestant country, pays £10,000 to Roman Catholic chaplains in its armies.

— It is among the curious facts of the present time, that the receipts of cotton in England are fully up to the largest years. The result is a rapid fall in price.

— The new exchange at Liverpool will cover about two acres. It is intended that it shall be the most beautiful commercial edifice in Europe.

— The supply of apples and pears is so plentiful in England this year, that they hardly pay for transportation to the market towns.

— Part 44 of Putnam's Rebellion Record contains fine portraits of Gens. Rosseau and Johnston; and many important documents relating to the war, both Union and rebel.

— Two young men in Lewiston, Me., who have been addicted to intemperate habits, on renouncing the same, in order to give strength to their resolution, have published their pledge in the paper.

— The Amesbury Villager states that according to all reports the yield of potatoes in that vicinity is larger this season than it has been in any one season before for fifteen years.

— A Cincinnati reporter says of a very elegant female pickpocket—"She rarely speaks to any one; is always quiet, gentle, smiling and genteel; comes like a sunbeam, and, like it, *steals* noiselessly away."

— The U. S. steam frigate Chattanooga, launched at Philadelphia on Thursday, is three hundred and thirty feet long and three thousand three hundred tons burden. She is intended to carry 12 guns, and is built for high speed.

— Among the sayings of Walter Savage Landor, whose death, at an advanced age, we have just recorded, we remember this: "I do not believe the world besides contains so many men, who would reason rightly, as New England."

— Dr. O'Neill, of Lincoln, England, recently, by action of law, recovered three guineas fee from a neighbor who had written a letter purporting to be from a third person requiring his services, but who was not ill.

— Gen. Butler communicated to the rebel Commissioner Ould, on Wednesday, a renewal of his proposition to exchange officer for officer and man for man, including all naval prisoners. Commissioner Ould has made no reply as yet.

— Near the road from Bogóta to Quito, in South America, there is a river, the waters of which are as sour as vinegar. It takes its rise among the Andes in the neighborhood of the volcanoes, which are supposed to impart to it its sulphuric properties.

— On Wednesday Gen. Butler sent a flag of truce notifying the enemy that he had sworn evidence, from rebel prisoners, that one hundred and ten colored Federal soldiers had been taken out of prison by the rebels and made to work on the Richmond fortifications; and that in retaliation therefor he had put the same number of rebel prisoners in his hands at similar work.

— We have received by mail the "Democratic Presidential Campaign McClellan & Pendleton Songster," published in New York and containing a mass of trash that a Fejee Islander would be disgusted with. The campaign has already elicited several good political songs on each sides, but this book doesn't contain them. Here is one 'verse':

"O! send him to his master's care,
That colored cuss and leave him there.
Send him to-day, and let him stay,
That colored cuss from Africa."

Don't send us any more.

"A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots at the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

THACHER, opposite the Post Office and 12 Market Square, Agent for Portsmouth.—Geo. C. Goodwin, No. 38 Hanover street, Boston, Wholesale Agent for New England, and sold by Druggists everywhere. TEBBETS BROTHERS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

Local.

☞ The Temple was crowded on Friday evening last to listen to Rev. A. J. Patterson's address on the issues in the present campaign. Mr. Patterson retained the closest attention of his audience for nearly two hours, as he narrated his own experience in the Army, and discussed the questions of the day, as presented in the platforms of the political parties. His review of McClellan's campaign was most scathing and exhaustive, and was applauded time and again. The address was one well calculated to have a decided effect upon the minds of his audience,—one which will not quickly pass away, but doubtless will be productive of good results.

☞ The U. S. Bark Roebuck, which has been lying at quarantine in Lower Harbor for the past three or four weeks, on account of the existence of yellow fever on board, was brought up to the Navy Yard on Saturday, to receive the necessary repairs. The Tioga and DeSoto will also soon come up.

— The San Jacinto has been ordered to sea forthwith.

— The Merrimac will soon be ready for sea, as also the steamer Albatross.

☞ The following promotions have been made in the 1st company of Heavy Artillery: Second Lieut. Frank G. Wentworth to 1st Lieutenant, vice Wainwright promoted to Senior Major, Sept. 29, 1864.

First Sergt. Clarence S. Grey to Second Lieutenant, vice Wentworth promoted, Sept. 28, 1864.

☞ The official list of casualties in the 6th N. H. regiment, as published in the Concord Monitor, mentions private James Berry, of Co. H, as missing.

NEW HAMPSHIRE ITEMS.

—— Lorenzo Horne's piano stool factory in Wolfboro' was burned on Friday,—supposed to have caught from a stove. Loss $10,000, insured for $2000.

—— Steamers Lady of the Lake and Chocorua will discontinue their trips for the season on Saturday, Oct. 29th, on the Lake.

—— Dea. George Connor, of Henniker, 91 years of age, on the 11th inst, dug thirty bushels of potatoes between the hours of 8 A. M. and 5 P. M.

—— Dr. Alex F. Watson, of New York, Surgeon in the army, has been appointed Medical Director of the U. S. General Hospital in Manchester. There has been some crowing in the papers there relative to the alleged dispatch with which the hospitals buildings had been completed, but it now turns out that they have been sadly neglected. The Governor appointed a special commission to investigate the matter, and they report that the principal buildings have been ready to receive the furniture and fixtures for five weeks; but no buildings have been erected for a laundry or stable; there is no water on the premises for any purpose; no arrangements have been made for lighting or warming any part of the establishment; and there are no water closets and no provisions for house drainage: in addition, the wooden flues designed to receive the funnels and for draft, are entirely unsafe and could not be used without serious risk of fire. The only brick chimney in the establishment is entirely unsafe, being only one brick in thickness, with timbers penetrating even that. The Hospital will not be ready for occupancy in a less time than four weeks; and if any delay should occur in the work, more time will be consumed.

☞ Max Maretzek in a recent card relative to his recent trouble with musicians, says, "you may bring a horse to water but you cannot make him drink, and—forgive the feeble pun—you may take a hoarse singer to the stage, but you cannot make him sing. A refractory tenor, during one of my Cuban trips, concluded that it was desirable to be sick. The weather was fine and the volantes presented unusual charms. It was despotic, perhaps, and decidedly ungallant; but the tenor was arrested by the authorities. His name had been announced on the bills, and that was their justification. Imagine the supreme relief that this event occasioned me. There was to be no disappointment. I had at last reached the blessed land where colds and hoarseness were ignored. The object of my life was accomplished. I had found the Atlantis of all managerial desire, and was never to be unhappy again. The evening came. Precisely at the appointed hour my tenor was delivered to me, guarded by four armed soldiers. The stage was before him, their bayonets behind. In the dress circle was the dignitary who had caged the unwilling singer. A savage glare was directed to the scene as the culprit made his entry, and then the audience listened. They are listening yet, for that resolute man refused to open his mouth. The stream was there, you perceive, but he would not drink."

The love of a pure and innocent female soul is often the guardian angel that guides a man's steps to the best actions of his life.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

It is but simple justice to the Manufacturers of the J. Monroe Taylor Gold Medal Soap, to award him the credit of being far ahead of all competitors in catering to the luxury of the ladies, who prize nice, clean, white clothes (and what lady does not?). Our wife says she could not keep house without it. It is decidedly the Soap of the world. It is a peculiar institution of itself, and such a luxury to use it, that after one trial it is always found to be one of the most useful articles in the household. Depot, 112 Liberty street, New York. 11

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA and half a bottle of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I recommend my full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

DR. SWETT: Permit me to testify as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1846, she had been confined for a number of weeks, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have payment, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

KITCHEN FURNISHING GOODS.

Gas Fixtures.

Persons who desire to have any repairs or alterations made in Gas Pipes or Fixtures, are requested to send in their orders at once. The work can be done much more promptly now than later in the season. E. A. STEVENS.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as the capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank,
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

Morning Chronicle.

OLD ABE'S LAST.—A good story is going the rounds of the papers in regard to President Lincoln. He said to one of our New Hampshire politicians the other day, that many meetings had been held in widely separated places, to take measures to supersede him as a Presidential candidate. But wherever the meeting was held, three men, well known to him, were found to be the moving spirits. It "reminded him of a little story" of a boy in a certain district school, who stumbled at the names of Shadrach, Meshech and Abednago, in reading the scriptures. The teacher, after vain attempts to correct him, gave up in despair, and, turning over a few leaves, set him to work on a fresh passage. He went on very glibly for a moment, then stopped, scratched his head, eyed the page very savagely and exclaimed: "*I be darned if here also them three fellows again.*"

— A jealous man, who was on a visit to London, was induced to call on a clairvoyant to ascertain what his wife was doing at her residence, some ninety miles away. "She is sitting in her parlor," said the lady, "and she looks out of the window, as if in expectation." "Strange," said the gentleman, "who can she expect?" "Some one enters the door I see she seizes him and caresses him fondly." "Horrible!" interrupted the gentleman, thinking of the Divorce Court. "Now he lays his head in her lap, and looks tenderly into her eyes." "Dreadful! she shall suffer for this." "Now he wags his tail!" and so this explained the story, old jealousy decamped, and resolved not to be inquisitive again in regard to his wife.

Reprove thy friend privately; commend him publicly.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the sifting of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass of into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pimples, Consumption, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely as it has been used in our practice for many years, and with those who treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ Persons who have been tried with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health if any cure, and after all other doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $6, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

Cures in from one

to three days.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the Urinary Organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is positively guaranteed to be the cure of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is drastic and in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with the medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. *Its effects are healing, soothing and Anodyne*, curing all stricture, allaying heat, tender and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap *nostrum injections*.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $6.

Price—CHEROKEE INJECTION, $2 per bottle or three bottles for $5.

CHEROKEE PILLS!

Health Preserver!

CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loneness of Spirits, Hysterics, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects they spring from it.

Composed of simple vegetable aperients, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, except during the *first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoicing in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charge Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made among American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice upon matters relating to patents, including the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given, prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES OF ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of Specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All models, or a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend my inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, OCTOBER 18TH, 1864.

☞ The fears expressed for the United States mail steamer Roanoke have settled into a conviction that she has been captured by her passengers while on her voyage from Havana to New York. It is stated that previous to the sailing of the Roanoke, Capt. Drew was informed that his passenger-list contained the names of several rebel sympathizers, and men who would do almost anything in the name of their Confederacy. Capt. Drew expressed himself abundantly able to take care of his vessel against any attack so small a number of passengers could make. With this warning be put to sea, undoubtedly trusting in the fidelity and strength of his own crew. It is thought probable that some of his own men may have been in the plot, and aided in the consummation of the object of the pirates. The Roanoke was an old vessel of about 1000 tons, but was partially rebuilt during the past season, so that she was almost as good as a new vessel. It is conjectured that her capture was planned in New York, and that a vessel with coals, guns and stores was to meet her at one of the small islands of the Bahamas, where she could be fitted out as a privateer.

TERRIBLE ACCIDENT.— An extra train of nine cars, having on board 275 sick and wounded soldiers, from New York for Readville, Mass., was thrown from the track by a broken rail, between Lyme and New London, Conn., on Saturday morning, while going at the rate of 30 miles an hour. The cars were dashed against a solid rock ledge and piled one upon the other in the greatest confusion. As soon as the train could be brought to a stand still, operations were commenced to remove the sick and wounded from the debris of the broken cars. Special messengers were sent to New London for a special train and surgical assistance, and also back to Lyme for such aid as could be obtained at that place. Eleven persons, including two of the brakemen, were killed, and about fifty injured in various ways, some very severely. The bodies of the dead, and those badly hurt, were left at New London. One of the brakemen had both legs cut off. Among the injured were George H. Newhall, Co. A, 40th Mass., of Exeter, N. H., skull fractured and left leg badly bruised; Edward W. Dalton, 10th New Hampshire.

THEY NEVER SPEAK. — In the villages of Antignano, Arenella and Duc Porte, which stand on the same hill in the province of Naples, says the Nazione, of Flor, ence, reside about thirty men and women who, from a singular religious fanaticism have made a vow never to speak. For some years past they have maintained silence. A tradesman (a grocer) is mentioned who carries on his business without uttering a word. Should a customer enter his shop to purchase anything, he weighs and sells. If the buyer has any observations to make, he listens and does as he is requested. Besides, his wife speaks for him, and most ungrudgingly.

Morrell of the Gardiner Journal considers himself an expert in all the departments of a well conducted Paring Bee, and holds himself in readiness to accept invitations any where within ten miles; and in regard to husking just hear the fellow:

"Balls and "stack up" parties may do for dandies and such like, but if you want to see folks really enjoy themselves, just go to a good husking or paring bee. In regard to the "finding red ears, and kissing the girls," we have noticed, in our experience, we have found red ears oftener after kissing than before."

— A rebel mail lately captured shows that the fall of Atlanta is regarded as a terrible disaster by the rebel citizens of Louisiana, and is producing disaffection toward the rebel government.

— Among the indications of the panic created by some of Grant's recent movements is an advertisement in the Richmond Whig, of 1800 lbs. of type of different sizes, which had been "hastily removed to keep it out of the hands of the Yankees and thrown into boxes in pi."

— Japanese advices of Sept. 3d say a naval expedition has sailed to chastise Prince Lechosin, who still closes the Island Sea and interrupts the commerce of Nagasate. The expedition consisted of nine British, four Dutch, three French and one American vessel. This movement will not lead to war, but is simply to chastise the independent Prince.

— The Gloucester Telegraph says: "The school of mackerel have continued their migratory course and were heard of at Scituate on Saturday, Oct. 8. They followed along the coast of Maine, struck our Cape, and are now across the Bay, and will probably leave our waters in a day or two. A later school has reached the north side of the Cape which will probably, wind up the mackerel sport for the year."

THE REBELLION.

Gen. Terry is reported to have made a reconnoissance towards Richmond on Thursday with two divisions of the 10th corps. He discovered the new line of works on the Central road and made an assault on them. But finding it impossible to take them with his force, he returned to camp. As soon as his troops commenced to withdraw the rebels sallied out and attacked, but they were severely repulsed, their dead and wounded thickly strewing the ground. After that our forces were allowed to return unmolested. Our loss in killed, wounded and missing was about 400. The enemy lost about the same.

A correspondent states that Lee is kept constantly on the move, first North of the James and then South of Petersburg, and the strain upon his physical endurance is very great. The rebel works in front of Fort Harrison are so constructed as to completely enfilade each other. In front of them is a swamp. The taking of these works appears to be the next movement of the army, but will be a hard job.

There have been some successful expeditions into the interior of Florida and Mississippi.

The rebels are reported to be massing cavalry on Gen. Grant's left, probably to make a dash on the Weldon road.

Gen. Marston has recovered from his severe illness, and has been assigned to the command of the first division, eighteenth corps. He is again in the field.

It is denied that Gens Meade and Warren have been relieved.

Some of our cavalry surprised a small guard of Mosby's men on Saturday, and captured four cannon, with caissons and equipments.

Jeff. Thompson, with 2000 rebels, captured Sedalia, Mo., on Saturday, robbed the stores, and left. Sanborn's cavalry are in pursuit.

Our troops have re-occupied Ringgold, Ga. Gen. Sherman has over 100 days' rations at Atlanta. Communication with him has been re-opened. He is reported to have been at Silton, nine miles from Dalton, on Saturday. On the same day Hood left Dalton, moving towards Bridgeport, and Sherman commanced moving in the same direction, close upon his rear. Hood had nearly his whole army with him.

Troops have been sent to Columbus, there being rumors of an attack.

— Several large hardware and clothing stores in Baltimore and Washington were seized by the military authorities on Monday,—it is said for carrying on contraband trade, &c. The proprietors, clerks, etc., were arrested.

— Secretary Fessenden, accompanied by Hon. Simeon Draper, Collector of the port of New York, and Hon. Samuel Hooper, of Boston, started on an excursion down the Potomac in a revenue yacht Saturday. They will visit Fortress Monroe and go to City Point. Secretary Fessenden will, on his return, take a northward trip.

— The Inter Colonial Conference at Quebec continues to meet within closed doors. It is said that the Pacific colonies are to be invited to join the confederation. The question as to the executive officers has been discussed, and there is a disposition to have the Chief Executive and the various governors appointed by the Crown.

— It is reported that the Danish Government, since the sad result of her war with Germany, being unable to hold her West India possessions, is anxious to sell them to the United States. They consist of the Islands of St. Thomas, St. Croix, and St. John. The harbor of St. Thomas is one of the finest in the W. Indies, and would be a convenient coal depot for the navy. The people of the islands are said to be in favor of annexation.

— In New York, a lady broke her husband's knee pan in leaning over him to caress their child. Ladies are reckless.

— The Princess Mary of Cambridge has become thinner. She abtains from bread, potatoes and milk, and loses fat thereby.

— The betrothal of the Crown Prince of Russia and the Princess Dagmar of Denmark, is officially announced.

— Notes of the denomination of $500 and $1000 have been prepared and will soon be distributed to the National Banks.

— There is a wood famine in Montreal. The prices have gone beyond the means of the poor.

— The trustees of the Connecticut Reform School have resolved that it is inexpedient to admit boys under ten years of age to that institution.

— Mr. Christopher Gray, aged 102, recently addressed a religious meeting at Brooksville, Me., where he lives, and gave a concise history of his life.

— The U. S. steamer Saco sailed from Boston on Saturday afternoon for the North Atlantic Blockading Squadron. The Saco carries twelve guns.

— Two heavy shocks of earthquake were felt in the lower part of California on the night of the 13th, and another the next morning. No damage was done.

— The Federal corvette Ticonderoga got on shore on Cora Grande, near Maranham, on the 25th August, but sustained no injury.

— It is stated that the counterfeiters, Robert R. Miller and James Norris, arrested at Port Jervis, N. Y., have been discharged on giving bail in $4000.

— The St. John's Globe says it will be a grand thing when the money order system is so extended as to work between the Provinces and the United States.

—The Secretary of the Treasury on Saturday awarded the new loan, accepting all bids above 31-100 premium. Abont 60 per cent. of the amount bid was at that figure, which will make up the $40,000,000.

— A large side-wheel blockade runner has been sunk by our fleet at the entrance of Charleston harbor. Another steamer, which was trying to run out, was driven back.

— The new ocean ram Dictator, ironclad, and carrying two heavy guns, received her commission, stores, out-fit, &c., on Thursday, and will soon go into actual service. Great things are expected of her.

— An Irishman in South Danvers traded for a pig, the other day, by offering the owner, who asked $11 for the youthful grunter, $9 in gold, which the pig seller accepted after some chaffering, receiving a $10 gold piece and giving back $1 in currency.

— The Bath Times has been shown an ear of corn which is fifty years old. It was brought to Bath in the first vessel which left there for the West Indies after the close of the war of 1812. The return cargo of the vessel consisted of molasses and corn and the ear shown was from that cargo.

— In 1860, petroleum oil was unknown in France; in 1861, 40 casks were sent there as a curiosity; in 1862, 3994 casks were sent there as an experiment; in 1863 the demand there brought 29,197 casks, and this year, so far, 56,672 casks have been sent to Marseilles. *Vive l' huile petroleme!*

— The people of Australia, reduced to despair by the persistence of the English Government in forcing transports and convicted felons upon them, propose to turn the tables, and a movement is now on foot to send back a cargo of the worst criminals to the mother country, just to see how the English would like the treatment she extends to that colony.

— At a recent State dinner at Copenhagen, a certain quantity of Queen Margaret's vintage, four centuries old, was produced according to custom on State occasions. It is stated that plenty of sugar is required to make it palatable; "even then," adds a person who tasted the ancient drink, "we only cared to do so for curiosity's sake."

— The intelligent voter finds something suggestive in the fact that the electoral ticket for Mr. Lincoln is headed by Edward Everett in Massachusetts, Daniel S. Dickinson in New York, Thomas Cunningham in Pennsylvania, and David Tod in Ohio—all eminent names, and all of them men who opposed Mr. Lincoln in 1860.

— A story that Gen. Hooker has been left immensely rich, the San Francisco *Alta* thus disposes of:

"1st. Gen. Hooker's wife was not rich when he married her, nor at any other time. 2d. Gen. Hooker's wife was not a Mexican. 3d. Gen. Hooker never had a wife. 3d Gen. Hooker's wife is not dead. 5th. Gen. Hooker is not a Croesus, never was, and never will be."

— The office of the Adams Express Company at Grafton, West Virginia, was robbed on the night of the 5th inst. of a package containing notes of the First national Bank of Pittsburg, of the denomination of twenty dollars. The notes were uncut, in sheets of four notes to each sheet, there being two hundred sheets.

— The Central Pacific Railroad Company state in their annual report that they have thirty-one miles of railroad and telegraph in operation; and their average monthly receipts since June have been over sixteen thousand dollars, and expenses three thousand dollars. The Company are entitled to one million two hundred and sixty-four thousand dollars in Government bonds.

— A gentleman recently entered a London fashionable church, where the female pew-opener expects gratuities. Twiddling a half-crown between finger and thumb he was politely shown into a pew, and then dexterously conveyed a half-penny into the expectant palm of his conductor, who clutched the coin and smirkingly withdrew. Presently the woman brought him a hymn-book, and, still smirking, whispered, "You made a mistake, sir; it was only a ha'penny you gave me." "No," said the gentleman, with a benevolent smile, "it's all right; I never give less." Exite performer, not smirking this time.

—— The funeral of 1st Lieut. Simon N. Lamprey, Co. K, 3d reg. N. H. Volunteers, took place in Hampton on Saturday afternoon, Oct. 15th. The religious services were performed in the Congregational meeting house, and consisted of appropriate music, with address and prayer, offered by Rev. Messrs Thornton, Durgin, and Garland, highly impressive, christian and patriotic. The coffin was draped with the Union flag under which he fought and fell; and the bearers were six young returned soldiers from the same town, who had shared the toils and dangers of the field with the deceased, and who honored his memory,—preceding his remains to the cemetry;—they were followed by all the ministers of the place and by a mourning procession of townsmen.

"A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money is refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

THE UNION DEMONSTRATION in this city this evening, should the weather prove favorable, will doubtless be gratifying and satisfactory to all who follow the Flag and keep step to the music of the Union. The arrangements have been made on a somewhat liberal scale, and extra trains will be run to accommodate the citizens of the surrounding towns who may wish to be present. The company stationed at Fort Constitution, under command of Capt. George C. Houghton, and Company B, Maine State Guards, of Bangor, stationed at Fort McClary, will join in the torchlight procession; quite a large delegation of the residents of New Castle, it is thought, will also come. And the illuminations, it is expected, will be quite general on the streets through which the procession will pass. There will probably be plenty of good music, furnished by the Portsmouth and the Biddeford Cornet Bands, the Band at Fort Constitution, and perhaps by others of which we have not been informed. But all these things read better as history than as prophecy, and so enough said for the present. The speakers announced are men of good reputation as orators.

The attention of them that do ride is directed to the cavalcade notice in another column.

☞ Com'r John Calhoun, U. S. N., has been placed on the relieved list.

Acting Ensign George W. Adams has been ordered to the Vandalia.

Acting Master William Hedges has been detached from the Vandalia and ordered to the Merrimac.

Acting Master William Watson has been detached from the Merrimac, and granted sick leave.

☞ Durham Academy was sold at Auction on Saturday to Messrs. John M. Davis and others of this city for about $190. It is their intention, we understand, to take it down, and to use the bricks in erecting a building in this city.

ANOTHER ELECTIONEERING TRICK.—The Abolitionists have lately had one negro show at Smyth's Hall, as a part of their electioneering plan, and now we understand they are to have another in the shape of that old, worn-out play, "Uncle Tom's Cabin." It is to be brought out under their auspices, at Music Hall this evening. Of course, no intelligent Democrat will patronize a show got up for such a corrupt purpose, or give it any aid or countenance whatever. The performance of this Abolition play under ordinary circumstances, would be of no sort of consequence, but when it becomes apparent that this theatrical company lend themselves to help the sinking fortunes of desperate and unscrupulous tricksters, they deserve the contempt of discerning and fair-minded men.—*Manchester Union.*

The Union is lashing itself into a fury at a very cheap rate. It would pay better for it to keep cool, and not let things trouble it to such an extent. The Company referred to is Messrs. Bidwell & Pike's, which went to Manchester, we apprehend, merely to make money, and not at the request of any political party. But the public there were interested in the play, and turned out well, resulting in what Messrs. B. & P wished,—large receipts. They give the same play here to night, and doubtless would be pleased to meet the same success.

Charles Levi Woodbury was called upon at the Masonic dinner yesterday, for a response to the toast to the President of the United States. Considering the political sentiments of Mr. Woodbury, the choice of respondent was a singular one, and the situation must have been to him somewhat embarrassing. But we are constrained to say that he acquitted himself handsomely, and with a liberality of sentiment which is much to his credit. His speech was appropriate and eminently patriotic, and his personal allusions were in good taste and found a general response. It is certainly not the least of the benefits of Free Masonry if it inculcates political toleration and liberality, as well as patriotism, as exemplified in the speech of Mr. Woodbury.—*Boston Journal.*

— The remains of Chief Justice Taney were removed from his late residence in Washington on Saturday, and conveyed to Frederick, Md. No ceremony of any kind took place. Pres. Lincoln, Sec. Seward and Postmaster Dennison were present, and accompanied the remains to the care.

— A correspondent of the Cincinnati Commercial says it seems as if all agencies, human and natural, had combined to obliterate all traces of Fort Pillow—theatre of deeds so odious to God and man. By various parties it has been leveled down until there remains not so much as one shovel full of earth upon another, and the incessant dashing and rushing of the great river below is fast washing away even the foundation.

REFINED ENTERTAINMENT. — It is said that, at a London concert hall, a singer gets £30 a week for a song and a discourse or two in the following elegant style, which is charming in idea, elegant in expression, and moral in tone:—"Do subject of dis evening's discourse is de world. Now, what is dis world? Nothing but two hemispheres revolving on its own axle trees. Who discovered de world? Robinson Cruso. Am I right or any other man? Let us resume de important inquiry: If pills and ointment cure de gout, what's dat to Lord Byron? Eh? Am I right—or any other man?" Quite right, Demosthenes, if such discourses can please and entertain an English audience. It would hardly do here.

CURIOSITIES OF EATING.—An old beau, formerly well known in Washington City, was accustomed to eat but one meal in twenty-four hours; if, after this, he had to go to a party and take a second dinner, he ate nothing all next day. He died at the age of seventy.

A lady of culture, refinement, and unusual powers of observation and comparison, became a widow. Reduced from affluence to poverty, with a large family of small children dependent on her manual labor for daily food, she made a variety of experiments to ascertain what articles could be purchased for the least money, and would at the same time "go the farthest," by keeping her children longest from crying for something to eat. She soon discovered that when they ate buckwheat cakes and molasses they were quiet for a longer time than after eating any other kind of food.

A distinguished judge of the United States District Court observed that when he took buckwheat cakes for breakfast, he could sit on the bench the whole day without feeling uncomfortably hungry; if the cakes were omitted, he felt obliged to take a lunch about noon. Buckwheat cakes are a universal favorite at the winter breakfast-table, and scientific investigation and analysis has shown that they abound in the heat-forming principle; hence nature takes away our appetite for them in summer.

During the Irish famine, when many died of hunger, the poor were often found spending their last shilling for tea and tobacco and spirits. It has also been observed in New York, by all connected with charitable institutions, that when money was paid to the poor they often laid out every cent in tea or coffee, instead of procuring the more substantial food, such as meal, flour and potatoes. On being reproved for this apparent extravagance and improvidence, the reply, in both cases, was identical: their own observation had shown them that a penny's worth of tea or tobacco or liquor would keep off the sense of hunger longer than a penny's worth of anything else. Scientific men express the idea by saying, "tea, like alcohol, retards the metamorphosis of the tissues;" in other words, it gives fuel to the flame of life, and thus prevents it from consuming the fat and flesh of the body.

If a person gets in the habit of taking a lunch between breakfast and dinner, he will very soon find himself growing faint at the regular luncheon-time: but let him be so pressed with important engagements for several days in succession as to take nothing between meals, it will not be long before he can dispense with a lunch altogether. These things seem to show that, to a certain extent, eating often is a mere matter of habit. Whole tribes of Indian hunters and trappers have been known to eat but once in twenty-four hours, and that at night.—*Hall's Journal of Health.*

UNION CAVALCADE.

The Committee of Arrangements are desirous of having

A Cavalcade Escort
—FOR THE—
Grand Torch Light Procession

On Tuesday evening next, October 18th.

All Persons owning horses, and who wish to join the Cavalcade, are requested to form in front of the CUSTOM HOUSE promptly at 7 o'clock. o17 Per Order.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and THURSDAY, the 26th and 27th of this month.

There is no soap that will begin to compare with the J. Monroe Taylor Gold Medal Soap, and probably no other manufacturer begins to expend one-half as much money to make it worthy of the community, and the maker is richly deserving the patronage bestowed on him. It is a God-send to the world, and all who use it will agree with us that what we say is true. 12

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they can not make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as frosts are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 45 to 60 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to take an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct., 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no *securities* offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

AYER'S PILLS.

ARE YOU SICK, FEVERISH AND COMPLAINING? Are you out of order, when your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is impending. You need not and should be averted by a timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the floods move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, and purify the system from the obstructions which make disease. A cold settles somewhere in the body and deranges its natural functions. These, if not relieved, react upon themselves, and the system becomes overpowered, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly their influence will restore natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the despondent and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Dyspepsia, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed, for the whole class of diseases originating in bilious derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it exhibits the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the Army and the West, try it and you will endorse these assertions.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,
99 WASHINGTON STREET,

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Families, intending to sell or use STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in their Wine and Liquor Vaults.

Wine Store and Bottling Establishment,
99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely-known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle in a paper box, in case of one dozen each. The integrity and honorable sales of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the finest of old Rye, and a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other sufficies, combined as a whole into fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can affect them.

JOHN AND ROBERT DUNSTER'S CELEBRATED

LONDON DOCK SPIRITS AND WINES,

Imported solely by C. A. R., in wood, from the London Docks, and bottled by him in America. The distinguished and world-wide reputation of these articles has induced the proprietors to call and obtain the Sale Agency in this country.—They are sold only in Bottles, *entirely pure, and without adulteration*, and comprise the four kinds, as follows:

LONDON DOCK GIN,
LONDON DOCK BRANDY,
LONDON DOCK SHERRY,
LONDON DOCK PORT.

All in cases of one dozen each, in strong shipping order for immediate transportation, and are sold lower than any other liquors and wines in the market, of equal quality.

Pure California Wines.

The large demand for the pure wines of California has made it a fixed fact that no well selected stock of Wines is complete without them. C. A. R. has made arrangements for the entire production of

The Largest Vineyard in California!

and is now bottling and offers for sale, the finest CALIFORNIA WINES, of the vintage of 1861, of four qualities, in splendid style of labels, bottles and cases—such as

ANGELICA—Sweet.
PORT—Rich.
ROCK—Dry.
STILL CHAMPAGNE—Delicious.

Parties attracted by this advertisement, or who have already become acquainted with the qualities of these articles, can have a case sent them, small or samples by express, when desired, by addressing the subscriber

C. A. RICHARDS,
99 Washington street, - - - Boston.

NOTE.—C. A. Richards would also beg leave to state that the above are only a part of the list of articles for sale and imported by him. He has, in addition, one of the largest stocks in America of **Fine Bottled Wines and Spirits**, of every variety and kind, together with a fine assortment of Liquors and Wines in wicker flasks, for sale by the case or gallon. Also, **Fine Cigars, Sardines, Pickles, Sauces**, and every kind of other luxury usually found in a first class wine store in this country or in Europe.

Orders are most respectfully solicited.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the rooms, and the unsightly smoke from the large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as numerous families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting Dwellings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the costliest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pimples, Nervousness, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all other doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will send free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in the case of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is powerful and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with the medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and detersive*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *so-called quick injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE PILLS!

Health Preserver!!

CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the Pelvis, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASES.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal taint, impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capottes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

TRUTHFUL AND HONEST.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief afforded in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**

at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Pimples, Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend in counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, to rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of the terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid, on receipt of price. Address the Author, Dr. J. Teller, Albany, N. Y.

A lecture on Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, and sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (since 1837,)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, prosecuting Patent claims in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, upon which can be offered rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but from the facilities inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any other agency which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty-one past, has enabled him to secure a late a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, with full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, OCTOBER 19TH, 1864.

☞ Richmond papers of Sunday show that the battle on Friday week created the most intense excitement and uneasiness in the Rebel Capital. All business was suspended, and every person capable of bearing arms, working on fortifications, or otherwise aiding in repelling Grant's raiders, was hurried to the front. The Enquirer contains advertisements from schools, stating that they have been suspended on account of the teachers being compelled to lay down the pen for the sword. Trains of railroad companies were suspended. Theaters and other places of amusement were all closed. Express companies could make no deliveries, the clerks being out with the local forces. All persons employed in printing offices, between the ages of sixteen and fifty-five, were ordered to enroll themselves, and an officer appointed to see that this order was complied with. All the Union prisoners confined in the city were rapidly hurried further South. The Examiner says: "The papers, by a mistaken piece of policy, claim that the Confederates won a victory on Friday." Referring to the need of more troops, The Enquirer says: "Let the call be enforced, not merely in Richmond, but on every farm, in every house and in every cabin of Virginia, and of all other States, for the loss of Richmond is the immediate loss of Virginia."

CHIEF JUSTICE TANEY for almost thirty years had been at the head of the Supreme Court of the United States. He was by birth a Marylander, and his part in political life was never remarkable, but on one or two occasions; but as a lawyer he was early and greatly distinguished. Appointed to the office of Attorney General of the United States in 1831, when President Jackson reconstructed his Cabinet, he held the place until 1833, when he was made Secretary of the Treasury, to remove the deposits from the U. S. Bank, a piece of work which Secretary Duane had refused to perform. The whigs then had control of the Senate, and they would not confirm his nomination. On the death of Chief Justice Marshall, President Jackson appointed Mr. Taney to the vacant place, which he long filled to general acceptance, until his decision in the Dred Scott case showed him to be a mere tool of the slaveocracy, though in his better years he had been opposed to slavery. His health had been failing for some years, and his death was expected months since. President Lincoln will have the appointing of his successor, who will be the third Chief Justice in this century, Judge Marshall being appointed in 1801.

DR. STONE FOR CALIFORNIA.—The N. Y. Independent says the call to Dr. Stone, of Park street church, from the church in San Francisco, included the liberal offer of a salary of six thousand dollars in gold. After fully considering the matter, the Independent says, "he concluded that it was his duty to accept, and accordingly sent in his resignation, which was met by his church and congregation with a unanimous and urgent request that the resignation be withdrawn — the society agreeing to make his salary six thousand. But we learn that he declines to withdraw his resignation, and a large and able council is to be called to consider and settle the question. Our vote is for the West."

SALES OF VALUABLE HORSES. — The Bangor Whig says: At the late Horse Fair at Waterville, Me., several valuable horses changed owners, and in some cases large prices were paid. Waldo T. Pierce, Esq., of this city, sold his fine bay gelding Garibaldi, to Mr. McKay of Boston, for $3000. Palmer of Hartland, sold a valuable bay stallion to T. S. Lang, of Vassalboro', for $1600. A. G. Hunt, Esq., of Bangor, sold his splendid grey gelding, Gen. Grant, to Mr. Nodine of New York, for $1000.—Hiram Reed, Esq., of Augusta, sold his chestnut mare to a Boston gentleman for $800. George Webb of Lewiston sold a valuable animal to a Boston gentleman for $600.

☞ The Portland Advertiser says Lieut. Edward G. Parker, who fell during the battle of the Wilderness, was a young man of uncommon promise and rare sterling patriotism. He was born in Kittery in the year 1841, and entered the ranks of Co. K, 17th Maine Volunteers, in 1862. He had just entered in advance at Harvard College when the President issued his second call for three years men. Young Parker, though meeting the most sanguine expectations of his friends in the successful prosecution of his studies, felt it to be his duty to sacrifice all personal private ends on the altar of his country. High toned and brave, his was no sordid patriotism. Moved by the spirit of emulation, he won his way to a lieutenancy, and fell bearing the flag of his regiment and cheering his comrades on to victory. Parents and friends alike mourn his untimely loss, while Maine has added another to its long list of heroes.

THE REBELLION.

It is again reported that Beauregard is in command of Hood's army. Sec. Stanton telegraphs that Hood, after having struck the railroad in the neighborhood of Dalton and Resaca, has fallen back before Sherman without fighting, abandoning his great movement upon our line of communication. He has torn up some 15 miles of the road from Resaca north, but the injury will be repaired without difficulty. Sherman's stores south of the break as well as north of it are ample. Hood has retreated towards the southwest. His rear left Dalton in haste at six o'clock on Sunday morning.

Gen. Sheridan reports that the rebel army lately under Early, but now apparently under Longstreet, having appeared in the vicinity of Strasburg, his forces moved to attack them on Saturday. Crook, who had the advance, found the rebels drawn up in four lines of battle, but upon his charging them, they broke and withdrew in considerable disorder. Sheridan reports them as continuing their retreat in haste far up the valley.

The Charleston Mercury has a despatch from Mobile, which says: — "On Saturday our eastern shore batteries opened fire on the gunboats and whipped them off. On Sunday the same batteries opened on a side-wheel steamer and hulled and disabled her. The vessel is not now visible in the fleet."

NEW HAMPSHIRE ITEMS.

—— Capt. Durgin of the 7th N. H. has been promoted to Major, and Maj. Rollins of the same regiment has been made Lieut. Colonel. —— In the 3d N. H., Assist. Surgeon Burnham and Capt. Wadsworth have recently been discharged on surgeon's certificate of disability, and Capt. Dow has been mustered out on the recent order requiring but three years' service.

—— Wolfborough does not own a fire engine. A recent destructive fire has awakened the people to a realizing sense of that fact.

—— The Governor has received a dispatch from Philadelphia, stating that Sergt. Maj. Lusey of the 5th N. H. regiment, is dead, — residence unknown. The name does not appear on the rolls of that regiment at the Adj. General's office. Any information regarding him can be sent to Natt Head, Adj. General, Concord.

—— The Nashua Telegraph states that Capt. R. D. Phillips of that city, has been presented by the President with a gold medal worth $1000. It bears the following inscription: "The President of the United States to Capt. R. D. Phillips, for rescuing crew of John Elliot, 1862." On one side is a representation of a wreck, &c., on the reverse the seal of the United States. Capt. Phillips was commander of the Thrasher at the time, and the scene of the event the Gulf of Mexico.

——At Mr. Fay's great sale of Oxford Sheep, at Lynn last week, Mr. Jos. S. Lawrence of Lee, N. H., bought the finest buck and a large number of ewes—fancy sheep, at fancy prices. Glad of it—wish New Hampshire was full of wool.

—— We learn from the Mirror that on Friday the 14th inst., a little child of John W. Prescott of Hooksett, about three years old, fell into a pail of hot water scalding it so severely that it is not expected to live.

— On the 25th of August last a package containing interest-bearing U. S. Treasury Notes, stocks and bonds, to the amount of $50,000, was taken from the office of Brewster, Sweet & Co., brokers, of Boston. On Friday last Capt. Jourdan arrested Mr. John R. Manning, of the firm of Manning & DeForest, brokers, No. 19 Wall st., New York, he having, by the testimony of witnesses, passed several of the missing notes at various places in New York.

☞ The Boston Herald publishes a detailed account, from the Philadelphia Press, of the barbarities of the rebels towards Capt. Segreave, of the 30th U. S. colored troops, who was captured at the time of the mine explosion in front of Petersburg, and has just been exchanged. He has relatives in this city. He was treated by the rebels in a manner which feeds might envy, while he lay wounded and bleeding on the battlefield, and subsequently in the hospital. To his oft-refused request for water, one rebel actually spat tobacco juice into his wounded side and face, saying that was water enough for him.

— Another Harvard student has come to grief, having been fined $15 and costs for breaking street lamps: and still another has been put on probation for being "tight."

— Secretary Fessenden sometime ago stopped the issue of legal tender notes in all forms, and it is now understood that he is determined to stop the issue of certificates of indebtedness, and that no more warrants payable in certificates will be signed.

The J. Monroe Taylor Gold Medal Soap is just the thing to please the ladies. The maker studies their wants and wishes, and leaves nothing undone which will make a washing day a gala day; and from the sale of it we should think it was fully appreciated by them. The lady who does not enjoy the advantage of its good qualities is deprived of a great luxury in the way of nice, white clothes. Go at once and get a supply. 18

LETTER FROM NEW YORK.

From our Regular Correspondent.

NEW YORK, Oct. 17, 1864.

Dear Chronicle:—

A trip of five days into the northern and western portions of our Empire State, at this season of the year, commencing with a voyage up the beautiful Hudson, and continued by a tripping from one to another of the bustling busy cities which lie along its railroads and canals, has sufficient of interest and of change from the continuance of excitement of city-life, (which ever, grows monotonous,) to be agreeable.

The premature frosts have painted the leaves somewhat earlier this year than is usual, and already the high banks of the Hudson present those complete prismatic hues, which contrasting with the rippling blue below, give an effect so gorgeous that scarce any country can surpass.

Niagara, Saratoga and Lake George, are nearly deserted, the cool breezes having driven to their winter rolicking the "glittering generalities" who have fluttered, moth-like, during the summer months amid beauties which Nature surely devised for far better company than much of that by which they are attended.

Among the mountains in the northern part of the State, it was quite cool, a young winter in fact. At Fredonia the people talked of frosts which bit the fruit almost as severely as a Union victory does a Mick-Clellanite, and the sleighs in the yards, unhoused for recent use, confirmed their tales of "last week's snow storm of three inches."

At Elmira, the affair of principal interest is a camp of twelve thousand rebel prisoners, which occupies an immense tract of land just outside of the city. Overlooking it is an observatory forty feet high, with space at the top for a hundred spectators, to which access can be obtained on payment of a dime, or rather what *used to be* a dime. — One man made $8000, in about five weeks out of one of these observatories, so great is the curiosity of every one to get a view of the camp. Seven thousand soldiers act as guard over the prisoners, and sixty officers are on duty, thirty at all times,—four hours off and on.

Admission to the camp is not allowed to any one. I omitted to make any minute of the extent, but if my memory serves me correctly, it is about forty acres,—the whole surrounded by a fence sixteen feet high. About thirty deaths a day are now occurring in the camp, mostly from fever and ague, diarrhea, and other diseases incident to an extreme change of climate. *None from Starvation.*

It is said by the citizens that the North Carolinians sent there to be quartered, are almost without exception, Union men at heart, and most of them are willing to take the oath of allegiance and enter the service if they can be sent to sea, or into the western forces, or anywhere, except to the armies before Petersburg, where they so well know that recapture would be death. There are however, only about 800 North Carolinians in the camp.

I was informed that the large Express wagons of the place, were heaped two or three times a week, and sometimes every day, with boxes of supplies, (wines, extra delicacies, etc. etc.) sent by unknown friends from different parts of this and other States to these rebel prisoners.

I would like to ask every one of my readers, how many of these unknown friends who are thus sending delicacies to these rebels, when they have every substantial and necessary subsistance, instead of sending them to our own soldiers in the field, do you suppose will vote for Abraham Lincoln as the next President?

And now before concluding I wish to say, after the manner of the above mentioned gentleman, "to whom it may concern," a few words which will be best understood and appreciated by themselves. That the items for this correspondence are selected with conservative consideration, caution, and care. That truths too bitter to be pleasant are oftentimes wholesome ones, and that, while *properly* appreciating their very philanthropic desire to "do me some good," I feel quite confident that those directly engaged in the writing and publishing will at all times prove fully equal to the requirements of this correspondence, even should they be deprived of the kind suggestions of certain officious individuals. N.

BALTIMORE, Oct. 13th. *Editor Chronicle:*—Dear Sir: A paragraph in your paper, which I occasionally see, says that there is but *one penny paper* now published in this country—the "Philadelphia Ledger." That is a mistake, as we have two of that sort in Baltimore—the "Sun" and "Clipper," and both good papers. I don't know how they can do it, but such is the fact. Respectfully yours, ROCKINGHAM COUNTY.

— Several heavy failures have taken place in San Francisco, recently, among which is that of John W. Tucker, the well known jeweller. His liabilities are $400,000.

— Butter is selling as twenty-six cents a pound along railroad lines in western New York.

— Thurlow Weed has come out in a strong letter for Lincoln.

FLORA TEMPLE.—We learn from Mr. McMann, who, until recently, has had charge of the above named renowned Queen of the Trotting Turf, that he last week sent her beautiful little Majesty from Amboy, where she had been frolicking in clover for the summer, to the residence, near Baltimore, of her lately deceased owner, Wm. McDonald, Esq. It was at first the intention of the family of Mr. McDonald that Flora should never have bridle put on her again, but it having been demonstrated to the executors of Mr. McD.'s estate that it is the peculiar happiness of Flora to be in trim and to trot, they have concluded to dispose of her to a gentleman who has made them a large offer. We hear that the amount offered is $15,000; a pretty round sum for a mare who is now nineteen years of age. Nevertheless, there are five or six years of good trotting in Lady Flora yet. According to Mr. McMann's account, she never looked better than when he sent her home last week, and she had in all respects the form and action of a colt. It is Mr. McMann's opinion that Flora could be put in condition next spring to trot as well as she ever did in her life. There are thousands who would welcome her return to the course; and if she do come back, there are some steeds that have grown great while she has been away, which will have to look out sharply for their laurels.—*Wilkes' Spirit.*

Little Flora is advertised in the Baltimore papers to be sold at auction in that city to close the estate.

— The American Glass Company's works at South Boston, were burnt on Monday morning. Loss $15,000; insured for $5000. The Company, comprising six journey men glass blowers, had but just got fairly started in business.

— On Friday night, Humphrey's steam mill in Brunswick, Me., was destroyed by fire, with a large quantity of lumber. By the efforts of the firemen and others, much lumber was saved from the flames.

— The daughter of the rebel Slidell and M. Erlanger have been married in Paris with great pomp.

"A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR RE-GENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Disease of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Local.

THE UNION DEMONSTRATION in this city on Tuesday evening, was eminently successful. There were slight sprinkles of rain at intervals during the evening, but not enough materially to interrupt the carrying out of the programme; and during the progress of the procession the streets were thronged by crowds of interested citizens and strangers. Flags were displayed throughout the city, and the names of Lincoln & Johnson appeared prominently at every turn.

The torch-light procession was quite lengthy and brilliant. Transparencies abounded,—mottoes signifying devotion to the Union, and a determination to re elect Old Abe being too frequent to admit of separate mention.

It would be difficult for us to form an accurate estimate of the number of individuals in the procession. Our own city, Kittery, Newcastle, Newmarket, Dover, Newburyport, and other towns, were represented. Torches were unusually plentiful, and to one standing on some slight eminence, and observing the long silvery line of light, as the procession moved slowly along, with the soft light of many-colored lanterns and from brilliantly illuminated mansions shining down upon it from each side of the street, while ever and anon rockets and other fireworks cast their glare over the sea of upturned faces, the scene was one of rare splendor, not easily to be forgotten.

The cavalcade, which escorted the procession, was quite extensive, and included more good riders than we imagined there were in this vicinity, where horseback-riding has been so sadly neglected.

There were several bands present; we noticed the Portsmouth, the Biddeford, and the Dover Cornet Bands, the South Newmarket Band, and the Band stationed at Fort Constitution. The company stationed at that Fort, and Company B, of Bangor, from Fort McClary, turned out with full ranks, and added not a little to the display. The willingness of the latter to take part was especially gratifying, as, being residents of another State and coming from a distant city, they could have no merely local interest in the matter.

Very many private dwellings, stores and public buildings were illuminated, and the streets through which the procession passed were generally in one blaze of light.

A salute of one hundred guns was fired by the Company stationed at Fort Constitution.

The speaking was from a stand on Market Square, and was to the point, well received and frequently applauded. A second stand was occupied by the bands, which played during the intervals of the speaking. Ex-Gov. Goodwin presided.

The exercises were continued until a late hour, little having occurred to mar the harmony of the occasion. Almost every one appeared to be good natured, even the opsition seemingly feeling inclined to draw what consolation they could from the doubts attempted to be thrown around the returns from Pennsylvania. There were some localities, however, in which insults were heaped upon the Union men by men and women. [We hope no cheers were given in the crowd for Jeff Davis. If there were, will the men who gave them be likely to vote for Lincoln or for McClellan? Think of it, doubter.] And a member of the Dover Band received quite a severe cut in the head from a stone thrown by one of those eminently peace men who, harpy-like, hover around Water street, especially at night. Two or three other members of the procession were injured in a similar manner.

☞ We understand that the manager of Father Kemp's Old Folks' Concert Troupe has engaged Mr. C. D. Perry as a ballad singer in the company. He is a member of the choir in the Unitarian Church. While we are pleased that the musical abilities of Mr. Perry are appreciated to such an extent, we are loth to part with so fine a tenor singer, as such are scarce. The Portsmouth Cornet Band will, in his departure, feel the loss of one of its members. Success to him, wherever he goes.

☞ The Exeter News-Letter says that a "woman named Mrs. Mira Robinson, well (or rather ill) known in Exeter and Portsmouth, with a female accomplice of the same stamp, were arrested in Exeter, Friday morning, on a charge of stealing. It appears that as they came by the premises of Mr. Chas. deRochemont in Kingston, about 5 o'clock in the morning, they concluded to make a descent on his garden, and robbed it of a quantity of beets. Mr. deR. was up betimes in the morning, saw them and remonstrated; in return, he got a smart blow from a whip in the hands of 'Mira's accomplice.' Nothing daunted, he followed these *feminine* thieves, and had them carried before Justice Batchelder, who fined them thirty dollars—which they paid, and went on their way rejoicing."

☞ The Portsmouth stockholders in the Portsmouth Steam Factory who have not received their dividend, due the 1st instant, are reminded that the dividend book may be found at the Rockingham Bank.

"ANGLING WITH A FLY." *Messrs. Editors*:—I was walking along the pavement of one of our thronged thoroughfares, with my thoughts much abstracted from the crowd which pressed me on every side, when suddenly my attention was arrested by a voice so soft and sweet that it separated itself from the passers like the breathings of an eolian harp amid the rattlings of the storm. The small voice seemed to address itself to me, and I beheld before me two little girls blushing upon the threshold of their teens, one of whom held up to me a paper, at the same time saying, "We have got enough to buy the piano at our school, all but about fifteen dollars," and then her bright expectant eyes met mine, as she said, "Will you help us through with it?" Now I had heard that several calls had been made at my boarding house during my absence, the purpose of which was to obtain my subscription to this popular piano; and I had cherished an inward chuckle that good luck had relieved me from the necessity of declining to subscribe anything for an object in which I was, to say the least, but little interested, being but a bachelor, and having no children to speak of to derive advantages therefrom, and far too confirmed in my bachelor state to admit the idea of the possibility that I might in the most remote manner derive any benefit from the musical instruction bestowed upon the young ladies of the present rising generation. Under these considerations, as I have said, I would have been glad to have escaped without this appeal; but here I was, in the broad street, with no hiding-place from the blaze of day. I was fairly caught: what should I do? The last link in the chain of my reflections, which had thus been suddenly broken came to my relief—it was about the war I had been thinking,—and I replied that "as soon as the war was over I would make up the whole deficiency myself," and was about to turn from my young friends, when they called again and said, "We cannot wait so long, for *the war will never be over so long as the republicans rule.*" I stayed my steps, lifted my hat, and without another word out came my wallet, and down came the money before the wondering and delighted eyes of my fair anglers, who left me with thanks, wondering what the bait could have been that caught so fine a fish. Since I have reflected upon the whole thing, I feel doubtful of myself, as well as of my money. If my wallet was thus easily opened, why may not my heart be also? What if I should some day be gobbled up before I had time to reflect? Who knows but that the piano may be useful to me and mine yet? PRONE.

☞ The mechanics and laborers employed on the Portsmouth Navy Yard are being paid off for the month of September. There are about twenty-five hundred workmen at present employed there, and the total footing of the September pay-roll is $137,336 09, being the largest amount ever paid on this Yard.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

☞ Meeting of Lyceum Committee at Chronicle Counting Room, on Friday evening, Oct. 21st, at 7 o'clock.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and THURSDAY, the 26th and 27th of this month.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

THE SOLDIERS' TRUE FRIEND.—For over 40 years Doctor Holloway has been supplying all the armies of Europe with his Pills and Ointment, they having proved themselves the only medicines able to cure the worst cases of Dysentery, Scurvy, Sores, Wounds, and Bruises. Every knapsack should contain them.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 232

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

Gas Fixtures.

Persons who desire to have any repairs or alterations made in Gas Pipes or Fixtures, are requested to send in their orders at once. The work can be done much more promptly now than later in the season. E. A. STEVENS.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank,
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

AYER'S PILLS.

ARE YOU SICK, FEEBLE AND COMPLAINING? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, and purify the system from the obstructions which make disease. A cold settles somewhere in the body and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and easily cured by the same means. Now who knew the virtue of these Pills will neglect to employ them when suffering from the disorders they restore the natural action of the system

The Chronicle.

— There is a passage in Wilhelm Von Humbolt's "Letters to a Lady" which is worthy of being read daily by some men and women. It is this:

"The light and shade, the happiness and the unhappiness of a man's life, depend upon the disposition with which he regards it.

An unalloyed contentment of mind cannot be bought by man, it is the golden gift of Heaven. But it is within the reach of all to soften to himself the rough shocks of life in this busy world. He may receive them courageously, sustain them patiently, and by his prudence alleviate or turn them aside; but even if his mind be unequal to those exertions, it need not, as is the case with too many, exert itself to annoy itself." This is good philosophy.

READY FOR DUTY.—Rev. J. E. Bruce, pastor of the Universalist Church in Middletown, Conn., was drafted, in the late call for the army. He returned from the United States Convention on Friday evening, and took the first train on Saturday morning for New Haven, and reported himself ready to enter the ranks of his country's defenders. This was done in opposition to the urgent solicitations of his Society to permit them to furnish a substitute. He had always encouraged enlistments, and no persuasions of friends could induce him to shrink from the responsibility now laid upon him. But, much to his disappointment, the examining surgeon would not accept him, and he returned to his people, to fight the good fight of faith with the sword of the Spirit. Br. B. has shown himself a true patriot and a true christian.—*Univ.*

— The Pennsylvania commissioners, with few exceptions, have returned from the army bringing returns which show an overwhelming Union preponderance. But very few official returns of the home vote have reached the Secretary's office.

— The Waterville Mail says the exhibition of trained steers, at their late Cattle Show, shows how much more easily cattle are managed by kind treatment than by the use of the brad and loud yells and oaths.

— A Yankee in New York makes 35,000 to 40,000 pies every week—occupies four buildings, and has ten horses and wagons engaged in delivering his pies about the city.

— The new Maryland constitution was rejected on the home vote by about 1500 majority; but the soldiers' votes already received turn the scale, giving about 890 majority for the measure.

— The trees on each side of the Orange and Alexandria and Manassas Gap Railroad have been felled beyond Manassas to prevent guerillas from hiding amongst them.

— At a circus in Philadelphia the other afternoon, the performance was stopped while the funeral procession of a soldier passed by the doors outside.

— The subscriptions to the 7-30 loan during last week amounted to more than three millions.

— The Ohio soldiers in Gen. Cook's command, vote 1421 Union, 213 Democratic.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his charges are such (being it correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Contracted and Painful Joints, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend, a counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Male. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed at the shortest terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions. Opinions legal or otherwise rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is the BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind enjoys the charge for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast fund of valuable adjudications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him for their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THURSDAY, OCTOBER 20TH, 1864.

THE REBELLION.

Official advices from Gen. Sherman show that Hood has accomplished very little by his raid, and that he had commenced to retreat south through a difficult country, broken by rough hills and destitute of food, all attempts to draw him into a battle having failed. Beauregard is understood to be in command of the rebel Department of the Mississippi, Hood retaining only a subordinate command. Gen. Sherman took Ship's Gap, on Monday morning, capturing part of the 25th N. C. regiment. Deserters report Hood's forces at 30,000; the strength of his cavalry is unknown. His rear guard Lafayette, going south, at daylight Monday.

The Richmond Whig of the 15th says: "Gen. Grant has largely reenforced the army on the north side of the James River, and a heavy engagement is probable soon. When fighting commences we shall have it both ends of the line."

Gen. Slocum has sent out a foraging party with 1500 wagons from Atlanta, towards Rough and Ready and Decatur, and all returned laden with corn.

Memphis was excited on Sunday by an expected attack from Forrest.

Powell's division of cavalry has been on a raid into the Luray Valley, and succeeded in laying waste everything in the same degree with the Shenandoah Valley. The rebel army, believed to be 12,000 strong, under Longstreet, occupies Faber's Hill.

Price's headquarters are reported to be at Lexington, Mo. Gen. Curtis drove the rebels out of Independence on Sunday, and his advance, at last accounts, was fifteen miles from that city.

Glasgow, Howard Co., Mo., was surrendered to the rebels on Saturday after a five hours' fight. The rebels are spreading over the western part of the State.

The Governor of Kansas has issued a spirited proclamation, calling upon the citizens to suspend all business and unite to defend their State against the threatened invasion by Price.

On Sunday Secretaries Stanton and Fessenden visited Gen. Grant's headquarters and also called upon Gen. Butler, and it was the intention to visit the front at Petersburg.

The rebels are showing a disposition to press the right of our lines lying south of the Appomattox but have made no direct attack. The rebels still keep up their artillery fire on their friends placed at Dutch Gap Canal.

A serious bread riot at Richmond is reported. Old men, women and children, armed with clubs, axes, brooms, &c., are said to have rushed through the streets crying for bread: and to have broken open and plundered houses and stores. The Home Guard were called out to preserve order.

By Telegraph.

News has just been received in Boston of a raid being made from Canada, by a gang of rebels, into St. Albans, Vt., robbing two banks, and committing other depredations. No details have yet been received.

☞ The Richmond Whig advises, in retaliation for the destruction in the Shenandoah Valley, the burning of Boston, Philadelphia, New York or Cincinnati. It says: — "Twenty men with plans all preconcerted, selecting some dry, windy night, might fire Boston in a hundred places and wrap it in flames from centre to suburb. The men to execute the plan are already there. The latter remark applies to the other cities mentioned."

But the Union people of Pockingham County Va., rejoice at the destruction of the Secessionists' barns by Sheridan, although their own property has suffered as well. They deem the punishment just and proper.

THE CONSPIRATORS OF THE NORTH WEST. — The great body of the friends of McClellan in the New England States appear to us strangely ignorant of the principles, purposes and acts of their associates in the North West. Nobody believes that there is an armed organization of Democrats in this region, whose object is to get up civil war in the loyal States, and who intend to inaugurate anarchy if they cannot inaugurate McClellan; but that such an organization exists at the West, and that it is composed of worse because meaner traitors than Davis and Mason, has been established by the clearest evidence. The plank in the Chicago platform, on the right of the people to bear arms in their own defence, was inserted for the object of enforcing the illegal privilege of conspirators to bear arms against the Government of the United States; and the declamation of Democratic orators respecting illegal arrests and the violation of the rights of free discussion, is really an attempt to cover treason and give aid to insurrection.

— Maj. Gen. David B. Birney died in Philadelphia of fever on Tuesday evening, —a severe loss to the Union army.

THE HON. A. H. CRAGIN.—The following synopsis of Mr. Cragin's speech at the Union demonstration in this city on Tuesday evening, has been furnished us for publication:

I come to speak for my country, and to ask you to stand by and support it. Important victories in the field and at the ballot box give us assurance that our country is safe, and that the eighth of November will give us a majority for its *future* safety and prosperity. We should rejoice that we live in times when great deeds are done and great sacrifices are made for freedom and humanity. We are cutting wide and deep the furrows in the subsoil of the country, watering it with the tears and best blood of our noble sons. It is said that the vine nourished by blood gives more luscious fruit. We mean that the tree of liberty, which has been thus nourished in our soil, shall extend its branches till its shadows embrace and cover the down-trodden and oppressed of the earth. The issue in which we are engaged is one of life or death to the Republic. The contest before us has this magnitude, and no man can deny it. The traitors would kill the nation. They seek to destroy our beautiful and humane government. They scorn the doctrines of the Declaration of Independence. They would seek to build an aristocracy upon the ruins of this nation. The disposition to crush the rights of humanity and of democratic equality, by the spirit of aristocratic privileges, in all its manifestations, is most despicable. Our fathers fled from feudal Europe to found on our virgin shores a free Republic. On this broad platform their battles were fought and their victories gained. The principle of the government we would seek to perpetuate is generous and humane. Its sentiment is the sentiment of freedom. These noble and sublime principles it is which expand our affections. In the early days of the Republic they prevailed. For liberty our fathers harangued, for liberty they prayed, they sacrificed for liberty. Tyranny was hateful to men both south and north. But there came a time when the leaders of a powerful party, fast losing their political influence, became the enemies of freedom. Jeffersonian democracy was abandoned, and they sought to revive a worse than feudal slavery. After having monopolized the honors of the government for forty or fifty years, they now seek to disrupt the government and obtain control of it by raising the standard of rebellion.

The issue is one of life or death. In the present campaign two parties there can only be. To speak as a mere partisan I cannot. With me my country is *first, and always*. I stand with and applaud the brave and patriotic men who fight the battles of my country. There can be no neutral position. The man who is not with his government is against it. The man who will not sustain his government is not to be trusted.

The question that arises above all others is, will we conquer a peace? Shall we put down this rebellion, by supporting the platform of the Baltimore Convention? This is a platform which refuses to treat with traitors in arms. It asks those who first assailed the government to allow us to live as a nation. But what is the platform which our antagonists adopt? There is not a sound plank in it. It is filled with denunciation of Lincoln, for his efforts to crush out this rebellion and save the Union, while it has no word of denunciation for those who made the rebellion. Who does not know that it was a Democratic Secretary of War that sent south the arms to commence this rebellion? a Democratic President who refused to send relief to a starving garrison in Charleston harbor?

They tell us the war is a failure. But the news of the fall of Atlanta, the victories of Sherman, Farragut, and Sheridan, proclaim the falsity of the statement. Four years ago the rebels held Forts Donelson, Pulaski, Wagner, Morgan, Gains; they occupied the States of Louisana, Arkansas, Missouri, Georgia, Tennessee. To-day, when one-half of the rebellion is shrivelled and conquered, shall we call this a failure? As well might you call a clap of thunder a failure because it knocks down only your house and barn, and destroys not your hogpen. [Laughter.] There were some failures about four years ago. Buchanan failed to prevent John B. Floyd sending arms to southern traitors, and failed to erect forts in Charleston harbor. Some Cabinet ministers failed to be loyal. They were all Democrats.

Mr. Cragin spoke of the concessions asked by the slave power, and referred to the arguments of the Democratic speakers. He thus continued:

If we succeed in putting down this rebellion our nation will rise higher and higher in national glory. If we fail, our wealth, our power, our glory is all gone. The vast future is implicated in this contest. We ought to rise to the *spirit* of this godlike contest, and hand down to our children our government unimpaired. He who shall destroy this Republic, around his head shall be wreathed no crown. His fall will be like that of Lucifer. The muse of history is now recording the events of this mighty conflict. Look to it that our children never blush for our actions in it. Be brave, be true, be loyal. Be ready to labor, to sacrifice, to give, to die if need be, for our country. Never cause more holy than this. Let us swear here to-night, by the God of our fathers, that, cost what it may, it shall never be lost.

The Band then played "Star-Spangled Banner."

Col. Robert I. Burbank, of Boston, a native of Coos county, this State, was next introduced. He referred to the spirit England has manifested towards us in this our struggle for national life. He said, the acts of England, meddlesome England, will like curses come home to roost. He stated that in the last campaign Lincoln received 1,866,452 votes. In the approaching election his majority will be so great that his name and fame will vie with that of our immortal Washington. Of the army he said, every commander of the Potomac army *has been* a Democrat. Every one *is now* a Lincoln man but one, and that is George B. McClellan himself.

Mr. Potter of Boston was the next speaker. He was followed by Major McDonald, an officer from the army of the Potomac. He handled most ably the topic of McClellan as a military man, whose attempts were always "how not to do it." He claimed, as have so many others whose opportunities of knowing were beyond question, that Hooker was "the hero of Antietam," and asserted with Gen. Kearney that McClellan was the greatest military humbug the world ever saw.

Capt. Hurd of the 32d Mass. volunteers followed in a few words. The exercises were continued till half-past eleven, when the crowd quietly dispersed.

— Gold 209 1-2.

— A match factory has been started at St. Stephens, N. B.

— Our blockaders off Wilmington have taken fifty prizes within a few weeks.

— Gen. Butler arrived at Fortress Monroe on Monday from the front.

— Richmond papers admit that Sheridan's phrase, that he settled Rosser, must in shame be confessed to be true.

— More failures have occurred in England. The crisis is not yet over.

— The Sioux Indians demand that their annuities be paid in gold.

— The rebel loan in London fell to 58, on the news of Gen. Sheridan's victories being received.

— Dr. Bellows has returned to New York, and preached in his own pulpit on Sunday evening. He collected $200,000 in California for our soldiers.

— The Newburyport and Merrimack river pilots have been allowed to increase the present rates of pilotage 30 per cent., on and after November 15th.

— The N. Y. Tribune concedes a Democratic majority in Pennsylvania on the home vote of 751, but claims a Union majority, including soldiers' vote, of 10,000.

— A Peace convention met at Cincinnati on Tuesday, and satwith closed doors. It is understood that an independent Presidential nomination is to be made.

— It is rumored in England that the author of "Margaret Denzil," in the Cornhill Magazine, is no other person than Queen Victoria.

— A prominent citizen of Boston is about to open a house for incurable consumptives. This is the first institution of the kind opened in the world.

— The late Joshua Bates, of London, left a fortune of $8,000,000. He attended closely to his business as a merchant and never sought, or held any political office.

— At a late fire in New York the manuscript of Mr. Charles G. Leland's work on "The Origin of American Popular Phrases," was destroyed, and unfortunately the author kept no copy.

— Faneuil Hall was crowded to excess Friday afternoon to listen to Edward Everett's address, in which he gave his reasons for supporting the government in the present political campaign.

— Information has been received from Japan that our claims upon that Government are in a fair way of being satisfactorily settled, the Japanese Government showing an amicable disposition to that end.

— Weighing so many "stone" is often seen in English print. The weight is thus defined: A stone, horseman's weight, is 14 pounds; of butcher's meat, 8; of iron, 14; of glass, 5; of hemp, 32; of cheese, 16.

— The Brooklyn City Mills were totally consumed by fire on Wednesday morning. The loss will be very heavy, a large stock of flour, wheat, &c., being stored in the mills, which were owned by Messrs. Smith & Jewett. Loss $150,000; insured for $120,000.

— The U. S. authorities have brought a suit against the Metropolitan Railroad Company of Boston for declining to make returns to the Internal Revenue Department of their business as a manufacturing corporation. The Company manufactures its own cars. The penalty for not making the return in question is $500.

— John B. Manning, arrested at New York for complicity in the robbery of Brewster, Sweet & Co., Boston, publishes a card declaring his innocence of the charge, and asserting that he knows nothing of the matter. The whole thing, he says, is either a conspiracy or a mistake as to identity. The robbers got bot $23,000.

— The English papers generally, both those hostile and those friendly to our cause, regard the re-election of Mr. Lincoln as sure. They continue to comment upon the discrepancy between the Chicago platform and McClellan's letter, and express the opinion that this difference cannot but be detrimental to the prospects of the Democratic party.

— The evening train from Boston on Tuesday for Concord, was attacked soon after leaving the Lawrence station by parties who fired stones into the cars. The projectiles broke three windows in the cars. Several persons were hit, but not seriously injured. It is conjectured that the attack was made by some persons who had recently been put off from the train for not paying the full amount of their fares.

DROWNING OF MRS. GREENHOW.—The Wilmington (North Carolina) papers announce the drowning of Mrs. Rose A. Greenhow at that place, on the 1st inst. It is stated that the steamship Condor, in endeavoring to come in over the New Inlet bar, got aground and that a boat from her got swamped on the "trip," and that Mrs. Greenhow, being a passenger on board that boat, was drowned. The Wilmington Journal continues: "Her life had been eventful. She was a native of Maryland, and quite distinguished in Washington society. Her strong intellect and energy of character led her to take a very great interest in politics. She possessed personal graces, as well as mental, that added no little to the distinction she enjoyed. She was the widow of Dr. Robert Greenhow, son of Mr. Robert Greenhow, of this city, well known in other days. He was a gentleman of much learning, who filled the office of translator of several languages for the State Department of the old government. Mrs. Greenhow had visited Europe to publish a book she had written on the war and her imprisonment by the Lincoln government. This she had accomplished, and was just returning to the confederacy, when, on Saturday last, she met her death.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

☞ We wish to do a little growling on topics incidental to the Union demonstration on Tuesday evening. And first, on all such occasions, and in fact on all occasions, more caution should be exercised in discharging rockets and other fireworks. There seemed to be a peculiar recklessness in this particular on that evening. Early in the evening, some one, we know not who, amused himself by firing rockets, or something of that kind, in a nearly horizontal direction across Congress street. It was startling, yet somewhat too conducive of bluntness of speech in those who happened to be in range. One gentleman was hit, and several ladies moved about in a very lively and energetic manner, evidently preferring to have a different kind of sparks around them, if they must needs come so fast and numerously. Also, while the procession was organizing, and, subsequently, during the speaking, rockets were fired from the north side of the Square, directly over the crowd, the sticks coming down swiftly, often heavily, wherever they might chance. Even if struck, one might not be hurt; yet it is not desirable to have them coming down about one's head as freely as so many rain drops. For it might be damaging to an upturned face to be hit by one of these sticks, particularly *if* that stick chanced to be burnt as sharp and as hard as the famous stake with which Ulysses, *alias* Outis, gouged out the eye of huge Polyphemus, the Cyclops. [Turn to thy classical dictionary, O friend of long ago, and tell us if our memory deceives us in those names.]

Then we have wondered if any individuals in that long procession now complain of sprained ancles, occasioned by the innumerable number of small stones lying around loose in the streets of this goodly city. It is probable that there will be other processions before and after the election. So clear away these stones, Somebody. Otherwise, the very stones shall cry out against you.—We have referred to this matter before, and may feel inclined to 'keep pegging away' until Somebody finds out what his duty is.

Worse than all were the attacks on the procession by cowardly, probably drunken, fellows, who threw stones and slunk away into the darkness which they love. These attacks were much more numerous than we at first supposed. It was the last (and first) argument of fools; and the poor, soulless individuals who thus vented their viperous spite, are fit companions of their 'friends' who murdered helpless, innocent men in the streets of New York, and who starve Union prisoners at the South. No matter to which party the perpetrator belongs, the act and the impulse are despicable; and the respectable men of both parties agree in their condemnation of such meanness. And outrages of this nature often times disgust and repel men, whom, otherwise, no amount of argument or entreaty could prevail upon not to act politically with the party mauling. "Time makes all things even," and in the long run it don't pay.

POLICE COURT, Wednesday.—Albert Ham, for an assault, was fined $7, and costs $4.09, which he paid.

Harry Norton, for using obscene language in the street, was fined $3, and cost $4.97, which he paid.

Daniel Clark, for attempting to rescue a prisoner from the officers on Tuesday evening, was fined $10, and cost $4.20, and committed to jail for non-payment, subsequently he was released on payment of the above, and also of $1.50 additional costs.

☞ Two concerts are to be given in this city, Oct. 29 and 31, by the Italian Opera Troupe, consisting of Sig. and Mad. Liberaty, Sig. Negrini, Messrs. Joan Louis, Gebert, and Schultze, and an excellent orchestra. The programme will consist of selections from German and Italian Operas.

☞ Mr. Shores has Harper's Magazine for November, an excellent number.

NEW HAMPSHIRE ITEMS.

—— Charles Page, 2d N. H. regiment, died at the Hampton hospital, last week.

—— Thanksgiving Day in New Hampshire Thursday, November 24. In Maine and Massachusetts the same day.

—— The 11th company of Heavy Artillery was mustered into the service at Concord on Monday, and will soon leave for the front.

—— Capt. James Moore, 80 years old, and his wife, 83 years old, dug, picked up and pat into a cart 35 bushels of potatoes, one day last week, on their farm in Pembroke.

—— Chaplain Emerson of the 7th N. H. is reported missing in one of the recent engagements. He left his horse in charge of a private, and went on to the field to care for the wounded, and has not since been seen. It is supposed that he is a prisoner. Mr. E. was formerly pastor of the Methodist church in Fisherville.

— Peterson's Magazine for November is a good number. It is still published at $2 a year—two copies for $3, but how it is done and made to pay it is difficult for us to understand.

MORE COUNTERFEITERS CAUGHT.—The detective police of New York succeeded in breaking up another gang of counterfeiters, on Monday. Superintendent Kennedy received information of an establishment for the manufacture of bogus currency, in which several parties were engaged. After some weeks of watching, it was ascertained that it was located in a building in the upper end of Broadway, East New York.

On Monday, everything being in readiness, detectives made a descent on the place and seized a quantity of paper, sufficient to print $100,000 of the bogus stuff, together with plates for printing 25 cent stamps, printer's inks, rollers, dies, etc. Charles Tornez, an Italian, and Wm. Wagner, a German, were arrested. Tornez was caught in the act of preparing the material for printing. None of the stuff had been struck off, but a few proofs were found, sufficient to determine that the execution of the engraving was almost without a fault. In a short time, no doubt, the city would have been flooded with this bogus currency.

☞ Brigham Young says, in one of his sermons or addresses:—

In November, 1838, Joseph Smith and others were arraigned before Judge Austin A. King, in Ray county, Missouri. In course of the examination our church organization was converted into a temporal kingdom, which was to fill the whole earth and subdue all other kingdoms. Much was inquired by the Judge (who by the way, was a Methodist), concerning the prophecy of Daniel:—"In the days of these kings shall the God of heaven set up a kingdom which shall break in pieces all other kingdoms and stand forever," etc. "And the kingdom and the greatness of the kingdom under the whole heavens shall be given to the Saints of the Most High," etc., when Lawyer Doniphan said:—"Judge, you had better make the Bible treason." The Lord has suffered the earth to lie under sin for thousands of years;—"Wherefore as by one man sin entered into the world, and death by sin, and so death hath passed upon all men, for that all have sinned."

— Much sensation is now caused in San Francisco on account of the Chinese temples there. This is the only Christian city in the world where idolatrous worship is openly carried on.

— It is stated that the Commissioner of Patents has initiated steps for a great manufacturers' and inventors' fair, to be held in the Patent office just precedent to the inauguration of the next President.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

All efforts to rival the J. Monroe Taylor Gold Medal Soap have signally failed; we do not hesitate to pronounce it the cheapest and best Soap in existence: It will take out grease, spots, or paint, will make nice soft soap, and make clothes of all grades look better after washing than any other article of the kind in the market; it will not injure the finest fabric. Try it.—their Depot is at 112 Liberty Street, New York. Most of the grocers sell it. 14

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. Stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress exempts *all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N. H.,
Nat. Mech. & Traders' Bank,

and by all National Banks which are depositaries of public money, and BANKERS AND ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford facilities.

EVERY FACILITY TO SUBSCRIBERS.

Morning Chronicle.

— The brilliant debauchee, Hon. Thomas F. Marshall, of Kentucky, died at Versailles, Ky., on the 22d, aged 64 years. He was a man of extraordinary genius, and in his early years devoted himself to study, disciplining his fine mind with great diligence. As a wit, a logical reasoner, as orator, he would have stood among the very first of America. But he chose to become a miserable drunkard, and wasted his splendid wit in making sport for the rabble. It is said that a cross in love led him to dissipation. He was once a member of Congress.

— The New York city railroad companies have adopted a resolution that on and after the twentieth instant they will sell at their various offices, tickets at the old rates of fare, with the addition of the Government Internal Revenue tax of two and a half per cent. All passengers who fail to supply themselves with tickets in advance will be required, as now, to pay the addition of one cent to the old rates of fare.

— The New York Herald finds by a review of the returns that the party which at the October election carried two of the three States, Pennsylvania, Ohio, and Indiana, carries the Presidential election; and if all three go the same way in October, the Presidency is carried with a general sweep.

—The Portland Courier says "a firm on Congress street dissolved partnership last night in a novel manner. Business was closed up by one partner knocking the other down, after which the firm proceeded to take account of stock. We call no names."

AYER'S PILLS.

ARE YOU SICK, FEEBLE AND COMPLAINING?—Are you out of order, with a disagreeable tongue and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be cured by timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the health of your system circulate freely and healthily. They stimulate the functions of the body into vigorous activity, and purify the system from the obstructions which cause disease, and lay the foundation somewhere in the body, and derange its natural functions. These, if not relieved, resent upon themselves and the system, in the form of sickness, including general aggravation, suffering and derangement. While in this condition, take AYER'S PILLS, and see how directly they restore the natural action of the system, and how rapidly the great feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the more serious ills and pains that afflict us. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they will rapidly and many of them surely cured by the same means. None who know the virtues of these Pills will neglect to employ them, when suffering from the disorders they cure, such as Headache, Foul Stomach, Dyspepsia, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily; and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed, for the whole class of diseases originating in Bilious derangement, caused by the MIAS MA or malarious poison.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no Arsenic, Mercury, or deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the Ague Fever Country, try it and you will overthrow those assertions.

EYE, N. H., Feb. 26, 1848. "I hereby certify that my daughter has had the cholera morbus for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands most much. A large amount has been expended by the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some two dozen bottles of Dr. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected above three years ago. I can recommend your medicines as equal Dr. Swett's in removing the various kinds of humors. I have sold a lot to a number of my acquaintances, who were afflicted with humors; many fall cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1852.

I have for several years been troubled with dyspepsia in my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and I tried medicine after medicine in vain, until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I am in good health. H. LOWD.

FROM EDWARD F. CHESLEY, Esq., May 21, 1851.

DR. SWETT: Permit me to testify, as I feel it my duty to do, that your Panacea has cured me of a fever and sore humor, and that previous to your visiting our house in the spring of 1849, she had been confined for a number of years, and was not her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the diseases above named. ISRAEL CHESLEY.

☞ Any one preferring the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it if he not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No 7 High street, Portsmouth, N. H., promptly attended to. may20

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the casting being heavier, and the oven larger than usual, the plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water-pipe attached, to which an elbow can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove made, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, will testify and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and have ground up by the admission of air at the bottom of the pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat, unless using the chimney in the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Charles H. Mendum,
Aaron H. Hill,	John Side, and others.

FOR THE

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Dyspepsia, Nervous Debility, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the painful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Retention, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus (or Whites in female) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form; the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an early or secondary to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, in female, *to healing, cleansing and ameliorate;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable sensations experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The failing, enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

A MYSTERIOUS MURDER.—New York city and Brooklyn have their feast of horrors. On the 3d of October the body or trunk of a man was found in the dock at the foot of Little street, Brooklyn. It was wrapped in brown paper and a piece of enameled cloth, and still presented a fresh appearance—the blood still running, and probably the breath had not left the body more than six or eight hours before it was taken out of the dock. It had been thrown in so recently that a portion of the clothing was still dry.

On the morning of the 10th the pelvis was found at the foot of Corlaer's street, New York. The same day the thighs were found in Gravesend Bay, about twelve miles distant; and on the 13th the legs and feet were picked up off Yellow Hook, about twelve miles distant from the Navy Yard. (Little street runs along the southerly wall of the Yard.) The boots were still on the feet. Clothing was attached to each part of the remains found, showing that the body was cut with the clothes on.

The flesh presented the appearance of having been cut with a large, sharp knife, in the hands of some one familiar with the cutting of steaks. The bones were severed with a fine saw, very straight and even. But there were no marks about any of these portions by which the body could be identified, and careful search was made for the head. Perhaps fifty persons called to view the fragments; all of them had friends missing, but all went away satisfied that it was not the one they were looking after. On Monday morning the head was picked up at Fort Hamilton, being wrapped up in the same manner as the other portions. Each of the bundles, except that containing the head, contained a small piece of iron, evidently intended to cause it to sink, but in each case the weight was too light for the purpose.

A bullet hole was found in the right temple and another in the right eye. The wounds were probed and found to be about three inches in depth. The features present the appearance of a stout, hearty and handsome-looking man of about thirty-five years of age. Everything about the face and head indicated that he was a man of intellect.

The remains were conveyed to a daguerrean establishment, and several photographs were taken, after which hundreds of persons came to see it, but nobody could identify it. All the parts of the body have now been recovered, with the exception of the upper portion of the breast, shoulder and arms.

PRESIDENT LINCOLN'S PAY.—Gen. Spinner, U. S. Treasurer, having been appealed to for an official statement concerning the stories of Mr. Lincoln having drawn his salary in gold and invested it in foreign securities, replies in an official statement, showing:

First: That the President has neglected for long periods to indorse and collect the monthly drafts sent him for his salary: on one occasion collecting none for over eleven months.

Second: That when his attention was called to the loss of interest he was thus incurring, he asked who gained by his loss, and on being told the United States, added: "Then let it remain, the Treasury needs it more than I do."

Third: That the Treasurer was finally compelled to request the President to draw his salary, in order to adjust the annual accounts.

Fourth: That the sum thus drawn was placed in the U. S. five per cent. temporary loan, payable, principal and interest, in greenbacks.

Fifth: That since then such portions of his salary as he did not need have been drawn for him by his friends and invested in U. S. gold-bearing stocks, purchased at current rates and deposited in the vault of the Treasury.

Sixth: That he has habitually neglected to draw the interest on these stocks, and that on one occasion, when the amount of interest payable in gold having accumulated to eight hundred dollars, the Treasurer sent it to him, he returned it, saying, "I reckon the Treasury needs it more than I do."

Seventh: That his losses from not collecting interest on his bonds have amounted to four thousand dollars, which have been virtually given to the Treasury.

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost in the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS ☜ FOR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters connected with the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for procuring their patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below gives proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and the models of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

FRIDAY, OCTOBER 21st, 1864.

THE INVASION OF VERMONT, a brief mention of which, received by telegraph, we gave in our last issue, is thus more fully explained. Twenty or twenty-five armed desperadoes, supposed to be in rebel employ, from Canada, made an assault on the several banks in St. Albans, Vt., about 4 o'clock Wednesday afternoon. The National Bank was robbed of about $50,000, mostly in bills. The St. Albans Bank was robbed of between $70,000 and $80,000, and the Franklin County Bank of a considerable amount. Some twenty horses were also seized and carried off by the desperadoes. Several citizens who resisted were deliberately shot; two were wounded seriously, and it is feared fatally. One has since died. The raiders threatened to burn the town, and left in the direction of Canada. A large party have gone in pursuit.

Eight of the raiders at St. Albans, Vt., were overtaken in Canada and captured, together with nine horses and $50,000 of the stolen money. Co. E, 13th Regt. Veteran Reserve Corps, Capt. A. C. Bayne commanding, left Galloupe's Island on Thursday morning for St. Albans. The company is composed of Vermont men, and more than half of them are voters in St. Albans.

☞ The Georgia Peace Commissioner at Washington, of whom mention has been made, proves to be Mr. C. G. Baylor, who was not commissioned for Washington, but delegated as an agent for Europe, and is in Washington on his own account. He has written a very sensible letter to Gov. Brown of Georgia, in which he says that the scheme of sectional nationality was folly to begin with, and must be abandoned; that the South must consent to return to the Union; and that there will be no change of administration or policy so long as a rival nation aspires to the possession of one inch of what was originally a part of the United States.

VALUABLE TROTTING HORSES BURNED. — On Wednesday evening a large stable connected with the Riverside Trotting Park, at Longwood, near Cambridgeport, Mass., was burned, together with several trotting horses, involving the largest loss, probably, of trotting stock that ever occurred in this country by fire. This week several races have taken place and several more were to come off, consequently the number of fast horses present from various parts of the country was unusually large. At about half-past eight the groom of the horse Pat discovered fire in the second story directly over the stall of that horse, and in an instant after the flames burst through the floor. There were twenty-eight stalls in the building, and twenty three horses are known to be burned, among them much young stock which promised to fill the places of some of the best horses on the turf. Among the horses lost were the following:

Young Sutton and May Kimball, both owned by Mr. J. E. Maynard; Belle of Hartford and Mate, the fine old mare Lady Litchfield, the well known horse Prince and a bay horse, all belonging to Mr. Beckwith, of Hartford; Black Hawk Telegraph owned by Mr. Reuben Dana; Buchanan and Pat, owned by Mr. Osborne, of New York, (the latter being got out, although he cannot live); Grey Eagle, owned by Mr. C. H. Blanchard, of Boston; Albany Maid, owned by Mr. Whitcomb; a bay gelding, a very promising horse, owned by Stephen Hayes; a colt belonging to Mr. Fullum, and the gelding Rapid, which trotted on the track in the five mile race on Wednesday. These are the notable horses, but the young stock lost is serious, and the loss cannot be estimated. Sorrel Dan, Daniel Lambert, and Henry Clay were got out of the building with slight damage, the latter not being hurt in the least, and the other two being injured but little. The veteran Steve White, Superintendent of the Park, also lost several horses of more or less note. There were a large number of very costly harnesses and blankets belonging to various parties, all of which were destroyed.

The stable was upwards of one hundred feet in length and two stories high, built last season, and was owned by Benj. S. Wright. His loss will reach $3000 or $4000, upon which there was no insurance. The origin of the fire is unknown.

The boy who was in attendance on the horse Prince, and the man in charge of the horse Pat were quite badly burned in getting their horses out of the stable: the former it is feared will not survive his injuries.

— Her Majesty's steamer Steady, at Halifax, reports that the Roanoke was captured by the Brains, and was taken to Bermuda, where she landed her passengers, but was not allowed to coal or provision. Braine then proceeded to sea and burned the steamer on Bermuda, and returned with her crew in the boats. He was immediately arrested by the British authorities.

THE REBELLION.

Gen. Sheridan has fought another great battle and won another brilliant victory. The rebels under Longstreet attacked at daylight on Wednesday, and were at first successful, turning our left and driving most of the line in confusion, besides taking 20 guns. Gen. Sheridan was at Winchester, on his return from Washington, and hastening forward found the army between Middletown and Newton, having been driven back about 4 miles. He took the affair in hand, quickly united the corps, and formed a compact line of battle just in time to repulse an attack from the enemy, which was handsomely done about 1 o'clock. At 3 P. M., Gen. Sheridan attacked the enemy with great vigor, driving and routing them, capturing 43 pieces of artillery and many prisoners, besides wagon trains, ambulances and caissons in large numbers. The rebel Gen. Ramseur was captured, severely wounded. The rebels burned some of our trains. Gen. Bidwell was killed, and Gens. Wright, Grover and Ricketts wounded—the first slightly. Darkness prevented further action. Gen. Sheridan occupies Strasburg.

Price is said to be much encouraged by the slight opposition he meets with in Missouri. The rebels are getting large numbers of recruits, constantly gathering arms from captured garrisons, and their army is assuming alarming proportions.

Brevet Maj. Gen. Terry, now in temporary command of the 10th corps, succeeds Gen. Birney, he being the senior ranking officer of that corps.

NEW HAMPSHIRE ITEMS.

—— Potatoes were sold on Saturday last, at Warner, at 32 cents per bushel by the cartload, and they were of good quality.

—— The 11th company of Heavy Artillery left Concord for the front on Wednesday.

—— The farm of Mr. Hiram S. Osborn near the old Piscataqua Bridge was sold at auction 15th inst., for $4300. The farm of Mr. Jonathan Jenkins in Madbury, was sold on the 13th inst., for $1900.

—— The Sands Needle Co., of Laconia, have introduced steam in place of water power in their manufactory, and have doubled their productions within the last four months.

—— A young man named George O. Kimball was fatally injured in London, by the accidental discharge of a gun upon which he was leaning, on Friday, the 14th inst. The charge entered the left lung, and he lived but a few hours.

—— On the 1st of October the First District lacked 24 men of being full. The Second District lacked 49 men—making a deficiency in the entire State of 73. The Third District has an excess of 15—leaving a total deficiency on October 1st of 58. The Concord Monitor is credibly informed that at the present time there is a slight deficiency in Ward 5, Manchester. All other sub-districts are full. Many have a surplus.

—— The Lancaster Republican publishes the following complimentary allusion to a runaway apprentice:

A young man calling himself Edward R. Hoogs, for several months an apprentice in this office ran away without cause during a recent brief absence of the editor. He is of Canadian birth and appearance, is about 18 years old and represents that his family resides in Quebec, C. E. He is a pilfering, lying, indolent, and generally worthless fellow. The craft in the States and Provinces will confer a benefit upon itself and society if publishers of papers will pass this fellow around, as he will doubtless endeavor to palm himself off as an honest workman.

FLOUR $7.75.—The copperheads in the New York Produce Exchange, Wednesday, being very boisterous, and apparently sincere in the belief that if Mr. Lincoln is re-elected flour and other provisions would rule very high during his term of office, a highly respectable flour dealer offered to sell at his option, any time during Mr. Lincoln's next four years as President, 1000 barrels of extra State flour at $7.75, and dared them to show their sincerity in making the predictions of high prices by accepting his offer. They declined to accept the offer.

— The Russian government encourages marriage among its soldiers, provides the couple with a house, supports them, rears their children, but takes away all the boys at a tender age and sends them to military garrisons, there to be trained for the army. There are 300,000 of this kind of soldiers now in the Russian army.

— A widow lady of Orland, Me., was robbed of her purse, containing $160, in one of the Cambridge horse cars Tuesday evening. She was on her way home with the body of her son, a member of the 6th Maine regiment. A few of the police on hearing of her misfortune contributed a handsome sum for her.

— The Peace Convention at Cincinnati on Wednesday adopted resolutions for peace on the basis of the sovereignty of the States; condemn the action of the Chicago Convention; repudiate McClellan, and call for a Convention of States to settle the difficulties. Long and Singleton are spoken of as candidates for the Presidency and Vice Presidency.

— Gold 207 1-4.

— A recent ball dress in Paris cost twenty thousand dollars.

— In England a boy of 15 is undergoing five years' imprisonment for forgery.

— Admiral Dupont, U. S. N., is at the Revere House, Boston.

— Pennsylvania has elected 16 Union and 8 Democratic Members of Congress.

— Bangor is to have a skating park next winter, provided a sufficient number of subscribers can be procured at $6 each.

— Counterfeiters, the Post says, are unpopular chiefly because they give one a false impression.

— On what supposition could a pocket-handkerchief build a house? If it became brick (cambric).

— An enterprising woman is in custody in New York on a charge of robbing sixty boarding-houses.

— An order from the War Department places officers in Veteran Reserve Corps on the same footing with officers of the regular army.

— Brandy and water by degrees—Brandy and water. Branwater. Bramwarra. Branwer. Bremwar. Bramwr-wrr-rr. Brr-sughph!

— An actress at one of the largest theatres of Paris, is about to bring an action against a minor actress for imitating both her gestures and voice.

— Both Austria and Italy are pushing forward warlike preparations with great vigor, as if trouble were mutually apprehended in the spring.

— The boats for Boston on the several lines have announced that on and after Thursday, Oct. 20th, the hour for leaving New York will be 4 P. M. instead of 5.

— Wednesday, the day on which Gen. Sheridan won his great victory, was the 83d anniversary of the surrender of Cornwallis.

— A dispatch, yesterday, said Pennsylvania gives a Union majority of 1,952, with 8 counties to be heard from officially. To-day we may have it Democratic again.

— Indiana shows better for the Republicans than any other State that has voted this year, and there least was expected. In some quarters the change was more decided than was ever known before in politics.

— Capt. Ericsson has been testing a new thirteen-inch gun, which has proved eminently successful, and which, it is supposed, will exert a great change in naval ship-building.

— Four rebel generals — Jones of Virginia, Beals of Arkansas, Trimble of Maryland, and Frazer — passed through Boston on Wednesday, from Johnson's Island, *en route* for Fort Warren.

— The Congressmen elected in Indiana stand eight Union to three Democrats. Colfax's majority is 1629—a gain of nearly 1400. The delegation in the present Congress stands seven Democrats to four Union.

— Edw. A. Long, for many years principal clerk of the Lighthouse Inspector in Boston, has absconded, having defrauded the government of a large amount of money by false vouchers.

— When "Little Mac" had the command of the Army as General-in-Chief, all the employment he could find for Gen. Sherman, the hero of Atlanta, was to take charge of an old barrack at St. Louis.

— The London Times says of Sheridan's renewed victory at Fisher's Hill that "it is one of the very few instances that have occurred during the war of a success immediately turned to such account."

— Wilmer & Smith's European (Liverpool) Times says the gloom in the commercial world shows no symptoms of disappearing, though it has not perceptibly deepened. The uneasiness, however, has extended to the Continent.

— Messrs. Ticknor & Fields, of Boston, have become the proprietors of the North American Review, which will hereafter be published by them. Prof. James Russell Lowell and Charles Eliot Norton, Esq., will continue to be the editors.

— The King of Oude possesses a fortune of $5,000,000. He has not stirred out of his palace for 10 years, and spends his time in collecting beautiful birds for his aviary, and beautiful birds of another sort for his harem. He is a lazy rascal, a great glutton, and a prince.

— The emigration from Liverpool to the United States shows a falling off of 5613, as compared with the corresponding quarter of last year. It is thought that the exodus from Ireland has passed its maximum, owing to the increase of wages from the scarcity of labor at home, and to the advance of the means of living here.

— The rebel raider Wheeler is only 25 years old and very small. He is a ladies' man. At a ball in Carlisle, Pa., just before the war, he got tight, and becoming aware that the ladies were turning up their noses at him, he soliloquized, thus: "Wheeler, you're drunk! Wheeler, the gals are laughing at you! Wheeler, you'd better go home!" and he did.

TROTTING.—At the York Co. Agr. Soc. track, Biddeford, on Tuesday and Wednesday, there were several trotting matches, in which H. H. Smith's stallion Ajax (who is trotting better this Fall than ever before,) and the Brooks mare, of Eliot, figured to good advantage. Lady Brooks, at the Fair, was awarded the first premium of $8, as the best trotting horse raised and always owned in the County; and she also beat Ethan Allen, jr., of Limerick, in a very interesting match of mile heats, best 3 in 5, in 2.54, 2.50, 2.51, there being one dead heat—good time for that one-third mile track—winning the purse of $25, to $15 for Ethan. Next day Lady Brooks and Ajax trotted mile heats, best 3 in 5, for a purse of $100—$20 to second horse; and Ajax won in three straight heats of 2.49, 2.45, 2.45; the Lady well up, but Ajax not pushed at all. He has made 2.34 3-4, in public within a week—his best time. There was also another trot on Wednesday, between Geo. H. Bailey's sorrel gelding John Miller, of Portland, and J. C. McCobb's black mare Widow Webster, of Westbrook, mile heats, best 3 in 5, for $30 and $10; won by Miller in 2.55, 2.54, 2.49, straight heats.

TICKETS

FOR THE COURSE—TEN LECTURES—$2

To be had at the Book Stores, Apothecary Stores, and of the Committee of Arrangements.

☞ **No Single Evening Tickets.**

The limited number of 800 Season Tickets only will be sold,—two hundred less than last year.—which will allow all ample accommodations. The Committee are obliged to increase the price of tickets, on account of the advance in the fees of speakers and other expenses.

☞ The managers have also decided to issue the tickets in 10 separate numbered cards, one to be given up at the door on each evening, and good only for the lecture which number it bears. And they urge all to remember and *bring their tickets with them*, as positively no person will be admitted on any occasion without a ticket!

Doors open at half past 6, Concert at 7, Lecture at half past 7.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxurious growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a silky glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

S. J. COURT.—The October trial term of the Supreme Judicial Court commenced its session in this city on Tuesday last,—Chief Justice Perley presiding. Prayer was offered by Rev. Mr. Waterhouse of this city.

Case No. 54, Cyrus Wood et als. vs. George G. Griffin, an action of trespass for cutting wood and timber on land in Auburn claimed by pltfs., was commenced on Tuesday and given to the jury on Thursday afternoon.

Case No. 55, Samuel Frothingham vs. Joseph P. Morse, was commenced Thursday afternoon. Hackett for plf., Webster for deft.

On Thursday afternoon the Grand Jury reported fifteen indictments, and were discharged. The following arraignments were made:

Charles Griffin, stealing a horse from William H. Smith, Newmarket. Plea, not guilty.

Horace B. Taylor, assault upon Charles Hood of Stratham. Plea, not guilty.

John Hoyt, assault upon Enoch T. Coleman, of Newington. Plea, not guilty.

George A. Wing, stealing two horses, &c., in Portsmouth, from Clement March of Greenland. Plea, guilty. Sentenced to 3 years' hard labor in State Prison.

Loammi Tuttle, assault upon George F. Kenniston, with intent to kill, at Epping.—Plea, not guilty.

☞ As George A. Wing and John Hoyt, two of the prisoners arraigned before the S. J. Court, were being returned to jail on Thursday afternoon, from the Court room, Wing, who is favored by Nature with a somewhat small and delicate hand, managed to slip his irons, with which he was attached to Hoyt, and ran down one of the side streets leading from Islington street. Hoyt also started in the opposite direction, over Mason's hill. These two prisoners, with two others, were at the time in charge of Sheriff Adams, and handcuffed together in pairs, the two who escaped being behind him.

Mr. Adams sent for the police, and, aided by Officer Johnson, instituted a search for Wing, which at length resulted in the discovery of that individual in a coal bin, in which he had carefully covered up his precious body with the coal, except his (to himself) more precious head. He was not permitted to remain there long.

Meanwhile City Marshal Dresser and Officers Fredson and Abbott started in pursuit of Hoyt, and he was found early in the evening by Marshal Dresser and Officer Fredson, in bed at his home in Newington. They escorted him to the watch house, with the handcuff still dangling from his wrist.

A pocket book, containing about $200, was stolen from the counter of Wm. Alton's store on Islington street on Thursday. Mr. Alton having reason to suspect a man named John C. Collins of the act, informed the police, and the accused was arrested on the same day by Marshal Dresser, in a disreputable house on Water street. The pocket book, with $116.56 of the stolen money, was found in his possession.

One John Murphy, probably wishing to read the glorious news from Sheridan's army, on the same day stole a pair of spectacles from another store in this city. But the owner thereof, probably wishing also to read the good news, did not see it in that light, but caused him to be arrested, and in the solitude of his cell John mused that although Sheridan may take guns he mustn't take spectacles,—in other words, that he had this time taken two glasses too many.

Messrs. Editors:—In your item yesterday morning, referring to the careless use of fireworks, &c., you omitted to mention the fact of a narrow escape from perhaps a serious conflagration, owing to the careless firing of a rocket. On entering the ante room of the Masonic Hall, Congress Block, on the evening following that on which the celebration took place, a pane of glass was observed broken, and a spent rocket found on the straw carpet on the floor. It was undoubtedly fired from the opposite side of the street, and had it not been so nearly burnt out, it would have ignited the straw matting on the floor, and would have spread with such rapidity as to have enveloped the hall in flames before access could have been had to it. We communicate this information to inform the public of the danger of the indiscreet use of this or any other kind of fireworks. W.

☞ The steamer San Jacinto dropped below on Thursday morning, and in the afternoon a lot of sailors were transported to her from the Vandalia by the tug-boat Portgre.

TEMPLE—*Benefit of Miss Dollie Bidwell.*—This evening is set apart for the benefit of Miss Dollie Bidwell, who will have the pleasure of presenting to her friends two great pieces—Rosina Meadows, and the spectacular drama of the Forty Thieves—appearing in both pieces. As the lady has striven hard to please the theatre-goers of this city for the past three months, we hope they will show their appreciation of her talents by giving her an overflowing house. Go early to secure seats. D.

—Not a bad story is now going the rounds of Paris. A small German Baron had occasion, as it seems, to see Baron Rothschild, of Frankfort. The great financier was writing away for very life when Baron X. was announced. He did not even lift his eyes, but said, "Take a chair, sir." The baron, with true German touchiness about titles, said, "Sir, indeed! I think M. le Baron did not hear my name. I am a Baron,—the Baron X." "Ah! a thousand pardons!" said the banker, still writing, "you are a Baron. Take two chairs, then, if you will be so kind, and wait till I have finished this letter."

☞ Meeting of Lyceum Committee at Chronicle Counting Room, on Friday evening, Oct. 21st, at 7 o'clock.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and THURSDAY, the 26th and 27th of this month.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

We were never aware that there was so great a difference in the qualities of bar soap until after using the J. Monroe Taylor Gold Medal Soap; our advice to our readers is, go without delay to your grocer and get a supply, for it is a truly wonderful article, and will not injure the finest fabric; our experience is that it is the best and greatest dirt-extracter known among the many different brands in the market. Their Depot is 112 Liberty Street, New York. 15

SABRE CUTS, GUNSHOT WOUNDS, AND all other kinds of Wounds, also Sores, Ulcers and Scurvy, heal safely and quickly under the soothing influence of HOLLOWAY'S OINTMENT. It heals to the bone, so that the wound never opens again. Soldiers, supply yourselves.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 233

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

LAWS OF NEW-HAMPSHIRE.

AN ACT to enable the qualified voters of this State engaged in the military service of the country to vote for Electors of President and Vice President of the United States, and for Representatives in Congress.

Be it enacted, &c.

SECTION 1. All qualified voters of this State who shall be in actual military service of the United States on the days duly appointed by law for the choice of Electors of President and Vice President of the United States, and for Representatives of this State in the Congress of the United States, shall be entitled to exercise the right of suffrage in all civil offices, at the several posts, camps and places where the regiment, battery or artillery to which such voter belongs shall be, if more than one company, or part of a company under a separate command, may be on said days, as fully as if such voters were present at the places in this State where such elections may be held, and where such person would be entitled to vote; any provisions of law now in force to the contrary notwithstanding: *Provided*, That this section shall not extend to, or include any person who is a captain, or standing army of the United States, nor any person in any regiment, battery or company organized or officered out of this State.

SEC. 2. Hereafter in order to effect the provisions of the preceding section, elections may be held at the several posts, camps, or places in the said section mentioned in the manner following, to wit: The vote shall be taken by companies. The three ranking officers in each company or battery of artillery shall act as judges of election to preside at the election, and under the provisions of this act. In case of the absence, inability, or refusal to act of any of said officers their duties as such Judges shall be performed by the officers next in rank. The oldest in rank in each company or battery shall act as Chairman of the Board of Judges and shall act as moderator at the election. Said Judges shall appoint a qualified voter of the company to act as clerk. The Judges of elections of each company shall make a canvass and statement of the result in writing of the votes cast by such company or battery as hereinafter provided. The regimental and staff officers of each regiment shall be entitled to vote at the polls opened in any company of the regiment in which they be long. *Approved.*

SEC. 3. Previous to receiving any ballots said Judges and Clerk shall severally take an oath or affirmation that they will support the Constitution of the United States and of the State of New Hampshire, and that they will faithfully discharge the duties of their offices, and will studiously endeavor to prevent all fraud, deceit or abuse in conducting the election. This oath or affirmation shall be subscribed by the persons taking the same, and may be administered by either of said Judges, and shall be returned with the result of the election as hereinafter provided.

SEC. 4. The polls of the election shall be open at least four as the Judges of Election or a majority of them shall determine, and shall be closed at an hour determined upon by major vote of the voters present, provided that time shall be given for all voters in the company or battery to vote, and that notice of the time of closing the polls shall be given at least one hour before the closing of the same.

SEC. 5. Each ballot cast at the election held under the provisions of this act, shall have upon the same the name of the persons voting and the name of the town or ward in which he is entitled to vote; and the judges shall refuse to receive any ballot not thus prepared. Each ballot shall also have printed or written upon it the person or persons voted for, with a particular designation of the office which he or they may be intended to fill.—The ballot thus prepared shall be upon one piece, and all the ballots shall be deposited in one box; and it shall be the duty of the Judges to be satisfied that each person offering to vote would be entitled to vote in the town or ward which is shown upon the ballot. It shall also be the duty of each of said Judges, and the privilege of each voter subject to the right of any person offering to vote when he shall know, or have any reason to suspect, or believe that such person is not a qualified voter; and to every person whose right is thus objected to one of the Judges shall administer an oath that he will true and full answer make to all questions touching his residence and qualifications as a voter, and such questions as shall be put and proceedings had as may be deemed advisable by said Judges, and the case of each person shall be decided by a majority of the Judges.

SEC. 6. The clerk shall keep correct lists containing the names of the voters and their respective residence, which lists shall be certified by the Judges, or a majority of them, and by the Clerk to be correct. After the polls are closed the Judges shall canvass the ballots cast and shall make a statement of the result in writing; which canvass and statement, when the election is for Representatives in Congress, shall be made by Congressional Districts; and a copy of such statement duly certified to be correct by the Judges or a majority of them, and by the Clerk shall be transmitted as soon as practicable to the Governor of this State, together with one of the aforesaid lists of voters, and a like copy, with another of said lists of voters shall be transmitted to the Secretary of State. The said Judges shall also cause all the ballots cast to be sealed up in a proper envelope to the Secretary of State. The aforesaid statements, lists and ballots, shall be laid before the Governor and Council, and shall be by them examined, and the votes counted as if duly cast within the State.

SEC. 7. The Secretary of State shall seasonably prepare and have printed all necessary blank forms to carry into effect the provisions of this act, and furnish the same to the commanding officers of each company or battery.

SEC. 8. This act shall take effect upon its passage, and all acts or parts of acts inconsistent herewith are hereby repealed: *Provided, however*, That this act shall be of no effect, but shall become inoperative and void, if a majority of the Supreme Court shall determine it unconstitutional. And it shall be the duty of the Governor of this State to obtain an opinion upon the constitutionality of the bill, and make it known through the newspapers on or before the next Presidential election.

WILLIAM E. CHANDLER,
Speaker of the House of Representatives.
CHARLES H. BELL,
President of the Senate.

[In accordance with a concurrent resolution of both branches of the Legislature of New Hampshire, passed August 31, 1864, the undersigned duly requested the opinion of the Justices of the Supreme Judicial Court upon the question whether or not the aforesaid bill has become a law without the approval of the Governor, and on the 27th day of September we received from the Justices of said Court their unanimous opinion (which we have this day transmitted to the Secretary of State,) dated September 23d, 1864, that said bill had become a law in like manner as if the Governor had signed it, and is now a valid and binding statute of this State.

CHARLES H. BELL,
President of the Senate.
WILLIAM E. CHANDLER,
Speaker of the House of Representatives.
Concord, N. H., Sept. 27, 1864.]

AN ACT in relation to counting the votes for Electors of President and Vice President and for Representatives in Congress.

Be it enacted by the Senate, &c. Section 1.—It shall be the duty of the Governor and Council in examining and counting the returns of the votes cast for electors of President and Vice President of the United States and for Representatives in Congress to reject any votes returned as cast by voters in the military service of the country in pursuance of the law for that purpose which may clearly appear to them to have been cast by any persons not qualified voters of some town, ward or place in this State, and the Governor and Council in determining the right of any such persons to vote are authorized to receive and act upon such evidence as they may deem sufficient.

SEC. 2. It shall be the duty of the Secretary of State immediately after receiving the return of the votes of the soldiers in the field, to transmit to the town clerk of each town, ward or place in this State, a certified list of the names of all the voters having their residences in such town, ward or place whose ballots shall have been returned to him as by law provided, and such certified lists shall be open to all voters upon for inspection.

SEC. 3. It shall be the duty of said town clerk upon receiving such list to compare the same with the check list of said town, ward or place, and if any person shall have voted whose names are not on said check-list, said clerk shall immediately give notice of the fact to the Secretary of State.

SEC. 4. Absence from the place of his residence while engaged in the military or naval service of the United States or of this State, in time of war, insurrection, or rebellion, shall not affect the right of suffrage of any inhabitant of this State; and it shall be the duty of the selectmen of the several towns, wards and places, in preparing and correcting the check lists of their respective towns, wards and places, preparatory to an election to insert and retain thereon the names of all inhabitants thereof who may be actually engaged in such service, and who, but for absence in such service, would be entitled to the right of suffrage therein, and any selectmen of any town, ward or place who shall omit to insert upon, or who shall erase from the check list of his town, ward or place, the name of any inhabitant of such town, ward or place, contrary to the true intent and meaning of this section, shall be guilty of a misdemeanor, and upon conviction thereof be punished by fine not exceeding one thousand dollars, or by imprisonment in the common jail not exceeding two years, or by both such fine and imprisonment, at the discretion of the court before whom the conviction may be had.

SEC. 5. This act shall take effect upon its passage.

FOR THE
CHEROKEE MEDICINES.
Cherokee Cure, the great Indian Medicine,
COMPOUNDED FROM
ROOTS, BARKS AND LEAVES.
An infallible cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain, Consumption, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.
This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.
☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any address, receiving the same, a full treatment in pamphlet form.
☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Stone and Portland. At Gravel, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost unbearable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE
COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented; the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which keeps it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top, there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly come into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would now call attention to those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, without the use of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air at least four feet above the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat unconsumed, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meudum,
Henry F. Wendell,	John Sise, and others.

The Chronicle.

A FORT BUILT IN ONE NIGHT.—The Philadelphia Press has a letter from the extreme front of Butler's army, which says that a new fort very unexpectedly made its appearance on the left of our line on the morning of the 15th inst., greatly to the satisfaction of the troops. It was built during the evening previous by the 4th and 6th United States colored troops, and so silently was the work conducted, that those inside of the breastworks had no knowledge of its being in the course of construction. The fort is on a fine eminence, and commands several points of the James, one of which is distant not more than five hundred yards. The rebel rams and gunboats lie at present under the guns of this fort. Of course other works are being constructed, and all necessary preparation is grandly progressing to a satisfactory completion.

NO BILL.—It will be recollected that about the 12th of August last, a young man by the name of George L. Wentworth, was arrested for Mail Robbery at Salmon Falls, there having been some mail losses between Boston and Salmon Falls Post-office. The complaint was made by a man calling himself Herman, who was accompanied by a corresponding female, representing themselves as U. S. officers, detectives, etc., for the Post Office Department. Wentworth was carried before Commissioner Hackett of Portsmouth and held in the sum of two thousand dollars for his appearance at the U. S. Circuit Court to be held at Exeter on the 8th inst. The case came up before the Grand Jury on the following Monday, and there being not a shadow of evidence of his guilt he was discharged. The complainant, Herman, is not known to the Post Office Department, or any one else. He left Salmon Falls after Wentworth's examination and has never been seen or heard from since.—*Dover Enquirer.*

A PRECOCIOUS YOUTH. — A dignified elderly gentleman was in pursuit of knowledge from a bright looking lad in front of the Post Office yesterday under the following difficulties:

"My son, might I inquire where Crosman & Co's drug store is?"

Urchin (politely and respectfully) — "Certainly, sir."

Old gent. (after waiting awhile) — "Well, sir, where is it?"

Urchin — "Havn't the slightest idea, yer honor."

The old gentleman's cane was observed to quiver in his hand, and the mischevious oil was discreet enough to "get up and get."—*Portland Argus.*

The Democrats of Massachusetts, having discovered a clergyman who had been a life-long Democrat, immediately nominated him for Congress in the Sixth District, thereby swallowing their own words about "political priests." This candidate will be remembered as the warm defender of Col. Robert Cowdin, at Ipswich last year, on the occasion of the fall parade and dinner of the Ancient and Honorable Artillery. For the credit of Massachusetts it should be remembered that this clerical supporter of Pierce and Buchanan came hither from New Hampshire, and is without any pastoral charge.—*Boston Trans.*

— We read, in a great aldermanic authority, that "a dinner is on the tapis." The tapis alluded to is, of course, Gold'lin.—*Punch.*

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEYT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. We can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweyt's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have occasion agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomiting up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEYT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From EDER I. CHESLEY, *Lee, May* 31, 1841

DR. SWEYT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, so that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISAAC CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEYT, No 7 High street, Portsmouth, N. H., promptly attended to. may26

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning or evening dew.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all papers for Drawing for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claims of Patents furnished by transmitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any other which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant testimonials to which can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty-eight years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Hence, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability I believed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, OCTOBER 22D, 1864.

☞ A very extraordinary document, in the shape of an appeal to the people of the United States from "the people" of Great Britain, to make peace with the South and acknowledge its independence, has been recently sent to this country and pretty extensively circulated among leading peace men at the North. It was forwarded to Gov. Seymour, of New York, with a private note signed by a certain Henry de Hoghton, Baronet. The New York Herald states that it knows positively, and has known for some time, that the document was got up in London by the secession agents there, and that the names—which we are told number three hundred and fifty thousand—were obtained through the affiliation of these same agents, of whom Sir Henry de Hoghton may be one for all we know. The object of it is to make capital for Jefferson Davis, and nothing else.

THE AMERICANS AHEAD PHYSICALLY. A surgeon in New York city examined 8700 recruits for the army, of whom 4538 were Americans, 1694 Irish, 1453 Germans, 315 English and Scotch, 135 French, and 545 belonging to twenty-six other nations. He made a strict examination to determine whether there was any foundation for the frequent affirmation of the English journals that the physical than in America was deteriorating. The Americans in New York city were, of course, not above the average of Americans physically, yet his examinations put them ahead! In stature the American born ranked the highest, the English next, the Irish next, the Germans next, and the French last. In regard to their physical conformation, he divided the recruits into four classes, and found the Americans to possess the highest rate of prime physique. Of American born recruits, 47.5 per cent. had a prime physique, the Germans 40.75 per cent., and the Irish 35 per cent. He arrived at the conclusion that no race can show a larger proportion of osseous and muscular development; and he ascribes it not to race, but to the diffused blessings of meat and drink.

☞ Rev. T. J. Greenwood, formerly pastor of the Universalist Church in Dover, N. H., and lately of the church in Malden, Mass., has been nominated by the copperheads as their candidate for Congress, in the 7th District in Massachusetts. He is making political speeches,—as he has a perfect right to do;—and there is no doubt the copperheads had as good a right to nominate him, as if he had been a lawyer, doctor, farmer, or loafer.—But in view of these facts, what has become of all their hissing about the incompetency of ministers to understand politics? and what of their miserable cant about ministers deserting a holy office? Truly ministers are citizens: and no good reason exists why they should not do the duties of citizens, as other christians do. We know of no reason why all offices of government should be left to rowdies, blacklegs and felons:—nor do we believe that political or moral duties are better taught in the bar room and stew, than in the pulpit and parlor.

The great clamor of years, about the danger of mingling politics with religion has come mostly from men of vile morals, led on by sleek hypocrites who got into office by false pretenses. U. T.

SUGAR AND FAT.—Alderman Mechi, in support of Banting's theory of anti-obesity, writes that he waxes and wanes in aldermanic proportions by the use or disuse of sugar. He says that he lost fourteen lbs. of flesh in six weeks by leaving off an ounce and a half of sugar a day. As the consumption of sugar for the six weeks would have been only sixty-three ounces, or less than four pounds, the alderman's statement may be regarded as extraordinary. He recommends agriculturists to supply their cattle with saccharine matter.

The etymologists tell us that a certain substance fed upon by swine made them very fat, whereupon certain monks, desirous of combining the pious and the adipose, fed upon this substance and were killed. Hence the name *antimony*, or a dead shot for monks—a fresh proof that what is swine's meat may be a priest's bane.

THE FIRE AT THE RIVERSIDE TROTTING PARK.—The noted horses Prince and Pat, who were so badly injured at the fire Thursday evening, died during the night. Sorrel Dan, although somewhat scorched, will recover. The fire originated from the explosion of a kerosene lantern in the stall of Sorrel Dan, and, from the combustible nature of the surroundings, it was a matter of impossibility to get out any number of the horses before the interior of the building was in a complete blaze. George Sherman, the man who was in the stall with Prince, was the worst injured of any of those in the stable, and it is feared his burns will cause his death.

— Gen. Stoneman has been exchanged, and has arrived at Atlanta.

THE REBELLION.

Memphis is quiet again.

The telegraph is now working to Atlanta.

Gen. Rosecrans took the field on the 19th. Price's main force in Missouri is still east of the Blackwater river, increasing the chances of getting a fight out of him. Gen. Curtis is concentrating a large force in Kansas City, to move against him.

Our cavalry in the Southwest are active. They have had a fight with the enemy (no date given) and captured the rebel Gen. Young, with a large number of prisoners; and on the 12th charged Rhoddy's command at Rome, Ga., with the sabre, killing and capturing a number, taking all their artillery, and scattering the remainder. On the 17th our advance camp upon Hood's rear guard, whipped it and drove it out of Snake Gap. On the 18th Gen. Sherman started in pursuit of the rebels southward, via Bloomington Valley.

Gen. Grant telegraphs: "I had a salute of 100 guns from each of the armies here fired in honor of Gen. Sheridan's victory. Turning what bid fair to be a disaster, into a glorious victory, stamps Gen. Sheridan what I have always thought him, one of the ablest of Generals." Further official accounts from Gen. Sheridan increase the brilliancy of his victory. Over 50 pieces of artillery were captured, including those at first taken from us; and at last 1600 prisoners had been brought in on Thursday morning. On that morning our cavalry made a dash at Fisher's Hill, and carried it; the enemy having left only a small guard when they fled during the night. Many of our men captured in the rebels' first attack, have escaped and are coming in. The captured rebel Gen. Ramseur, who commanded a division, has died of his wounds. 770 slightly wounded Union soldiers have reached Winchester. All the wounded possible are to be sent to Martinsburg.

THE VERMONT OUTRAGE.—The leader of the raiders into St. Albans, Vt., has been caught at Stanbridge, and $100,000 recovered, in addition to the $50,000 already mentioned. The British authorities have manifested a readiness to furnish every facility and assistance possible to the pursuing party, and when caught the thieves will be promptly delivered up. The St. Albans Bank lost $73,000, the Franklin County Bank $85,000, and the First National Bank $55,000. A dispatch states that the first and last banks named will redeem their bills as usual, the robbery not affecting their solvency.

The citizens of frontier towns have been authorized to organize themselves into home guards and arms have been distributed among them. Some companies of the Veteran Reserve Corps are also now garrisoning the border. Four of the raiders were arrested after a severe skirmish at Fredisburg, on Thursday evening; Wm. Hunt, an officer, was mortally wounded. A special dispatch to the Boston Post states that the men arrested claim that they are recently from Richmond, and are acting under the authority of Jeff. Davis.

☞ The Advertiser announces several very liberal subscriptions from prominent Boston firms in the wholesale dry goods trade, to the National Sailors' Fair, soon to be held in that city, and trusts this is only the beginning of a long list of similar donations. It says "our merchants have responded with wonderful alacrity to the many calls made upon their purses for various patriotic and charitable objects since the war began, but we believe that they are not by any means yet tired of giving from their abundance. We need not urge upon them the worthiness of the object for which the Sailors' Fair is to be held." The subscriptions alluded to are $1000 each from A. Lawrence & Co, J. C. Howe & Co., Jas. L. Little & Co, E. R. Mudge, Sawyer & Co., Gardner Brewer & Co.

CADET ENGINEERS IN THE NAVY.—The Navy Department has issued regulations under which cadet engineers for the navy may be appointed. The number of these cadets is limited by law to fifty. Each application must be made to the Secretary of the Navy. The candidate must be under eighteen years of age, furnish evidence that he possesses a good character and mechanical aptitude, and that he has been employed two years in the fabrication of steam machinery. Before appointment he must be examined as to mental qualifications and physical fitness. The course of study will comprise two academic years.

☞ In a three mile and repeat heat, on the New York Fashion course, last week, the horse Stonewall Jackson of Hartford made the best time ever made, (it being 7m. 39s. in each of two heats) taking the aggregate of the two heats. Flora Temple and Butler, however, made one heat in harness, going against Dutchman's time, in 7m. 33s.; but it is said they could not have made a second heat in 7m. 39s. Very likely not; but what of it? If they had taken 7m. 39s. to do the first heat in, they could have repeated in 7m. 39s. easily enough. The performance of Stonewall is, however, one of capital excellence, and it becomes a question what horse can defeat him three-mile heats in harness?

THE NEW CONSTITUTION OF MARYLAND.—It is stated that Gov. Bradford has decided to throw out the soldiers' vote upon the new Constitution of Maryland upon the ground that soldiers were not authorized to vote under the existing State law, and that the Constitutional Convention had no right to extend the suffrage beyond the limit prescribed by the present law. If this be so, and the action of the Governor be sustained by the courts, the new Constitution is defeated and legal emancipation in Maryland indefinitely postponed.

☞ The boldness of the thieves in Havana has for some time been greatly on the increase; thus, a short time since, the owner of a small cigar store, in the principal square, and close to the palace of the Captain General, was sized and bound whilst in an inner room, by some of these pests of society, and robbed of sixteen ounces, whilst the robbery was crowned for boldness and dexterity by an accomplice, who meanwhile quietly took his place behind the counter and served such customers as entered.

— The daughter of the Duchess of Montpensier, who was baptized in Spain four years since, received the following names at the font:—Maria de las Mercedes, Isabel, Francisca de Asia, Antonia, Luisa, Fernanda Felipa, Amelia, Christina, Francisca de Paula, Ramona de Rita, Cargetana, Manuela, Juana, Josepha, Joaquina, Ana, Rafaela, Santissima Trinidad, Gaspara, Melchora, Balthasura, Filomena, Teresa, Todos los Santos.

— "Pa," said a lad to his father, "I have often read of poor but honest people, why don't they say rich but honest?" "Tut, tut, my son," replied the father, "nobody would believe them."

— They manufacture matches in San Francisco, which can be trodden upon or rolled under foot without igniting; and which, after having been manufactured a month, may be immersed in water for 10 or 15 minutes, and when taken out will not only ignite but hold a flame. The wood used is "Port Orford cedar." They sell at wholesale for $1.70 per gross. We can't match those matches this way.

— When dunces call us fools, without proving us to be so, our best retort is to prove them to be fools, without condescending to call them so.

— On Saturday evening Hon. Samuel S. Cox was attacked by a mob at Richmond, Ind., at the railway depot, and most outrageously beaten and kicked in the head, face and body. He had been speaking in the town at a Democratic meeting, and was at the depot to return home. When the train left there was intense excitement in consequence of this outrage.

— The rod that blossomed in the hands of Aaron, bears excellent fruit in the hands of a schoolmaster.

— Late advices from Newbern, N. C., report that there is no abatement in the fever, or in the number of deaths, only through the scarcity of the population, nor are there signs of frost, which is the only hope for the remaining few. Beaufort, Morehead City, Washington, and many other places, are also suffering.

— Don't mortify the flesh too much. It was not the sores on Lazarus that sent him to heaven.

— The Richmond Dispatch says the American Revolution was a rebellion "gotten up by Yankee trade and of the Puritan religion. Virginia had no particular interest in it, and it would be better for her now if she had never entered it!"

— If you would pass for more than your value, say little. It is easier to look wise than to talk wise.

— In the reign of James I., when a person was invited out to dinner he took his own knife with him, and on entering the house of his host, found a whetstone behind the door, on which to sharpen it.

— Were we to thank God for every blessing, we should have no time to complain of misfortune.

— In Port Orford, Oregon, August 1st, Lewis Turner was married to Fanny, an Indian woman. They had been living together about eight years, so it is presumed that their honey moon is rather insipid.

— Can a man who is always following good examples ever be in a position to set any?

— A copperhead editor out west, was imprisoned, and his copperhead supporters seized and sold his printing materials for debts incurred in advocating their principles.

— Slander not others because they have slandered you.

— On Tuesday morning a gang of guerrillas destroyed a train of ten freight cars on the Nashville and Northwestern Railroad from Nashville to Johnsonville. The engineer was killed.

— Canadian journals are busy discussing what is to be the name of the new Confederation. Some favor Canada, some Acadia, and one suggests Columbia.

— All the banks in Philadelphia have resolved to become National banks.

— They have a "Young Men's Old Overcoat Club" in Lowell.

— At a ball in Nevada recently a young man kissed his partner, whereupon her brother drew his revolver and shot him dead,—a most summary way of resenting the "liberty."

— The band of the last copperhead procession we have seen mentioned, played "I wish I was in Dixie."

— Marshall, the discoverer of gold in California, is now a grower of grapes in that State.

— Bills of the Franklin County Bank, St. Albans, Vt., are not received at the Suffolk Bank.

— A large portion of Moscow has been burned up. Two hundred and fifty houses went in one night.

— Gen. Fremont has taken $50,000 of the new government loan.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, and makes it perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

S. J. COURT, Friday.—In case No. 54, Wood and others vs. Griffin, the jury returned a verdict for plfs. for $148.85.

Case No. 55, Frothingham vs. Morse, was given to the jury on Friday afternoon.

Case No. 93, John W. Johnson vs. William S. Willey, was then taken up. Hatch & Webster for plf., Hackett for deft.

Horace B. Taylor, indicted for an assault on Charles Hood of Stratham, retracted his plea of not guilty and pleaded *nolo contendere*. Sentence will be passed next week, after evidence in favor of mitigation of punishment is furnished the Court.

The Bar on Thursday appointed W. H. Y. Hackett, Alva Wood and J. Warren Towle a Committee to prepare and report resolutions expressive of their respect for their late brother Col. Moses N. Collins, who fell in battle in Virginia.

☞ The bells of this city were rung for an hour on Friday noon, in honor of Gen. Sheridan's great victory.

TEMPLE.—This is the last night for the present of Bidwell & Pike's popular Company at the Temple. The bill offered is a good one, consisting of an entire new Play entitled Moll Pitcher; and Prof. Farner in his wonderful feats of Ledgerdemain—being for the benefit of Mrs. G. W. Pike, a very worthy and deserving member of the Company. The Temple will no doubt be crowded. Remember, the last night. D.

RYE CENTRE, Oct. 20.

Messrs. Editors:—The delegation from this place were very much gratified with the Union Demonstration in your city last Tuesday evening. From this point to Market Square is 5 miles on a bee line, and the music of the Band, and cheers of the crowd were distinctly heard here on that evening. W.

NEW HAMPSHIRE ITEMS.

—— Deacon Conner, of Henniker, 91 years of age, has, this year, taken care of two acres of corn, from which he has harvested 200 bushels of ears, equal to 100 bushels of shelled corn. It is an excellent ten-rowed variety. One day last week, Dea. Conner dug from the hills thirty bushels of potatoes.

—— Mr. Matthew Dutton, of Lebanon, raised a potato which weighed three pounds and seven ounces, and also another in the same hill which weighed three pounds and two ounces the whole product of the hill being eleven pounds. These were of the Orino variety. Mr. Dutton challenged any one to beat him, when Mr. W. H. Grey of the same town, produced one of the same variety which weighed three pounds and twelve ounces.

—— The head female teacher in the high school at Concord left her position a few days since, having handed in her resignation only about an hour before her departure. When the Board of Education could be got together, she was on her way to Alton, Ill., rejoicing.

—— The trial of the Washington and Baltimore merchants who were arrested on the charge of having furnished goods to Moseby, was commenced in Washington on Thursday.

—— The workmen in Chickering & Sons' piano-forte manufactory, Boston, have sent $755 to those of Hallet, Davis & Co's workmen, who lost all their tools, &c., by the destruction of their factory by fire.

—— A little son of H. G. Kayes of Concord, while playing on the wall of the State House yard, had both bones of his leg broken by one of the loose stones falling on him as he was getting down.

—— The largest potato yet mentioned was raised in Goffstown; weighed 4 1-2 pounds.

—— E. J. Morrison, who was killed at St. Albans by the raiders, was a brother of Hon. George W. Morrison of Manchester, and formerly resided there.

☞ The San Francisco American Flag thus gives the particulars of the accident to Mr. N. A. Haven Ball, formerly of this city:

Tom Daley, prize fighter, of Virginia City, Nevada, and another man got into a quarrel at Gold Hill during the election on Thursday. Daley drew a six shooter and aimed it at his man in the crowd. N. A. H. Ball, acting as Special Deputy Sheriff, pulled the pistol down, and the ball went through his right foot, lodging in the sole of his boot. It is thought no bones were broken, and that he will be out in a few days. Daley was put in the calaboose, and will be dealt with as he deserves.

— Gold 208 3 4

— Gen. Grant's praise of Gen. Sheridan is as honorable to himself as to Gen. Sheridan. It shows how true a man Grant is.

— 500 exchanged Union prisoners, including many naval officers, arrived at Fortress Monroe on Wednesday.

— It is finally ciphered down that by the soldiers' vote, Pennsylvania is Union; that the administration party have gained members of congress, probably four; that both the House and Senate will be Union by decided majorities. The aggregate soldiers' vote as far as heard from officially is Union 14,191; Democratic 4,114.

A KENTUCKY "CONSERVATIVE" HIRES A SUBSTITUTE FOR HIS NEGRO.—An incident worth narrating recently occurred in Boone county, Kentucky. A wealthy planter, the owner of valuable "chattels," and well known as a rebel conservative, who intends to vote for McClellan and Pendleton, had a muscular negro, who was conscripted. His owner determined to provide a substitute for him, mounted his horse, rode into Covington, and for five hundred and fifty dollars engaged an Irishman to go as a substitute, but without informing him for whom. Taken to the Provost-Marshal's office, sworn in, provided with a uniform and paid off, the Irishman then, for the first time, ascertained whom it was he was to represent in the army. It is said his wrath and profanity exceeded all bounds, but it was too late to back out, and he was sent to quarters.—*Cincinnati Commercial.*

— The horse Royal George recently died very suddenly, near New York, and in a *post-mortem* examination it was discovered that pulmonary consumption was the cause. One lung was found to be entirely gone, and the other full of tubercles.

— Oysters of respectable size and fine flavor are reported to have been discovered in abundance at Yaquinna Bay, on the Oregon coast.

— The soldiers are nearly unanimous for "Old Abe." The popularity of McClellan in the army, if he has any, must be military and not political.

— There is on exhibition at Placerville, Cal., a peach weighing one pound two ounces and a half!

— The best cough drops for young ladies—wear thick shoes, dress all over, and stop lacing.

— The receipts at the Indiana Sanitary Fair, just closed, were $40,000.

☞ As the Lyceum tickets will certainly all be sold, and no more than the 800 issued—all who wish to attend, will save disappointment by securing tickets in season.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and, THURSDAY, the 26th and 27th of this month.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen the stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

GAME OF CUDJO'S CAVE.—Locke & Wilder of Boston have published a new Game, composed of characters and scenes from the popular story, which every boy has read, or ought to read, called Cudjo's Cave. It can be obtained of A. Williams & Co., Boston, and at the book stores in this city.

SABRE CUTS, GUNSHOT WOUNDS, AND all other kinds of Wounds, also Sores, Ulcers and Scurvy, heal safely and quickly under the soothing influence of HOLLOWAY'S OINTMENT. It heals to the bone, so that the wound never opens again. Soldiers, supply yourselves.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 233

KITCHEN FURNISHING GOODS.

Gas Fixtures.

Persons who desire to have any repairs or alterations made in Gas Pipes or Fixtures, are requested to send in their orders at once. The work can be done much more promptly now than later in the season. E. A. STEVENS.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposite.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the
1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

Morning Chronicle.

— A man in Hartford being "short," killed his dog and took him to the Selectmen to obtain the dollar offered for all dead dogs. The Selectmen demanded two dollars from him for not having registered the animal. In disgust the man walked off and threw the carcass into the river, and was fined next day for doing so, contrary to the statute in such cases made and provided.

Jeff. Davis is unfortunate in his excursions. The Montgomery Mail bluntly says, in commenting on his Macon speech, that his "visits to the West are usually the preludes of disaster." The Richmond Enquirer admits that his statement of "the serious depletion of our armies will tend badly at the North and in Europe," and gently scolds him for his sensitiveness to the charge that the rebel calamities in Georgia are due to his incompetency, rashness and domineering temper. "Let us all be *friends*," the Enquirer soothingly sings—thus admitting the existence of serious enmities among "the happy family" of baffled perjurers and apostates.—*Trans.*

THE THREE PRINTERS.—I heard what I considered to be a very good story the other day. A lady of the very highest fashion ("not to put too fine a point on it," as Mr. Dickens' Mr. Sangby would say) was anxious to reduce the pretensions of a lady of the publishing "connection," as Mr. Abraham Lincoln would say, in whose company she found herself. "My dear Mrs. Dash," said the Marchioness to her friend, "I dined with dear old Lord So-and-so yesterday. What odd people you do meet at his house! I wonder where he finds them. Why, one day when I was there he had *three printers* to dinner." "Printers!" said the host; "my dear Lady Blank, are you sure?" "O, yes, quite sure they were printers. Lady So-and-so told me so." "Did you know their names, then?" "Yes, their names were—dear, I have such a sad head for names—Oh! I remember two of them; one was Mr. Haliax, and the other a Mr. Macaulay."

PAINT! PAINT!

Winter's Metallic Brown Paint

RECOMMENDS ITSELF.

It is a pure oxide of Iron and Manganese. It mixes readily with Linseed Oil, taking two gallons less per 100 lbs. than any mineral, and produces more body than any other paint. It forms a glossy, enduring, durable metallic coat, protecting wood from decay, and iron or other metals from rust or corrosion.

☞ It does not require grinding, and is warranted to give satisfaction for painting Railway Cars, Iron Bridges, Houses, Barns, Hulls and Decks of Ships, Tin and Shingle Roofs, &c.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as a safe and sure cure for

COSTIVENESS,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the invaluable discoveries in surgery. Roots and plants, in themselves pungent and disagreeable, are, by a new and scientific process of extraction (patent in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the administration of other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE, and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no inconvenient reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared prevents their indigestible—and when taken are forced through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating the griping and pain in the parts connected with their passage.

One pill dissolved, *wherever taken*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and inactive secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will manifest itself in the most unmistakable manner, and produce a DIFFUSE AND IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and eradication of the SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It invites the various organs of the system to act their allotted part, thereby the cause which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, CONSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COLDS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of the Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 24 Hanover street, Boston.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cast-iron being entirely dispensed with, one fire is unusual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large space entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass through the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the case can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,

DR. W. R. MERWIN & CO.'S COLUMN
FOR THE
CHEROKEE MEDICINES.
Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints consequent by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the aid of medical aid, we would say, *despair not!* The CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
Cures in from one

to three days.
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in the treatment of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and emollient;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

DR. WRIGHT'S
REJUVENATING ELIXIR.
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The fallen enervated youth, the over-taxed man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

WALTER SAVAGE LANDOR.—The London Daily News, in an elaborate notice of Walter Savage Landor, gives the following interesting sketch of some of his personal traits:—

"His tall, broad, muscular, active frame was characteristic; and so was his head, with the strange elevation of the eyebrows, which expresses self-will as strongly in some cases as astonishment in others. Those eyebrows, mounting up till they comprehend a good portion of the forehead, have been observed in many more paradoxical persons than one. Then there was the retreating but broad forehead, showing the deficiency of reasoning and speculative power, with the preponderance of imagination, and a huge passion for destruction. The massive self-love and self-will carried up his head to something more than a dignified bearing—even to one of arrogance. His vivid and quick eye and the thoughtful mouth were fine, and his whole air was of a man distinguished in his own eyes certainly, but also in those of others. Tradition reports that he was handsome in his youth. In age he was more.

"The first question about him usually was why, with his frame, and his courage, and his politics, and his social position, he was not in the army. One reply might be that he could neither obey nor co-operate; another was, that his god-father, General Powell, wished it; and Landor, therefore, preferred something else. As for that something else—his father offered him £400 a year to study law, and to reside in the Temple for that purpose, whereas he would give him only £150 if he would not; and of course, he took the £150 and went as far as he well could from the Temple; that is to Swansea. Warwick was his native place.

He was born in the best house in the city, where the fine old garden, with its noble elms, and horse chestnuts, might have influenced his imagination, so as to have something to do possibly with his subsequent abode in Italy. His mother was of the ancient family of Savage; and hereditary estates lay about him in Staffordshire and Warwickshire, which had been in the possession of the family for nearly seven centuries. These he sold, to shift himself to Wales, and nowhere did his spirit of destructive waywardness break out more painfully than in the sale of these old estates, and of his treatment of the new. He employed many scores of laborers on his Welsh estates, made roads and planted, and built a house which cost him £8,000.

He set his heart upon game-preserving (of all pursuits for a democratic republican), and had at times twenty keepers out upon the hills at night, watching his grouse; but, with 12,000 acres of land, he never saw a grouse on his table. His tenants cheated him, he declared, and destroyed his plantations; and though he got rid of them, he left, not only Wales, but Great Britain, in wrath.

Then, the steward in charge of his house cheated him, when he not only got rid of the steward, but had his splendid new house pulled down—out of consideration, he declared, for his son's future ease and convenience, it being rid of so vexatious a property. His flatterers called this an act of characteristic indignation. To others it appeared that his republican and self-governing doctrines came rather strangely from one who could not rule his own people; and who, finding his failure, could do nothing better than lay waste the whole scene."

Please Look at This.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA; and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted with the same, and numerous cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dis tress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating; have taken medicine failed to give any relief, until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, not possessing the high credibility of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. If inventors will only give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and SUCCESS IS THE BEST PROOF of ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for equally successful service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, with full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and this is *one pending*. He unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors who require to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, OCTOBER 24TH, 1864.

THE ROANOKE.—The brig Matbilde, which arrived at Halifax on the 20th, reports that on the 7th, while on the passage from Bermuda, she was ordered to heave to by a steamer, which afterwards proved to be the captured steamer Roanoke. Ninety-five passengers and crew, including six women, were put on board the Matilde, which was ordered to Bermuda, where they were landed on Saturday. The Roanoke was afterwards burned.

— The Richmond Dispatch learns from a gentleman just from Wilmington, N. C., "that the blockade of that port is as effective as Yankee ingenuity and an unlimited force of gunboats can make it. They have now established two lines of picket boats in the offing to give the alarm of the attempted egress of blockade-runners, and as soon as the latter make their appearance, the boats throw up rockets and burn blue lights. The Yankee arrangements for blockading the port are good.

— Gen. David B. Birney, almost in the hour of his death, presented an example of patriotism which should be a reproach to all the lukewarm and a spur to all the careless nominally in the Union ranks. He was brought to Philadelphia on election day, with the impression of death upon his features. Before allowing himself to be taken to his home, he insisted upon being carried to the polls, to vote, as a citizen, for the causes for which he had fought as a soldier.

☞ There will be an auction-sale at Baltimore, Oct. 25th, of the horses and other effects of the late Wm. McDonald, when the objects accumulated by wealth and taste during a life time are again to be scattered. Twenty-five fine horses, led by the famous mare Flora Temple, for so many years the Queen Regnant of the trotting-turf, are to be offered; superb carriages of various descriptions, a number of magnificent sleighs, robes, blankets, etc., of the most costly description; a lot of fine harness; a large number of guns and rifles of the best material and by the most famous makers, among them the great punt duck-gun manufactured by Purdy of England, to Mr. McDonald's order, at a cost of $2000; and six head of elk, which have hitherto adorned the grounds of the deceased gentleman.

PRESIDENT LINCOLN SERENADED — *A Noble and Patriotic Speech.* — Washington, Oct. 19. The President was serenaded and spoke as follows, being frequently interrupted:

I am notified that this is a compliment paid me by the loyal Marylanders, resident in this District. I infer that the adoption of the New Constitution for the State furnishes the occasion, and that in your views the extirpation of slavery constitutes the chief merit of the New Constitution. Most heartily do I congratulate you and Maryland, and the nation, and the world upon the event.

I regret that it did not occur two years sooner, which I am sure would have saved to the nation more money than would have met all the private loss incident to the measure, but it has come at last, and I sincerely hope its friends may fully realize all their anticipations of good from it, and that its opponents may, by its effects, be agreeably and profitably disappointed.

A word upon another subject. Something said by the Secretary of State in his recent speech at Auburn, N. Y., has been construed by some into that, if I shall be beaten at the election I will, between then and the end of my constitutional term, do what I may be able to to ruin the government. Others regard the fact that the Chicago Convention adjourned not *sine die*, but to meet again if called to do so by a particular individual, as the intimation of a purpose that if the nominee shall be elected he will at once seize control of the government.

I hope the good people will permit themselves to suffer no uneasiness on either point. I am struggling to maintain the Government, not to overthrow it. I therefore say that if I live I shall remain President until the 4th of next March, and that whoever shall be constitutionally elected therefor in November shall be duly installed as President on the 4th of March, and that in the interval I shall do my utmost to the end that whoever is to hold the helm for the next voyage shall start with the best possible chance to save the ship.

This is due to the people both on principle and under the Constitution. Their will, constitutionally expressed, is the ultimate law for all. If they should deliberately resolve to have immediate peace, even at the loss of their country and their liberties, I have not the power or the right to resist them. It is their own business, and they must do as they please with their own.

I believe, however, they are still resolved to preserve their country and their liberty, and in this, in office or out of it, I am resolved to stand by them. I may add that in this purpose to save the country and its liberties no classes of people seem so nearly unanimous as the soldiers in the field and the seamen afloat.

Do they not have the hardest of it? Who should quail when they do not? God bless the soldiers and seamen and all their brave commanders.

— Lord Lyons says our Government is not aware of the utter weakness of the rebellion.

THE REBELLION.

Gen. Sheridan is following up the rebels with vigor. Another rebel General, Lalor, was killed on the 19th. Gen. Custar is reported to have captured several more pieces of rebel artillery.

A recent Union expedition from Suffolk, Va., to break up the contraband trade with North Carolina, destroyed large quantities of stores and some buildings, and brought back prisoners, cattle, &c.

Gen. Curtis was fighting Price's advance near Independence, Mo., on Thursday, and would, if possible, bring on a general engagement, in which it was hoped General Rosecrans would be able to participate.

The Georgia militia has again been called out. Rebel papers admit that Sherman's position cuts off Hood's communications with his base.

On the 10th several army officers made a daring reconnoissance in Mobile Bay, passing inside the obstructions.

Gen. Sheridan officially reports, under date of Cedar Creek, Va., Oct. 21, 4 P. M.: "I pursued the routed forces of the enemy nearly to Mount Jackson, which point he reached during the night of the 19th and 20th, without an organized regiment of his army. From the accounts of our prisoners who have escaped, and of citizens, the rout was complete. About 2000 of the enemy broke and made their way down through the mountains on the left. For 10 miles on the line of the retreat the roads and country were covered with small arms and other debris thrown away by the flying enemy.—48 pieces of artillery captured are now at my headquarters. I think that not less than 300 wagons and ambulances were either captured or destroyed. The accident of the morning turned to our advantage as much as though the whole movement had been planned. The only regret I have is the capture in the early morning of from 800 to 1000 men. I am sending to the War Department all battle flags taken.—The loss of artillery in the morning was 7 from Crook, 11 from Emery and 6 from Wright. From all that I can learn I think that Early's reinforcements were not less than 16,000 men."

By Telegraph—Sunday noon.

Maj. Gen. Stevenson reports the arrival at Martinsburg of 1500 wounded and 1500 prisoners. Gen. Custar arrived at Washington on Saturday afternoon with 10 rebel battle flags displayed from the railroad engine.

An unusual quiet prevailed on Friday and Saturday with Grant's army. The work on Dutch Gap canal still continues. Friday salutes of 100 guns were fired along the line, in honor of Sheridan's last victory.

The telegraph is working to Atlanta.—The railroad will be in running order in a few days. Hood's army has made no demonstrations within the past few days.

Advices from the army of Gen. Curtis in Missouri state that he was skirmishing with Price's army at Independence, near the Missouri line, on the borders of Kansas.

News from Halifax shows that the steamer Roanoke was captured on the first night out from Havana, by a gang of rebels under Braine. Subsequently the crew and passengers were landed at Bermuda, and as the steamer had but little coal on board and none could be had readily, she was burned.

NEW HAMPSHIRE ITEMS.

—— The quota of Ward Five, Manchester, was filled on Thursday, so that the quota of the entire 2d district is now filled.

—— The Monitor states that Gov. Gilmore and Adj. Gen. Head have put in two fine men as representative recruits in the 12th Co. Heavy Artillery.

—— A substitute broker in Concord says that he has put 20,000 men into the United States service, and don't believe he has put in one honest man. The Monitor says: "We will make oath that if he has, it was unintentionally."

—— New Hampshire put into the field, during the month of September, 1,942 men —all volunteers—as reported by the War Department. Twenty-nine were of the African persuasion.

—— The Post Hospital at Concord needs a Library, and Capt. Wm. Silvey (A. A. P. M. G., if you know what that means,) intends that it shall have one. Contributions of books may be sent to the Monitor office, Concord, and will be promptly forwarded.

—— A little girl 11 years old, residing in Peterboro' having a slight falling out with her mistress, took a match, went to the barn and set fire to a bundle of straw. As a result all the buildings, 10 tons of hay, 25 bushels of corn and as many of potatoes, were burned. Loss $1200; insured for $600. The property belonged to Mr. Lewis Mattoon. The girl has been sent to the Reform School.

—— Joseph Lake, a "fat boy," 12 years old and weighing 385 pounds, died at his home in Chichester on the 19th, of typhoid fever. He took cold while on an exhibition tour.

—— The Republicans of Concord and vicinity held a grand mass meeting in Eagle Hall on Friday afternoon, and in Phenix Hall in the evening. Gov. Gilmore presided both in the afternoon and evening, and introduced the speakers in his usual off-hand and emphatic manner, carrying the house by storm. His position hereafter can hardly be misrepresented or misunderstood. Dr. Geo. W. Doane, of Washington, D. C., spoke in the afternoon, and Hon. John P. Hale in the evening.

— The Manchester Mirror commences an article on "Idleness" with: "Some one has said that money is the root of all evil,' but that is a very great mistake. Whoever made the remark, made it without due reflection." Does the writer know who said it? We have an impression that "the love of money is the root of all evil," may be found in the Bible, a book of which the editor of the Mirror may have heard.

— Recently an English laborer gallantly rescued a child from the flooded waters of the Teviot. The brave fellow, of course, lost some time in the performance of the act and in changing his wet clothes afterward, and his employer deducted the value of the hour's work, three and a half pence, from his hardly won earnings.

— The Portland Courier states that a soldier, who had been imbibing rather too freely, fell through the bridge of the P. S. & P. railroad in that city on Wednesday night, but fortunately brought up against one of the braces, where he remained in his perilous position until the next morning, when he was rescued, being still in an insensible condition.

— There are two Irishmen in Bangor who receive, annually, between twenty and thirty thousand dollars each, in gold, as dividends of the product of a mine in which they are interested in California, and in which, for a time, they wrought with their own hands.

— A hog escaped from his owner at Pittsfield, Mass., in June, and has since been running wild. He lives in a swamp and digs potatoes and kills sheep for a living. He killed four sheep in a single day, and $5 is offered for his capture.

— The St. John's Globe will please take notice that although, as it states, "on Saturday evening Hood's army was between Dalton and Lafayette," it was *not* in the Shenandoah Valley, as it also states. Our friend must consult the maps.

— Col. Charles E. Phelps, lately of the 4th Maryland regiment, has been nominated for Congress by the Union Convention of the 3d district, in place of Hon. Henry Winter Davis.

— A suit is pending in the U. S. Court, at New Haven, which involves the entire property of the New London Northern Railroad Corporation, including 86 miles of road.

— An ecclesiastical council, called for the purpose, has voted 23 to 17, against the pastor of the Park Street church, Boston, Rev. A. L. Stone, accepting the call to go to California.

— It is proposed to call the Hall now nearly completed in Calais the "Peabean Hall," in honor of the ladies who have been mainly instrumental in causing it to be built.

— Hon. S. P. Chase answers the question, "What is our country?" by saying that "it is our common land, inhabited by our folks."

— A young bride of 18, in Marseilles, was burned to death on the morning of her marriage by treading on a match, which ignited and set her clothes on fire.

— Yale College has lately received large and valuable additions to its collection of coins, which numbers about 5,000 specimens.

— It is said that the establishment of a new watch manufactory at Chicago, Ill., is contemplated by some of the mechanics at the watch factory in Waltham.

— Large amounts of machinery for the Colorado gold mines have been sent over the plains.

— The payments on account of the new loan are likely to exceed largely the amount of the first instalment.

— The rebel battery which commanded Dutch Gap has been effectually silenced and the canal will soon be finished.

— There is a conductor on the Louisville and Nashville Railroad named Sipy. His wife is of course Mrs. Sipy.

— Official returns from all but 10 counties in Indiana, give Morton a majority of 21,000.

— Gen. McClellan went last Tuesday to Washington Hights on a visit to James Gordon Bennett, Esq., of the N. Y. Herald.

— The selectmen of Wells, Maine, have been fined $5.00 and costs each for refusing to receive the vote of a colored man.

— The mammoth ox, General Grant, on exhibition at Boston, is to be presented to Gen. Grant. What will he do with it?

— A down East editor says that modesty is a quality that highly adorns a woman but ruins a man.

— A soldier recently deceased at one of the hospitals in Washington, had twenty-three distinct wounds upon his person.

— "All hail, Little Phil Sheridan!" is the universal loyal invocation.

— The story that the soldiers' vote is to be thrown out in Maryland is false.

— The Indians call the telegraph the whispering spirit.

— The Cincinnati peace convention has adjourned without making any nominations.

— Gold 212 1-2.

— A daughter of Queen Victoria is about to marry the Prince of Oldenburg.

— The President has appointed Thursday, Nov. 24, as a day of National Thanksgiving for the recent victories.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ A few weeks ago, some of the Dover gentlemen had a real old-fashioned Clambake at Dover Point; and among the invited guests were representatives of Concord, Manchester, Portsmouth, &c. The delegation from this city, with others, went up in he nice little steamer Pioneer—(and what a pity it is, that such a river as ours, should be destitute of steamboats!) John Hanson got them up such a grand time, and they all enjoyed it so hugely, that it was the unanimous decision for the Dover folks to try it over again. And the next week was fixed for the "repeat," but it rained on the day appointed—and ditto ditto the week after; but this time, as the guests from this ilk were not afraid of water, (when applied externally,) up river again they went in all the storm, to meet their appointment—which they did, but they didn't meet anything or anybody besides, except mine ever-jolly host of the Dover Point House; for the Dover boys couldn't see the Point that day, on account of too much—water. So John rigged out his old breakdown sel-grass wagon, and hitched on a good tandem team, and took a dozen of 'em up to the city, through the rain; and the 'Captain' proved that he knew how to work a craft which has the motive power and steering apparatus in front, as well as the reverse—that he could plow the rough land as well as the furrowless sea, and has not forgotten how to make good time under difficulties. No matter if he *did* try to tip his load out behind, at the New Hampshire Hotel—seeing that he didn't come it.

Well, a new appointment was made for the week following—and so last Thursday they went and did it all over again, and more too. And such a rousing good time as they had, and such a splendid sail! But there, Capt. T. cautioned us not to mention *him*, if we spoke of the affair at all, and he was "the head and front of the whole offending;" and Mathes threatened us severely if we referred to the scrape anyhow; so we we don't believe it would be safe for us to say how many bowls of chowder or hundreds of clams Bill Martin, or Preston, Dr. B., or any of the rest of them ate; nor who threw the potatoes and corn-cobs,—nor anything else that happened. No, we will discreetly keep silent, and only suggest that those who have never burnt their fingers pulling red-hot bivalves out of a scalding clam-bake, or seared their mouths eating hot corn, out in the sunlight, don't know what's good,—that's all.

☞ The Lyceum opens to-morrow night—and it may save some disappointment for all to remember that *no* more tickets will be sold, under any circumstance; that *no evening tickets* or passes can be procured; that *no* person will be admitted without a ticket; that the doors will *not* be opened until the appointed time; and finally that every ticket is bound to be sold—and so the sooner you secure yours, the better. Such a series of double entertainments, are very cheap at the price of tickets—and the result will prove that they are appreciated.

POLICE COURT.—John C. Collins pleaded guilty to stealing a pocket book containing $200 from Wm. Alton's store, and not finding bail in the sum of $300, was committed to jail in this city, Friday.

On Saturday, Margaret Briggs, being found drunk on Daniel street, was tried and sentenced to pay a fine of $3, and costs—$3.09. Being unable to donate this amount of greenbacks and currency to the city, she was committed to the House of Correction.

☞ Mr. J. C. A. Johnston, of Newburyport, employed in the caulkers' department on the Navy Yard, was severely injured on Saturday. While engaged in erecting a stage on the new steamer Contoocook, a heavy oaken plank fell upon his foot, crushing it against the granite floor of the ship-house, and mangling it in a serious manner.

☞ Rev. A. J. Patterson of this city, is to speak at Phenix Hall, Concord, this evening, on the Rebellion.

Mr. Patterson spoke in Manchester on Friday evening, and the Mirror of that city says:

"After a few pertinent remarks, the President introduced Rev. A. J. Patterson of Portsmouth as orator of the evening. He spoke for two hours, keeping up the interest to the last, and giving the greatest satisfaction. It is spoken of generally as a very fine speech, sometimes quite eloquent. He was frequently interrupted by applause. He has been some time in the army, and substantiates from conversations with rebel prisoners what Grant said, that the Confederates had "robbed the cradle and the grave," and their only hope was in the election of McClellan."

☞ The question is, who stole the Judge's overcoat?—if stolen at all, of which there appears to be no evidence: the friends of the man accused don't believe *he* ever hooked anybody's coat.

—A large new brick mill, with other buildings, belonging to the Merrimac Woolen Company, at Dracut, Mass., was burned on Friday evening, with their contents, machinery, &c. 200 operatives were thrown out of employment. Loss, $250,000; insured, $200,000.

STILL SHE KEEPS ROCKING HIM.

Still she keeps rocking him,
Ever caressing him,
Brushing the hair from
His colorless brow.
Softly they've whispered her
"Life has gone out of him,"
Gently she answers,
"How still he is now!"

Still she keeps rocking him,
As tho' she would shake from him
The cold hand of death,
Like the weights from his eyes;
Rocking the clay of him,
While softly the soul of him
Angels are rocking
Far up in the skies.

☞ The rebels have been attempting to aid McClellan by sending home our soldiers who were prisoners, on condition that they would vote for the democracy. The Philadelphia N. American publishes an affidavit of Franklin Sewenk, in which he swears that while a prisoner in General Hospital No. 21 in Richmond, on the last of August, he and other prisoners were told that they would be paroled if they would promise to vote for McClellan. He promised to do so and was paroled. All who said they would vote for Lincoln were retained by the rebels. Is further evidence needed of the complicity of the rebels in the Chicago movement.

ONE WAY TO GET A HAT.—When the cars on the Eastern railroad were passing through Rowley one day last week, a passenger lost his hat, and was taking on badly because the conductor would not stop for him to pick it up. Another passenger told him to keep still and he would give him a better hat than that. When the train reached Newburyport, the last named man opened a window and calling up a stranger entered into earnest conversation on politics till the cars had started, when he reached out his hand, grabbed the outsider's Kossuth and throwing it to the hatless passenger told him to put it on and hold his tongue. One man went home bare headed, but if he don't lose more than that by political disputes he may think himself lucky.—*Newburyport Herald.*

— At the Episcopal Anniversary breakfast, given at the Parker House, by the Boston clergy, to the members of the "Church Missionary" and the "Evangelical Knowledge Society," Bishop Eastburn presided. He was supported by Bishop Lee, of Delaware, and Admiral Dupont.

— The Canadian authorities have sent a body of troops to assist in capturing the rebel robbers who visited St. Albans Vt.

— Sixty-four Counties in Pennsylvania give a Democratic majority of 36 on the home vote. The Union majority in the soldiers' vote thus far is 10,277.

☞ Meeting of Lyceum Committee at Chronicle Counting Room, on Monday evening, Oct. 24th, at 7 o'clock.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and THURSDAY, the 26th and 27th of this month.

☞ Two concerts are to be given in this city, Oct. 29 and 31, by the Italian Opera Troupe, consisting of Sig. and Mad. Liberati, Sig. Negrini, Messrs. Jean Louis, Gilbert, and Schultze, and an excellent orchestra. The programme will consist of selections from German and Italian Operas.

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portugese Sauvignon, a valuable grape which he introduces into this country. In taste it resembles to port wine, but its heating qualities, being absolutely free from spirits further than its own fermentation, are wanting. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

To every Barrel of Flour you can make thirty pounds more Bread or Biscuit and much better by using Herrick Allen's Gold Medal, than by yeast fermentation or any other substance—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with children and invalids, than yeast, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street. New York.

The J. Monroe Taylor Gold Medal Soap is the best article in the market. It requires a little less than one half the quantity to do the same work, and when done, leaves the fabric in much better condition than any other kind of Soap. One trial will convince the most skeptical. Use no other, have no other, and be put off with no other. 16

SABRE CUTS, GUNSHOT WOUNDS, AND all other kinds of Wounds, also Sores, Ulcers and Scurvy, heal safely and quickly under the soothing influence of HOLLOWAY'S OINTMENT. It heals to the bone, so that the wound never opens again. **Soldiers, supply yourselves.**

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 233

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this priv ilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and,

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a SHORT PERIOD OF THIRTY YEARS, and is now presented to the public as an efficient cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants in themselves disgusting and disagreeable, are, by a new and scientific process of extracting, in vacuo, rendered MORE EFFECTIVE IN THEIR OPERATION entirely divested of the griping and distressing pain which attends the action of all other purgative medicines. They are now rendered HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and wheel-shaped are passed through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved, accordingly, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will produce a powerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A corresponding period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to set their allotted part; removing the causes which induce RHEUMATISM, GOUT, NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and there has been no medicine prepared for common family use which possesses equal merit.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. Oven plates are covered with tin plates, which reduces it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and air-iron attached to this stove, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to obtain the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the combustion of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, they passing off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

The Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

FOR THE
CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $3 per bottle or three bottles for $8, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and stimulant;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with some of the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

SHERIDAN AGAIN.

SHERIDAN once more—Sheridan the Invincible—Sheridan, of the Shenandoah—little Phil. Sheridan—Hurrah for Sheridan! His victory on Wednesday is the final seal set on his title to superb generalship. Hitherto he has won in a canter—he wins now after such a fight and such a defeat as would have made McClellan declare, "You have done your best to sacrifice this army," and demand reinforcements "rather much over than under 100,000 men." But out of this battle danger did Sheridan pluck the flower safety; for he wove his flowers into an imperishable garland of heroic laurel!

What a general is to an army let this battle teach us. Sheridan had gone to Washington. The enemy seized the moment to attack; surprised our army at Strasburg; beat it; drove it four miles and more to Middletown and Newtown; won a victory had they but stopped, or had Sheridan not come! Sheridan was at Winchester on Wednesday morning, and couriers brought him word of the disaster; his army defeated, driven back, twenty guns lost. "I hastened from Winchester," says Sheridan. Imagine how he rode; how the spurs sank deep in his horse's sides; how this rider devoured the space between him and his army without a head! At Newtown he met the disordered fragments of a retreating army. Fancy what he, the conqueror of the Shenandoah, victor of three battles in as many weeks, must have felt! met a beaten army, seized it, arrested its flight, reorganized it, inspired it, planted it as a rock in the path of its pursuers, repulsed their attack; then gathered his strength, and, out of this appalling defeat, wrought by his genius and courage such a victory as this war has but once before given us—a victory which one man, and he only, transmuted out of hopeless disaster.—Rosecrans at Murfreesboro', Sheridan at Strasburg. They stand together, and to find their parallel you must go to the plain of Marengo, where first Napoleon and Dessaix stemmed the torrent of that victorious Austrian advance which threatened to annihilate the Republic, and anticipate, by an irretrievable disaster, the career of the greatest soldier of modern times. The Sheridan of the French army—Dessaix—poured out his brave life on that victorious field, in exchange for the salvation of his country. Let us be grateful that our Dessaix, that our Sheridan, won his victory, and is still preserved to us to win others.

Of what preceded and of what shall follow this triumph we have much to say, but not this morning. To-day it's enough to be thankful. To-morrow will bring us further news, and will be time enough to criticise and to speculate. To-day we rejoice in the confusion to which the insolent boasts of traitors are brought. To-day we recall the shameful threat of the Richmond press, that "Early had gone into Pennsylvania to stump the State for the Peace McClellan party." To-day we recall the exultation of the same rebel papers over Longstreet's advance,—successor to Early's command, and successor to Early's fortune. Their joint campaign for McClellan's behoof reaches the same end. Not the Rebellion, but the Union triumphs—not McClellan but Lincoln—not the Confederacy, but the Republic—not Slavery, but Freedom! Thank God!—*N. Y. Tribune.*

PROFESSOR AGASSIZ.—At the Springfield Fair, to the toast 'practice with science,' (the motto of the New England Agricultural Society,) Prof. Agassiz responded, saying:

"Brethren,

He did not come to this country as an immigrant to escape the tyranny of a monarchical government. He was a citizen of the old republic of Switzerland, which had maintained its independence for 550 years, in the midst of monarchies. Neither did he come as a political refugee; but he came as a curious traveller, to investigate our country, its geological and mineralogical capities, and other scientific questions; but now he was an American citizen, and why? He was in the habit of analyzing things, and he asked himself one day, what was the difference between European and American civilization. After much thought, and with some reluctance in coming to a conclusion, he made up his mind that the difference was, in Europe everything is done to secure the privileges of the few; while here everything is done to advance the condition of the whole people. And here, said the professor, shall be my home, and the home of my children. (Loud applause.)

Europeans do not always look upon us with that impartiality he did, however, and there had been a time when we were thought more of abroad than now. Even De Tocqueville, one of our best and ablest advocates in Europe, has said that America is the paradise of Mediocrity; by which he meant that while there might be a more general culture of all classes here, no one reached the highest point in anything. Prof. Agassiz did not believe this was to be the result of our civilization, but believed our institutions would yet work out results commensurate with the principles on which they are founded. To bring about this there is only one want,—and here the professor advocated briefly his favorite idea of a great university, and said he hoped he should live to see the three colleges of Massachusetts united in a university, and the agricultural college connected with it.

A scholar having fallen into the hands of robbers was fastened to a tree, and left so nearly a whole day, till one came and unloosened him. "Now," said he, "the old adage must be false, which saith that the *tide* tarrieth for no man."

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle.**
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving a net gain in ways more or less most, either from rain or the morning and evening dew.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms, and dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—decided opinions on the same, and advice in matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered from elsewhere. The following facts will serve to prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as EVIDENCE OF HIS GREAT PRIORITY OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of valuable information and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, give him facilities for obtaining patents in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

TUESDAY, OCTOBER 25TH, 1864.

THE GREAT CONSPIRACY

AGAINST THE UNION.

Judge Advocate General Holt of Kentucky has prepared, by instruction of the Sec. of War, a detailed report upon the mass of testimony in regard to secret associations or conspiracies against the government, formed principally in the West by traitors and disloyal persons. The report fills eight solid columns in the N. Y. Tribune.

These associations first developed themselves in 1862, about the time of the first draft, which it aimed to obstruct and resist. They have had several names—Mutual Protection Society, Circles of Honor, Knights of the Mighty Host, Knights of the Golden Circle, etc., etc. In Missouri, in the summer and fall of 1863, their object was to unite the rebel sympathizers in that State to aid Price upon his proposed invasion. At the same time Vallandigham and other disloyal persons instituted a secret order in the North, intended to be general throughout the country, and known as the O. A. K., or Order of American Knights. It is the opinion that it was founded by Vallandigham during his banishment, upon consultation with Jeff. Davis and other rebel leaders; and the order in Indiana boasts that its ritual came from Davis himself. One witness says Davis is a member of the order. The separate lodges have frequently been called, for the public ear, the Democratic Reading Room, &c. The McClellan Minute Guard, originated in New York, would seem to be a branch of the order, seeking to accomplish the same objects by means suited to the localities in which it is established.

The government of the order throughout the United States is vested in a Supreme Council, of which the officers are a Supreme Commander, Secretary of State and Treasurer,—elected for one year. The government of the order in a State is vested in a Grand Council, the officers of which are a Grand Commander, Deputy Grand Commander, Secretary, Treasurer, and a certain number of Major Generals, or one for each Military district—also elected annually. Then there are county and town branches.

The secret constitution of the Supreme Council provides that the Supreme Commander "shall be Commander-in-chief of all military forces belonging to the order in the various States, when called into actual service," and the Grand Commanders "shall be Commanders-in-chief of the military forces of their respective States." Subordinate to the latter are the Major Generals, commanding a district. In Illinois, where the organization was most perfect, the members in each Congressional district compose a brigade, having a Brig. General; of each county, a regiment, having a colonel; and of each township, a company. In Indiana, each company is divided into squads, each with its chief, to carry on the guerrilla mode of warfare in case of an outbreak. The McClellan Minute men are organized upon a similar military basis. A strict obedience on the part of members to the orders of their superior, is enjoined. The report says: when it is understood that the order comprises within itself a large army of well-armed men, constantly drilled and exercised as soldiers, and that this army is held ready at any time for such forcible resistance to our military authorities, and such active co-operation with the public enemy as it may be called upon to engage in by its commanders, it will be perceived that the titles of the latter are not assumed for a mere purpose of display, but that they are the chiefs of an actual and formidable force of conspirators against the life of the Government, and that their system is "the grand lever used by the Rebel Government for army operations."

The first supreme commander was P. C. Wright, editor of the New York News. Upon his arrest in May last he was succeeded by Vallandingham. During his absence Robert Holloway, of Illinois, is represented to have acted as Lieut. General, or Deputy Supreme Commander. H. H. Dodd was the Grand Commander in Illinois. Most of the chief and subordinate officers of the order are known to the Government.

It will be remembered that the Sons of Liberty held a session in Chicago just previous to the assembling of the Democratic Convention, and that a member of the Convention in the course of a speech alluded approvingly to its sessions, as that of an organization in harmony with the sentiments and projects of the Convention.

The Temples or Lodges of the order are numerously scattered through Indiana, Illinois, Ohio, Missouri and Kentucky: there are some also in Michigan and the other Western States, as well as New York, Pennsylvania, New Hampshire, Rhode Island, Connecticut, New Jersey, Maryland Delaware and Tennessee. Dodd claimed that at the next annual meeting (Feb., 1865) every state would be represented. Provision was made in the constitution for a representation from the Territories—showing how wide an extension of the order was contemplated. The places of meeting, &c., are now generally well known to the Government. The actual number of members of the order is uncertain; Vallandingham, in his speech at Dayton, Ohio, last summer, places it at 500,000. The order, or its counterpart, is probably much more widely extended at the South than at the North; most reliable witnesses declare that a large proportion of the officers in the rebel army are members. In Kentucky and Maryland the order has freely initiated rebel officers, and even guerrillas, who might be supposed to appreciate most readily its aims and purposes.

The order at the outset partook of a military character; but it was not till the Summer or Fall of 1863 that it was generally organized as an armed body. Since then a general system of drilling has been instituted and secretly carried out. It is abundantly shown that by means of a tax on the members the order has accumulated considerable funds and procured large quantities of arms and ammunition for its use. The witness, Clayton, at the trial of Dodd, estimated that two thirds of the order are furnished with arms. In Ohio and Illinois the members are unusually well armed with revolvers, carbines, &c. When the introduction of arms in the Department of the North was prohibited in March last, the Government seized a large quantity of revolvers and 135,000 rounds of ammunition, which had been shipped to the firm in Indianapolis, of which Dodd is a member; and also other arms in New York—all of which were claimed as the private property of John C. Walker, one of the Indiana "Major Generals" of the order, and were represented to have been "purchased for a few friends." [To be continued]

☞ The "copper and copperheads" organ in this city closes one of its stereotype rhodomontades, with the following prayer:

"If the present ruling party are continued in power, may the Lord Almighty have mercy upon the country."

Now without suggesting that the prayers of a certain sort of people avail nothing—it ought to be the belief of the eminently pious writer of that petition, that if "the present ruling party *are* continued in power," it will be done at least through the allowance of "the Lord Almighty" aforesaid; in which case, we suppose, it must follow, either that He does so in "mercy" to the country, or as a punishment to the bold traitors South, and their cowardly coadjutors North, for their manifold sins — which they are called upon to repent and forsake, ere they may ask to be forgiven. r.

☞ In alluding to the late victory won by Sheridan, the New York Herald says: "Sheridan's arrival on this field of battle, and the wonderful change that he immediately brought about, has induced in some quarters reference to the battle of Marengo, and to the great victory that was there won by the French army—after that army was certainly beaten. Comparison was thence drawn between Sheridan and Desaix; but the comparison is eminently unjust to our valley hero. There is no parallel at all in the two cases. Dessaix came up to Marengo with a reinforcement. He brought a *corps d'armee*, and that fresh corps won the battle, even while the Austrian commander, far in the rear, was receiving congratulations upon his victory. But Sheridan did not come with a *corps d'armee*. He brought only the brains of a general and the heart of a hero. It was his single Brenaus sword that turned the scale in our favor. His personal presence won the battle. It was his ride down the lines, that the soldiers might see him and know that he was there, which inspired them once more with the old and invincible ardor that had carried them on to former victories."

OUT OF THE FRYING PAN INTO THE FIRE. — On the morning of Sunday, at Barmuckity, near Elgin, Canada, in a house inhabited by George M'Arthur, laborer, a herring had been cooked for breakfast. The cat seized the herring and ran under the bed with it. The good wife, enraged at this, threw a firebrand at the cat, and in a moment the bed was in a blaze.—She ran out for water to extinguish the flames, but instantly remembered she had left an infant in the house, and returned to rescue it. In this she succeeded, but both mother and infant were severely scorched, and the house was soon reduced to ashes.

☞ The Skowhegan (Me.) Clarion, speaking of the stoppage of the Skowhegan Farmer, says that "unless the price of the paper materially falls, more than half of the country papers will have to stop, as they cannot go forward much longer at the loss they have been subjected to for the last six months." And yet some folks talk about the high price of newspapers! Pshaw! there isn't another commodity in the market, so cheap, whether the relative value or actual cost be considered.

— Victor Emanuel, it is said, gets continually and disgracefully drunk.

THE REBELLION.

Hood is reported moving rapidly down the Broometown Valley to Jacksonville and Talledega, where he will strike the railroad to Montgomery. Gen. Sherman's army is stripped of every pound of superfluous baggage, and is in hot pursuit. The rebel army, however, has so much the start, and it flies so fearfully that its capture is not so assured.

Bragg has been sent to take care of the defences of Wilmington, N. C.

The shelling of Charleston still continues regularly, and the papers there state that our shells, having reached a portion of the city never before touched, have caused a great deal of damage to buildings and considerable injury to persons.

Forrest is reported to have joined Hood with his cavalry.

Our army officers, by their recent reconnoissance in Mobile Bay, ascertained that the rebel torpedoes are either water-soaked and spoiled, or rendered inoperative by barnacles.

The skirmishing in Missouri terminated in a general battle on Sunday, in which Price's whole army was defeated and driven from Independence. He is now rapidly retreating south, with our cavalry in hot pursuit, the infantry following them. A large number of prisoners and three pieces of artillery were captured. Our loss was much less than that of the enemy.

Gen. Sheridan's losses on the 19th were about 5000, killed, wounded and missing. We captured, including the wounded, 7000 prisoners, and the total loss of the rebels cannot be less than 10,000 men. Gen. Custar alone has 45 guns, captured by him, making 51 captured by his division during the last two weeks. Prisoners assert that Longstreet was not present at the fight.

Braine and his associates were on trial at Bermuda, Oct. 17, for the capture and destruction of the Roanoke. Bail for them was refused.

NATIONAL THANKSGIVING.

It has pleased Almighty God to prolong our National life another year, defending us with His guardian care against unfriendly designs from abroad, and vouchsafing to us in his mercy many and signal victories over the enemy who is of our own household. It has also pleased our Heavenly Father to favor as well our citizens in their homes as our soldiers in their camps and our sailors on the seas with unusual health. He has largely augmented our free population by emancipation and by immigration, while He has opened to us new sources of wealth, and has crowned the labor of the working men in every department of industry with abundant reward. Moreover he has been pleased to animate and inspire our minds and hearts with fortitude, courage, and resolution sufficient for the great trial of civil war into which we have been brought by our adherence as a nation to the cause of freedom and humanity, and to afford to us reasonable hopes of an ultimate and happy deliverance from all our dangers and afflictions.

Now, therefore, I, Abraham Lincoln, President of the United States, do hereby appoint and set apart the last Thursday in November next, as a day which I desire to be observed by all my fellow-citizens, wherever they may then be, as a day of thanksgiving and prayers to Almighty God, the beneficent Creator and Ruler of the Universe; and I do further recommend to my fellow-citizens aforesaid, that on that occasion they do reverently humble themselves in the dust, and from thence offer up penitent and fervent prayers and supplications to the Great Disposer of events for a return of the inestimable blessings of peace, union and harmony throughout the land which it has pleased Him to assign as a dwelling place for ourselves and our posterity throughout all generations.

ABRAHAM LINCOLN.

— Wilmington (N. C.) papers state 119 deaths from yellow fever had occurred in Newbern during 24 hours. They advise the people to remove their families from Wilmington for the present. At Charleston the yellow fever was fearfully increasing, and the mortality among children was terrible.

— A fire at Eastport, Me., on Sunday morning, which broke out on Union wharf at half-past one o'clock, and continued until eight, consumed all the business part of the town. About fifty places of business were destroyed, including the best stores. The building containing the Frontier Bank, Telegraph office, &c. was burned. The loss is estimated at $500,000.

— Twelve of the St. Albans raiders have been captured in Canada. The one in jail at St. Johns states that the raid was conducted by a Captain in the Confederate service. Fears are entertained from the sympathy shown at St. Johns, that an attempt will be made to rescue them. A cavalry force has been called out and are now guarding the jail.

— In May last there were 32,146 children in Boston between 5 and 15 years of age, and 27,151 attended the public schools, leaving about 16 per cent. to be accounted for as attending private schools, or as attending no school. The average daily attendance of all the schools, as compared with the average number of names on the rolls, was 90.6 per cent.

— A farmer in England has discovered that the swelling from the sting of a wasp can be speedily reduced by the application of Turpentine.

CAPTURE OF THE ROANOKE.—The following is the statement of the capture of the Roanoke by Brain and his associates. The steamer left Havana for New York on her regular day, and proceeded on her course until evening in the usual manner and without anything remarkable occurring. Capt Drew retired to his cabin about 10 o'clock. At that time a number of passengers were assembled aft, singing. Suddenly several men, armed with revolvers, entered his cabin, and in a moment he found himself handcuffed. Others of the party in the meantime adopted similar measures in other parts of the ship, and in a few moments she was completely in the hands of the pirates. Only two shots were fired. One took effect on the carpenter of the Roanoke, who offering resistance, was shot dead. The pirates then shaped their course for Bermuda. On arriving off that place they did not attempt to enter, but waited for some passing vessel by which they could send the crew and her passengers ashore. There were fifty of the former and thirty of the latter, mostly Spaniards. The Roanoke had but little freight and from $40,000 to $50,000, partly in specie. She had very little coal on board. The passengers and crew were transferred to the Mathilde and were landed at Bermuda. Soon after the pirates arrived there in boats, having burned the Roanoke.

— Gen. Butler has relieved from labor in the Dutch Gap Canal the rebel prisoners placed there in retaliation for captured colored soldiers of our army put to work on the rebel fortifications, Lee having released the latter and agreed to treat them as prisoners of war.

— At the regular prayer meeting of the Park street church, Boston, Friday evening, Rev. Dr. Stone said he should fully and cheerfully acquiesce in the decision of the council, and continue his connection with the church.

— The Metropolitan Car House and Stable at Roxbury, Mass., were burned on Saturday evening. The horses were got out. Four cars and twenty-seven omnibuses were burned. Loss $20,000—well covered by insurance.

— Since Aug. 1, 1863, twenty-six blockade runners have been captured and twenty-four destroyed, off Wilmington, N. C.

— Gen. Banks and wife arrived in Boston on Saturday evening, and took carriages for their residence in Waltham.

— Counterfeit $2s on Agawam Bank, Springfield, Mass., are circulating in Boston.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new Hair in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ A trifling mistake occurred in our mention of the Lyceum yesterday. After the words, "*no* more tickets will be sold," the compositor accidently overlooked and omitted to add what was next written,—"than the number stated," 800. However, it don't make much odds, for the whole will be disposed of, and then the statement as printed will be literally true.

☞ Lt. Com'r. Robert Boyd, jr., U. S. N., has been detached from the Powhatan; waiting orders.

Sailmaker John W. North has been detached from the San Jacinto; waiting orders.

Acting Master J. S. Randall, has been ordered to medical survey at Portsmouth.

John A. Patterson has been appointed Acting Second Assistant Engineer, and ordered to the San Jacinto.

The resignation of Acting Assistant Paymaster Frank W. Hackett has been accepted.

☞ The side-wheel steamers Tioga and De Soto have been taken from quarantine to the Navy Yard, the former being towed up on Saturday by the tug-boat Portfire, and the latter on Monday by the same tow boat, with the assistance of the steamer Pioneer. Both the De Soto and Tioga have been quarantined since the early part of the month of July, the former being removed from the Yard by the city Board of Health, and returned under their superintendence. The late severe frosts have probably destroyed the direful disease which caused such an excitement in our midst last summer, yet even now, in breaking out the holds of these vessels, too much care cannot be exercised, as it is possible that some of the articles of clothing or furniture may still be infected.

POLICE COURT, Monday.—William Drew, for brawl and tumult, was fined $3. and costs $3.86.

Anthony Roan, for a like offence, was also sentenced to pay the same fine and costs.

Robert Harrington, for drunkenness, was sentenced to pay the same fine and costs.

Cornelius Kane, a boy, for throwing stones in the street was sentenced to the House of Correction for five days, and to pay costs, $2.86.

Timothy Lynch, for brawl and tumult, was fined $3. and costs $3.86.

S. J. COURT, Monday.—John Hoyt, indicted for an assault at Newington, retracted his plea of not guilty, and pleaded *nolo contendere.*

The trial of Loammi Tuttle, for assault upon George F. Keniston with intent to kill, at Epping, was commenced on Monday, and is still on trial. Attorney General Clark for State. Hatch and Bartlett for deft.

The jury in case of Frothingham vs. Morse, returned a verdict for plf. for $65,25 payable in currency. This suit was for money ($50) attached by deft. as Sheriff and taken in gold.

Hattie Morrison was arraigned for keeping a house of ill-fame in Portsmouth; plea not guilty.

☞ Not a few people who really intend or desire to go to the Lyceum, will either defer buying season tickets till too late; or else neglect to do it at all, as they do not care to attend all the lectures, and hope that somehow or other they can get into those that they *do* feel interested in. We tell them that this is not so—no evening tickets will be sold, and no passes can be given.

And as to the cost of admission, any half of the course will be cheap at the cost of a ticket; and in fact, Gough's Lecture tonight, with the Cornet Band's Concert, are well worth the $2 asked for the whole.

☞ Mr. Geo. W. Fletcher, of Amherst fell from an apple tree last week, injuring his spine, and lies in a helpless and precarious condition. The limb which broke was large and fair, but had been completely riddled by borers. Mr. Asa Ham of this city, also fell from an apple tree at the Creek, a few days since, by a large fair living limb giving way, but fortunately he was not much injured. We have noticed more limbs broken from trees during the past summer, than ever before.

☞ There is no place under the sun so destitute of public Halls, as this good old city of Portsmouth. Mr. Dobley of Boston, a splendid Gymnast, was intending to open a school for classes here this winter, but could procure no suitable place, and so was forced to give it up. And the Lyceum Committee are obliged to limit their tickets to the comfortable capacity of the Temple, thus shutting out many who would be glad to go. We don't know why there should be so much difference—Concord with sixteen good large halls, and Portsmouth with almost none available to the public.

☞ The States & Union says Provost Marshal Hall has returned those guns of Mr. French's, to the place from where they were taken. Wonder if the fellows whose names they bear, will get them?

THE CONCERT TO-NIGHT.—The Cornet Band, we are told, will present a new and rich programme at the Lyceum this evening.

☞ "Finally, brethren, farewell;" this is the last chance to procure Lyceum tickets; and if any among our readers fail to secure them before it is too late, they will bear us witness that it is not our fault, for we have added line upon line, &c., in regard to the matter. That the whole number issued will be sold, and more called for (in vain) there seems to be no room for doubt.

DR. SCHENCK'S next visit to Boston will be on WEDNESDAY and THURSDAY, the 26th and 27th of this month.

☞ Two concerts are to be given in this city, Oct. 29 and 31, by the Italian Opera Troupe, consisting of Sig. and Mad. Liberaty, Sig. Negrini, Messrs. Jean Louis, Gebert, and Schultze, and an excellent orchestra. The programme will consist of selections from German and Italian Operas.

Said a venerable preacher—Fellow sinners, if you were told that by going to the top of those stairs, (pointing to a rickety pair at the other end of the church) you might secure your eternal salvation, I really believe hardly one of you would try it; but if I should proclaim that J. Monroe Taylor had put a few bars of his celebrated Gold Medal Soap on the top stair for the one that would get it first, I'll be bound there ain't one of you but what would use your utmost exertions to gain the prize; my wife says there ain't anything like it, and she would recommend the whole parish to use it. 17

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portuguese Sambuco, a valuable grape which he cultivates in the country. In taste it assimilates to port with out its heating qualities, being absolutely free from spirits further than its own fermentation affords. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Salaratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

SABRE CUTS, GUNSHOT WOUNDS, AND all other kinds of Wounds, also Sores, Ulcers and Scurvy, heal safely and quickly under the soothing influence of HOLLOWAY'S OINTMENT. It heals to the bone, so that the wound never opens again. Soldiers, supply yourselves.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 233

L. M. EMERY, ARTIST,

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "

and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

E. A. STEVENS,
No. 46 MARKET STREET.
Housekeeping Goods.

AN UNUSUALLY LARGE STOCK OF EVERY KIND OF

KITCHEN FURNISHING GOODS,

SAVE YOUR FUEL!

IT becomes every housekeeper to study Economy in these days of high Prices. With coal at 16 dollars per ton, no prudent person can afford to use an ordinary Stove; the fuel wasted by it will purchase two First Class ones.

After Four Years trial, we offer to the Public

THE MODEL COOK STOVE,

As once the most Economical, Substantial and Convenient Cooking Apparatus in the market.

It has Five-boiling Plates, and two Ovens that can be used separately, or thrown into one at pleasure.

The Stove is furnished with Tin Jackets, the Ovens are lined, and every precaution has been taken the heat. 17 lbs. of Coal per day will operate the medium size, if proper care is taken.

The Stove is equally good for Coal or Wood, and will operate in any locality.

As to the *Economy of it*, we have the testimony of many of our shrewdest customers, who "Count the Cost." Said a purchaser, not long since, "I saw my own wood and I know the Model Cook does not take more than half as much fuel as our old stove did, and bakes much better."

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself had been told off the same pile, he burned three baskets full a day, and his father only one!! We sold him a Stove before he left, and there has been no complaint since.

We refer to some persons who have purchased Model Cook Stoves, and can testify of their good qualities:

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented; the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meat is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the fuel, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without ongoing out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill	Charles E. Mendum,
Henry F. Wendell,	John Sise, and others.

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of Nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in this country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price $1 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites, in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, restoring it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost intolerable pain that is experienced with other *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE PILLS!

Health Preserver!!
CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and build up a healthy and elastic constitution.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They are perfectly safe at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would be highly prejudicial.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life."—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

A NEW KIND OF FLOUR.—Grain and flour having become scarce, the Confederates have devised a new source of supply, which is thus described by the Savannah Republican:

"We have a sample of sorghum flour, made of the seed of Chinese cane, which may be seen at our office. The planter who sends it to us had no means of bolting this flour, nor had he taken off the hull of the seed before grinding. The consequence is that that the flour has a pinkish color."

Those who have made a trial of this excellent flour represent it to be an admirable substitute for buckwheat. Made into hoecake it is a very savory bread. It is likely to come into very general use, if prepared like wheat flour, by bolting. The price at which it can be offered in market may be assumed at fifteen or twenty dollars per sack; but, as an acre of sorghum yields from thirty to fifty bushels, ten dollars a sack would be a remunerating price. The production of this grain the present year in Georgia must amount to five million of bushels. We have this great supply of food to fall back upon in the event of a deficiency of the common cereals, wheat and maize.

PATRIOTISM OF AN AROOSTOOK BOY.—It is gratifying to record such instances of noble patriotism, as the following communicated by a correspondent to the Boston Journal:

I saw, last evening, a young man, the representative of, I think, the most patriotic family, or one of the most, that our New England States can boast of. His name is Jerry Smith, from the town of Ashland, Me. He served two years and then went into the 3d Maine, leaving now about one year and ten months to serve. There were nine children in the family, seven boys and two girls. The seven boys went into the service. One was killed at the seven days' fight, one at Chancellorsville, and this one had been wounded four times, and in consequence of a severe attack of the measles has lost his voice; has not spoken for more than a year. The other four are in the field yet. Yet when this wound is healed he intends again to enter upon his duty as a defender of his country.

☞ A few days ago an old woman died in the small town of Lievikzee, on the banks of the Schedt. The old lady was regarded by her simple neighbors as being within only a few removes from positive poverty; but she died, and as she had always had her will during her lifetime, she left no will behind her; but to the astonishment of her neighbors, what she did leave behind her was cash, bank notes, and stock amounting in value to about two million guilders. There were pots full of gold and silver of withdrawn and forgotten currencies, which had been buried for years; there was a box full of Austrian and other stock certificates, the coupons of which had not been cut off for a quarter of a century; while in a tin canister, which might have been the domestic tea-caddy, was a quarter of a millions worth of bank notes, musty with the accumulated damp of years.

— A Justice of the Peace in Massachusetts, of more years than wisdom, recently entered the court room, and by his actions caused much merriment among the members of the bar. Much incensed at this, he called for order, and informed them that he should call in the Sheriff with his *possee cream a tartus* and reduce order.

— AGAIN said, "Give me neither poverty nor riches;" and this will ever be the prayer of the wise. Our incomes must be like our shoes: if too small, they gall and pinch us; but if too large, they will cause us to stumble and to trip. But wealth, after all, is a relative thing, since he that has much, but wants more. True contentment depends not upon what we have;—a tub was large enough for Diogenes, but a world was too little for Alexander.

— We find the following apt quotation from one of the letters of Sir Walter Scott:—"If a man of honor is unhappy enough to entertain opinions inconsistent with the service in which he finds himself, it is his duty to at once resign his commission; in acting otherwise he disgraces himself."

Time Wanted.—A correspondent writes, complaining that if he could only find time, he would do anything for us. Another writes word, that he has been keeping late hours for several years. Surely the latter must have a stock by him. One correspondent will doubtless be able to oblige the other with a few spare minutes. [London Punch.]

— A young man in Lewiston, feeling cold the other night, borrowed a soldier's overcoat, and was arrested as a deserter and put in jail, where he remained till the next morning.

— The New York tailors, it is said, now ask "consultation fees" after the manner of lawyers. Why not? Do not both attend to suits?

— Dr. John Brown has another companion to "Rab and Friends" in the press, entitled "The Enterkin."

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes water soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for those diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, &c., &c., &c., and other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the prospect of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend in a console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married family. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichols's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents for the United States; also in Great Britain, France and other foreign countries, Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; and all legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting the Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through its facilities have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any other agency in the United States, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration of the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

WEDNESDAY, OCTOBER 26TH, 1864.

THE GREAT CONSPIRACY

AGAINST THE UNION.

Arms were to be furnished the order from Nassau, via Canada, and the transportation of them into Canada was actually to be furnished by the rebel authorities. Had Vallandigham been arrested on his return to Ohio, arms were to be furnished from a point in Canada, near Windsor, where they were stored and ready for use. Shells and all kinds of ammunitions of war, as well as infernal machines, were manufactured at Indianapolis for the order; and samples of hand-grenades, conical shells, and rockets, of which one thousand were about to be manufactured under contract for the O. S. L., were recently discovered at Cincinnati. It was proposed to organize militia companies and thus obtain arms of the Government, besides having advantage of the drilling and instruction, — all to be employed eventually *against* the Government. In Kentucky it was proposed to disarm the negro troops and appropriate their arms for the purposes of the order. The despicable treachery of the proposed plans shows the character of the Conspirators.

The ritual of the order, as well as the secret signs, passwords, etc., are known to the military authorities. Many copies of the ritual were found in the office of D. W. Voorhees, M. C. from Indiana, in Dodd's building, and in other places. The ritual is "progressive," providing for five separate degrees, and only on certain vouchers and proofs of fitness could a member rise from a lower to a higher degree. The great majority of the members attain to only the lower degree. The oath administered is especially imposing in its language, prescribing "a shameful death" for a violation of the obligation assumed, and that the body of the person guilty shall be divided into four parts and cast out at the four "gates" of the temple. It requires a blind obedience to the orders of the Superiors of the order, and is to be held of *paramount obligation* to any oath of allegiance, or any oath which may be administered to a member in a court of justice or elsewhere. And not only must the members lie about the order, but they must also lie about the administration and the officers of the Government.

A Northern member of the order can pass without risk through the South by the use of the signs of recognition. There are also signs of warning and danger.

The "declaration of principles" set forth in the ritual of the order declares in effect; first, the absolute right of Slavery; second, state sovereignty and the right of secession; and third, the right of armed resistance to constituted authority on the part of the disaffected and the disloyal, whenever their ambition may prompt them to revolution. And this is but a re-assertion of the abominable theory of the Northern secessionists and traitors. In fact, the password for admission to a lodge was "Nicholas," or the name of Calhoun, the traitor, spelled back wards.

The great object of the order was to aid the rebels; it was hostile in every respect to the general government. It aided Union Soldiers to desert, and afterwards harbored and protected them. It sent emissaries into camps to introduce the order, and then instructed the members to induce as many of their companions as possible to desert, with their arms, furnishing them with money and citizens' clothing. Through the schemes of the order in Indiana, whole companies were broken up; (a whole detachment of a battery company, for instance, deserting on one occasion to the enemy, with two of its guns,) and the camps were imbued with a spirit of discontent and dissatisfaction with the service. [And then the copperhead papers raised their hue and cry about the number of deserters from our army, which all will remember.] The order discouraged enlistments and resisted the draft; it circulated disloyal and treasonable publications, especially in Missouri; it communicated with and gave intelligence to the enemy, carefully protecting rebel spies, mail-carriers and emissaries, — thus learning of contemplated raids and informing the rebels of contemplated movements by our armies; it aided the rebels by recruiting for them, and assisted them to recruit within our lines, particularly in Kentucky and Missouri; it furnished the rebels with arms, ammunition, medical stores; it co-operated with the rebels in raids and invasions; it has burned or otherwise destroyed large quantities of government property; it has persecuted Union men and burned their property; it has assassinated Union men and soldiers in cold-blood, and has recommended and urged it in its meetings; and it has made the establishment of a western and north-western Confederacy in alliance with the south, the grand end and aim of all its plotting and conspiracy. It is even claimed that this new confederacy is already organized, with its "provisional government," officers, departments, bureaus, etc., in secret operation.

The facts in regard to the order and its infamous purposes have been derived from a great variety of dissimilar sources (detectives, scouts, captured rebel officers and soldiers, members of the order who were deceived in its object, and appalled at its infamous designs, writers of anonymous letters, &c. &c.,) but all the witnesses, however different their situations, concur so pointedly in their testimony, that the evidence must be regarded as of the most reliable character. The most remarkable of the detectives is a man named Sidger, formerly a private soldier in our army, who, by the use of an uncommon address, though at great personal risk, succeeded in establishing such intimate relations with Dodd, and other leaders in Indiana and Kentucky, as to be appointed grand secretary for the latter State, a position most favorable for obtaining information. The report concludes as follows:

In the presence of the Rebellion and this secret order—which is but its echo and faithful ally—we cannot but be amazed at the utter and wide-spread profligacy, personal and political, which these movements against the Government disclose. The guilty men engaged in them, after casting aside their allegiance, seem to have trodden under foot every sentiment of honor and every restraint of law, human and divine. Judas produced but one Judas Iscariot, and Rome, from the sinks of her demoralization, produced but one Catiline; and yet, as events prove, there has arisen together in our land an entire brood of such traitors, all animated by the same parricidal spirit, and all struggling with the same relentless malignity for the dismemberment of our Union. Of this extraordinary phenomenon—not paralleled, it is believed, in the world's history—there can be but one explanation, and all these blackened and fetid streams of crime may well be traced to the same common fountain. So fiercely intolerant and imperious was the temper engendered by Slavery, that when the Southern people, after having controlled the national councils for half a century, were beaten at an election, their leaders turned upon the Government with the insolent fury with which they would have drawn their revolvers on a rebellious slave in one of their negro quarters; and they have continued since to prosecute their warfare, amid all the barbarisms and atrocities naturally and necessarily inspired by the infernal institution in whose interests they are sacrificing alike themselves and their country.

Many of these conspirators, as is well known, were fed, clothed and educated at the expense of the nation, and were loaded with its honors at the very moment they struck at its life with the horrible criminality of a son stabbing the bosom of his own mother while impressing kisses on her cheeks. The leaders of the traitors in the loyal States who so completely fraternize with these conspirators, and whose machinations are now unmasked, it is as clearly the duty of the Administration to prosecute and punish, as it is its duty to subjugate the Rebels who are openly in arms against the Government. In the performance of this duty, it is entitled to expect, and will doubtless receive, the zealous cooperation of true men everywhere, who, in crushing the truculent foe ambushed in the haunts of this secret order, should rival in courage and faithfulness the armies which are so nobly sustaining our flag on the battle-field of the South.

— Stringent arrangements have been made to prevent rebel pirates shipping in disguise on board steamers leaving New York, for the purpose of seizing them when at sea, as the Chesapeake and Roanoke were taken.

— Mr. Dana said in Faneuil Hall the other night that the Chicago platform was built at dead low water. The rising tide of success had submerged it, and now nothing is to be seen but candidates swimming for their lives.

— The publishers of the Atlantic Monthly and the North American Review, Messrs. Ticknor & Fields, Boston, will issue in a few weeks the first number of a new Magazine for Boys and Girls. They certainly have enough irons in the fire.

— The New Zealand war is ended, the insurgents having unconditionally submitted to the Queen's authority and placed their lands at the Government's disposal. They were permitted to return to their lands, a small portion of which only will be forfeited.

— The Richmond papers of the 17th publish an account of the blowing up and sinking of the U. S. steamer Niphon, but Adm. Porter telegraphs the Navy Department that he has received letters from officers on board the Niphon, dated the 18th.

— The War Department has ordered that hereafter all bills for printing headings to letters, the address on envelopes, and similar matters, shall be stopped against the pay of the officer ordering the work. The order says: "At a time when the greatest economy should be observed, all such superfluous and ostentatious outlay must be strictly avoided."

— The manner of advertising for a husband in Java is by placing an empty flower pot on the portico roof, which is as much as to say, "A young lady is in the house; husband wanted." That, says a morose bachelor, is as much as to say that when a man marries he goes to pot.

— The Palmetto Herald says that the latest advices report the average deaths daily in Charleston from yellow fever at 20. Also that the rebel papers are filled with obituaries of distinguished Southerners, and with discussions of peace and reconstruction. On the whole, their tone is very favorable to us, and show a great change within the last few months.

THE REBELLION.

Grant is reported to be planning some very important operations,—wait a little longer.

Gen. Wool has gone to Washington, preparatory, it is thought, to assuming command of the north-eastern border.

Among the artillery captured by Gen. Sheridan were 20 pieces that were "bran new," of Richmond manufacture. Upwards of 12,000 small arms have already been picked up. The Richmond Enquirer, in speaking of their defeat, says the rebel army when it reached New Market was worn out by fatigue and "greatly perplexed" at the result.

Gen. Ricketts, who was wounded at Cedar Creek, is not expected to live.

Two of Gen. Butler's batteries on the James river, near Chapin's Bluff, have driven the rebel gunboats up the river, after badly damaging them.

On the 17th inst. a large fleet arrived off Charleston, including schooners laden with ammunition, &c. Destination unknown. Hardee has proposed to Gen. Foster, at Charleston, a general exchange of prisoners in his hands, man for man and officer for officer, or their equivalent. The matter would probably be referred to Washington.

On Monday Price was in full retreat, closely pursued by our forces, being then 25 miles south of Kansas City.

Bustle is not industry, nor impudence courage.

— Gen. Banks is to speak in Boston in a few days.

The tongue makes deeper wounds than the teeth.

— Sixty two buildings were burned in Eastport, Me., by the recent fire.

The herb doctors hold that, to be healthy, a man, like a tree, must take root.

— A whaler has arrived at San Francisco from the Arctic regions with 1150 barrels of oil.

Too many men no more carry their religion into their business than they would wear a life preserver in the parlor.

— Hon. Mark H. Dunnell is about leaving Maine, to establish his residence at Winona, Minnesota Territory.

— A newspaper correspondent is said to have made $100,000 this year from a leased cotton plantation.

— Chas. Mason, of New Haven, Ct., sold a Merino buck at the recent State Fair, for $3,000.

— Gen. Custar has been promoted to a Major Generalship in consideration of his brilliant services in the Valley.

— The pirate Semmes and 180 men have left Liverpool,—it was reported to take possession of the steamer Ranger recently at Madeira.

— Some women have been drummed out of Camp Berry, Portland, under an escort of a corporal's guard with fixed bayonets, for smuggling liquor to the soldiers.

— On the Manchester and Milford Haven line (shortly to be opened), in England, there will be a station named Fontrhydfandigaid.—What a terror to travellers!

— The depression in England still continues. Business, especially in cotton, is at a dead lock, and prices continue to fall. Additional failures are reported.

— The ex-Grand Duke of Tuscany has just been re-elected Mayor of Schlackenwerth, in Bohemia. The ex-sovereign is philosophically content to act as Mayor of his village.

— "Well, wife, I don't see for my part how they send letters on them ere wires without tearing 'em all to bits." "Laws me, they don't send the paper, they just send the writin."

— The official home vote of the entire State of Pennsylvania shows a Democratic majority of six. The Philadelphia Press says these six men, on a fair calculation, cost the Democrats $200,000 each.

— Five indictments have been found against Edward A. Long, the defaulting clerk of the Lighthouse Department in Boston. He is supposed to have gone to Havana. His bondsmen will be called on to respond to the extent of $15,000.

— The town of Perigueux a few days ago received a painful shock. M. Daussel, member of the Council General, was on the point of getting his daughter married to a young gentleman of fortune. The latter, by some mischance, was stung in the arm by a venomous insect. His father, while rendering him assistance, was struck with apoplexy and died. The person who was charged to convey the melancholy intelligence to M. Daussel executed his mission so abruptly, that the young lady, thinking it was her intended husband who had died, was so affected that she expired in three days after from the effects of the shock.—[Foreign Paper.

HINTS FOR BEGGARS.—Baron Rothschild, of Paris, it is said, possesses the most voluminous collection of begging letters that any financier ever received. They form a complete series. Among the number is one lately addressed to the Baron containing the very tempting proposition that for the bagatelle of fifty thousand francs the writer would engage to show how he could prolong his life to the age of one hundred and fifty years. The following is the Baron's reply:

"SIR: It has frequently happened to me to be threatened with death if I did not give a sum of money. You are certainly the first that has ever asked me for it in proposing to prolong my life. Your proposition is, without doubt, far better and more humane. But my religion teaches me that we are all under the hand of God, and I will not do anything to withdraw myself from His decrees. My refusal, moreover, does not in any way attack your discovery, from which you will not fail, I hope, to profit yourself. Regretting that I cannot accede to your proposal, I sincerely congratulate you on the one hundred and fifty years which you are called on to live in this world. J. DEROTHSCHILD.

Shakespeare says of man: "What a piece of work is man! How noble in reason how infinite in faculties! in form and moving how express and admirable! in action, how like an angel! in apprehension, how like a God!" Science says of the same animal:—"Man is, chemically speaking, forty-five pounds carbon and nitrogen, diffused through five and a half pailsfull of water!"

— A horse chestnut tree, standing in North Ferry street, Albany, is now in full bloom, the blossoms being as large and numerous as though it were summer.

AYER'S PILLS.

ARE YOU SICK, FEEBLE AND COMPLAINING? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, and purify the system from the obstructions which cause disease. A cold settles somewhere in the body and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous disorders. The same purgative effect expells them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the Army and the West, try it and you will endorse these assertions.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

THACHER, opposite the Post Office and 12 Market Square, Agent for Portsmouth.—Geo. C. Goodwin, No. 38 Hanover street, Boston, Wholesale Agent for New England, and sold by Druggists everywhere. TEBBETTS BROTHERS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Local.

THE LYCEUM opened gloriously last night, as was to be expected. Gough spoke on "Fact and fiction," as almost only he can; and the Band discoursed music equally eloquent with his fervid words. The tickets were well disposed of, and the attentive audience filled the house, yet not uncomfortably. The numerous and urgent calls for evening tickets, were in vain—and "we told you so."

The difficulty of obtaining speakers at the desired time, and the occurrence of the election, rendered it impossible for the Committee to fix the date of the next Lecture, which will probably not be given under two or three weeks.

S. J. COURT, Tuesday.—The jury in the case of Loammi Tuttle returned a verdict declaring him guilty of a simple assault, and he was sentenced to 30 days' imprisonment in the county jail; and to pay costs of prosecution.

Martin Garity was convicted of keeping a disorderly house in Fleet st., Portsmouth. His council moved to set aside the verdict—Attorney General Clark for state; Hatch for defendant.

Charles Griffin, accused of stealing a horse from Henry H. Smith of Newmarket, was acquitted. The civil docket will be taken up to-day,—Wednesday.

☞ The term of service of Company B, Maine State Guards, Capt. Roberts, at Fort McClary, Kittery, Me., terminates on Tuesday next, when they will probably be relieved by the company now at Fort Popham, Me., which is enlisted for one year. Company B is a good company, finely officered; and have well garrisoned the post. On a brief visit to the Fort on Tuesday afternoon, we found the enclosure, barracks, guns, etc., all kept in the most neat and careful manner.

☞ Among the Union prisoners who were exchanged by the flag of truce boat from Richmond, Oct. 18, was Christopher Horey of Kittery, Me., Acting Master's Mate, of the U. S. steamer Powhattan, captured Sept. 8, 1863.—So says the Boston Journal.

☞ A very large audience of the coppercracy filled the Temple on Monday evening, to listen to the speech of Hon John H. George, of Concord.

☞ Capt. Richard W. Meade has been ordered to the command of the San Jacinto, at the Portsmouth Navy Yard.

NEW HAMPSHIRE ITEMS.

—— Manchester is some on pumpkins—has one weighing eighty-seven pounds.

—— Applications have been made for the furlough of all New Hampshire soldiers in hospitals, that they may vote at home.

—— Orders have been issued furloughing all N. H. soldiers in hospital, able to travel, to come home to vote.

—— The Wolfboro' News has changed hands. Mr. Charles H. Parker, who has been connected with it, has purchased the office, and raised the subscription from $1 to $1.25 per year.

—— The Union State Central Committee's canvass of the State foots up, exclusive of the soldiers' votes—Lincoln 35,597, McClellan 32,271, doubtful 502. We must have about 10,000 soldiers, one-half of them being voters, and everybody knows that they will vote as they fight.

NAVAL.—The U. S. sloop-of-war Constellation sailed from Algeciras, Sept. 28th, for Madeira and the United States. Side-wheel steamer Pontoosuc, has been repairing in the dry dock at the Brooklyn Yard, and came out last week. Her repairs, which must be thorough and complete, will require at least forty days to finish. She was badly damaged in her recent trip to Aspinwall, although she encountered nothing heavier than the trade winds in the Gulf. She proved herself to be unsuitable for outside work, and must be greatly strengthened before going to sea again.

—Information has been received at the Navy Department from Adm. David D. Porter of the capture of the blockade runner Nando, a steamer of 600 tons burthen, with a cargo of five hundred and fifty bales of cotton.

— A Montreal paper of Friday, the day after the raid upon St. Albans, has this: "Mr. George N. Sanders, the well known Agent of the Southern Confederacy, is in town." What connection this arrival may have with the raid can be guessed from the fact that one of the robbers telegraphed to Sanders thus: "We are captured. Do what you can for us."

— A thrifty housekeeper in Belfast, Me., one evening last week went to market, filled her basket with pork, tea, coffee, &c., and then went to attend services in the Methodist church, depositing her well-filled basket in the anteroom. During the services some hungry wretch stole the contents but generously left the basket, which the good woman found when "meeting was out."

— Some gentlemen waited on a well-known banker in Paris, a short time ago, to request him to subscribe to a certain charity. The banker put down his name for £10. One of the gentlemen ventured to expostulate on the smallness of the sum, saying, "Baron, your sons have put their names down for £20 each." "Oh!" said our modern Cœsus, "that is all very well for my sons; they have a father who is a millionaire!"

— The London Times, in an editorial on the address recently sent to Gov. Seymour, entreating the North to make peace with the South, shows that it has at last discovered that the only possible solution is continued war. America has commenced the fiery ordeal of war which settled Europe on its present basis, and terrible as the process is, the Times cannot doubt but America will be better for it in the end.

— Sturges, the Western millionaire, just dead, organized a company of rifles at his own expense—about $20,000.

☞ Two concerts are to be given in this city, Oct. 29 and 31, by the Italian Opera Troupe, consisting of Sig. and Mad. Liberaty, Sig. Negrini, Messrs. Jean Louis, Gebert, and Schultze, and an excellent orchestra. The programme will consist of selections from German and Italian Operas.

Misapprehension. — Common taters, said Mrs. Partington, after the preacher had ended his sermon—he having alluded to some commentators of the good book—common taters, she continued, well all sorts of taters this year are poor enough, but what has that to do with the gospel? Not half so much as the J. Monroe Taylor Gold Medal Soap has, for that will make the outside of the platter clean, if not the inside, besides it keeps folks from scolding or complaining; it is the best soap and needs no revival. 18

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portuguese Sambuco, a valuable grape which he cultivates in the country. In taste it assimilates to port with our its heating qualities, being absolutely free from spirits further than its own fermentation affords. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Saleratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use than cream tartar and soda. Try one package and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

SABRE CUTS, GUNSHOT WOUNDS, AND all other kinds of Wounds, also Sores, Ulcers and Scurvy, heal safely and speedily under the soothing influence of HOLLOWAY'S OINTMENT. It heals to the bone, so that the wound never opens again. Soldiers, supply yourselves.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit on them as other medicines make. 35 cents, 88 cents, and $1.40 per box or pot. 233

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. RYE, N. H., Feb. 20, 1846. "I hereby certify that my daughter has had the scarlet fever in a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended for the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWAYNE'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give me relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of years, and lost her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicine shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, a pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscriptions to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the
1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

E. A. STEVENS,
No. 46 MARKET STREET,

Housekeeping Goods,

AN UNUSUALLY LARGE STOCK OF EVERY KIND OF

KITCHEN FURNISHING GOODS,

SAVE YOUR FUEL!

IT becomes every housekeeper to study Economy in these days of High Prices. With coal at 16 dollars per ton, no prudent person can afford to use an ordinary Cook Stove; the fuel wasted by it will purchase two First Class ones.

After Four Years trial, we offer to the Public

THE MODEL COOK STOVE,

As once the most Economical, Substantial and Convenient Cooking Apparatus in the market.

It has Five boiling Places, and two Ovens that can be used separately, or thrown into one large oven.

The Stove is furnished with Tin Jackets, the Ovens are lined; and every precaution taken to retain the heat. 17-lbs. of Coal per day will operate the medium size, if proper care is taken!

The Stove is equally good for Coal or Wood, and will operate in any locality.

As to the merits of it, we have the testimony of many of our shrewdest citizens, who "Count the Cost." Said a purchaser, not long since, "I saw my own wood and I love the Model Cook Stove; it takes more than half as much fuel as our old stove did, and bakes much better."

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one!! We sold him a Stove before he left, and there has been no complaint since.

We refer to some persons who have purchased Model Cook Stoves, and can testify of their good qualities:

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and broiling oven heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot escape, and are burned up by the admission of cold air through the fire-pot, which forces them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. W. R. MERWIN & CO.'S COLUMN
FOR THE SALE OF
CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites its effects are *healing, soothing and emulent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

TOBACCO AND THE HEART.—M. Decaisne, in a communication to the Academie des Sciences, exhibits another clause in the heavy bill of indictment against the abuse of tobacco. He states that in the course of three years he has met, among eighty-three inveterate smokers, twenty-one instances of marked intermittence of the pulse, occurring in men from 27 to 45 years of age, and not to be explained by organic lesion of the heart. The absence of such lesion or other condition of health capable of inducing intermission of the heart, and the fact that in nine of these instances, in which the use of tobacco was abandoned, the normal action of the organ was restored, M. Decaisne believes, will justify him in concluding that, in certain subjects, the abuse of tobacco may give rise to a condition which may be termed "narcotism of the heart," characterized by intermission in the movements of that organ and in the pulsations of the radial artery; and that, in some cases, a suspension or diminution in the practice of smoking is sufficient to cause an entire disappearance of this irregularity.

— Schenectady boasts a novelty in journalism. It has a daily paper with two editors, one republican and the other democrat, who each have a page of every day's paper. The second page is for McClellan and the third for Lincoln, and spirited controversies are constantly going on within the limits of a single sheet.

— The Kingston (C. E.) American says that Hannah Snook Buck, wife of the late George Buck, of the township of Kingston, died at her son's residence a short time ago, aged ninety-one years. She lived to see the fourth generation of her children, assembled round her bed, numbering in all two hundred and nineteen souls.

— The Louisville Journal, eager to do the work of slavery, remarks: "The abolitionists advocate amalgamation; but before they practice it, they will have to get the consent of the nigger, and the nigger is getting proud." To which the Louisville Press responds with the following stinger: "Heretofore the patriarchal aristocracy have not consulted the nigger, but practiced amalgamation at will, and were always proud."

— Mrs. Olive West of Weils, Me., completed her 75th year on the 7th inst. On that day she prepared breakfast for five persons, and spun nine skiens of woolen yarn, seven knots to the skein and eight skeins to the pound. Eight skeins is considered a smart day's work for any woman.

— "Well," said a Union orator, "I, too, am a peace man—but when peace comes, I pray God she may come in the shape of a white-winged angel, and not in the form of a white-faced slave, chained under the bloody feet of an aristocratic rebel lion."

— Said brave Gen. Kearney when McClellan issued his order for the retreat of the army to Harrison's Landing: "Such an order can only be prompted by cowardice or treason."

— It is stated that the Poet Laureate has already cleared £10,000 by "Enoch Arden and other Poems."

— Mrs. Alfred Tennyson has written a new song entitled "The Alma River," and has also set it to music.

AYER'S PILLS.
ARE YOU SICK, FEEBLE AND COMPLAINING? Are you out of order, with your system deranged and your feelings uncomfortable? If so, symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Like AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, and purify the system from the obstructions which make disease. A cold settles somewhere in the body and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and discomfort. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and surely cured by this means, by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.
They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.
Ayer's Ague Cure
For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.
This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the Army and the West, try it and you will endorse these assertions.
Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Rutledge, J. H. Fletcher, W. H. Preston, David Kimball, and all druggists.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his remedies are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases. Offer indugements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, sore Nose, Tender Shin Bones, cutaneous Eruptions, Blotches, Ulcerous Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend in counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and truly happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. Free sample sent to the Married Only.
Ty. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of the diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted to cure. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on the shortest terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting the Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part, I can safely recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Portsmouth, N. H.

THURSDAY, OCTOBER 27TH, 1864.

WOOL.— There are few words which it is at once so easy to understand, and so hard to define, asserts a historian, as the word wool. Prof. Owen says it "is a peculiar modification of hair, characterized by fine transverse or oblique lines, from 2,000 to 4,000 in the extent of an inch, indicative of a minutely imbricated scaly surface—when viewed under the microscope—on which, and on its curved and twisted form, depends its remarkable felting property." The finest grows on the shoulders and along the back of the sheep; the next in fineness, under the shoulders and along the ribs; the coarsest is on the haunches and below the belly. The classification of the wool-sorters designates the different qualities, "prime lock, choice lock, picked lock, superhead, head, downrights, second abb, livery breech." The wool of the llama and goat are analagous products, used in textile manufactures. The Saxon and Merino varieties are of the finest texture, and command the highest prices.

Wool was a staple for manufacturing purposes in the primitive history of Palestine, Syria, Greece, Italy and Spain. A woolen factory was established at Florence in the beginning of the thirteenth century—the first of importance of which there is reliable record, it was signally successful. It became the model of many other factories subsequently built. Later in the same century there were as many as two hundred shops of cloth-workers in Florence. Later still in the history of the same century and city, from 70,000 to 80,000 cloths were turned out, o f the value of 1,200,000 golden florins. Flanders also furnishes an interesting field of study in the department of woolen manufactures during about the same period; and it was from this source that Britain was chiefly supplied with fabrics.

It is well known how rapidly the business grew in importance throughout the British dominions under the improved models of manufactory. The census of 1851 for that empire puts down the number of workmen employed in the woolen and worsted branches at 295,568. In 1857 the exports of woolens and worsteds, including hair timnes, amounted to 179,984,802 francs.

The processes of curing wool in the factories are numerous and are partly described as "sorting, scouring, washing, drying, moating, scribbling, plucking, willying, teasing, oiling, spinning, reeling, warping, sizing, weaving, burling, raising, teazling, shearing or cutting, boiling, brushing, pressing, shearing again, pickling, drawing and marking, pressing again, steaming, folding or packing." The processes necessary to the fabrication of worsted are less multiform than those employed in cloth. They consist of "sorting, washing, drying, plucking carding, combing, breaking, drawing, roving, spinning, reeling, weaving and dyeing."

The amount of wool raised in the United States in 1840 was 35,802,114 pounds. Ten years later (1850), it had increased to 52,516,959 pounds. The total number of sheep in the United States in 1840 was 19,311,374; in 1850, 21,723,220. In 1850 we imported 32,548,491 pounds of wool, raised at $3,833,157. We imported the same year $21,290,384 worth of woolen fabrics.

THE VERMONT RAIDERS are being examined at St. John, Canada East. The examination is conducted with closed doors, only the counsel and reporters being admitted. The notorious George N. Sanders is there managing the cases of the rebels. He says they belong to the first families of Kentucky and formerly belonged to John Morgan's force. This raid, he asserts, is only the first of a series of plundering expeditions soon to take place on the frontiers of the States. Had he known before of this affair he would have prevented it, as it was conducted on too small a scale. F. G. Johnson, Queen's counsel of Montreal, is counsel for the Canadian authorities.

☞ The passengers of the captured steamer Roanoke arrived at Halifax on Monday night from Bermuda. They report that after the Roanoke left Havana the engines were stopped to receive a number of passengers approaching in boats, who afterward proved to be the pirates under Braine. Lieut. Parr, of Chesapeake notoriety, was among them. After the capture Braine proposed to Capt. Drew to bond the vessel for $50,000 in gold, payable in Bermuda. The captain refused. She arrived off Bermuda, Thursday night, quite out of coal. She received a little from another vessel. The Roanoke had a valuable cargo, consisting of tobacco, segars and sugar. Braine and his associates have all been liberated.

— At Townsend, Vt., recently, while a Justice trial was going on in a bar room of the hotel, the floor suddenly gave way and let judge, jury, lawyers, witnesses and spectators all into the cellar beneath in one miscellaneous mass. No one was seriously hurt.

THE REBELLION.

The rebels have replaced their heavy guns in front of Petersburg.

Sheridan's loss will fall below 5000. Our wounded have been removed to Winchester and Martinsburg. The number of rebel prisoners is still increasing, and will reach about 4000. The rebels had five infantry divisions and five cavalry brigades in the fight, including the flower of Lee's army. The pursuit of their disorganized forces is ended for the present, and Sheridan is putting his army in order for another advance.

A letter from the President to Gen. Sheridan has been read to the army. Mr. Lincoln says: "With great pleasure I tender to you and your brave army the thanks of the nation, and my own personal admiration and gratitude, for the month's operations in the Shenandoah Valley, and especially for the splendid work of Oct. 19."

The remnants of Early's and Longstreet's corps have gone to Richmond, to be reorganized, armed and equipped.

Price is retreating through Kansas, and our cavalry is harrassing his rear.

Correspondents state that Gen. Sherman is not pushing Hood, but is endeavoring to coop him up and starve him out. The armies are in the vicinity of Lafayette, and about six miles apart.

Beauregard, in his address on assuming command of the rebel army of the West says Gen. Sherman must be driven from Atlanta, and he appeals to the deserters to return to the rebel army, granting all who come within 30 days an amnesty.

The pirate Florida sailed from Teneriffe, Aug. 4, after obtaining a full supply of coal, provisions, &c.

— Sec. Stanton is sick with fever.

— The Concord Railroad has declared a dividend of 4 per cent., payable Nov. 1.

— There are immense numbers of mackerel and very little cod caught off Halifax this season.

— A female canary in Springfield, Mass., has laid forty-one eggs and raised fourteen singers this season.

— Flora Temple was sold at auction at Baltimore on Tuesday, for $8000, to Geo. F. Presbury, of New York.

— The Twelfth Company Heavy Artillery, N. H. V., is filling up, with a prospect of an early completion of the regiment.

— The learned Buxtorf, whoever he may be, informs us that the name Eve is derived from a root signifying talk.

— The Florida has captured the ship Southern Rights and released her under bonds.

— A boy in Quincy, Mass., two years old, can "say his letters," spell three or four words, and do a "sum" in Arithmetic.

— Coal sold at auction in New York on Wednesday at seven dollars and eighty cents to ten dollars, according to quality.

— When a woman tells fortunes from a tea-cup are there good grounds for calling her a saucer-ess?

— Twins are becoming fashionable at Bridgeport, Conn. One physician announces four cases within the last ten or twelve days.

— A returned prisoner says that while he was at Belle Island he saw a cartload of rebel soldiers' letters dumped into the river,—a hard story to believe.

— The Vermonters along the border are arming rapidly, and cavalry equipments have been secured from the War Department for them.

—A loyal American of African descent makes report of his participation in a guerilla fight: "We fit 'em, we whoopt 'em, and we ketched ten av 'em."

— Morris Brothers, Pell & Trowbridge's opera house was burnt on Tuesday afternoon in Boston. Loss about $30,000; insured for $10,000. The had recently enlarged and remodelled the hall.

— Satisfactory explanations having been made, the Commissioner of Internal Revenue has ordered the discontinuance of suits commenced against the express companies for omitting to stamp their receipts.

— Mrs. Martha L. Clark has been convicted in Vermont, of manslaughter, for shooting Isaiah Rouillard of Alburg, while attempting to get into her house in the daytime.

— Prof. Bowen, of Harvard College, while returning from a meeting of the Faculty on Monday evening, was assaulted by a ruffian, who sprang from behind a tree and struck him a severe blow on the head and then fled.

MAZZINI has come out in a strong letter against the Franco-Italian treaty. He declares that if the Convention becomes an accomplished fact, the party of the Nation will try to array Italy in opposition to the Government.

— A worthy couple in Detroit had a pair of twins baptized the other day, and in order that they might tell one from the other, tied a piece of ribbon around the arm of one, which a stupid servant girl removed after the baptismal ceremony, and now they cannot tell "which is which."

NEW HAMPSHIRE ITEMS.

—— Hon. George Thompson of England, will by invitation speak at Eagle Hall, Concord, on Wednesday evening, Nov. 2.

—— A Tuftonboro man tells a tough story about his potato crops, saying he raised some so large that he was obliged to take a crow-bar and pry them out, and shoulder them and lug them into the cellar, just as you would a log of wood.

—— The following field and staff officers of the 18th N. H. Vols. have been appointed: Lieut. Col. Joseph M. Clough, New London; Major Wm. I. Brown, of Fisherville; Quartermaster, Moses T. Cate; Surgeon, Samuel G. Dearborn, of Milford; Chaplain, Anthony C. Hardy. Company F was organized last Friday with the following officers; Capt. Geo. W. Bosworth of Lyndeborough; Lieuts. Sam'l H. Dow of Campton and Oliver A. Gibbs of Dover.

—— The Portland Press states that a man named Blake has been arrested at Milan, for the murder of Mr. Parker, in Manchester, 20 years ago, for which the Wentworths were arrested on suspicion but discharged. The Press states that recently a woman died in Manchester, and upon her death bed revealed all the circumstances of the murder, implicating a man in the transaction, who fomerly resided there but who had removed to Milan. An officer was dispatched and, after remaining ten or twelve days, succeeded in arresting Blake, and took him to Manchester on Monday. Blake was doing business in Canada, and was there when the officer arrived. But, without making his business known the officer quietly waited for his return, and then arrested him.

——Gen. Butler has issued a general order of congratulation to his troops for their achievements during the present campaign. One portion of it enumerates soldiers of whom honorable mention is made, and among the number are the following from our own State:

Capt. Enoch W. Goss, 13th, is commended for leading the skirmish line and the capture of prisoners and battle-flags, after the enemy's charge of the 30th, in which 18 commissioned officers and 209 men were captured.

Col. Joseph C. Abbott, 7th, commanding 2d Brigade, 1st Division, is recommended for brevet for his gallant and soldierly conduct since the campaign commenced, and for the skillful and able manner in which his brigade was led to the rebel works within two miles of Richmond on the 1st inst.

Col. Michael Donahue, 10th, has credit for the gallant manner in which he advanced his skirmish line from Aiken's Landing, having his horse shot under him and afterwards severely wounded.

Private James Bradbury, 10th, is recommended to the Secretary of War for a medal for gallantry in capturing a rebel stand of colors.

Lieut. Jonathan H. Edgerly, 3d, for gallantry in conducting the skirmish line on the 29th of September, as well as on the reconnoissance toward Richmond, is recommended to his Excellency the Governor of New Hampshire for promotion.

Lieut. Ferdinand Davis, 7th, and Acting Aid on Brig. Gen. Hawley's staff, is recommended for gallantry.

Sergeant William Tilton, Co. C, 7th, in command of pioneers, has special mention for gallantry, and is recommended to the Secretary of War for a medal.

Serg. Henry W. F. Little, Co. D, 7th, for gallantry on the skirmish line on the reconnoissance toward Richmond, is recommended to the Secretary of War for a medal. He is appointed 1st lieutenant in U. S. colored troops.

Sergeant Frank Robey, Co. D, 7th, for gallantry on skirmish lines, is recommended to the Secretary of War for a medal.

Sergeant John A. Coburn, Co. H, 7th, was in command of his company in the reconnoissance toward Richmond, and is recommended to his Excellency the Governor of New Hampshire for promotion.

Sergeant George F. Dow, Co. C, 7th, was in command of his company in the reconnoissance toward Richmond and behaved with gallantry. He is recommended to the Secretary of War for a medal.

THE PRICE OF VOTES A "FAIR OF BOOTS."—Some three weeks since a young man apprenticed to Mr. L. B. Moulton, Rochester village, the first initials of whose name are Nahum Frank Hoyt, stepped into the store of James M. Locke in Rochester, this State, to see about getting a pair of boots made. Mr. Locke gave the price, six dollars and a half. Hoyt was thereupon undecided, and there being several "sound" democrats in this most democratic shoe shop, the conversation turned upon politics. Now it was supposed among the "initiated," in fact it was generally conceded that Hoyt was rather "shakey," as well as the Hoyt family in general. He was finally asked how he "was going," and gave them to understand that he really hadn't decided. The conversation again came round to the boots, and one of the prominent admirers of "Little Mac" finally told him to get measured assuring him confidentially that it was alright, and the boots wouldn't cost him any, thing. Hoyt, of course, like a sensible fellow, got measured. A short time afterwards he had another button-hole conversation with the "Secretary of the last Convention," or somebody else, and the final ending of which was that he received six dollars and fifty cents, viz., two $2 greenbacks, a $2 bill on the Rochester Bank, and a fifty-cent postage scrip. Last evening Hoyt received his boots, a good pair of double-soled calf skins. The only bipding part of the bargain was that he should keep "shady," and bring the "old man" round all right. We assure our democratic brethren that the senior Hoyt is "all right" for Abe and Andy and the country, and we only regret that the McClellan-shod junior is but a few months under age, (and here's where the laugh comes in), which alone prevents him casting a dollar ballot.—*Rochester Courier.*

GEN. SHERMAN.— The following note from Gen. Sherman dated Oct. 11th, explains itself:

My Dear Sir—There is not one word of truth in the paragraph you sent me cut from the New York Herald of Sept. 20. I never thought, said or wrote that McClellan would get "ninety-nine out of every hundred votes" in this army. I am as ignorant of the political bias of the men in this army as you are at a distance of a thousand miles, and I would as soon think of tampering with a soldier's religion as with his preferences for men. I have not and shall not attempt to influence a vote in the coming struggle. I believe Mr. Lincoln has done the best he could.

EGYPTIAN DARKNESS DISPELLED.— Private letters from Egypt mention that on the evening of the 23d of September, the City of Alexander was lighted for the first time by gas, the works having been erected by a French company. The lamplighter is nightly followed in his rounds by a crowd of wondering Arabs, who insist that the marvellous blaze following the touch of his torch must be provoked by the will of a *genie*, or "djinn," as Mr. Lane would have us spell the familiar word of the Arabian Nights. This improvement causes a great change in the habits of the place. Heretofore a municipal regulation has required everybody going abroad after nightfall to carry his own lantern, but this is no longer necessary.—*Daily Advertiser.*

"Two years of war," said Henry Ward Beecher on Sunday night, "and we have conquered half the rebel territory, hold the key of the whole, and have nearly destroyed the military strength of the rebellion in the field. All this in two years of war." "Four years, you mean," said a bystander. "No," responded Mr. Beecher. "I said two years of war. In the first two Gen. McClellan was in command."—*Tribune.*

MALEBRAU, THE ACTRESS, AND THE FLOWERS.—Not long ago, she said, I was playing Desdemona at the Paris operahouse for my benefit, and the stage was covered with boquets. It was the very first time that flowers had been thrown upon the Paris stage, and I never beheld any more lovely; but you see I was obliged to die, and it was a great pity, for, under the circumstances, I couldn't pick them up. Well, *Othello* had to die also, and the man was *bête* enough to prepare to stab himself just where he must fall on at least half a dozen of the best. This was more than I could endure; so, although I was quite dead at the time, I exclaimed in a low voice, "Take care of my flowers! take care of my flowers!" Louis Phillippe was in a side box that night and heard me; and so the next day I had a magnificent present of exotics from St. Cloud, with a polite message, signifying that his majesty, observing my posthumous love of floriculture, begged my acceptance of the accompanying tribute.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern organic Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, humors and other clothing from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and in Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

THACHER, opposite the Post Office and 12 Market Square, Agent for Portsmouth.—Geo. C. Goodwin, No. 66 Hanover street, Boston, Wholesale Agent for New England, and sold by Druggists everywhere. TEBBETTS BROTHERS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a stamped envelope, addressed to yourself.

Local.

COL. E. R. GOODRICH, formerly of this City, and now of the Army of the Potomac, has been spending a few days here among his friends in Portsmouth. He has lately returned from an official visit to the Army of Gen. Sherman, and has served with the Army of Gen. Grant through the present memorable campaign.

His account of the condition and hopes of those two armies is most interesting. He describes the commands of both to be in the most perfect cheer, sanguine of success, and as having not lost for a moment their trust and confidence in the Government, their President, or their Commanders.

He has addressed one or two audiences within the last few days, and has besought for the Soldiers in those Armies, who are doing such service as he believes the country can never repay, a support on the part of their fellow-citizens at home, that shall help them to attain the glorious end, which they now so clearly see.

Colonel Goodrich alleges that the name of George B. McClellan is cheered along the entire line of the rebel armies. He narrates an interview by a U. S. officer, with the rebel commissioner Ould, who counselled the officer, who was returning North from a Southern prison, to go home and use his influence to promote the election of McClellan. He believes that there is not a man in the whole breadth of the land, North or South, inimical to this Government, and hostile to the Union, who is not an adherent of the great American Hesitator. Closely observing, and personally participating in the campaigns of Gen. McClellan, he believes him to be guilty of a persistent course of indifferance, and that he has prostituted his position in the U. S. Army to the gratification of his own personal, and political ambition.

And now he asks, is the Nation ready for such an apostacy? He claims for President Lincoln, that he has answered every condition which his country could have imposed upon him; that he has secured to the Country during this civil strife every element of power in it that could tend to the restoration of the Government; that he has demanded as inviolate to every good citizen, all of the rights and immunities that belong to good citizenship; and that throughout his whole administration, he has evidenced the marks of an honest and intelligent stateman, sacredly regarding every interest of the whole country and every right of the people under the Constitution.

He urges the democrats, in answer to the appeal of the thousands of democratic braves who have fallen in the defence of their Country, and heeding the united voice of the thousands who are now gilding the pages of history with their deeds of valor, so to act and vote that those gallant men on earth, and those in Heaven shall be sure of the rich boon of a Nation's gratitude.
X.

☞ The audience at the Lyceum on Tuesday evening numbered by actual count of tickets, (no guesswork,) just 781 persons, including the Band, speaker, sexton and all. They filled the hall pretty full, didn't they? Well, it shou d be remembered that a very large portion of these audiences are ladies, who don't like to be squeezed there.

So a few season tickets remained unsold, (which we did not expect would be the case,) and for these there was quite a demand on Wednesday morning, since the opening had proved such a grand success. We understand the intention of the Committee is to dispose of the balance of the limited number stated only, at the original price; and that on no occasion will an evening ticket be issued, except possibly in courtesy to some stranger.

We will add that notwithstanding the increase in the price of tickets, (which even now are as low as they ever should have been,) and the splendid appearance of the "house," the managers will have to work snugly to make both ends of their financial account meet,—which of course is all they ever desired or intended to do. The Lyceum, like the Street Sprinkler, is one of those institutions in which a man gets his labor for his pains—not to mention the growling he has to bear, and the actual loss he is liable to.

S. J. COURT, Wednesday.—Case No. 114, John L. Pickering vs. Gilbert P. Hoyt, et als., was commenced. Rollins and Hatch for Plf., Christie and Hackett for Defts. An action for trespass, to try the title to the premises in question, situated in Newington.

Dr. William Young of Deerfield, indicted for the murder of Sarah M. Atwell, otherwise called Fannie Morgan at Deerfield, on the 8th of August last, by procuring an abortion, came into Court, and recognized in the sum of $5000 for his appearance at the January Term. Messrs. Christie and Wood were assigned by the Court as his counsel.

☞ In the party that came from Newburyport to the Lincoln celebration in Portsmouth last week, were three brothers whose united ages amounted to 187 years.

☞ A substitute by the name of Wm. Worden, attempted to escape from the guard of the Provost Marshal on Wednesday evening. He was taken by one of the guard to the rear of the building, and while on his return broke and ran through Ladd street. The guard (Cyrus W. Trewell of the 10th Co., H. A.) fired a shot at him, but it being dark missed him. The bounty jumper left on the double quick, Trewell in hot pursuit, through street and lane, until near the Concord Depot, when the "Sub" became a captive. Good for Trewell!

☞ The wild geese have commenced their annual journey southward.

— It is stated as a remarkable fact that persons losing themselves in a forest, or in a snow storm, manifest invariably a tendency to turn to the left, to the extent of eventually moving in a circle in that direction. If you don't believe it, get lost and see.

— The London Punch is getting weaker and weaker, and now lives merely on its name. The following, which is one of its "jokes," would be sufficient to kill any American "humorous" publication:

Michaelmas Grammar. [To correspondent.] The singular number of The Portuguese is a Portugoose.

— During a recent visit of the rebels to Kentucky, they seized an old man, robbed him, took a pair of new boots off his feet and made him put on a pair of old shoes; took his pantaloons, his coat, hat, and rigged him up in an old slouched hat, and old patched up clothing, making him look so ragged that his own wife did not know him when he went home, and his children shrank bank in alarm.

— On Tuesday last, as two little girls, aged respectively 5 and 2 years old, were going to a mill, at Williamstown, N. B., in which their father was at work, they fell off a plank leading to the mill, into the raceway. The younger was carried down the raceway over a distance of 100 feet, to the waterwheel, over which she passed, and strange to say was there found entirely uninjured. The wheel was a 12 foot one; and the child had to pass through a space of not more than 4 inches, where the raceway connects with the wheel.

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every Volunteer is liable, there are no remedies so safe, convenient and sure as HOLLOWAY'S PILLS AND OINTMENT, thoroughly tested in the Crimean and Italian campaigns.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 234

We would again call attention to this indispensable article of Gold Medal Soap, for the laundries and the ladies. What the dear creatures will do when the manufacturer, in the course of human events, steps into another sphere of being, we are at a loss to imagine. Make the most of him while you have a chance to do so, for nature, art or science can never produce a second J. Monroe Taylor Gold Medal Soap. We cannot say half enough in its favor. After using, you will say the same. 19

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portuguese Sambuco, a valuable grape which he cultivates in the country. In taste it assimilates to port with out its heating qualities, being absolutely free from spirits further than its own fermentation affords. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Salaratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with cream tartar than soda. Try one paper, and you will be satisfied. Sold by all the Grocers sell it. Depot 112 Liberty Street, New York.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. See advertisement.

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscription to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "
and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

E. A. STEVENS,
No. 46 MARKET STREET,

Housekeeping Goods.

AN UNUSUALLY LARGE STOCK OF EVERY KIND OF

KITCHEN FURNISHING GOODS,

SAVE YOUR FUEL!

IT becomes every housekeeper to study Economy in these days of High Prices. With coal at 16 dollars per ton, no prudent person can afford to use an ordinary Cook Stove; the fuel wasted by it will purchase two First Class stoves.

After Four Years trial, we offer to the Public

THE MODEL COOK STOVE,

At once the most Economical, Substantial and Convenient Cooking Apparatus in the market.

It has Five-boiling Places, and two Ovens that can be used separately, or thrown into one at pleasure.

The Stove is furnished with Tin Boilers, the Ovens are lined, and every precaution taken to retain the heat. 17 lbs. of Coal per day will operate the medium size, if proper care is taken!

The Stove is equally good for Coal or Wood, and will operate in any locality.

As to the Economy of it, we have the testimony of many of our shrewdest citizens, who "Count the Cost." Said a purchaser, yet long since, "I saw my own wood and I know the Model Cook does not take more than half as much fuel as our old stove did, and bakes much better."

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

A careful, prudent farmer purchased one, and after it had been in operation some days he came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three barrels full a day; and his father only one load. We sold him a Stove before he left, and there has been no complaint since.

We refer to some persons who have purchased Model Cook Stoves, and can testify of their good qualities:

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. Oven plates are covered with plates, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about rebuilding or repairing to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the smoke pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are turned back to admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, heating the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females, when all other medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, restoring it to health in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and intense uneasiness usually attendant upon these complaints, with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞ For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

CHEROKEE PILLS!

Health Preserver!!
CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Hysteria, Loneness of Spirits, Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it all the effects that follow from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate; their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period *except during the first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price. Sold by all respectable druggists.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life," so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

Don't waste your green tomatoes. There is a better use for them than as mere absorbents of vinegar. We boil them, mix with a small proportion of corn meal, and give them to our hens. DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR
Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for
COSTIVENESS,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves powerful and disagreeable, are, by a new and scientific process of extracting (in vacuo,) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,
and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses
A Diffusive and Alterative Effect,
which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.
The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *forced* through the stomach and bowels, half dissolved, causing only PARTIAL action, thereby creating irritation and pain to the parts connected with their passage.
One pill dissolved, *secundum artem*, will produce more decided and physical effect than five in a crude state.
The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused there* and throughout the whole circulation of the blood, imparting a *healthy and invigorating action* to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.
A single dose will produce a cheerful and exhilarating COMPOSITION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful
CAUSE OF CONSUMPTION.
It incites the various organs of the system to act their allotted parts, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the several diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.
COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.
The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*
Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, or water, or diet.
See the pamphlet around each bottle for a history of this Elixir.
The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.
And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.
Price $1.50 per Bottle.
Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and Dr. S. Richardson's Office, No. 51 Hanover street, Boston.

Please Look at This.
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—so it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOHN JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which benefited me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISAAC CHESLEY.
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions; legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE; than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and all accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more competent and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H Eddy has made for me THIRTEEN applications in all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

FRIDAY, OCTOBER 28TH, 1864.

A DROP LETTER—No. 4.

LEXINGTON, MASS., Oct. 25.

The perfect immunity from stray quadrupeds enjoyed by the inhabitants of this place would certainly charm your old correspondent "C. R.," who once waged such vigorous warfare (through your columns and otherwise) against predatory cows as secured him the office of pound keeper for your goodly city. Here, gates are not only left open with impunity, but many of the finest residences have no gates at the entrance to their grounds, and some go even further and dispense with a fence about their grounds immediately adjacent to their residences. Cows may be seen "staked out," after the manner of horses in the West and Southwest, in many a field and on many a lawn, but they are not allowed to devastate neighbors' gardens in foraging for themselves.

To a Southerner the warmth and variety of coloring of our woods in autumn must be a most magnificent sight, in contrast with the monotony of the almost unchanging green of his native forests — forests where, it is true, the magnolia lavishes its wealth of great pure blossoms, (like the great and noble souls that live and die unheeded by the world, but the purity and fragrance of whose lives is none the less for that,) whose scarlet berries and brilliant creepers are sprinkled and intertwined with the dark green of the live oak and its swinging beard of grey moss — but where no such bewildering enchantment is ever offered the eye as may now be seen by all of us who care for natural beauties.

More than two hundred feet above the level of Boston, in the midst of a country of hills, Lexington can show but few farms that are not adapted to the New Zealand system of husbandry, as set forth by your correspondent in that distant land, that is, the production of two crops of stones per year. One of the exceptions is the Monroe place, whose broad meadows are intersected by wide, deep ditches approaching almost to the dignity of canals, and showing on their sides the fatness of the rich black earth. The order and judgment exhibited in the out-door operations of the place induced a friend from Ohio and myself to inspect the farm buildings. The stable with accomodation for about a dozen horses, tool room, feed room, root room, harness room, &c., we found to be a model for convenience, comfort and design in location, while the horses received the full benefit of the two greatest blessings that can be introduced into a human habitation — light and air. We next went into a range of buildings which, with their contents, would be a perfect abomination to a Hebrew, although the most clean of any piggery we have ever visited. Here were swine of all sizes, from that which even our Buckeye friend considered ponderous, to the little frisky fellows who were enjoying their first gambol in the sunshine.

Following a tramway which led between two ranges of sties, we came to the horror of the establishment, a great tank where loads of city gathered swill were shoveled in and the whole mass subjected to the action of steam, from a pipe running along the bottom of the tank. When stewed enough the disgusting compound is conveyed in small cars to the various pens. No wonder that Eastern people shrink in disgust from the mention of the almost universal Southern diet of "hog and hominy," but let me tell them there is as much difference betwixt Southern pork,— raised in the woods, fattened on the mast of acorns or nuts, drinking pure water, swift of foot, thin in flesh and bright of eye — and our Northern swill-fed, bloated pork — which has been deprived of exercise and almost of light and air — as there is betwixt the health of a man who lives frugally, exercises freely and lives up to true hygienic laws, and that of a man confined in a cell and fed on all a pampered appetite could crave, with liquor and tobacco thrown in. IOX.

— At a family party at the house of widow Powers, in Princeton, Mass., last week, there were present Mrs. Powers, aged 98; her daughter, her grand daughter, great grand daughter, and her great grandson, in all five generations.

— At the agricultural competition at Vancluse, France, lately held at Thor, the prize for ploughing was carried off by a young woman twenty years of age—the trial taking place with a plough drawn by four oxen. The competitors of the other sex were numerous.

— The N. Y. Tribune's Washington dispatch says "the Military Commission is ordered to proceed to Baltimore to investigate the charges of substituting McClellan for Lincoln votes in the original envelopes submitted by New York, soldiers and forging names thereto. A box containing many thousands of these fraudulent votes has been seized, and others are known to have been sent to New York."

NEW HAMPSHIRE ITEMS.

—— The 5th N. H. regiment arrived at New York Thursday morning, en route for home. They number but 60 men.

—— In Brig. Gen. Marston's division is his old Second regiment, as well as the 10th, 12th, and 13th N. H. regiments.

—— Charles Nichols was arrested in Kingston on Tuesday for taking from the post office letters belonging to other persons; and bound over for trial. He was caught by a decoy letter.

—— Hon. Edward H. Durrell, Judge of the U. S. District Court of Louisiana, and President of the Convention which has recently framed a free Constitution for that State, is now on a visit to Dover, his native place,—the first time for ten years.

—— Nathaniel Wiggin, Esq., has been elected Secretary and Treasurer of the Cocheco M. F. Ins. Co., vice W. T. Prescott, Esq., resigned. Mr. Prescott will hereafter give his exclusive attention to the business of Stock insurance.

—— The steam saw mill at Lyme, owned by Tillotson, Richardson and Cushman, was burnt soon after midnight on the 24th. The cause of the fire is unknown. Loss $5000. Insured for $3500 in New York and New Haven offices.

—— The Ballot states that the steam mill property adjoining the depot in Exeter, has been purchased by Ira Choate of South Newmarket, who will remove his brass foundry thither. Mr. Choate now employs about a dozen hands, and will double his capital and the number of men employed.

—— Col. Kent, of the Lancaster Republican, acknowledges the receipt of a box of ripe field strawberries and a full blown red rose, both picked by a young daughter of E. F. Bucknam, Esq., of Northumberland, on her father's farm, on Friday of last week.

—— Five young ladies on Saturday last started from Exeter in the morning, walked to Hampton Beach, a distance of ten miles perambulated the beach and Boar's Head, and returned on foot to town at five o'clock in the afternoon, fresh enough to attend the lecture of Prof. Patterson at the Town Hall in the evening. Fine girls those, to take a walk with.

—— The Monitor states that Capt. Bosworth, Co. F, 18th N. H. V., was arrested Tuesday morning for disobedience of orders in not leaving with his company for the front on the morning train. He had declined marching his men to the depot without their full compliment of greenbacks. But the Monitor of Thursday states that Capt. Bosworth was released on that morning by Capt. Silvey, no charges having been preferred against him; and left to rejoin his company, which had already started for the front.

—— They had a "Squirrel Hunt" up in Coos county during last week, in which two parties, 19 men on one side and 18 on the other, participated. The Lancaster Republican says:

The game was counted on Saturday evening, after which the hunters sat down to an excellent and abundant supper at the Lancaster House. By the rules, sharp practice was tolerated in the procurement of game, but we think the sharpest thing done was the manufacture of several "leather muskrats' tails," which were so excellent imitations as to defy detection from observers. The inventor of this "new and reliable substitute," should apply for and receive a patent for his ingenuity. The count finished at 7, when it appeared that the two sides had entered game as follows:

"Capt. Brackett's side—James S. Brackett, 2285; J. M. Rowell, 465; S. W. Dexter, 335; John H. Smith, 280; Frank Twitchell, 760; Ed Ingerson, 415; F. L. Cross, 590; S. J. Green, 90; S. S. Wentworth, 355; C. H. Allen, 255; Baxter Whitcomb, 510; H. F. Whitcomb, 595; John L. Ingerson, 3205. Total, 10,730.

Capt. Colby's side—C. Fred Colby, 325; George Webster, 1065; Ed Vernon, 1245; C. E. Allen, 1270; Geo. O. Rogers, 1615; E. A. Crawford, 810; Geo. Stillings, 2650; Brackett Stillings, 1000; John G. Derby, 1020; Ed Lucse, 1560; C. D. Allen, 1020; E. R. Kent, 145; Ephraim Smith, 1020; W. H. Wentworth, 480. Total, 15,255."

The game brought in was chiefly as follows: Bear, 500; Mink, 100; Muskrat, 25; Squirrel, 10; Hawk, 20; Partridge, 25; Woodcock, 50; Blue Jay, 20; Woodpecker, 10; Butcher Bird, 110; Woodchuck, 10; Rabbit, 20; Grey Squirrel, 20; Skunk, 25; Crow, 10.

— In his argument in New York recently, in the "Express trial," Mr. McKeone, counsel for the Brooks Brothers, said that his clients were men of character. "He took it for granted that when men had been in business in this city for thirty years without getting into the State Prison, they must be men of character." The remark is not very complimentary to New York, but then it comes from a New Yorker who knows.

— Mr. James Willis of West Newbury, dug from 40 hills on a piece of land thirty-three feet by nine, six bushels one peck of potatoes. Mr. Samuel Carr of the same town, raised from one potato one bushel by weight and measure. Perhaps somebody can beat this, but the Herald thinks that if they can, potatoes ought to be a profitable crop at much lower rates than they are selling for in the market at present.

Home Made and Borrowed.

— Gold 215 1-4.

— Fatigue jackets buttoned and double-breasted, are among late feminine fashions.

— Miss Anna Dickinson calls Chicago "the last ditch."

— The rumors of a new call for troops are officially contradicted.

— The postal money order system goes into effect Nov. 1.

— Gen. Ricketts is now in a fair way of recovery.

— They are to have a statue of Shakespeare at Melbourne.

— It is now denied, by a late foreign arrival, that the pirate Semmes had left Liverpool.

— $2000 have been subscribed within two weeks for the Newburyport Library Building.

— A hotel is up at raffle in St. Joseph Missouri, valued at $125,000, and tickets $1 each.

— The last internal revenue report shows the income to be $16,000,000 a month, or nearly $200,000,000 a year.

— Mayor Gunther, of New York, has suspended City Inspector Boole, for malfeasance in office.

— Prof. A. D. Bache, Superintendent of the U. S. Coast Survey, has sailed for Europe, for the benefit of his health.

— It is stated, by way of Bermuda, that the Rebel pirates Tallahassee and Edith left Wilmington a few nights since, bound for a raid among American merchant vessels.

— Ottawa is to be the capital of the United Canadian Provinces,—Toronto the capital of Upper Canada, and Quebec of Lower Canada.

— Mr. Moses C. Pressy of Amesbury, Mass., was run over by a loaded cart on Monday, and so injured that he died on Tuesday. He was 59 years old.

— Gen. Sully, in his report of the recent North-western Indian Campaign, discourages emigration over the route in the vicinity of the Little Missouri river.

— An extra train was run from Springfield to Greenfield, Sunday evening last, to bring down a man who wished to take the night train to New York.

— A Baptist preacher of Danbury died recently from over-exertion, in lifting a heavy stone. Probably there was a sermon in it.

— It is said that upward of nine hundred women are going out from England to India, to be employed on various telegraphic lines of communication.

— Pittsburg, Penn., has forty-six foundries, consuming forty-six thousand tons of metal annually, and paying a million of dollars in wages.

— The Continental Monthly for November has as its leading article, "The Progress of Liberty in the United States," by Rev. A. D. Mayo; and the table of contents is as attractive as usual.

— The blockade runner "Let-her-rip," captured by the steamer Fort Jackson, on her passage from Wilmington to Nassau, arrived in Boston on Wednesday. She had on board about 600 bales of cotton.

— Leading New York grocers and capitalists have formed a company with a capital of a million and a half, to manufacture sugar from beets and sorghum. They have bought lands in Illinois to grow the material.

— The Newburyport juveniles have their Lincoln and McClellan clubs, and come out in the evening with lanterns, transparencies, &c. The Herald says they make a good display, but it would be better for the boys to be at home and in bed.

— Brooklyn is beginning to understand the cost of riots. In July of last year some of the grain-elevators at the Atlantic Docks were burned by the "friends" of Gov. Seymour. The Supreme Court has just affirmed the original judgment for about $80,000, which the tax-payers of Brooklyn must pay.

— The U. S. steamer Eolus has captured the blockade-runner Hope, an English-built paddle-wheel steel steamer, 285 feet long. She is a powerful vessel and is reported to be one of the best and most costly vessels built for blockade running. She flew the rebel flag at Cork. She has a valuable assorted cargo.

— The largest tannery in the United States has just been finished in Winn, Me., on the Penobscot river, 60 miles from Bangor. The land purchased comprises over thirty thousand acres, being covered with a heavy growth of hemlock wood. The main tannery building is 600 feet in length, 40 feet wide, and two stories in height, each story being eight feet clear, between joints. It is built of cedar mostly.

— The 20-inch Rodman gun was tested on Wednesday at Fort Hamilton, N. Y. It first fired a blank cartridge of 100 pounds of powder; then 50 pounds and solid shot of 1080 pounds. At an angle of 25 degrees shot was thrown four miles. The fall range of the gun is thought to be between five and six miles. The experiment was entire successful.

THE REBELLION.

The rebels are conscripting negroes in the Mississippi valley, for soldiers. At a recent meeting the southern Governors passed resolutions declaring most emphatically in favor of placing negroes in their army.

Gen. Duffie, of the cavalry service, and all his staff, were captured by guerrillas near Martinsburg, Va., on Tuesday night.

Gen. Grant has been reinforced to a considerable extent, it is said.

Gen. Dana is sending out expeditions from Vicksburg to various towns in Mississippi, in which large numbers of beef cattle are secured.

Extensive rebel wagon shops in Lynchburg were burnt on Saturday.

As this record is intended to be historical rather than prophetical, we do not now, as we have not in the past, mention the great things that are promised—by war correspondents.

THE REBEL GOVERNORS.—The Richmond papers of the 24th contain the proceedings of the rebel Governors of Virginia, North Carolina, South Carolina, Alabama and Mississippi. They adopted resolutions that there is no cause for discouragement; that it is imperative to increase the armies; recommending the Legislatures to repeal the laws prohibiting the sending of troops outside of State limits; urging the Confederate authorities to conscript every man in the departments whose place can be supplied by disabled soldiers, senior reserves or negroes; recommending legislative enactments for the arrest of deserters; recommending the removal of negroes from the frontiers exposed to the Union armies; recommending the Confederate authorities to appropriate such part of the negroes to the public service as may be required, and that the Confederate Congress remove all restrictions on the commerce of the individual States.

The Tribune's correspondent with Gen. Butler's army, speaking of the proceedings of the Governors, says: "Their action was based on the fact, now known, that the rebel army at Richmond and Petersburg does not exceed 35,000 men. Jeff. Davis, Lee and Longstreet rode along the lines on the 23d, and went back to Richmond, deserters say, sadder, if not wiser men. The rebel rams crept down the river on the night of the 23d, but hurried back the next morning. They were all hit in the attack of the other day."

—A rather pleasant story is told of an aged lady who recently married a young and fast man, quitting him at the station when he was going *en voyage* for some important private affairs. After an embrace of the most loving character she put her head into the carriage and said, "*Cher* Charles, remember that you are married." To which he replied, "*Chere* Caroline, I will make a memorandum of it," and at once tied a knot in his handkerchief.

— A very curious case concerning the mysterious murder in Brooklyn occurred on Monday. A young woman called upon the Coroner and readily identified the features as those of her husband, identified the clothing, even to rents which she said she had mended. She said the man was a soldier; had recently married her; the next day got his new civil dress and disappeared. She was so much excited as to faint away. On coming to her senses the Coroner asked her for her marriage certificate. She produced it, showing that she was married on the 7th of October. The first part of the body was found on the 3d, four days before.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, natural and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

REVISION OF THE ENROLLMENT.—Orders have been given by Capt. Daniel Hall, Provost Marshal, to the U. S. Special Agents and Deputy Provost Marshals of this Congressional District, to make immediate arrangements for a thorough revision of the enrollment in the sub-districts, in accordance with Section 6th of the Amended Enrollment Act, approved Feb. 24, 1864,—which provides that all person arriving at the age of forty-five shall be stricken off those becoming twenty years of age added to the enrollment, &c., &c.

They are also to report to the Board of Enrollment a list of all names which in their opinion should be stricken from the enrollment for the following causes: Alienage, Non-Residence, Manifest permanent physical disability, &c.; accompanying which list must be, in each claim, evidence taken in due form, and authenticated. The Special Agents, who will revise this county, will commence at once, giving due notice to the Selectmen of the dates of their sessions in their respective towns.

☞ The Concord Monitor "don't wonder the Copperhead press howls about 'political priests' when such speeches as Rev. Messrs. Patterson's and Hepworth's are made. The old cry 'we are tormented before our time,' will not avail them anything, however.

☞ The U. S. steamer San Jacinto sailed from Lower Harbor on Wednesday, for Key West.

☞ A young man named Howard Dame severely jammed his foot on Tuesday at the Navy Yard, by a drag-load of iron plating passing over it.

LEGAL MAXIMS.—A dispute about the ownership of some land on which stood a blacksmith's shop, was brought before a justice of the peace not a thousand miles from Portland,—at least so says the Press of that city. The lawyer for the party who owned the shop, knowing his man, contended very learnedly before the justice that the land belonged to the owner of the shop. "May't please your Honor," said he, "*Cujus est solum, ejus est usque ad cœlum*, which being interpreted means, as your Honor very well knows, the man that owns a blacksmith shop owns the land all around it."—"Yes, yes," responded the justice, "that maxim settles the question. The owner of the shop owns the land, of course." And so the astute lawyer won his case.

— A Democrat walked through one of the streets of Columbus, Ohio, the next day after election, with his shirt fluttering in the breeze, that being his only article of apparel, while behind him walked a Republican carrying his clothes. The performance was a wager of a bet upon the election of "Sunset" Cox. Two fools.

— We were imposed upon by a marriage notice which we published on Wednesday—"Lieut. Carroll to Miss Foster"—which was unfounded in fact. It was a base and mean transaction, and we hereby offer a reward of ten dollars for such information as will lead to the conviction of the guilty party.—*Newburyport Herald.*

— Alphonso, of Castile, who had a practical plan for regenerating mankind by killing nine out of ten, and was sure that if he had been consulted about the making of the world it would have been better made, disposes of woman in these words: "She is a human being, who dresses, babbles, and undresses."

— Hon. John P. Robinson, well known as a prominent politician about twenty years ago, at which time he was candidate for Congress in his district, died at Somerville Mass., on Thursday last, in his sixty-fourth year. He was a native of Dover, N. H., graduated at Harvard in 1823, studied law in the office of Daniel Webster and afterwards commenced practice in Lowell, and rose to great eminence in his profession. He represented that city many years in both branches of the State Legislature, and was noted for his classical attainments. He was in feeble health for many years past.

BE POLITE.—Study the graces; not the graces of the dancing master, of bowing and scraping; nor the foppish, infidel etiquette of a Chesterfield, but benevolence, the graces of the heart, whatever things are true, honest, just, pure, lovely, and of good report. The true secret of politeness is to please, to make happy—flowing from goodness of heart—a fountain of love.

EATING PIE WITH A FORK.—A farmer in Oneida county, New York, was recently called upon by Mr. Billings of the city of Utica, who invited him to stay to dinner. The substantial portion of the meal having been discussed, a piece of pie was placed before each person at the table. Taking his fork in hand, Mr. B. essayed to eat according to etiquette, but his proceedings soon attracted the attention of the host, who was industriously shovelling up the contents of his own plate with a knife.—"Mary!" shouted the hospitable farmer, "why don't you bring Mr. Billings a knife? Here he is a pokin' away, a trying to eat pie with a fork!"

As we have said scores of times, the J. Monroe Taylor Gold Medal Soap is, without exception, the nicest and best soap made; is the only kind that can be called a perfectly pure article, and goes nearly three times as far as any other soap, and will always turn out whiter and nicer clothes than washing with any other article. Try it, and you will find what we say is true. 20

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every Volunteer is liable, there are no remedies so safe, convenient and sure as HOLLOWAY'S PILLS AND OINTMENT, thoroughly tested in the Crimean and Italian campaigns.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 234

GRAPES IN N. JERSEY. WE HAVE BEEN shown specimens of sacramental or pure juice Wine, prepared by Mr. Alfred Speer, of Passaic, N. J., out of the Portuguese Sambuco, a valuable grape which he cultivates in the country. In taste it assimilates to port with out its heating qualities, being absolutely free from spirits further than its own fermentation affords. Preference is given to it over all other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Speer has been nine years experimenting in the production of this Wine, and the newest wine he sells is four years old.

To every barrel of Flour you can make thirty pounds more Bread or Biscuit (and much better) by using Herrick Allen's Gold Medal, than by yeast fermentation or any other Saleratus.—It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons. It is much better to use with cream tartar than soda. Try one paper, and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. November number just published, containing a large Colored Fashion Plate, a plate of Cloak Patterns, a plate of Children's Costumes, and over fifty Engravings of Sleeves, Bonnets, dresses, &c., &c., together with *Two Full-size Patterns*. For sale at the old price—25 cents; or post paid, and should be averted by a timely use of the right remedy. Take AYER'S PILLS, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, and expel the system from the obstructions which make disease. A cold settles somewhere in the body and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dyspepsia, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the Arno and the West, try it and you will endorse these assertions.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists.

Portsmouth, Sept. 24, 1864.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 7th of September, the subscription to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "

and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

E. A. STEVENS,
No. 46 MARKET STREET,

Housekeeping Goods.

AN UNUSUALLY LARGE STOCK OF EVERY KIND OF KITCHEN FURNISHING GOODS,

SAVE YOUR FUEL!

IT becomes every housekeeper to study Economy in these days of High Prices. With coal at 16 dollars per ton, no prudent person can afford to use an ordinary Cook Stove; the fuel wasted by it will purchase two First Class ones.

After Four Years trial, we offer to the Public

THE MODEL COOK STOVE,

At once the most Economical, Substantial and Convenient Cooking Apparatus in the market.

It has Five-boiling Places, and two Ovens that can be used separately (or thrown into one at pleasure).

The Stove is furnished with Tin Jacket, the Ovens are lined, and every precaution taken to retain the heat. 17 lbs. of Coal per day will operate the medium size, if proper care is taken.

The Stove is equally good for Coal or Wood, and will operate in any locality.

As to the Economy of it, we have the testimony of many of our shrewdest citizens, who "Count the Cost." Said a purchaser, not long since, "I saw my own wood and I know the Model Cook Stove burns more than half as much fuel as our old stove did, and bakes much better."

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one!" We told him a Stove before he left, and there has been no complaint since.

We refer to some persons who have purchased Model Cook Stoves, and can testify of their good qualities:

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being much heavier, and the water, larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. Also, the extension top there is a large water Reservoir for the water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with, the fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE

CHEROKEE MEDICINES,

Cherokee Cure, the great Indian Medicine,

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the disagreeable complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can safely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed.

☞ For full particulars, get a pamphlet from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and diuretic*; removing all scalding, heat, dooness and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR
Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for
CONSTIVENESS,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Both agents are powerful, yet most pungent and disagreeable, are, by a new and scientific process of extracting (in vacuo,) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE, and by their peculiar combination work so perfectly IN HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *forced* through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage. 1

One pill dissolved, *secundum artem*, will produce more medicinal and physical effect than five in a crude state.

THE BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused* here and throughout the whole circulation of the blood, imparting a *healthy and invigorating action* to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden impurities to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, CONSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is as effective and painless as it is pleasant—a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merits.*

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, OCTOBER 29TH, 1864.

☞ Mr. Pennington, the Secretary of the U. S. Legation at Paris, has just returned home. He reports to the government, (the N. Y. Herald says), that the Emperor of France takes a deep interest in our present Presidential contest, and watches it especially in the endeavor to find in the result the true expression of the American people, and the real sentiments of the country upon the questions of union or disunion, war or peace. The Emperor, it is said, will regard the re-election of Mr. Lincoln as the determined and unqualified declaration of the American people in favor of the Union at every hazard and through all the possibilities of war. He will regard that result as a confirmation, directly from the people, of all the statements that our government has made to European Powers to that effect. On the other hand, it is said that he will regard the election of Gen. McClellan as an expression of readiness on the part of the people to make terms with the Southern States; to make a peace even that will admit the independence of those States. In short, that he will find in the election of Gen. McClellan, and in the temper that he will suppose it indicates, that very opportunity which England and France have waited for—the opportunity for intervention in favor of the South.

No reasonable doubt remains as to the result of the Presidential Election, or of the Rebellion. Every candid, well-informed man now sees that the rebels at the south, and the traitors at the north are to be defeated together, by the united effort prayer and self-devotion, of the People of the United States, who deem their own Union and Government to be worth sustaining. By heavy losses of property, by a great sacrifice of life and comfort, by suffering in a thousand forms, the fidelity of the free States has been proved; yes, and improved also: For our earnest struggle with the *foes* of the Union and Liberty, has really made a better and a stronger Union than we ever had before.

Our duties are now very plain, viz., to sustain our government, our civil, military, and naval powers, with voice, vote, and purse; as well as with sword and hand: to do it heartily and patiently; with courage and good hope, for which there is good and sufficient ground. Our anxious and painful endeavors for the right, are to be crowned by Liberty and Law, Union and Peace.

U. T.

The citizens of the little town of Plattsburg in the State of New York, appear to have been greatly afraid. They heard that a rebel army of invasion was to make a raid on them, and was actually *en route* from Canada approaching from Moers' Junction! They rallied and tore up five acres of railway track. It seems to us there is something very ridiculous in this. The citizens flew to arms on the announcement of the arrival of thirty suspicious looking men.—*Montreal Gazette.*

Will the Gazette please inform us how much railroad track will make an acre? "There is something very ridiculous in this."

☞ Mr. Gottschalk, born American, one of the best pianists in the world, has already received enough decorations abroad to satisfy an ordinary mortal; none, of course, at home; for our institutions are utterly dissociated from the recognition of the artist—only of the politician (in war, of course, of the soldier very properly). When we say "a most remarkable man, sir—an honor to his country, Mr. Speaker"—we, of course, limit ourselves to one who has received the regular nomination. In addition, however, to the previous honors showered on Mr. Gottschalk, he has received the distinction of Knighthood from the Queen of Spain. If feudal Europe had any rank not derived from the Horse—*cheval,—chevalier*—of course the softer distinction would be applied to the pianist, who has nothing to do with horses or arms. But the good will is shown by Her Majesty of Spain, and it is highly honorable to the perceptions of that Government that it crosses the broad sea to find an American artist whereon to shed its technical terms.

☞ That invisible and mysterious organization which terms itself the "National Government" of Poland, recently issued a proclamation declaring that the revolution for Polish independence, after a struggle of 19 months, had not ended, though its ranks have become thinned. The Proclamation says — "Over the tombs of fifty thousand heroes slain in battle; along roads furrowed by the wheels of the kibitkas, which have borne one hundred thousand of our martyrs to Siberian snows; above the ruins of thousands of burnt towns and villages, the invader intones a hymn of triumph, and redoubles his barbarian rage. He intones a perfidious and a lying hymn, the chorus of which is applauded by the accomplices of Russia, conspiring for our fall, who all repeat, 'The struggle is ended, and Poland is no more.'

— The Winnebago Indians are in a starving condition.

☞ Last year, the number of letters which could not be forwarded from the U. S. Post Office where mailed, or be delivered therefrom, because of unpaid postage or because so badly directed, and which were consequently sent to the dead-letter office, amounted to 136,414. The number thereof "held for postage" was 167,894, the number "held for carrier's fee" 9,954, (all of which latter were contributed exclusively by the offices at Boston, New York, and Philadelphia;) and the number "misdirected" and imperfectly or illegible addressed was 18,566, of which nearly two thousand were without any address or direction whatever, and in several instances contained sums of money or other enclosures of value.

The N. Y. Soldiers' Votes.—We have briefly mentioned the startling disclosures of frauds by the Military State Agent, and voting agents in New York, and the arrest of the perpetrators by the military authorities. The arrested parties are—Moses J. Ferry, State Agent at Baltimore; Edward Donahoe, jr., of Albany; Peter Kirby, of Lewis County; and Dr. Jones, of New York city, voting agents. The Provost Marshal also closed the New York State Agency. Mr. Ferry has made a full confession, in which he says:—

I do not recollect the time when the first papers were forged, but it was in the presence of O. K. Wood, of Clinton county, N. Y. It was done in my office, No. 85 Fayette street, Baltimore. I am and have been for the past two years agent for the State, appointed by Governor Seymour to look after the sick and wounded soldiers of New York. I first saw Wood on Wednesday of last week, at my office. He came and represented himself as an agent of the Central Committee of his county to look after its local ticket. He talked about the way in which votes could be taken. It was agreed that we should sign the names of soldiers and officers and then send them home to have local tickets filled in. I made out small papers, and signed the names of soldiers on quite a number of them. I did not sign the names of officers, but Donahoe signed any quantity of them. There was a large package of these papers left with me which I destroyed. That package contained over 200. Donahoe signed them all.—The idea of forging these papers was first suggested by a man named Stephen Maxon, from the western part of New York. He is a State Agent. It was first proposed about two weeks since. I do not know how many forged papers were sent off, but I heard them say they sent from Washington by the dry goods box full. I sent a package of forged papers to Gen. Farrell with a letter, saying:—

"Baltimore, Oct. 22.—If you are energetic you will be able to get the within votes all arranged for the 8th of November. I should have done more to them, but I have not time. They are all on the square, the same as the blacks got theirs—neither would bear close scrutiny. Ed. Donahoe said send this to you, and I have done it. They are all soldiers, company and regiment all O. K. The rest I have nothing to say. If you have no use for them send them back."

H. Newcomb, implicated by Ferry, has also made a confession. In behalf of Ferry the Judge Advocate entered a plea of guilty and asked for him the mercy of the Court. Donahoe will be tried. The evidence now in possession of the Commission implicates a number of prominent persons.

The New York State Agent in Washington was arrested on Thursday, and his office closed.

— The recent trial of a man before a military commission at Harrisburg has developed the fact that there was an organization of the "Knights of the Golden Circle" in Pennsylvania, and that they had held meetings for the purpose of resisting the draft.

— The Augusta, Me., Banner, which is a religious paper and ought to be believed, says: "Light produced from the gas in Augusta is so faint it is difficult to distinguish it in total darkness. In some families candles are placed beside the burners, we are told, for the purpose of designating the gas light."

— Hon. Henry G. Stebbins, who was elected to the next Congress from the 1st N. Y. District as a War Democrat, has resigned his seat, having come out for Mr. Lincoln and thus lost the support of those who elected him.

— A few evenings since two scamps, who were driving in a buggy, overtook a respectable lady in South Malden, Mass., and invited her to ride. She of course refused, when one of them got out and lashed her with his horse whip.

"HOW IS GOLD TO-DAY?"

There was a time when if we met
A friend upon the street,
He talked on common themes—the war,
The cold, or else the heat,
And took an interest in one's health;
That time has passed away;
Now, no one asks us how we do,
But, "How is gold to-day?"

These words pervade the atmosphere,
At weddings, funerals, balls,
No matter where; upon your ear
The anxious question falls.
You go to see the girl you love,
To drive your cares away;
You kiss, and then she sweetly says:
"Oh! How is gold to-day?"

If gold is up, or gold is down,
What good for me to know?
There is no jingle in my purse,
My funds are *state* our.
And so I hate the endless cry,
And long to soar away
To lands of peace where no one asks,
"What, How is gold to-day?"

THE REBELLION.

2000 recruits for Gen. Sherman arrive at Chattanooga daily.

Price has been rapidly driven and followed up since his defeat. On Tuesday he was again badly whipped in several fights between Mound City and Fort Scott, in which the Union forces took 1500 prisoners and 10 or 12 cannon. Among the prisoners were Maj. Gen. Marmaduke, Brig. Gen. Tabell, and several other rebel officers. Wednesday morning, Price was again attacked a short distance north of Fort Scott, and driven pell mell in a south westerly direction. He burned 200 of his wagons. Our forces are still in vigorous pursuit. Most of the Kansas militia have gone home. Martial law has been abolished and business is resumed.

The N. Y. Herald's Winchester dispatch of the 27th, says there is still a considerable force of rebels in the Shenandoah valley, and it is being reorganized. On the 24th Gen. Gibson was sent with 300 cavalry to ascertain the strength of a body of rebel cavalry in Luray valley, and came upon them; but they, though greatly superior in numbers, fled before our troopers after firing one volley. Our men pursued a considerable distance, capturing a battle flag and several prisoners, until the rebels reached their fortifications.

Correspondence has passed between Generals Grant and Lee concerning the condition of prisoners, and it has been agreed upon to allow supplies to be forwarded to the prisoners on each side. The mode will be adopted forthwith.

Gen. Warren has returned to the Army of the Potomac, and taken command of the Fifth Corps.

A rumor in New York on Friday that Gen. Grant had possession of the Southside railroad, brought gold down three per cent.

— A big testimonial benefit to Morris Brothers, Pell & Trowbridge was given at the Boston Theatre on Thursday afternoon. The Buckley Serenaders, Gilmore's Band and other musical talent volunteered, and the theatre was crammed. $1400 were taken for tickets. The free use of the Museum on Saturday evening has been tendered to them and accepted. These little professional courtesies are pleasant and suggestive.

— A farmer has been arrested in Lawrence, Mass., for stealing a harness, and it has been ascertained that he has been in the practice of stealing harnesses for several years. Tact is displayed in this species of dishonesty. After stealing several harnesses, the thief takes parts of several and puts them together in new combinations, so as to destroy the identity of each one and thus prevent detection.

— According to figures made up from the published official returns in all the county papers of Pennsylvania, the home vote at the recent election was— Union 197,392; Democratic 197,001; Union majority 391. The soldiers' vote thus far reported at Harrisburg makes the whole majority in the State approximate 15,000. How about those Democratic illuminations?

— Conductor Johnson of Amesbury, Ms., who for the past five years has been connected with the ten o'clock train on the Eastern railroad, has taken the eight o'clock train, and the expressmen passing over the road on his train surprised him at his house on Friday night last, and presented him with a dozen silver forks.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on Bald HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not a dime money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

DON'T FORGET the *Parlor Opera Concert* this (Saturday) evening. There will be some nice music, sure.

SUNDAY EVENING CONCERT.—For a rarity of this sort here—a Sacred Concert, see advertisement.

☞ Rev. J. B. Davis is to preach at the Freewill Baptist Church in Pearl street, tomorrow afternoon. Mr. D. is well remembered here as a pastor at the Old North, and as a laborer in the cause of temperance many years since.

Revision of the Enrollment.

A SPECIAL AGENT from the Provost Marshal's Office will be in attendance at the Aldermen's Room, No. 74 State street, in the City of Portsmouth, on Monday, Oct. 31st, and Tuesday and Wednesday, Nov. 1st and 2d, from 9 A. M. to 1 P. M.; and from 2 to 5 and 7 to 8 P. M., each day, for the purpose of receiving evidence for removing names from the Enrollment, for the following causes:—

1st. Alienage.
2d. Non-Residence.
3d. Over Age.
4th. Manifest Permanent Physical Disability.
5th. All persons who have been in the Military or Naval service of the United States two years since April 15th, 1864.

All persons who can give evidence in any such cases, and all interested in the revisal of the Enrollment lists are requested to attend on the days specified.

A copy of the Enrollment lists will be found at all times at the City Clerk's Office, and citizens are invited to call and examine them.

By order of the Mayor,
MARCELLUS BUFFORD, City Clerk.
Portsmouth, N. H., Oct. 29th, 1864.

The following sub-districts will be visited by Special Agents J. Horace Kent and Jos. B. Adams: Seabrook, Hampton Falls, South Hampton, Kensington, East Kingston, Exeter, South Newmarket, Newmarket, Epping, Brentwood, Fremont, Sandown, Danville, Kingston, Newton, Plaistow, Hampstead, Atkinson, Salem, Windham, Londonderry, Derry, Chester, Auburn, Candia, Raymond, Nottingham, Deerfield and Northwood.

The other sub-districts will be taken in charge by Special Agent Bailey.

Many people will probably say that this is the forerunner of another draft; but such is not the case, it only being to correct the enrollment, against which there has been more or less complaint.

☞ Who says the price of this Chronicle has been raised? We say it has not—judged by any standard, of gold, relative cost, or comparison with other papers. Let us see: our price has been just doubled, from $4 to $8, while gold has for a long time been at more than 200 per cent., or currency, sad to say, rated at less than half price. Our white stock costs just three times as much as formerly. And the Boston papers, when this Chronicle was $4, the Journal, &c., were $6, and the Herald $3; now we are $8, the Herald $9, and the Journal, &c., $14, we believe. So you see we are not up with the times yet; but those who pay us ahead will be supplied at present rates, whether we go higher or not.

☞ We learn that 1st Lieut. Henry J. Bishop has been ordered to duty at the Marine Barracks, Portsmouth Naval Station.

Capt. C. W. Pickering has been detached from the iron-clad Agamenticus, and ordered to the command of the Wabash.

Mr. Thomas R. Swords, formerly Paymaster's Clerk on board the De Soto, has secured the position of a writer in Paymaster Emery's office at the Navy Yard.

☞ The alarm of fire on Friday forenoon was occasioned by the supposition that a small house occupied by negroes, on Madison street, near Middle street, was on fire. The inmates had built an unusually large fire in the stove, and the smoke therefrom caused persons outside to suppose the building was in flames.

☞ The Eastern Railroad Company have just put on the road a splendid smoking car; one of the most elegant, perhaps, in the country. The seats and walls are in crimson plush, and it is furnished with six marble-top card tables, &c.

POLICE COURT, Friday.—Patrick Quinn, for drunkenness, was fined $3, and costs $3.86, which he paid.

NEW HAMPSHIRE ITEMS.

—— The 2d regiment claims the honor of furnishing all the Generals now representing our State in the military service.

—— The Mirror states that the city officials of Manchester know nothing of the arrest of a man in Milan for the murder of Mr. Parker,—as reported by the Portland Press.

—— There is now more than two feet of snow on the White Mountains upon a level. A gentleman who visited Moosehillock Mountain last week found drifts just east of the summit twenty feet deep.

—— Miss Harriet Eastman, of Kensington, was so badly burned on Tuesday evening last by her clothes taking fire, that she cannot recover. All the other members of the family had retired to bed at the time, leaving her sitting by an open fire, and it is supposed that she fell asleep and her clothes took fire from a spark.

—— Recently the paymaster has favored the 2d N. H. regiment with a visit, and the Chaplain has forwarded very welcome and substantial evidence of the fact, in the shape of $7000, sent to the friends of "the boys."

HUDSON'S BAY WHALING.—Capt. Taber and the officers of the ship Northern Light, just in from Hudson Bay, have come to the conclusion that whaling in that locality has been overdone. The polar whales, unlike common right whales, but like sperm whales, seem to be conscious by a sort of magnetic influence of anything unusual happening within a distance of many miles, and when a whale is struck all others within a large circuit instantly disappear. Hudson's Bay being a comparatively small body of water, all the whales have become frightened, and during the present season only two or three vessels have made a respectable catch. Whalemen of the most ample experience in that region state that not more than forty whales have ever been seen there at one time. — *New Bedford Standard.*

It is a mistake to suppose that California's mining days are past. On the contrary, the mining interest is just now fairly developed. The placer or surface diggings are pretty well exhausted, but the mass of gold lies low, in the beds of quartz, cement or gravel; and these are now yielding as well or better than ever before. One company at Grass Valley, recently, after a two weeks' run of the crushing mills, "cleaned up" the handsome sum of twenty-six thousand dollars, and other companies are turning out from sixty to a hundred thousand dollars a week, while in almost every gulch and canon the nondescript Chinaman is making good wages by washing over the "tailings" from the mills above, or digging down an embankment which some more enterprising, but often less successful, miner has abandoned.—*California Letter.*

HOW TO PRESERVE A BOQUET.—When you receive a boquet, sprinkle it lightly with fresh water; then put it into a vessel containing some soap suds; this will nutrify the earth, and keep the flowers as bright as new. Take the bouquet out of the suds every morning and lay it sidewise (the stalk entering first) into clean water, keep it there a minute or two, then take it out and sprinkle the flowers lightly by the hand with water; replace it in the soap suds, and it will bloom as fresh as when first gathered. The soap suds need changing every three or four days. By observing these rules a boquet may be kept bright and beautiful for at least a month, and will last still longer in a very passable state, but attention to the fair, frail creatures, as directed above, must be strictly observed, or all will perish.—*Portland Transcript.*

THE BROTHER OF TOPSY.—During the last winter a "contraband" came into the Federal lines in North Carolina, and was marched up to the officer of the day to give an account of himself, whereupon the following colloquy ensued:

"What's your name?"
"My name's Sam."
"Sam what?"
"No Sah; not Sam Watt. I'se jist *Sam.*"
"What's your other name?"
"I hain't got no oder name, Sah. I'se Sam—dat's all."
"What's your master's name?"
"I'se got no massa now; massa runned away—yah! yah! I'se free nigger now."
"Well, what's your father and mother's name?"
"I'se got none, Sah—neber had none.—I'se jist Sam—ain't nobody else."
"Haven't you any brothers and sisters?"
No Sah, neber had none. No brudder, no sister, no fader, no mudder, no massa—nothin' but Sam. When you see Sam, you see all dere is of us."

☞ Meeting of Lyceum Committee at Chronicle Counting Room, Saturday evening, Oct. 29th, at 7 o'clock.

As we have said scores of times, the J. Monroe Taylor Gold Medal Soap is, without exception, the nicest and best soap made; is the only kind that can be called a perfectly pure article, and goes nearly three times as far as any other soap, and will always turn out whiter and nicer clothes than washing with any other article. Try it, and you will find what we say is true. 20

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every Volunteer is liable, there are no remedies so safe, convenient and sure as HOLLOWAY'S PILLS AND OINTMENT, thoroughly tested in the Crimean and Italian campaigns.

If the reader of this "notice" canpot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 234

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. See advertisement.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from he deposits.

Special Advantages of This Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security.* Any savings bank which pa s its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discount.

Convertible into a 6 per ct. 5-20 Gold Bond

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, or the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in different parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Up to the 74th of September, the subscription to this loan amounted to over

$40,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

1st National Bank of Portsmouth, N H,
Nat. Mech. & Traders' Bank, "

and by all National Banks which are depositaries of public money, and
ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and afford
EVERY FACILITY TO SUBSCRIBERS.

French Roll Pans.

A further supply just received by the subscriber.—Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much talk is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and more heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and Portsmouth, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some promising but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the chimney without being burned or consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of fresh air introduced below and behind them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large quantity of air, thus lessening or making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Menham,
Henry F. Wendell, John Sise, and others.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all disorders caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would *say, Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or address the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus or Whites, when all other where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhea, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost insupportable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing device of sensual indulgence.

The listless enervated youth, the over-tasked man, of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

MONUMENT TO A PIG.—"Up to the present time," says the Europe of Frankfort, "no monument that we are aware of had ever been erected to the memory of a pig. The town of Lunenburg, in Hanover, has wished to fill up that blank, and at the Hotel de Ville in that town there is to be seen a kind of mausoleum to the memory of a member of the swinish race. In the interior of that commemorative structure is to be seen a glass case, enclosing a ham still in good preservation. A slab of black marble attracts the eye of visitors, who find thereon the following inscription in Latin, engraved in letters of gold: 'Passer-by, contemplate here the mortal remains of the pig which acquired for itself imperishable glory by the discovery of the salt springs of Lunenburg.'"

☞ The Connecticut blue laws appear to be in force in some parts of Austria. The Gazette de Feldkerch, a Tyrolese paper, publishes the following official order from the mayor of a small town to the police: "As it is well known that Mr. N—— has not gone to church for a long time, you are directed to repair to his residence and to take him there. If he should refuse to go, you will call two assistants and take him there by force. When in the church, you will remain by his side; if he pretends to be ill and fall, you will leave him on the ground, but if he makes a noise you will administer to him as a medicine ten or fifteen blows with a stick."

MAKING MONEY.—A Dutchman who has been trying to make money by selling dry goods, gives the following account of his progress: He commenced business with ten pieces of calico on his shelves, when the prices began to advance. He sold out at the old rates, and said he, "When I went to the city to buy more, de money dat I got for my ten pieces of calico bought only eight. I took my eight pieces home and marked a high profit on 'em, and sold dem fast enough, and when dey was all gone I went to de city, and by dunder, it bot only six pieces. Well, dinks I, dis is making money backwards. But I took my six pieces home and put an awful big profit on dem, and now, dinks I, I must make money like smoke. But when I got dem six pieces sold, I took de money I got to de city again, and thought I would get about twelve pieces, but de calicoes had gone up again, and I got only four pieces. Well, I took dem home, and I put on a much bigger profit as I did before, and dinks now I makes a heap o' money. But when I got dem sold and went after more, de calicoes had gone up again. I hope I may never die if I got no more as two pieces for my money! So here I was. I had ten pieces of calico when I started off to sell 'em, and here I am mit only two pieces and no money."

— A fabric is now manufactured at Lawrence, Mass. from refuse scraps of leather, which are reduced to a pulp by grinding and maceration, and reconverted into solid 'sides' of leather by pressure. The article, thus produced is used mainly for inner soles.

— Punch relates an anecdote of a "celebrated composer," who wrote to a friend, requesting the pleasure of his company "to luncheon; *key of G.*" His friend, a thorough musician, interpreted the invitation rightly, and came to the composer's house for luncheon at *One, sharp.*

— Slab wood from the mills has become an institution in Augusta, Me., and is sold at $4.50 a cord, while hard wood sells at $9.00 a cord. Potatoes are 50 cents a bushel in that market; milk 8 cents a quart.

—— The rebels in front of Petersburg recently cheered the band of the 2d N. H. regiment, after it had played "Sweet Home."

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.
At wholesale in Boston by Geo. C. Goodwin & Co., 38 Hanover street; S. M. Colcord & Co., 80 Hanover st.; M. H. Ware & Co., 38 Tremont st.; Carter, Hast & Co., 43 Hanover st.; and Wholesale Druggists generally. Also, by all the principal dealers in Boots and Shoes.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Bilos, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a Friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full gilt plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The only work published for the Married Lady. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of simple remedies never before published. Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Michel's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1 (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the World. All cases warranted. No charge for advice.
N. B.—No students or boys employed. Notice this, address all letters to

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications on all the 'law of other patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN EXPARTES, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

MONDAY, OCTOBER 31ST, 1864.

REBEL EMISSARIES FROM CANADA TO VOTE.—Gen. Dix has issued an order, stating that satisfactory information has reached him that rebel agents in Canada design to send into the United States large numbers of refugees, deserters and enemies of the government to vote at the Presidential election, and it is not unlikely that they will subsequently be organized to shoot respectable citizens and plunder public property. He says such persons are liable to punishment, and no effort will be spared to arrest them. All Provost Marshals and Deputies are charged to detect such persons, and electors are recommended to take measures for their own security and to aid the authorities in bringing rebel emissaries to punishment. Efficient measures will be taken to prevent their return into Canada. All persons from rebel States are required to report to the N. Y. military authorities or to Provost Marshals in other places for registry by the 3d of November, otherwise they will be treated as rebel spies and emissaries.

QUESTIONS FOR CONSIDERATION.—We propound the following questions to the opponents of the National Administration, and respectfully request candid answers:

1. Can the Federal Government negotiate an armistice or a treaty of peace with the rebel authorities, without acknowledging them to be a separate, independent power and nation?

2. Should a peace be concluded, and thereby the nationality of the rebel States be acknowledged, could such a peace be permanent while the cause of the present hostilities shall exist?

3. Can systems of free labor and slave labor long coexist under a free government, in the same republic, without ultimately producing hostilities?

4. Can a code of laws of the Federal Government be so framed as to be adapted to both a free and slave system of labor?

If any person will answer the above questions with candor and a regard to truth, the consideration thereof can hardly fail to lead him to logical conclusions.

SOUND DEMOCRACY.— Hon. D. S. Coddington, a leading Democrat in New York, wrote the following letter in reply to an invitation to address a great Union meeting in New York:

NEW YORK, Tuesday, Sept. 27th, 1864.

Gentlemen: Your invitation to speak to night is received. A severe cold will prevent me.

But neither cold nor heat can freeze or melt out of this country the belief that the Chicago Convention has left a Democrat no choice between Jefferson Davis, with all his crimes, and Abraham Lincoln, with all his faults.

The Vallandigham platform is merely an attempt of the Richmond authorities to run the blockade of Northern ballot-boxes, Montgomery Constitution in hand. True, the Union flag floats from the first section; so it does from the Florida and Tallahassee, until you get near enough for them to hoist the Confederate rag and scuttle the Union ship, while we, robbed of our compasses and stripped of our national consistency, are to be landed upon some bleak dogma of egotistical States Rights and universal anarchy.

Call Abraham Lincoln a joker! Why, the Chicago party are trying to make this war the ghastliest joke of the continent or century. Have we gone to school to a million of bayonets, and learned nothing? Have we marched a million of men a thousand miles to stand still? Are we spending four millions a day merely to buy back the old wrangle about slavery? to buy back another Brooks' murderous cane; another Buchanan's Lecompton crime, greater than all the Lincoln *lapsus constitutionis*? The Crittenden Amendment was very well to prevent war; but are we to be fought four years, despoiled of our means, called foreigners, hunted on every sea and shore, and bury five hundred thousand brothers, to give them all they asked in the past, and no security for all they will demand, on that very account, in the future? They will say: "We plunged you vital deep in debt, we helped you to innumerable funerals; but we never buried a single demand. While your armies have advanced, your principles have retreated; and, so long as your victories only mean concessions to us, war has no terrors and peace no shame in Dixie." Will the red crisis stand this? will greenbacks support it? Every five-twenty bond is a stump speech for Lincoln; every dollar greenback a campaign tract distributed among a warned and consuming community, cautioning them how they trifle with the dead and the debt of this war.

Hoping that the ballot-box will prove the sentry-box of the national honor.

I am, very respectfully, yours,

DAVID S. CODDINGTON.

— Rev. D. W. Cahill, the eminent Catholic divine, died at the Carney Hospital in Boston on Thursday night, at the age of 71 years. He was widely known through his popular lectures on the doctrines of the Romish Church. Dr. Cahill was a native of Ireland. He came to this country about five years since, and lectured in various cities of the Northern States and Canada. As a controversialist, his correspondence with the Duke of Wellington, Lord John Russell, Earl Derby, Lord Palmerston, and other prominent Englishmen, in defence of his religion and country, are still extant.

— Miss Crane of Baltimore is said to be the author of "Emily Chester."

THE REBELLION.

Gen. Grant reports that a reconnoissance in force was made by Gens. Warren and Hancock on Thursday. The enemy were found entrenched at every point and their works manned. We captured seven loaded teams on their way to Stony Creek, some beef cattle, a travelling forge, and some prisoners. No attack was made, but Gen. Grant kept our troops out to invite one, which invitation the rebels accepted, attacking Gen. Hancock and being decidedly repulsed. Gen. Hancock held possession of the field until midnight, when he commenced withdrawing. Our captures of the day on the South Side foot up 910.

The rebel army is again threatening Tennessee, but Sherman and Thomas, it is confidently believed, will be found prepared for whatever movement may be made.

Official despatches from Gen. Pleasanton give the following information regarding his operations against Price: He marched 92 miles in two days, and fought during the last 32 miles. His force was less than 6000, while Price's was fully up to 25,000. Price has but one gun left and no ammunition, he having blown up his trains. He also burned 400 wagons to save them from capture. We have 2000 prisoners and several thousand stand of arms. Gen. Fagan is reported killed. Price's army is completely disorganized and flying in all directions.

The Richmond dispatch thinks the hostile armies are so strongly entrenched that it would be sheer madness for either to attack the other in front.

The railroad has been re-opened to Atlanta.

Early, in an address to his rebel troops, attributes his defeat to their disgraceful propensity to plunder.

The Governor of Alabama sent a message to the Legislature, scolding them for not making an appropriation for the defence of the State; and it was returned to him in a black envelope. The militia of Alabama are virtually disbanded.

By Telegraph—Sunday noon.

Gen. Gillem fought a sanguinary battle with Breckieridge's forces at Morristown, East Tennessee, Oct. 28, completely routing Vaughan's cavalry and driving it in confusion many miles. He captured 1600 prisoners and five 12-pounders. The rebels in their flight threw away their arms and abandoned much property, besides leaving their killed and wounded in our hands Gen. Gillem is still in vigorous pursuit.

Gen. Grant by his movement on Thursday forced back the rebels over territory 3 miles in width by 7 in length, out of riflepits and redoubts, into their strong line of works covering the South Side railroad. A. P. Hill's and Ewell's corps were the rebel troops confronting us on the left. Our loss was slight. Gen. Butler is reported to have also made a movement on our right and to have gained an important position.

Forrest is threatening Paducah, Ky. The rebels are concentrating forces and supplies at Mayfield. They have three battalions and a battery of Dahlgren guns.

Price is still retreating, having reached Carthage, Jasper county, Mo., with our cavalry in hot pursuit.

THE CONSPIRACY OF THE "SONS OF LIBERTY." — The Democratic papers generally endeavor to wink out of sight the conspiracy of the "Sons of Liberty." But one of them, more bold than the rest, adopts new tactics. The New York World publishes a letter from Indianapolis, in which nearly every material fact as to the existence, the object and the methods of the conspiracy is admitted, but the writer affirms, and is indorsed by the editor of the World, that "the whole plot originated with the loyal leaguers, and was an ingenious device for securing the re-election of Mr. Lincoln!" This beats the audacity of the thief who turns upon his pursuers with the cry "stop thief!" Think of Vallandigham and three or four hundred thousand Democrats falling into the trap of these wicked loyal leaguers, and with lamb-like innocence conspiring against the Government! How much does the explanation help the matter?

☞ The Boston Commonwealth's London correspondent, under date of Oct. 8, writes:

To-day the first failure by the Confederate Loan is announced. It occurred in Liverpool. The name of the wise individual who went to sea in that bowl I have not learned. But as to-day the Loan, under the financial pressure of Sheridan, has gone into an Early decline—being down at 57 and nominal at that—the Liverpool failure is regarded as the first drop of a shower that will lay the dust for some time to come. But it is quite curious—taken from a philosophical point of view—to observe how extensively John Bull has been speculating upon our American war. In arms, cotton, loans and other things, speculation has gone on to such a pitch that the first hint of peace created a panic, and the prospects of a speedy Northern victory indicate that the financial crisis so long impending in America, according to the London *Times*, is to begin here! The pressure on the Bank of England is very great, and 10 per cent. will be reached next week as its rate of discount.

— The net profits of the Eastern Railroad in the last quarter were $84,578 more than in the corresponding quarter of 1863.

ITEMS—NEW AND OLD.

— A member of the Alabama Legislature recently introduced a resolution offering conciliatory terms to the Federals, and demanding the cessation of hostilities; which caused much discussion. The Legislature had adjourned without acceding to the Governor's call for aid to strengthen the defences of the State.

— The Atlantic Monthly for November contains the first of Col. T. W. Higginson's series of papers relating to his military experience; and articles by Fitz Hugh Ludlow, Mrs. Stowe, Gail Hamilton and other popular writers. 84 per year; single numbers 30 cents.

— It is said that at an evening company in Boston, about a year ago, Hawthorne was the chief guest, and he was found to have disappeared at about nine. Being sought for by the host, he was discovered in a remote room of the house, reading Defoe's Ghost Stories.

— Mr. Philbrick, Superintendent of Public Schools in Boston, says, in his report, "that he could produce evidence enough to satisfy any candid mind that over-tasking is a very great evil in our schools—that it is an evil which an intelligent community ought not to permit."

Our little friend Bobby religiously believes that babies come from heaven, by a sort of celestial express. The other day he was called in to see a newly born babe which lay very still among the flannels. "Poor little thing," said Bobby; "tired coming so far, isn't it?"

— On Thursday morning Lewis Chaffin, machinist in the shop of Lucius W. Pond, in Worcester, was instantly killed by the falling upon him of an engine bed weighing 4000 pounds, which he was raising from the ground by an elevator.

— Thomas A. R. Nelson of Tennessee, one of the Democratic electors nominated in that State, and a signer of the remonstrance against Andy Johnson's hardshell oath, has come out for Lincoln and Johnson.

— The steamer Alexander was burned at Montreal on Wednesday night. The fire is supposed to have originated in a lamp room. Two thousand barrels of apples were destroyed.

— The sailors connected with the receiving ship Ohio, at the Charlestown Navy Yard, on Thursday evening gave a concert on board that vessel, for the benefit of the National Sailors' Fair.

— A cherry tree in the garden of Mr. George P. Gladwin, of Providence, was in blossom on Tuesday, and a pear tree in the same garden bore ripe fruit and blossoms about two weeks since.

— "A practical illustration of the Black Republican party in Newark, N. J., is seen in the fact that they have built their principal wigwam over the site of a coal yard."—[*N. J. paper.*] Oh!

— The Portland Head Lighthouse is being made twenty feet higher, the original height being forty-five feet, and is to be fitted with a Fresnel lens of the second order.

Mr. Chronicle:—The reason New England is to be "left out in the cold," is because Jeff. and his friends want all the room in the hot place.

— The election in West Virginia on Thursday, passed off quietly, and resulted in the success of the entire Union State ticket, by a heavy majority.

— The trial of the New York voting commissioners, for frauds, has been completed, but the result cannot be known until passed upon by the President.

— Miss Rose Desisles has obtained $20,000 damages in a suit against Samuel Clive, a New York merchant, for seduction under promise of marriage.

— A literary gentleman, who before the war inquired at a bookstore in Fredericksburg, Va., for Emerson's works, was handed Emerson's arithmetic.

— A collation provided in Boston by the city authorities for a regiment, which did not stop to eat it, has been distributed among the poor.

— The Richmond Enquirer, speaking of the defeat of Early, says:—"Lives are precious with us, and a few thousand tell heavily in the scales."

— The horse Capt. McGowan recently trotted two heats of five miles on the Brighton track in 13.51, 14.26 1-2.

— Mitchell, the Irish refugee, is said to be the commodore of the rebel fleet in the James river.

— A bill has been introduced in the Louisiana Legislature for a loan of a million dollars.

— Sec. Stanton has recovered, and resumed the performance of his duties.

— Dodd, the Indiana traitor, has reached Canada.

— President Jeffard, of Hayti, proclaims the full suppression of the rebellion, and the full restoration of order there.

— President Lincoln and family have returned to the White House.

— The Vanderbilt returned to Fortress Monroe on Friday, from a cruise.

FOOTING IT.— Wm. McDermott of Flushing, undertook, for a purse of $100, to walk twenty-one miles in four hours, on the N. Y. Fashion Course. He came very near accomplishing the feat, being but seven seconds behind time. Wilkes' Spirit says it is, however, to be noted that a man walking twenty-one times round the Fashion Course, close to the pole, does not walk twenty-one miles.

A man named Richards, recently ran three miles in 15 minutes 26 seconds in England.

James Adams, the well-known pedestrian, recently walked a match against a pacing-horse in harness, for $200. The conditions were that Adams should walk a quarter of a mile while the pacer went half a mile. A steady start. It was to be in heats. The place of performance was Findlay's half-mile track on the Bloomingdale Road. Adams started from the quarter-pole, the horse from the score, and thus the latter had a steep hill to climb, while Adams came down hill all the way. At the word, the man went away like a shot in both heats, and won with the greatest ease. He can be backed on the same terms against any pacing or trotting horse in the world, the performance to come off on the Fashion Course.

"A Wonderful Discovery."

DR. TERBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

THACHER, opposite the Post Office and 12 Market Square, Agent for Portsmouth.—Geo. C. Goodwin, No. 38 Hanover street, Boston, Wholesale Agent for New England, and sold by Druggists everywhere. TERBETTS' HAIR PILLS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

PARLOR OPERA.—The Opera Troupe are to give the last of their pleasing concerts at the Temple this (Monday) evening. Those who had the pleasure of listening to them on Saturday and Sunday evenings will not need much urging to attend, while those who did not hear them then, can have one more opportunity to witness good acting and hear fine singing and instrumental music.

GREAT FISHING. — The fishing schooner Minnehaha, C. S. Stone, skipper, with ten hands, left Swampscott on Friday morning, Oct. 16th, and proceeded to Ipswich Bay for mackerel, set their seine, and took in two hours seventy-five barrels of mackerel that averaged about No. 2. They then sailed to Boston, arriving on Sunday evening, and selling their fish for about $600, Monday afternoon they left Boston and proceeded to Boon Island, off Portsmouth. On Tuesday they took at the first haul of the seine, eighteen barrels of mackerel, and on the second, three hundred and fifty barrels—making more than the vessel could safely hold, and putting on board of another vessel, near by, over one hundred barrels. They then sailed to East Boston, arriving there on Wednesday, dried and salted their catch, which was worth about $2500; thus making, in less than a week over $3000, giving each hand over $200 apiece, and the vessel and seine over $1000. — *Lynn Bay Slate.*

NEW HAMPSHIRE ITEMS.

—— Mrs. Joseph W. Prescott, of Concord, was seriously injured in Weare on Wednesday, by being thrown from a carriage,—the horse taking fright at the whistle of an engine, and upsetting the carriage. A child riding with her was uninjured.

—— Two boys named Rogers and Stanton caught two black bears a week since, in Bartlett, on the Rogers mountain. They were caught in common bear traps, and are represented in good condition.

—— A tract of country burned over by fires last summer, in the west part of Canaan, has been cleared this fall and sowed to winter rye. The Shakers have cleared and sowed about 100 acres and other persons some 50 more, all adjoining.

— A call has been issued, signed by such men as Gen. Dix, A. T. Stewart, Wm. H. Webb, Peter Cooper, F. B. Cutting, E. C. Bailey, and George Sennott, for a meeting of the Jacksonian Democracy in New York, on Tuesday, to consider the proper course to be pursued in the present exigencies of public affairs. One significant clause in the call denies that the American Democracy was fairly represented at Chicago.

— A New Yorker, who hired a carriage on Sunday and broke it up through the horses running away, has been discharged in a suit to recover damages, on the ground that the contract was made on Sunday, and therefore not binding; and further, that travelling on Sunday for pleasure was prohibited by the statute, and the plaintiff, in making out his case, would be compelled to prove an illegal act as a link in the chain of evidence.

— Mrs. Ripley, of Concord, Mass., is well known to the naturalists on account of her valuable collection of lichens, and to the Cambridge professors on account of her success in training young men for the university. It is said that a learned gentleman once called to see this lady, and found her hearing at once the lesson of one student in Sophocles, and that of another in Differential Calculus, at the same time rocking her grandchild's cradle with one foot, and shelling peas for dinner.

— A few days ago the New York soldiers' vote agent went on board the U. S. iron-clad frigate Roanoke at Point Lookout, to take the votes of sailors claiming to be citizens of New York. Soon after he came on the deck the officer asked an old sailor, who has served his country for forty years, how he intended to vote. The grizzled hero looked at the Lieutenant for half a minute, and replied: "I vote, sir, as I have fought: I vote for the flag!"

— The Gardiner Journal, in speaking of the big potatoes which have been sent to the different newspaper offices, says; "A friend is digging round one, and will bring it down as soon as he is able to remove it. It is in a somewhat damaged condition as a yoke of oxen had been feeding on it two days, before he commenced digging it."

— Chief Engineer E. Lawton, U. S. N, is under orders to report to Admiral Stribbling, for duty as Fleet Engineer of the East Gulf Blockading Squadron, vice Fleet Engineer Whipple, deceased.

— Gustavus D. Smith, charged with the murder of Wm. C. Luce, of Holmes Hole, n December last, has been discharged, the evidence being not sufficient to hold him.

— An attempt was made on Thursday night to burn St. Albans, Vt., but a heavy rain fustrated the efforts of the incendiaries.

— The rebel Senator Hill of Georgia in a letter reiterates Jeff Davis' assertion that two-thirds of the rebel army have deserted. Go in, then, and win, Union Generals.

— The Maryland Court of Appeals has dismissed an application for an injunction in the case of the new Constitution.

There is an allegorical story current that once, immediately after Theodore Parker had parted from Ralph Waldo Emerson on the road to Boston, a crazy Millerite encountered Parker, and cried: "Sir, do you not know that the world is coming to an end?" Upon which Parker replied: "My good man, that doesn't concern me; I live in Boston." The same fanatic overtaking Emerson, announced in the same terms the approach of the end of the world; upon which Emerson replied: "I am glad of it, sir; man will get along much better without it!"

— One provision of the Nevada Constitution is that, in civil cases, three-fourths of a jury may render a verdict the same as if the whole panel agreed.

SAVE YOUR FUEL!

THE MODEL COOK.
IS, IN FACT,
The Best Stove Out,
for economy, comfort and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

PRICES REDUCED.

The subscriber has reduced the prices of the Model Cook Stoves FIVE DOLLARS each, to conform to the decline in gold.

NEW HAMPSHIRE LAWS.

AN ACT entitled an act in addition to chapter 2735 of the Pamphlet Laws, in relation to the powers of County Commissioners.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. All pauper claims, and all bills, claims or accounts of jailers against any county in this State, shall be presented to the County Commissioners of such county for allowance, under the oath of the claimant, or some person in his behalf, that the same is a just and true account against the county; and in all cases of claims for articles or goods furnished, the claimant shall produce proper vouchers therefor; so be filed in the office of the Clerk of the County of such county, and no such claim shall be paid by the County Treasurer until the same shall have been presented as aforesaid, and allowed by the County Commissioners.

SEC. 2. This act shall take effect upon its passage, and all acts and parts of acts inconsistent with the provisions of this act are hereby repealed. Approved July 16, 1864.

AN ACT increasing the salary of the Adjutant, Quartermaster, and Inspector General, and authorizing the employment of clerks.

Be it enacted, &c. SECTION 1. The salary of the Adjutant General performing the duties of Quartermaster and Inspector General, shall be one thousand dollars per year.

SEC. 2. He is hereby authorized to employ such clerks and assistants as may be necessary to make and supply his office, as soon as may be with the needful records, copies, and lists to furnish the military description and history of every man who has been connected with any regiment or other organization which has been in active service from this State, during the present war, provided that the expense thereof shall not exceed the sum of ten thousand dollars.

SEC. 3. He is also authorized to employ such assistants or clerks not exceeding four in number as may be necessary to perform the current duties of his office. *Provided*, that the entire sum expended for the service of such assistants or clerks shall not exceed the sum of three thousand dollars.

SEC. 4. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and this act shall take effect upon its passage. App. July 16, 1864.

AN ACT in addition to and amendment of chapter 119 of the Compiled Statutes, relating to weights and measures.

Be it enacted, &c. SECTION 1. The State Treasurer shall try and prove by the State standard all such scale beams, weights and measures as shall be brought to him for that purpose, making a record of each, with the name of the person at whose request the same were so tried and proved, with the date thereof; for which service he shall be entitled to receive the sum of ten cents for each and every beam, weight, and measure so tried and proved; and if he shall neglect or refuse to try and prove any scale beam, weight, or measure brought to him for that purpose, he shall forfeit the sum of one dollar for each scale beam, weight, or measure so by him neglected or refused to be tried and proved.

SEC. 2. Every County Sealer shall make a record of every scale beam, weight, and measure by him tried and proved by the county standard, with the date of such trial, and the name of the person at whose request such trial was had; and if he shall refuse or neglect to make such record he shall forfeit the sum of $1, for each and every scale beam, steelyard, weight, or measure so by him tried or proved, or ordered to be recorded; and if any County Sealer shall refuse or neglect to present the county standard of weights and measures to the State Treasurer to be tried and proved by the State standard when and as often as required by the chapter to which this is an amendment, he shall forfeit the sum of ten dollars for each and every such neglect or refusal.

SEC. 3. The Sealer of weights and measures in every city, town, or place, shall annually, in the month of April, cause to be posted in two or more public places in such city, town, or place, notices requiring every person within such city, town, or place to present to such sealer, on a certain day or days therein specified, all such weights and measures as may be by them used for the purpose of buying or selling, which notices shall be posted fourteen days at least prior to the day or days therein fixed for the presentation of such weights and measures to such sealer.

SEC. 4. Such city or town sealer shall try and prove all such beams, steelyards, weights, and measures which shall be presented to him for that purpose, and shall seal all such as are found agreeable to the city or town standards, making a record of each, with the date, and the name of the person at whose request the same was sealed; for which service he shall be entitled to receive the sum of five cents for each and every scale beam, steelyard, weights or measures so sealed and recorded.

SEC. 5. Every sealer for any city, town, or place shall go and try and prove any local platform scales, when applied to for that purpose, and shall be entitled to have and receive for such service a reasonable compensation.

SEC. 6. The sealer of any city, town, or place, who shall refuse or neglect to perform any duty required by this act, or by the chapter to which this is in addition and amendment, shall forfeit for each and every such neglect or refusal the sum of ten dollars.

SEC. 7. All forfeitures imposed by this act may be recovered by an action of debt before any magistrate or court of competent jurisdiction, to the use of the person who shall first sue therefor.

SEC. 8. All acts and parts of acts inconsistent with this act are hereby repealed; and this act shall take effect upon its passage.

Approved July 14, 1864.

AN ACT to enable contiguous School Districts to unite and form a single district.

Be it enacted, &c. SECTION 1. That any two or more adjoining school districts in this State may, by a two-thirds vote of the legal voters present at any legal meeting thereof, duly notified and holden for that purpose in each of said districts, unite and form a single district upon such terms as said districts may determine; and such districts thus constituted shall have all the powers and privileges and be subject to all the liabilities of other school districts in this State.

SEC. 2. Chapter 2618 of the Pamphlet Laws, passed June session 1862, and all other acts and parts of act inconsistent with the provisions of this act are hereby repealed.

SEC. 3. This act shall take effect from and after its passage. App. July 16, 1864.

AN ACT to disannex the Homestead Farm of Mehala Gilman in the town of Waterville, and annex the same to the town of Sandwich.

Be it enacted, etc. SECTION 1. That the Homestead Farm of Mehala Gilman, in the town of Waterville, together with her taxable property, be and the same is hereby disannexed from the town of Waterville, and annexed to the town of Sandwich.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cast-iron drying oven, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as testimony of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine the truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, there is no tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objections raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some producing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large share of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

FOR THE

CHEROKEE MEDICINES.

Cherokee Cure, the great Indian Medicine,

ROOTS, BARKS AND LEAVES.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*: the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed.

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in those cases of Fluor Albus or Whites in females; where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with it at meal-time in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee, and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE PILLS!

Health Preserver!!

CERTAIN AND SAFE.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and will at all times effect that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, but the contrary, tending to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would inevitably prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

"As the Phœnix rises from the ashes of its fire, animated with new life,"—so does this Elixir rejuvenate the system and OVERCOME DISEASE.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

TALL FIGURING.—The Providence Journal man does the following big thing in the way of mathematics:

The Post has the following paragraph: 'It is said that an Eastern artificial limb manufactory has leased eight square miles of forest in Maine, for the purpose of obtaining material for their business." We suppose it would be reasonable to estimate that the forest lands of the State of Maine contain at least two hundred trees to the acre—each tree being capable of furnishing ten legs and ten arms. There are six hundred and forty acres in a square mile. Eight times that number give us five thousand one hundred and twenty square acres, which multiplied by the two hundred trees to the acre, give one million twenty-four thousand trees, or ten million two hundred and forty thousand wooden legs and a like number of wooden arms. This would furnish five millions one hundred and twenty thousand men with a complete outfit of wooden arms and legs. Of course all will be required unless McClellan and Pendleton are elected. What a prospect.

SCIENCE AND GALLANTRY.—The philosophers at Bath have been discussing a somewhat strange question—the relative temperature of the two sexes. Aristotle attributed greater warmth to the male, but some who came after him disputed this position. Now it seems, if Dr. Davy's experiments are correct, that the Greek was right. Dr. Davy had recently made some observations, using a thermometer of great delicacy, and taking for the purpose of his experiments three men and three women, all in good health. The temperature of the men varied between 99 and 99 1-2; that of the women between 97 3-4 and 98. Some discussion arose upon these statements, which gave the President of the section an opportunity of showing that science can be gallant as well as statistical. Whatever difference of opinion there might be, he said, as to the accuracy of Dr. Davy's conclusions, all would agree that if men were more warm-bodied than woman, the woman were the more warm-hearted.

A SCOTCH POUND. — A story is told of a person presenting himself to the guidwife in a remote district, and asking for a pound of butter. "The ounce weights" were rummaged over, but the "pun-stane" was nowhere to be found — the smallest weight at hand being the meal-stone quarter, which obviously would not do. The honest wom an took a long thought till, whilst pondering deeply, her brow brightened up. "I ken how we'll manage it noe!" she exclaimed: "the guidman brought hame a pair o' tangs yestreen, which weighed in the smithy just twa pun. Sae stand by, and I'll soon weigh you wi' them your butter." Producing the tongs in triumph, she put one leg in the scale, and let the other hang out. The beam got its swing, and the stranger carried off his butter, highly satisfied with his experience of a Galloway pound.

A YORKSHIRE PIE.—First of all, a receptacle is built of the shape and size of a good large cheese-box, composed of "scalt crust" (that is, made with boiling water) about an inch thick; put no butter in the crust, but in its place fresh beef suet, chopped as fine as possible, so that, when well kneaded together, the walls of the receptacle stand firm and erect.

Now for the inside: take a fine mellow ham (a Yorkshire one, if you can get it; if not, a sugar-cured Virginian), a fine turkey, a goose, a couple of chickens, a couple of ducks, a couple of rabbits, a hare, a brace of pheasants, a few slices of venison, half a dozen partridge, half a dozen pigeons, a dozen quail, or woodcock, two or three pounds of sausage-meat, some sweet herbs, and seasoning, and having deprived the foregoing of all their bones, proceed to stow them away in layers in your crust receptacle, fat as tight as ever you can get them, until it is brim full, and solid; then take a quantity of strong (but unsweetened), warm calves'-foot jelly, and pour it in until all the interstices are filled up; then put a top-crust of the same thickness as the other on, place the pie on a piece of sheet-iron in a quite cool oven, and let it slowly bake for three or four hours; take it out very gently, and let it stand until next day, and then when you cut it you will find it come out quite solid, like a piece of variegated marble, tasting of everything in general, but nothing in particular; a dish that would "raise an appetite beneath the ribs of death."

It will be a bonnie big pie, too; but there is no fear of its spoiling, for it will keep two months, if needful, or you can manage, anyhow, to keep it. Don't talk any more of boned-turkey with truffles, or *pate de fois gras* from Strasburg, for neither are to be named in the same generation with a Yorkshire pie.—"*Tombstone," in Wilkes' Spirit.*

— The rebels have confiscated the Monticello estate, belonging to the late Com. Levy, U. S. N., once the residence of Jefferson.

— The rebel Gen. Archer has succumbed to the Archer, Death.

— Gen. Rickette continues to improve.

Why, Missus, just look at these nice white clothes. I never had such soap to wash with before, and as long as you are my mistress, I hope you will never buy any other but the Gold Medal Soap, it is so nice and pure, and washes so easy—just think of it—I am three hours ahead of the usual time, my clothes never begun to look half so well before, and thanks to the J. Monroe Taylor Gold Medal Soap. Tell all your friends to try it, and they will never use any other. Most all the grocers have it to sell. 22

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Blood Diseases, Ulcerated Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, to rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the last year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets not before published. Warranted to be worth three times the amount asked for it. 25 cents; in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claims of Patents furnished for Ten Dollars. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none so many SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense facilities of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and foreign, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his *favor*, by the Commissioner of Patents.
